THE PEOPLE'S CHOICE FOR PRESIDENT,

ABRAHAM LINCOLN.

FOR THE AMENDMENT OF THE CONSTITUTION GRANTING THE

SOLDIERS' RIGHT TO VOTE.

HARRISBURG, PA.

MONDAY EVENING, MAY 23, 1864.

Meeting of Conferees.

The Conferees from the counties of Dauphin, Northumberland, Union, Snyder and Juniata, appointed for the purpose of electing delegates to the National Convention, will meet at Sunbury, Northumberland county, on Wednesday evening next, May 25, for the purpose of discharging the duty entrusted to them.

TO ADVERTISERS.

The DAILY TELEGRAPH has a larger circulation than any other paper printed outside the great commercial cities. Its circulation in this city is THREE-FOLD GREATER than any other paper printed here, or in the counties along the different railroads, and it is also much larger than those printed in Philadelphia.—We state these facts merely for the purpose of satisfying persons who say that it costs much more to get an advertisement inserted in the TELEGRAPH than it does in other papers. We have our regular established rates for advertising, (which are much more reasonable than those published in another paper,) and we cannot deviate from them, although we frequently hear that it is done cheaper in that paper, and that the proprietors are willing to take anything offered to them. The difference is only this: the one paper may circulate from five to seven hundred daily, whilst the Telegraph issues an edition of from SEVEN to TEN THOUSAND daily.

Business men will readily perceive the advantages to be gained by advertising in a paper having a large circulation, although they have to pay somewhat higher rates than are charged where there is a very limited circulation.

The Result of Confiding in the People.

Months ago we insisted that the people should be intrusted with the power of selecting delegates to the National Union Convention. Heretofore the selection of such delegates constituted a portion of the proceedings of State Conventions, and in more than one instance the preferences of the people were defeated by the frauds and manœuvering of a few corrupt politicians. Thus far the manner of providing for the selection of delegates by the people shows a healthy political action, and for the first time in the history of the politics of Pennsylvania, the State will be represented in a National Convention by an undivided delegation–by a delegation not only known to be friendly to the choice of the people, but pledged by all that is honorable and manly to the success of that preference. By thus referring the responsibility of selecting delegates directly to the people, Abraham Lincoln will be supported in the National Convention by a delegation from Pennsylvania entirely pledged to his nomination. The people in each Congressional District are seeing to this in their primary meetings, and, judging from the proceedings of these, there is not even an effort made to instruct the conferees to vote for a rival candidate. After all, it is always safest to refer all political action directly to the people. They are the arbiters alone entitled to dispose of nominations, to fix platforms and guide the action of an organization. When it is sought by any party to deny the masses this power, political defeat is sure to follow.

Don't Give Up the Ship.

Those who may entertain the idea that General Grant will be forced from his present position, except under the most pressing circumstances, are mistaken.

It appears among other things, that he would not be inclined to give up a field or a purpose on small provocation, but would be apt to contest it with the enemy till it was either decidedly won or decidedly lost. The significance of such sentences as these is apparent.

He sent an order from Chattanooga to General Burnside at Knoxville, saying:

Should Longstreet move his whole force across the Little Tennessee, an effort should be made to cut his pontoon on that stream, *even if it sacrificed half the cavalry of the Ohio Army.*

Further on he addressed the same officer:

I can hardly conceive the necessity of retreating from East Tennessee. If I did at all, *it would be after losing most of the army.*

On the 19th of October last, after assuming command of the Military Division of the Mississippi, he telegraphed from Louisville to Major General Thomas, whose army was in great straits at Chattanooga.

Hold Chattanooga *at all hazards.*

THE draft in Somerville, Massachusetts, has struck the leading men of the town. Among them are Rev. George G. Fairbanks, of the Spring Hill Baptist Society; Rev. E. H. True, of the Episcopal Society; Rev. Benjamin K. Russ, of the Universalist Society; Trial Justice Francis Tufts; Dr. Mark Ranney, of the Insane Asylum, and Captain John N. Coffin, the Deputy Provost Marshal.

THE NATIONAL DEBT.—The public debt of the United States on the 10th day of May, as has been ascertained from an official source, stood as follows: Debt bearing interest in coin, $812,336,162, the interest thereon being $49,472,714; debt bearing interest in currency, $404,191,935; interest $22,109,429; debt bearing no interest, $509,220,314. Total debt, $1,726,248,411; interest, $71,532,114.

ON DIT, that an army officer bet $100 in Washington that Grant will eat his Fourth of July dinner in Charleston, having first taken Richmond. The bet was taken with a M'Clellanite.

Union County.

A convention of the loyal men of Union county assembled in Lewisburg on the 17th inst., for the purpose of selecting Congressional conferees to meet in Conference the other counties of the district, and elect a Representative delegate to the Union National Convention to assemble in Baltimore in June next. The following are the names of the conferees chosen:

Messrs. Paul Geddes, Charles Gudykunst and Joseph R. Orwig.

