TRUNK LINES WILL ASK A REHEARING

One Way Ticket Order Suspension Will Be Followed by Further Procedure at Once

PREPARING FOR NEW FUND

Attorney General Working Out the Compensation Plan; News of the Capitol

State Public Service Commission officials expect that a request will be made in a short time for a hearing on the order of the commission making one way passenger tickets good in either direction, which was scheduled to go into effect on September 1, but suspended until October 1. The suspension was at the request of C. L. Hunter, vice-president of the Western Trunk Line Association, which asked that the order be the subject of further proceedings.

The commission will resume its formal meetings here on September 7 at which time a number of decisions, upon which members have been working in the recess, will be announced and the further procedure in the Philadelphia electric case will be outlined.

The survey of the grade crossings on the Lincoln highway for the commission has been completed from Pittsburgh to Harrisburg and was resumed to-day between the State Capital and Philadelphia by way of Gettysburg, York and Lancaster.

New Schools.—Several schools for agricultural training in addition to other courses will be opened in the State this week and next according to information received here by the educational authorities. The preliminaries were arranged this month and the opening of the school in Columbia county is expected to be made the occasion of a formal celebration to-day.

Compensation Fund.—Steps for the organization of the workmen's compensation insurance fund, to which the State will make a substantial contribution at the start, will be taken in September by Attorney General Brown and other State officials. The attorney general is now making the preliminary plans and on the return of the Governor the commission board will likely be called to meet.

Watching Storage. — Agents of the dairy and food division are keeping an eye on cold storage deposits just now in order to be sure as to the amount of spring produce held. It is believed that there is a larger amount of food in storage now than ever known in the State at this period.

Returned From Dayton. — J. Herman Knisely, of the bureau of municipal statistics and information, is home from a visit to Dayton where he made an investigation into the municipal government. He also represented Commissioner Jackson at Cleveland and Cincinnati.

Returned From Danville. — Dr. B. F. Royer, chief medical inspector, has returned from Danville, where he investigated the outbreak of typhoid fever.

Commission to Rule Soon. — Members of the State Water Supply Commission are here to-day in conference on pending matters, including the Coatesville water works project. A ruling may be made to-morrow. The work is going on at Coatesville, but nothing can be done on the State Highway because the contractors neglected to get a permit to tear up the road.

To Inspect Pike. — Highway Commissioner Cunningham will make an inspection of the section of the turnpike between Chambersburg and Shippensburg which the owning company has offered to sell to the State.

Treasury Is Low.—Indications are that the State Treasury will show the smallest balance in its general fund in almost two decades when the books are closed for August to-morrow. This will be due to the creation of a couple of special funds under new laws and to the small receipts. Payments of State tax, except the special $5 tax levied on manufacturing corporations, have been small.

Increases Filed. — Notices of increases of stock filed at the Capitol today include Allegheny Amusement Co., Philadelphia, stock, $5,000 to $30,000 and Arthur H. Thomas Co., Philadelphia, stock, $75,000 to $100,000.

Lebanon Lines Up. — Lebanon county is getting ready to provide a mother's pension system. The preliminary steps have been taken and information secured here as to the amount of money to the credit of the county.

Pennsy's Payment.—The Pennsylvania Railroad Company to-day made the largest payment of the month to the State Treasury. It amounted to $194,512.49 and represented state tax on gross receipts.

New Laws Ready.—The new State game and fish laws will be issued in pamphlet form this fall. They will be printed as soon as the acts of 1915 are issued.

LYING IN WAIT

"What's the matter?" asked his wife.

HUNDRED PETITIONS FILED IN WIND-UP

(Continued From Page 1.)

sioners to-day when William W. Caldwell, warden of the Dauphin county prison, filed his paper for the Republican nomination for sheriff. His petitions contained 1435 names.

The first candidate to file papers for the office of city controller, the only other nonpartisan office to be filled November 4 in addition to the city commissioners, put in his papers today. This was Harry M. Riley, of 1617 North street, a box merchant. Mr. Riley is a Democrat and was formerly chief clerk to Highway Commissioners A. U. Zarker and Charles McConkey under Mayors Fritchey and McCormick respectively. This is the job Mayor John K. Royal provided the salary in an ordinance offered a few weeks ago. The salary is $500 a year.

