RAILROAD NEWS

UNIFORM RULES FOR FREIGHT WEIGHING

They Will Come With the Announcement of New Tariffs in Very Near Future

With the announcement of the new tariffs for railroad carriers of the United States, will also come new rules governing the weighing and reweighing of carload freight.

Word has been received in Harrisburg that the American Railway Association has promulgated new rules, covering the entire United States.

Among the provisions is the discontinuance of the reweighing of freight in carloads en route or at destination, weighing having been done under supervision at the initial point of shipment. The new rules are the result of an exhaustive inquiry conducted by the Interstate Commerce Commission and a committee of the American Railway Association with the weighing committee of the National Industrial Traffic League.

They are to be embodied in new tariffs being compiled by the carriers and are expected to minimize claims for overcharge, due to weighing of freight en route by inspection and weighing bureaus.

It is provided that when errors in weight and description are shown in the original bill of lading the charges shall be adjusted to the proper basis, and forms of weight agreement suitable to the character of the business tendered for transportation shall embrace certain specifications and copies of same shall be filed with the Commerce Commission.

Agreements stipulate that the shipper must report and verify correct gross weights, except where estimated weights are permitted by tariffs or classifications and correct description of commodities and correct gross fare and net weight.

Decrease in Immigration.—Immigration in July was the smallest in that month and in fact for any month in a number of years, being 34,637, as compared with 138,244 in July, 1913, and 78,101 in July, 1912. There has been a steady decline in immigration this year since April. In that month the influx was 119,885; in May it was 107,796, and in June, 71,728. Because of the outbreak of the war on August 1 the immigration in the month just closed will be almost nil.

Train Performance.—Figures compiled in the office of the general superintendent of the Western Pennsylvania division of the Pennsylvania Railroad on passenger train performance show that 9,302 trains were operated. Of these 8,292, or 89 per cent., were on time. Schedule time was made by 94 per cent. of 8,719 trains. In the Pittsburgh division, 94 per cent. made schedule time, in the Monongahela division, 92 per cent., and in the Conemaugh division, 94 per cent. Of the through trains operating between Pittsburgh and Philadelphia, the division rankings on trains making schedule time were as follows: Pittsburgh, 96 per cent.; Middle, 95 per cent., and Philadelphia, 92 per cent.

Brakeman Hurt. — George Buller, aged 36, 936 North Second street, a brakeman nn the Middle division of the Pennsylvania Railroad, was admitted to the Harrisburg Hospital at 11.30 this morning suffering with body bruises received in a fall from a freight car.

Foreman's Order Brought Answer.—That employes of Roundhouse No. 1 of the Pennsylvania Railroad have confidence in their foreman, Isaiah Reese, Jr., was proved yesterday when he received a letter containing $17.50. Recently Foreman Reese was on his vacation. During his absence a locker used by engineers was broken open and $17.50 in cash stolen. The robbery was made known to Foreman Reese on Monday. Notice was immediately posted that unless the cash was returned immediately the person who took the money would lose his job. The money came back yesterday.

LOCOMOTIVES CRASH; CARS ARE WRECKED

No One Injured; Thousands Witness the Head-on Collision Near Altoona

Altoona, Pa., Sept. 10.—With whistles shrieking, throttles wide open and steam hissing from noisy cylinders, two locomotives hauling trains on the Pittsburgh and Susquehanna Railroad, rushed toward a point where they met in a terrific head-on collision, before the eyes of thousands of spectators at 5 o'clock Tuesday afternoon one mile east of Philipsburg.

Breathlessly the witnesses of the smash-up awaited the destruction of the engines. A minute previous to the collision the enginemen leaped from the cabs to safety. Both iron horses were rent and torn into many sections, while the cars were badly damaged. Despite the force of the wreck not a single passenger was killed or injured, since the cars hadn't any human freight. Every feature of the "accident" was premeditated and, as usual, the movie man was busy on the job.

Nearly 500 Altoonans witnessed the most prominent feature of Philipsburg's big celebration, while nearly 30,000 visitors from other points occupied the huge amphitheater.

At 5 o'clock the collision between the passenger train, consisting of an engine and three coaches, and a freight engine and seven gondolas, occurred. Both engines leaped high in the air and were totally wrecked. Camera men were active. Spectators were but 100 yards away from the crash, and thousands surged forward to carry away souvenirs of the "made-to-order" train wreck.

Charles Rowland, superintendent of the Pittsburgh and Susquehanna road, was chiefly responsible for the celebration. People from many points along the Middle division attended the affair and the Pennsy had a busy day on its Tyrone division. H. H. Chenoweth and party of prominent women of this city visited Philipsburg in the private car of General Superintendent G. W. Creighton to witness the collision.
