DID YOU READ SYDNEY SMITH?—Of course you liked it, and laughed over his witty remarks. We now offer you a better book.

THE BOOK OF THE SUMMER.

We have ready this day, the first complete American edition, with a memoir, from the 10th English edition. In two handsome royal 12mo. volumes, cloth; price $2,50, or half calf extra $4.

The Ingoldsby Legends; Or, Mirth and Marvels. By Thomas Ingoldsby, Esq., the Rev. Richard Harris Barnham, with 16 illustrations by those funny fellows, Cruikshank and Leech.

This delightfully entertaining book has now become a standard library work in England, where it has rapidly passed through ten editions. The memoir is brimful of sparkling jokes, anecdotes and witty repartee, by Theodore Hook, Barnham, Thomas Hood, Sydney Smith and other celebrities. We venture our reputation as caterers for public taste, if this work does not delight every reader, and prove fully as entertaining, if not more so, than the recent biography of Rev. Mr. Barnham's brother divine, Sydney Smith. H MINER & CO.,

INVENTIONS AND PATENTS

PITTSBURGH, April 12, 1856.

M. F. EATON, Esq.:

Dear Sir,—Having used G. Trott's "Patent Oil Globe" on almost all the steam engines furnished the last year, and insamuch as they appear to have given entire satisfaction to our customers, we have no hesitation in recommending them as a good article, and much preferable on account of their simplicity of construction, to the old fashioned Oil Globes, or any other of which we have any knowledge.

Very respectfully yours,
F. & W. M. FABER & CO.,
Engine Builders.

This certifies that the Oil Cup patented by Mr. Trott, has been in use on our road for two years past. We find it to be an economical and durable Oil Cup, and can recommend it as such.

Foreman of Pittsburgh Shop of Penna. Central RR.

NOVEMBER 29th, 1854.

To M. F. EATON, Esq.:

This certifies that we have had in use the patent Oil Globes or Cups, sold by Moses F. Eaton, Esq., of Pittsburgh, and consider them very much superior to any thing of the kind we have ever used.

ALFRED THOMAS,
Treasurer Ohio Tool Company.

Columbus, Ohio, November 27, 1855.

Patent Finishing Plane.

This invention is intended for use where it is desired to impart a fine, smooth, and glossy surface to the wood; but it is applicable, with advantage, to all kind of carpenter's planes. The novelty consists in placing the cutting chisel, or bit, in front of the wedge, instead of behind, as in common planes; also in applying a metallic mouth-piece to the face of the plane, in front of the chisel, which mouth piece serves as the rest for the chisel, and confines the throat of the plane.

But the mouth piece is so close to the edge of the bit as to prevent the plane from ripping or splintering the wood in the least degree. Indeed, we have seen the implement applied to the planing of wood against the grain, and truss reresly to the grain, leaving the wood perfectly smooth. So perfect is the operation of this instrument, that it may be applied to the planing of veneers—with entire success—a thing which cannot safely be done by the common plane. The peculiar arrangement of the mouth piece, bit, and wedge, affords a complete and firm bearing for the bit throughout its whole length, and disposes, under all circumstances, with the use of a cap or double bit.

This is a very simple and effective improvement, destined, we have no doubt, to find its way into every carpenter's shop in the land. No tool chest is complete without it. The inventor is Wm. C. Hopper, of Pittsburgh, Pa., and his patent bears date January 15, 1856.

SAMUEL FAHNESTOCK

THE GOLDEN GUN is taking the trade, and it is not much wonder, our stock of Guns, Pistols, Rifles, &c., &c., is unsurpassed in the city. The way in Fishing Tackle we have such an assortment that would make old Izaak Walton's eyes water, could he come to the world. Pocket and Table Cutlery in great abundance. Dog Muzzles, and too many articles to be mentioned here are to be found at the sign of the Golden Gun.
