THERE will be an excursion to Meyersdale to-day, (Wednesday), to witness the match game of ball spoken of at another place in this paper. THE Pope's Treasurer has turned out to be a dishonest knave. It has been recently developed that he is a defaulter—the fashionable name for a thief—to the amount of 135,000 francs.. It would seem that we have fallen upon so dishonest an age that if a financial officer were stationed at the very gates of Paradise, he would bear very close watching.

THE ladies of the Presbyterian congregation will hold a strawberry festival in their new church building on Thursday, Friday and Saturday evenings of this week. It is to be hoped that it will be well patronized. Come all ye who are hungry and whose pocket books are inflated with a superfluous quantity of the root of all evil.

AMONG the missing fugitives from the Pennsylvania insane asylum near this city is a woman fifty years of age, and about five feet seven inches high. Her hair is cut very short and is quite gray. She has a healthy appearance and a piercing eye.—Any person learning of her whereabouts will relieve much distress concerning her by communicating with the superintendent of the asylum. Our exchanges in the interior of the state will confer a favor by copying this notice.—*Harrisburg Patriot.*

THE place where an hour may be most pleasently spent will be at the Strawberry Festival to be held in the new Presbyterian church building, on Thursday, Friday and Saturday evenings of this week. The inducements will be the freshest and most luscious berries, rich ice cream, cake and other eatables, and the assistance of a most laudable object, viz: the rebuilding of the Presbyterian Church.

FESTIVAL.—The new Presbyterian Church building will be a a most delightful place, in which to hold the proposed Festival this week. The whole interior of the church, entirely unincumbered by pews or any other obstructions, will be used. This makes an immense room where ladies and gentlemen will have plenty of space to promenade, and ladies can eat Strawberries, Ice Cream &c., without the fear of having it spilt over their dresses by the jostle of neighboring elbows.

THE rattlesnakes in the knobs of Lincoln county, Kentucky, have formed a "corner" in water, and the supply of some families is cut off. They gather in large numbers about the springs and suffer no one to approach.

A COLLISION occurred on Friday last between a freight train and an "empty" engine near Pinkerton. Very fortunately no one was hurt and the engines were but slightly damaged. Trains were delayed several hours.

AN OLD lady named Mrs. Sophia Rody met with a singular death in Dublin Tp., Huntingdon County, last week. While sewing with a needle she accidentally run the end with the eye in under her finger nail, causing death in a short time. Erysipelas, it is said, resulted from the slight wound.

THE Indiana *Progress* says: Several weeks ago the prospect for a large crop of apples was good, but a blight has come over both apple and pear trees, destroying both the fruit and foliage. The current worm is at work, eating up fruit and leaves; in many places nothing but the bare bushes are left.

THE Reading *Eagle* says: On the farm of George Reininger, truck dealer, near Oblinger's, is a smoke-house apple tree which has apples of the size of a walnut. On the ends of the fruit bearing twigs are blossoms.—a second crop closely following the first.

THE Constable, P. A. Burnes, who shot Manis Patten at Gallitzin on Monday, has been held to bail in $3,000 to answer at court. The Jury summoned by the Cambria county 'Suire to hold the inquest in Blair county, brought in a verdict to the effect that Constable Burns was "guilty of murder in the first degree."

THEY ARE CHEAP.—Four Bon Ton Pictures for one dollar, Six Standing Pictures for one dollar, Eight Gems for one dollar, at Welfley's Photograph Gallery in the Mammoth building—over Schell & Kimmell's Bank—Entrance next door to Mrs. Tredwell's store.

"I WISH I was dead!" is an expression not unfrequently made use of by the dyspeptic and sufferer from Liver diseases, the depressed spirits unfitting the mind for anything, and almost driving him to despair. But be of good cheer, there is life and health for you yet, so these that have taken Simmons' Liver Regulator attest. It regulates the Liver, expels dependency and restores health.

THE corner stone of the new M. E. Church at Ursina will be laid on Sabbath July 5th. The pastor, Rev. S. W. Davis, will have the assistance of I. C. Pershing D.D., President of the Pittsburgh Female College, who will preach at 10:30 A. M. Liberal provisions will be made for entertaining strangers.

THE Greensburg *Herald* says: A deacon in one of the churches of Greensburg, was caught by his pastor issuing out liquor as a beverage, one day last week. The deacon "looked two ways for Sunday," and the pastor looked two ways to see a law abiding citizen, but found none in that establishment.

A SMALL boy arose at a Sunday School and began quite glibly, "A certain man went down from Jerusalem to Jerrichoo, and fell—and fell" (here his memory began to fall him), "and—and—fell by the roadside, and the thorns sprang up and choked him."