Ashton D. Peace, formerly president of common council, it was said in municipal circles to-day will also file petitions for the same office.

Among the prospective candidates for county offices who filed to-day were George L. Funk, a bridge builder, 428 Nectarine street, who put in papers as the Socialist candidate for county commissioners. He had 110 signers Alfred B. Garner, gentleman, 37 Evergreen street, who filed a Democratic petition for county commissioner a few days ago this morning put in papers as the Washington candidate also. He had 127 signers. William F. Houser, a clerk, Middletown, filed his Republican petition for register of wills. David Hatz, Middletown, filed Washington and Democratic papers for county treasurer.

To-morrow will be the last day for filing nomination petitions and the clerks in the county commissioners' office are anticipating a lovely day of it. The offices will be kept open until 6 o'clock in the evening for late papers.

To-morrow is also the second city registration day and the registrars will sit at the usual hours. In the county the assessors will sit to-morrow and Wednesday.

City Republicans filed as follows:

CIVIC FLAG IS ADOPTED BY PENNSYLVANIA TOWN

Following a local competition, the city council of Altoona, Pa., officially adopted a design for a municipal flag. The purpose of the banner is to arouse civic pride, advertise the community and stimulate allegiance to its home industries. The flag is described, with illustration, in the August Popular Mechanics Magazine. It has a dark-blue rectangular field, one and one-twelfth times as long as it is wide, surrounded by a gold border. The design consists of a large keystone of blue outlined with white, on which is placed the seal of the city. At the top of the keystone is the coat of arms of Pennsylvania done in gold, black, pale green and pale blue.

STEELTON

SUGGESTS FORD FOR POLICE DEPARTMENT

Councilman Henderson Thinks Cops Should Have It For Emergency Calls

Steelton cops will soon have a chance to go joy riding in a Ford.

The borough council intends to buy a car for the police department just as soon as sufficient money is available. No less person than E. C. Henderson, a member of the police committee, is the father of this scheme.

Mr. Henderson believes that the borough would have a more efficient police department if it had a light auto to take officers out on emergency calls.

The police committeeman, however, would not say that council can adopt such a suggestion at this time but "it will come," he declares.

At the next meeting of council the police committee will submit the names of applicants who wish to fill the vacancy caused by the dismissal of Patrolman Clinton Jones. It has been suggested that instead of another patrolman, council could employ a motorcycle officer.

But now Mr. Henderson comes forward with the jitney suggestion. The little car would be superior to a motorcycle officer, he points out, because it could be used to haul in prisoners.

Steelton Snapshots

Off to 'Frisco. — Councilman and Mrs. T. J. Nelly and Walter Keister left yesterday to visit the Panama-Pacific exposition and other points of interest on the Pacific coast. The party will be gone at least four weeks. Both Councilman Nelly and Mr. Keister are factors in Steelton politics.

Class to Debate—The Mission Study Class of St. John's Lutheran church will meet this evening at the home of Mrs. A. N. Lupfer, of Pine street. A debate, "Resolved, That the White Man Has Helped the Indian More Than he has Harmed Him," will be a feature of the evening.

Class Holds Reunion.—Members of the Class of 1913, Steelton High school held their annual reunion at Hershey Saturday. After an afternoon at dancing the party motored to Derry church where a chicken and waffle supper was served.

Plan Fall Activities.—Members of the Main Street Church of God and Sunday school will meet Thursday evening to plan the fall activities for the young people of the church. A social and rally will be held.

Infant Dies.—Duran Creticanin, the five-week-old son of Nick Creticanin, died yesterday in the Harrisburg hospital.

SOME POTATO GROWER

What is believed to be a record hereabouts for the number of bushels of potatoes to be taken from the ground in one day, was made by Kirk Shelley, a Steelton councilman, with several assistants last week.

With five men picking and three more hauling the tubers to the barn, Mr. Shelley succeeded in gathering in 525 bushels of potatoes last Wednesday. The men worked nine hours. All of the potatoes were dug from the ground, shook loose from their stocks, placed in barrels and stored in the barn in this short time.