Before adjourning, Col. Charles H. Shriner, from a committee on resolutions, made a report, in which he endorsed the present administration of the National and State Governments, acknowledging and applauding the gallant services of the army and the navy, thanking Lieut. Gen. Grant for his vigorous and victorious campaigns, and proclaiming a determination to secure the re-election of Abraham Lincoln. The resolutions were enthusiastically endorsed.

GOV. SEYMOUR, of New York, according to a telegraphic dispatch which we print to-day, seems to be very anxious to have a *bout* with the Federal authorities. He has written to the District Attorney of the county of New York, to have indictments procured against all who were concerned in the arrests connected with the *World* and *Journal of Commerce* offices. A man of Gov. Seymour's calibre should not condescend to deal with the rebel agents in this transaction—he should only have to do with the principals, and at once, therefore, order the arrest of the President of the United States and the Secretary of War, and have these officials carried to Albany, there to answer the charges of the immaculate Chief Magistrate of New York. There has been farce sufficient in all these arrests, but this attempt at a show of jurisdiction on the part of Seymour caps the climax of all that is ridiculous.

GENTEEL PRISONERS OF WAR.—In a Lynchburg newspaper we find the Union prisoners, recently captured and sent to that place, described as "a decidedly genteel set of Yankees, who conducted themselves with more propriety than usual." "It is some satisfaction," says the New York *Times*, "to know that gentility finds an exponent in a community which openly boasts of the cold-blooded massacre of the captured garrison of Fort Pillow. A critical taste in matters of social propriety ought, probably, to pass for high breeding, even in a select circle of cut-throats. There is nothing like style."

A BORDER RUFFIAN KILLED.—According to the Richmond papers, the notorious Henry Clay Pate, of Kansas border ruffian memory, was killed at Yellow Tavern, near Richmond, in a cavalry fight with the Union raiders under General Sheridan. It seems that he bore the rank of lieutenant colonel. The fact is announced by the Richmond papers, without any manifestation of grief for the loss.

LIEUT. GEN. PEMBERTON, the renegade Northernor who went South, married into a plantation, sided with rebels, and surrendered Vicksburg, has sought active service, and been assigned to the artillery defences of Richmond, with the rank of Lieutenant Colonel. He had previously resigned his commission as Lieutenant General.

GENERAL SHERMAN'S ARMY RESTING.

WASHINGTON, May 22—10 P. M.

To Major General Dix, N. Y.:

On Friday evening General Grant commenced a movement for the purpose of compelling Lee to abandon his position at Spottsylvania, the details of which, for obvious reasons, would not be made public.

It has thus far progressed successfully.

Longstreet's troops started south at 1 o'clock on Friday night, an hour and a half after Hancock arrived.

Ewell's corps followed Longstreet last night. This indicates that the rebel army has fallen back beyond the North Anna.

Hoke's Brigade has joined Lee. The movement of Gen. Grant has thus far been accomplished without any severe engagement or serious interruption. We now occupy Guinea's station, Milford station and south of the Mattapony on that line.

A dispatch recived this morning from General Canby, dated May 14th, at the mouth of Red River, says: We have rumors to-day from rebel sources that all the gunboats except two succeeded in getting over the falls at Alexandria on the day mentioned in General Banks, dispatch.

No dispatch has been received to-day from General Butler.

Dispatches from Kingston state that Gen. Sherman's forces are resting and replenishing their supplies.

Slaughter of Our Troops.

CAIRO, May, 22.

Admiral Porter's flag-ship has arrived at Mound City, and reports the entire fleet out of Red River, the dam having reached a height on the 13th sufficient to enable them to move.

An extensive conflagration recently occurred at Natchez, consuming several of the most princely buildings. The fire was believed to be the work of an incendiary.

The steamer Mollie Able. No. 17. arrived this evening with the 17th and 28th Illinois infantry on board, bound for Springfield.—The 28th has re-enlisted and the 17th is to be mustered out.

Our forces evacuated Alexandria last week and moved towards Sellsport.

The officers of the steamer Laurel Hill, which had arrived at New Orleans, state that they distinctly heard heavy cannonading from the direction our forces had taken.

The fleet was much onnoyed in passing out by guerillas, who lined the banks between Alexandria and Fort DeRussey.

A portion of Alexandria was burning when the Laurel Hill left. This steamer had two hundred sick on board, and while flying the hospital flag was fired into ten miles below Alexandria, but no injury resulted.

General McClernand who was seriously ill, was on board.

Col. Mott, of the 149th Ohio, and many other officers of rank, were killed, and the greater part of our troops slaughtered, of which there were 500 on board the steamer City Belle, at the time she was captured and burned by the rebels, 30 miles below Alexandria, in the early part of the month.