As a nice old gentleman in Pottstown was calmly smoking his meerschaum the other day, he was startled by a loud report and at the same time found that the bowl of his pipe minus. He did not know what was up, until he began searching his tobacco pouch and found a lot of pistol cartridges, and ascertained that those were what he had been smoking.

KEYSTONE LIGHTNING ROD CO.—All persons desirous of having their buildings well protected, should have the best of rods erected. The undersigned have secured one of the finest Copper Rods ever introduced here. As they are at home here and both are responsible and trustworthy, the public may rely upon satisfaction being given. All work done in the best manner and warranted.

RHOADS & FLECK.

MESSRS. RHOADS & FLECK request us to say that they have no *wire men* employed in selling their Lightning Rod, neither do they sell the Munson Rod. They claim to sell a superior rod known as the T. T. Kinsey. Parties selling the Munson rod and representing themselves as in the employ of Rhoads & Fleck are, therefore, impostors, and the public is cautioned accordingly.

ERNEST OTTWEIN, the Homestead murderer, has been found guilty of murder in the first degree. The case was given into the hands of the jury yesterday evening, and after an absence of about fifteen minutes they returned with their finding, which fixes the doom of the perpetrator of a series of the most horrible murders on record—that of five members of the Hommel family and a hired boy in their employ.

B. L. H. DAVIS, the celebrated Photographer, No. 46 Sixth street, Pittsburgh, has introduced an entirely new picture called Portrait Glace, is much more beautiful than the Porcelain picture, perfectly durable, and much cheaper. One of the most important requisites in getting a good picture is to have a good and natural position, and in giving such Mr. Davis excels any one we know, and that is likely the reason of his doing the largest business of the kind in the city.

A SHARPER recently travelled through Wyandot and other counties taking orders for tea and coffee. He would agree to furnish about six or seven pounds of coffee for one dollar and telling some plausible story generally succeed in getting the money in advance to buy the articles at wholesale cash prices and thus save his agricultural friends the heavy tariff put on by retail dealers. The farmers are still looking for their coffee.

AN Arkansas correspondent of the *Tribune* says: Take copperas—the quantity to depend upon the number of buildings infested—pulverize it very fine; and be sure and sprinkle some in all their holes, in the corners, under all the buildings—in a word, wherever they do congregate—and in a few days all the rats will be gone. This is very simple and easily tried, and has proved completely successful several times at different places. No rat sees three days after a thorough application.

ABOUT BITTERS.—At certain periods of life a tonic is a necessity; but there is danger in using stimulants that injure the organs of digestion while giving temporary relief. To obviate this, and present to the public a tonic free from ALCOHOLIC POISON, Dr. Greene prepared the OXYGENATED BITTERS, a sure cure for DYSPEPSIA and all kindred complaints. Sold everywhere. JOHN F. HENRY, CURRAN & Co., proprietors, 8 and 9 College Place, New York.

FLY CATCHER.—A match game of Base Ball will be played between the "Lightfoot" club of Meyersdale and the "Glade" club of this place, to-day (Wednesday.) On the grounds of the first named club.

THE Glade's have procurred their new uniforms, which are decidedly "nobby." The uniform consists of a white flannel shirt, gray pantaloons, white stockings pants and shoes. The front of the shirt or jacket, is covered with a large shield bound with blue, and having the letter G. worked on the centre in blue.

ALL communications intended for the Glade Base Ball Club should be addressed to Dennis Meyers, President, or to J. P. Kimmel Secretary.

Two new base ball clubs were organized here during the past week, to be known as the "Mechanics" and "Professionals."

THE Glade's badges are "neat but not gaudy."

THE editor of the *American Agriculturist* (who evidently knows what he is writing about), in answer to a question from a young unmarried farmer as to the propriety of his going into butter making as a business, gives this sensible advice:

Blessed is the man who has a good wife to attend to the butter, and three or four stout boys to help to milk and take care of the cows. There is a profit in the business to such a family, but an unmarried man had better turn his attention to something beside dairing. He had better keep sheep or raise cattle, or, better still, get him a good wife—and do what she thinks best.

FOR chicken cholera, have a druggist prepare the following: Equal parts of the tincture of opium, red pepper, rhubarb, peppermint, and camphor mixed. For a fowl use from three to eight drops, in a teaspoonful of water, opening its mouth and pouring it down. Then put the patient in a quiet place where it can get neither food nor drink. Repeat the dose in thirty minutes or an hour; sometimes a third dose is necessary. After twenty four hours the fowl may be allowed to eat a little soaked bread, and should for several days be fed on easily digested food.