Mr. Shelley has twelve acres in potatoes and declares that the yield will be about 3,000 bushels. From one field 300 bushels per acre were removed. W. H. Lenker is the tenant farmer.

MAKE PRUSSIATE OF SODA

At the 120-furnace plant of the Semet-Solvay Company here yellow prussiate of soda, a coal-tar bi-product is now being manufactured. This is a produce never before turned out here. Under the direction of C. H. Chester the local coke ovens have kept up with other plans of the Semet-Solvay Company and has rapidly been installing the new apparatus necessary to handle the added products. Yellow prussiate of soda is used in the manufacture of paint and in case hardening.

Berlin, Aug. 30, via London, 4:10 p. m.—German forces have made a further advance on the Russian fortress of Grodno ,the only one of their fortified positions near the German border which still remains in their possession.

HIGH WATER MAY HOLD UP IMPROVEMENTS

[Continued From First Page.]

during the few weeks before the celebration.

The Department of Public Works is making every effort to have the gap closed, however and if it is found to be necessary may use electric light and push the work along by night shifts, which will assure its completion. Last year at this time the water did not touch the lowest step and the work was carried on outside the wall without difficulty, wagons and steam shovels and men with pick and shovel continuing operations until the late Fall on the river bottom outside the steps.

Will Dedicate New Playground Gateway During Celebration

Enroute over the city's park and playground system September 23, the great automobile train bearing the Chamber of Commerce and other prominent men and women who have figured in the history in Harrisburg's fifteen odd years of public improvements, will make a brief stop at the Twelfth street playgrounds, to attend the exercises incident to the dedication of the Dr. William Harrison Jones memorial entrance.

The train is due to reach there just in time to take in part of a celebration, which—while having no direct bearing on the 3-day observance in which a whole city will participate, will not be without its significance in the story of municipal improvements.

Dr. Jones on First Committee

Dr. Jones was a member of the first general committee appointed way back in 1901 by the Board of Trade to arrange for the mass meeting of citizens which launched the city's public improvement campaign.

Primarily the purpose of the big inspection trip via automobile train is to show the Chamber of Commerce and all the others who have had in anyway, a part in the story of Harrisburg's public improvement program, what has been accomplished in fifteen odd years.

Incidentally the big group of citizens who had subscribed to the fund to provide a memorial to Dr. Jones, expected to formally dedicate the entrance and fountain to the Twelfth street playgrounds sometime next month after it was finally decided when Twelfth street would be visited by the train. James M. Auter and Herman Hahn were appointed as a special committee to arrange with Commissioner M. Harvey Taylor, park superintendent, to map out the dedicatory program in such a way that the exercises could be held about the time the inspection train would arrive.

The Memorial

The memorial to Dr. Jones will add materially to the beauty of the playgrounds. Originally it had been decided to install just a fountain but estimates were obtained by the park commissioner and when he discovered that the formal entrance with benches, etc. could be placed within the sum that had been subscribed, he suggested that the tribute to the noted colored physician take this form instead of a fountain only. And the committee readily agreed to the plan.

Work on the formal entrance and the erection of the fountain will be started in the near future so that the new gateway to the playgrounds can be finished in ample time. In the meantime the arrangements for the program will be completed.

Celebration Committees Hard at Work on Plans

Committees in charge of arrangements for the municipal celebration will have a busy week. Starting tomorrow night with a meeting of the committee on "merchants' night" program, there will be meetings almost daily.

Chairman A. E. Buchanan, of the merchants' committee, to-day sent out a circular letter to 300 businessmen. He calls attention to the fact that "merchants' night" will be Thursday, September 23, and says:

The undersigned has been appointed chairman of the committee whose duty it will be to cooperate with you to make your participation in the celebration not only a source of pleasure and pride to you, but to greatly increase your prestige as an up-to-date establishment without any unusual expense.

Our plans for your participation in the merchants' opening night will be laid before you at a meeting in the rooms of the Chamber of Commerce, Kunkel building, at 8 p. m. Tuesday, August 31, to which you are cordially invited.

