DR. A. BLOMMER'S
SOLIDIFIED
DENTAL CREAM,
For Cleansing, Whitening and Preserving the TEETH!

This artikle prepared with the greatest care upon scientific principles, and warranted not to contain anything in the slightest degree inclined to injure the teeth or gums. Some of our most eminent Dental Surgeons have given their sanction to, and especially recommend it as a preparation of superior quality for cleansing, whitening and preserving the TEETH. It cleans them readily, removing them beautifully white and pearly, without the injurious injury to the enamel. It is healing to the gums when they are diseased and sore. It is also an excellent shampooer for all occupied teeth, which are very offensively fetid. It gives a fragrant odor to the breath, cleansing it thoroughly, and imparting a delightful fragrance to the mouth.

PREPARED ONLY BY
A. HAWLEY & CO.,
27 N. Cor. 10th, & Lombard sts., Philadelphia.
And sold by all Druggists. PRICE 25 CENTS.

TESTIMONIALS.

The following opinion of Dr. White, as to the high excellence in which he holds the Dental Cream, must be sufficient evidence of its value; to quote other testimonials in detail is needless, rendering ourselves by simply giving the names and addresses of persons who speak of its excellency for the teeth.

Philadelphia, April 13th, 1863.

Having carefully examined A. Hawley's solidified Dental Cream, I hereby cheerfully recommend it to the public generally. It is an excellent preparation for cleansing and preserving the teeth, and can be used by all persons with the utmost confidence, as its properties are perfectly harmless. Besides preserving the teeth, it promotes a healthy action in the gums, and imparts a pleasantness to the breath.

AN INTERESTING HISTORY

OF

DR. SCHENK'S OWN CASE,

WHILE LABORING UNDER CONSUMPTION

And how his Pulmonic Syrup, Seaweed Tonic and Mandrake Pills acted on the System in Curing that Disease, and the

Great Success Attending It!

The above is a correct likeness of Dr. Schenk taken twenty years ago, after he had recovered from Consumption by a course of his "Schenk's Pulmonic Syrup." The likeness, although it does not represent him anything like as bad as he was at the worst, yet it is a good one, and with the hale and vigorous looks of the Portrait below, which is the true likeness of him at present time. The contrast between these two portraits is so great that many would not believe them to be the same person. Yet there are hundreds of persons, in and around Philadelphia, who will recognize both portraits to be true representations. When the first was taken he weighed 107 pounds; at the present time his weight is 220 pounds.

New York, Wednesday, March 30, 1864.

TO THE PUBLIC.

THERE seems to be a peculiar fatality attending the lungs of Pulmonary Consumptives, which renders them the most difficult of all diseases to be cured, and the reason why so many fall victims to it, is because they wait until the disease has fastened its fangs upon the lungs, and then they expect a few bottles of any medicine will cure them. This is a great mistake. The Lungs are the seat of life, and when they are diseased and sore, it is as much as any man's life is worth to cough or even to breathe, for every time he does so he feels as if his lungs were being torn to pieces. The cough is the result of the ulceration of the lungs, and it is caused by the action of the Mandrake Pills, the Pulmonic Syrup is made into blood. This is the only way to cure consumption. If I cannot get a good appetite, and food does not digest, I cannot cure the patient. Never mind the cough; remove the cause and will stop of itself.—This is the most trouble I have with my patients at my rooms. They say, «Doctor, I feel stronger; I can eat; my night sweats are better, and I feel better every way; but my cough is so bad yet;" and they are astonished to hear me say that does not matter; remove the cause and the cough will stop of itself. Schenk's Seaweed creates a good appetite in about nine days, when there is no lung disease, unless the liver is so congested that the Mandrake Pills cannot unlock the ducts of the gall bladder in that short space of time, in order to allow the stale bile to pass off. Keep the liver and stomach healthy and there is less danger of consumption or any other disease. It is hard to take cold when those organs are healthy. Those that are bilious, low-spirited, dreary, feeling sluggish, coated tongue, poor appetite, nervous, stomach full of wind, everything that is eaten lies heavy, loss of memory, try one bottle of SCHENK'S SEAWEED TONIC, and one box of SCHENK'S MANDRAKE PILLS. It is only a cent of one dollar and twenty-five cents, with full directions. This is sufficient, in many cases, to satisfy what the medicines are. Frequently one bottle makes a great change in the system. Any person that enjoys ordinary health, by using the Seaweed Tonic and Mandrake Pills occasionally, must get the digestive organs in such a healthy condition that they become lesby. I can produce a number of my old consumptives patients now enjoying good healthy, weighing nearly 200 pounds. I will conclude by relating three cures I have made in New York, and which are all different, and wish any one who feels an interest in the matter to visit them. First is Mrs. Farlow, residing then at No. 107 Houston street. Her husband called upon me at my room, 32 Bond street and wished me to call and see her. He said I could do no good; that he had had all the best medical attendance, and all still she was too far gone with Consumption to be cured; but she had heard of some great cures I had made, and he desired to gratify her wishes. I called, and found her lying confined to her bed in the last stage of bronchial consumption and without doubt must have died soon. I examined her lungs, found both bronchial tubes very much affected, but no cavities had formed; her cough was very severe; the spit-box was half full of thick pus. Pulse 130, her swallow very much red worse than all, she had chronic diarrhœa. Her bowels had been moved eleven times that day, but her diarrhœa had lungs enough to be cured, but that the diarrhœa had been of long standing, and her stomach was in such a alkerated condition that I was afraid nothing could be done. She insisted I should try and do what I could for her, observing that she could not last long in the condition she was in, and I could not make her any worse. I gave her first a dose of my Mandrake Pills and the tonic and Syrup freely.—That was on Tuesday, and by the next sunday the diarrhœa was carried off, her appetite had returned and she could sit up in bed and eat her dinner. She was able to walk across a long anteroom, assisted to by the Rev. Dr. Dowding.