A law fixing the salaries of County Commissioners. At the last session of the Legislature the following act fixing the salaries of county commissioners was passed.

That the pay of the county commissioners of the different counties in this State shall be three dollars per day for each day actually employed in attending to the duties of their said office, and the said per diem shall be counted from the first day of January, Anno Domino one thousand eight hundred and seventy-four: Provided, That the provisions of this act shall not apply to commissioners already elected and in office, nor to counties having over one hundred and fifty thousand population.

IN our many walks about town in search of local items, (which, by-the-way, are as scarce as June bugs at Christmas,) we notice that a great many of our people, who posses a taste for the truly beautiful, have their yards and lawns fitted up in a neat and artistic manner. In nothing, however, is this love for the beautiful shown so much or to such good advantage, as in the cultivation of lovely flowers. A neat well kept flower garden speaks volumes for the taste and refinement of the occupants of the dwelling to the attractiveness of which it adds so much. The labor of caring for the beds in which the flowers are placed is richly rewarded, and the fair gardeners are amply repaid for their time and trouble by the bloom of the roses it brings to their cheeks and the buoyancy of spirits which is sure to follow.

THE following from the Harrisburg *Telegraph* applies so well to the same class of persons in this place, that we transfer it to our columns: "Some good-for-nothing, evil-disposed, malicious persons make it a practice to write on and otherwise mar, destroy and render unsightly the walls of our public buildings. Persons residing in this city who have taken great pains and gone to no little expense in rendering their homes lovely have enclosed them with tasty and costly fences, which have been defaced in a like manner. No excuse can be offered for such pure cussedness on the part of the offenders and there should be no condonement whatever for the perpetrators. An act of Legislature make this offense punishable above the ordinary misdemeanor. An example should be made of the first person or persons found guilty of this repulsive wrong."

WHEN the people feel the need of an acid, if they would leave vinegar alone, and use lemons or apples, they would feel as well satisfied, and receive no injury.—A suggestion may not come amiss as to a good plan, when lemons are cheap in the market, to take a good lemon and roll it back and forth briskly on the table to make it squeeze more easily; then press the juice into a bowl or tumbler—never in a tin, strain out all the seeds, as they give a bad taste. Remove all the pulp from the peels, and boil in water—a pint for a dozen pulps—to extract the acid. A few minutes boiling is enough; then strain the water with the juice of lemons, put a pound of sugar to a pint of juice, boil ten minutes, bottle it, and your lemonade is ready. Put a tablespoonful or two of this lemon syrup in a glass of water, and you have a cooling healthful drink.

FOR THE PEOPLE.—There is no case of Dyspepsia that Green's August flowers will not cure. Come to the Drug Stores of Benford & Kimmel, Somerset, and Hitzort & Fleck, Confluence, and inquire about it. If you suffer from Costiveness, Sick Headache, Sour Stomach, Indigestion, Liver Complaint, or derangement of the system, try it. Two or three doses will relieve you.

Boschee's German Syrup is now sold in every town and city in the United States. We have not less than five hundred letters from Druggists, saying it is the best medicine they ever sold for Consumption, Throat or Lung disease. Sample bottles of each, 10cts. Regular size 75 cts. G. G. Green, Woodbury, N. J.

BEDFORD always was noted for big things, that is, judging from the big stories told by the festive youth that slings the local pencil for the *Inquirer*, and now it claims to be the worst solid town in the State. One Crossland of Latrobe, domed a huge brool rim, procured a shad from Jack's run, a copy of "Zomara" and hied him hence to that staid old rural hamlet that guards with ceaseless care the placid waters of the Raystown branch of the blue Juniata. He was handed around as though he were the prince of Timbuctoo, or the near relative of a "beer slinger" by the editorial fraternity at that place, and all because they were laboring under the impression that it was Dr. Frank Cowan, the author of "Zomara" and the Secretary of the Trans-Allegheny Canal Convention. If you wish to see a seraphic smile overspread the countenance of the *Gazette* man just ask him if that was a good butter story Frank Cowan told him.