Your attendance at the meeting on Tuesday night is requested so that you can secure first-hand and accurate information as to the opportunities the improvement celebration will give the merchants for benefiting their business.

No obligation of any sort will be assumed by those who attend, but the free discussion of merchants' opening night by the live wires will result in it being the greatest part of the celebration.

Reception Committee Meeting

Chairman Donald McCormick, of the committee on reception, expects to call a meeting of his committee for Thursday at the rooms of the Harrisburg Chamber of Commerce. His committeemen are as follows: Andrew S. Patterson, John C. Herman, Croll Keller, George E. Zellers, John C. Soutter, John C. Motter and Carl W. Davis. This committee has secured the Chestnut Street Auditorium and Hall.

It is probable that the committee on invitations, of which W. M. Ogelsby is chairman, will meet at the same time as the reception committee. The date will be announced by Mr. Ogelsby to-morrow.

J. Ray Hoffert, in charge of the water carnival arrangements, will have his workers busy every night, starting with to-morrow night. The various subcommittees are lining up merchants for the illuminated display, the water sports and for the boat and canoe races. Entry blanks have been distributed. Chairman Hoffert expects to make a definite announcement by the end of the week as to the probable entries for the contests.

The Red Men have been working hard in preparation for their part of the program.

Begin to Stretch Cable For River Wall Lights

Unless the weather should interfere too seriously, the Harrisburg Light and Power Company will begin tomorrow morning to stretch the cable for the electric light standards on the River Front Wall.

Concreting will be started on the steps across the gap in the wall at Market street by Stucker Brothers Construction Company at the same time provided the weather man is equally kind.

The electric company expected the delivery of 10,000 feet of cable today and Superintendent F. F. Ferree has a big corps of men ready to push the job ahead. If necessary he said he will stretch electric lights along the wal for night work in order to finish the job in ample time for the Municipal celebration September 23-24-25.

BE GLAD!

Be glad! There are so many things
To cheer us on our way!
The sunny sky, the rippling stream,
The field of new-mown hay.

Be glad for every rosy dawn,
For twilight's peaceful hour,
For changing seasons as they come,
For tree, and grass, and flower.

Be glad for toil, be glad for rest,
For strength to do your part.
Be glad that all the common joys
May come to every heart.

The cheerful heart is always best,
For sweet contentment strive.
Be glad for health, for friends to love;
Be glad to be alive!
—Lena B. Ellingwood in Farm and Home.

BRIGHTNESS OF LIFE

A thought that is winged from friend to friend
Doesn't seem such a wonderful thing;
Yet it carries the prayer for a joy without end,
And it throbs with a big friendly ring.

A mere word of cheer, in the shadow of night,
When discouragement darkens the way,
Will illumine our hearts with the glorious light
Of a hopeful and sun-brightened day.

A bright, cheery smile often gives us the strength
That we lack in the vortex of strife,
For it lightens our load as we travel the length
Of the care-laden path we call Life.

So we find, after all, that the things we thought small
Loom colossal above all the host;
That the best of God's gifts are the friends we can call
To our side when we need them the most.

No such thing as "rubber roofing"

A lot of manufacturers call their roofing "Rubber Roofing," "Rubberine," "Rubberoid"—Rubber-this and Rubber-that. The life is all out of rubber if exposed to the daylight for six months. It would be silly to put rubber in roofing, and rubber costs more per pound than roofing sells for for a hundred pounds. There is no such thing as "Rubber Roofing" of any kind. There is no rubber in

Certain-teed

Roofing

It is made of the very best Roofing Felt thoroughly saturated in our properly blended asphalts and coated by a harder grade of asphalt which keeps the soft saturation within—the life of the Roofing—from drying out quickly. We have found from long experience in every part of the world and under all kinds of conditions that these are the materials that give the best and the longest service on the roof.

Certain-teed Roofing is guaranteed 5, 10 or 15 years according to whether the thickness is 1, 2 or 3 ply respectively, and if the roof fails to make good you have a responsible guarantee to fall back on. Beware of the product which is misrepresented to you in any way. Your local dealer will quote you reasonable prices on our goods.