"Mrs. Bartholomew, 53 West Forty-fifth street, came to my rooms with a tumor on her liver. She was in a cripled, skin yellow, tongue coated, bowels costive, no appetite, and was sinking into the grave. The said tumor had been running over fourteen years. I gave her Syrup, Tonic and Pills, and told her to take them just as the directions were painted. She came back to my rooms, 32 Bond street in two weeks, concerning better; her tongue had begun to clean a little around the edges, her skin whiter and her eyes brighter and the tumor discharging very offensive matter, much faster than it had ever done before. She kept gradually improving, and in about two months she came to my rooms very much tightened, saying that the tumor had nearly stopped running, and was healing up, and that every doctor had told her that it if ever healed it would cause her death. I told her that the disease had all left her system, and nature would heal the ulcer up. They are now healed, and have been for about a year, and she is as hearty and robust a woman as you will find in days work. She is glad for any one to call on her, and tell great pains to show any one that she knows has anything like her case, and tries to get them to come and see me. The next case is Mrs. Seofield, from Stamford, Conn.; Mrs. Bartholomew got her down to see me, and she has been ever since at her house. When she first came to my rooms she was much emaciated with a distressing cough, spitting large quantities of blood. I examined her lungs with the stethoscope, and in all my practice never found one with such a loud noise and the other lung so sound. I could not give much encouragement. I thought she would die; but to my astonishment the Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills all seemed to go right to work, the lung to all healed over, leaving a cavity as large as a goose egg; good appetite, fine spirits, and has gained some thirty-five pounds in weight. She has some cough yet, which I do not think will leave her before June. I should think it would be of great interest to some unprejudiced physician to visit these cases, particularly Mrs. Seofield, or any of them who have been cured by my medicines. They are numerous in New York; but the above three all differ widely in their history; and if my medicines are doing what I claim they do, it proves they are, they should have the credit and the afflicted know where and how they may be cured.

J. H. SCHENK, M. D.

Dr. J. H. Schenk can be found at the principal office, No. 30 North 6th Street, Philadelphia, every Saturday, from 8 A. M. until 3 P. M., to give advice free of charge; but for a thorough examination he charges three dollars. Pulmonic Syrup and Seaweed Tonic, each $1 50 per bottle, or $9 the half dozen. Mandrake Pills, 25 cents per box, and is for sale by all Druggists and Dealers.

It is made of French glass and is the largest in Philadelphia.

Mr. Cooper has been engaged more than twenty years in the study and practice of the Fine Arts.—His long experience as a Miniature and Portrait Painter is sufficient guarantee for the perfection of the pictures made at his establishment.