SHOOTING AFFRAY.—A shooting affray occurred at Mechanicsburgh, this county, on Saturday evening last, in which George Curley was shot and it is thought fatally wounded. Amid the many rumors that are rife on the street it is hard to get at the true story, but the particulars, as near as they can be arrived at, appear to be about as follows:

The annual love-feast of the Brethren was held at Mechanicsburgh on Saturday and Sunday last. As is always the case at meetings of this kind, there was a very large crowd in attendance. It appears that on Saturday evening there was a row in which James Cummins and Wm. Sachs were concerned, and the constable of the township, (Summit) was sent for to restore order, in which, however, he was unsuccessful. Shortly after Curley came down the street, when Sachs said "Shoot the ——— of a b———." Cummins fired his pistol several times, one ball striking Curley in the back of the head, near the centre, penetrating the skull in an upward direction and coming out near the right temple. Sachs was arrested on Saturday evening and Cummins on Sunday morning. Both were committed to jail to await trial at next Court.

Up to the time of going to press, we understand that Curley is still living.

THE press in our old Congressional district makes the following complimentary notices of Hon. Wm. H. Koontz:

General Wm. H. Koontz, of Somerset, is announced as a candidate for Congress. The district is composed of Bedford, Somerset, Cambria and Blair. General Koontz was twice elected to Congress from the district composed of Somerset, Bedford, Fulton, Franklin and Adams, and served his constituency with ability and faithfulness. If he should be again elected his former experience would make him an efficient member, and his honorable character would warrant a faithful and conscientious discharge of his duty. There are two Republican aspirants for the nomination from Bedford county, and it is probable that Blair and Cambria will each have a candidate of their own.—*Chambersburg Repository.*

HON. JOHN CESSNA is a candidate for the Congressional nomination in the new district composed of Bedford, Somerset, Cambria and Blair. Each of the counties will present a candidate. Somerset will press Gen. William H. Koontz, who was twice elected to Congress from the district composed of Somerset, Bedford, Fulton Franklin and Adams.

Gen. Koontz is a cultured gentleman and made a favorable impression during his Congressional term by the ability and fidelity he brought to the discharge of his official duties. Should he locate in Washington from the new district his former experience would be of great service in enabling him to meet the demands of Congressional work and to promote the interests of his constituents.—*Gettysburg Star.*

THE widow Albright's property, a good good frame building at Cook's Mills was destroyed by fire on Saturday afternoon last. The fire is supposed to have originated from the stove-pipe which projected through the roof. The furniture in the house at the time was also destroyed.

Another.—Wm. Ketterman's house in Lowhonderry tp., was destroyed by fire one day last week. The fire was discovered about 3 o'clock in the morning and had made such headway that all efforts to extinguish it were fruitless.—*Bedford Inquirer.*

Centaur Liniment.

There is no pain which the Centaur Liniments will not relieve, no swelling they will not subdue, and no lameness which they will not cure. This is strong language, but it is true. They have produced more cures of rheumatism, neuralgia, lockjaw palsy, sprains, swellings, caked breasts, scalds, burns, salt-rheum, ear-ache, &c., upon the human frame, and of strains, spavin, galls, &c., upon animals in one year than have all other pretended remedies since the world began. They are counter-irritant, an all healing pain reliever. Cripples throw away their crutches, the lame walk, poisonous bites are rendered harmless, and the wounded are healed without a scar. It is no humbug. The recipe is published around each bottle. They sell as no article ever before sold, and they sell because it does just what they pretend to do. Those who now suffer from rheumatism, pain or swelling deserve to suffer if they will not use Centaur Liniment. More than 1,000 certificates of remarkable cures, including frozen limbs, chronic rheumatism, gout, running tumors, &c., have been received. We will send a circular containing certificates, the recipe, &c., gratis, to any one requesting it. One bottle of the yellow wrapper Centaur Liniment is worth one hundred dollars for spavined or sweeney horses and mules, or for screw worm in sheep.—Stock owners therefore liniments are worth your attention. No family should be without them. "White wrapper for family use;" Yellow wrapper for animals. Sold by all Druggists, 50c per bottle; large bottles $1 00. J. B. ROSE & CO., 46 Broadway, New York.

CASTORIA is more than a substitute for Castor Oil. It is the only safe article in existence which is certain to assimilate the food, regulate the bowels, cure wind-colic and produce natural sleep. It contains neither minerals, morphine or alcohol, and is pleasant to take. Children need not cry and mothers may rest. aprl2.

DR. SYKES' Mode of Treatment

is the fruit of over twenty years of exclusive attention to Chronic affections, and an experience embracing many thousands of cases, and has been blessed in the recovery of hundreds who were deemed past hope. It consists in selecting for each case the remedial means best adapted to its cure. His patients have the benefit of every new discovery and theory of value. His remedial resources include medical inhalations both of vapor and of atomized fluids, together with tonic, cleansing and regulating medicines of unexpansive efficacy, and hygienic and mechanical remedies of great value.