OFFICIAL REPORT OF ADMIRAL PORTER.

OUR VESSELS OVER THE RED RIVER FALLS.

WASHINGTON, May 23.—The following dispatch was received by the Navy Department this morning:

MISSISSIPPI SQUADRON, FLAGSHIP BLACK HAWK, *Mouth of Red River, via Cairo,* May 22.—To Hon Gideon Welles, Secretary of the Navy:

I have the honor to inform you that the portion of the squadron caught above the falls at Alexandria, have been relieved from their unpleasant position owing to the indefatigable exertions of Lieutenant-Colonel Borley, Acting Engineer of the Nineteenth Army Corps, who prepared and built a tree dam of six hundred feet across the lower falls, which enabled all the vessels to pass over in safety, the back water of the Mississippi reaching Alexandria.

Your obedient servant,
D. D. PORTER,
Rear Admiral.

Wounded Soldiers for Philadlephia.

ENGAGEMENT ON THE APPOMATTOX.

HEAVY REBEL LOSS

GEN. WALKER WOUNDED AND A PRISONER.

Picket Skirmishing, &c.

FORTRESS MONROE, May 21.

Three hundred wounded men were sent from the M'Clellan hospital to-day to Philadelphia. The weather was yet very favorable for patients and most of them are doing well.

Gen. Wister has left for home sick.

General Devins is at Chesapeake Hospital, sick.

Yesterday noon the pickets on our left and near the Point of Rocks, on the Appomattox, were driven in by the enemy. Quite an engagement soon followed.

As soon as the pickets reached our reserve force two of our batteries opened on the enemy with deadly fire, and they were so taken by surprise that they lost heavily in killed and wounded.

The rebel General Walker is wounded and a prisoner, with many of his men.

The enemy got the worst of it and retired.

Picket skirmishing is going on much of the time along our lines.

There is heavy skirmishing going on this morning, but no particulars have been received.

Destruction of the Blockade Runner Powhattan.

COTTON PICKED UP AT SEA.

Fort Powhattan Attacked by the Rebels.

THEY WERE REPULSED WITH HEAVY LOSS.

BALTIMORE, May 23.

The letter from Fort Monroe says the steamer Dictator, from Newbern and Hatteras Inlet, reports that a bottle was picked up off Hatteras on the 20th, containing a record of the loss of the steamer Manhattan at sea.—She was from Wilmington, N. C., bound to Bermuda.

A large lot of cotton was picked up off Hatteras on the 20th.

On the 21st the rebel cavalry attacked Fort Powhattan, on James river, making three charges, all of which were repulsed with heavy rebel loss and disorganization.

There was but little loss on our side.

Explosion of a Powder Mill.

TROY, May 21.

This morning an explosion took place at Schaghticoke powder mills, fourteen miles from the city, completely demolishing two buildings and killing five workmen instantly. The buildings contained five thousand pounds of powder, which was ready to ship for Government use. The amount of the loss has not been ascertained.

Endorsement of the Administration.

AFFAIRS IN MEXICO.

CAIRO, May 22.

Fourteen delegates to represent Louisiana in the Baltimore Convention were elected by the Louisiana State Convention.

The *Delta* of the 16th says: The action of the Convention was harmonious, every member endorsing the general policy, civil and military, of the administration, and also heartily approving the civil and military career of General Banks and the policy of Governor Hahn, as tending to put down the rebellion and restore the Union.

The steamer Cassandra, from Boston, had arrived with 318 men of the Thirtieth Massachusetts and 94 recruits for other commands.

Late intelligence from Matamoras represents things as very unsettled, and that the bad feeling existing between the native and French residents had ripened into an actual outbreak.

Gen. Cortinas and staff, while riding through the streets, were insulted by Frenchmen and a general quarrel ensued. Weapons were drawn and freely used by both parties. Cortinas' Adjutant General, during the melee, shot one Frenchman dead, and another was arrested, and subsequently executed by Cortinas. Much excitement prevailed and many of the French residents were leaving the city.

DR. J. HITE'S

YELLOW WATER POWDER FOR HORSES.—During a practice of many years in this community, Dr. Hite has satisfied himself that this powder is vastly superior to any other article in use for the cure of Yellow Water, and is of great service to Horses that have lost their appetite and are hidebound, foundered or distempered. Also, that it will prevent Glanders, Colic and the Bots, when faithfully used two or three times a week—invigorating and fattening. For improving the condition of a Horse, he asserts there is no better medicine, as it will strengthen the stomach, and assist digestion, cleanse the intestines of offensive matter, and regulate the bowels, when costive, purify the blood and promote perspiration—thus the skin is kept loose, the pores are opened, and a lean, scabby horse becomes fat and comely.

The Powder can be used for Cattle, Sheep and Hogs, with good effect.

Prepared only and sold at Keller's Drug Store, No. 91 Market street, Harrisburg. my21-d1w
