His observations and conclusions, as set forth in a special report just issued, SHOULD PROVE OF UNUSUAL INTEREST TO ALL INVESTORS IN OIL SECURITIES.

Supplementing this, we have prepared an 8x24-inch brochre, containing about fifty half-tone pictures descriptive of the petroleum industry in Oklahoma, which is equivalent from an instructive standpoint to a

and of immeasurable value to investors interested in Cosden Oil & Gas, Sinclair Oil & Refining, Okmulgee, Oklahoma Producing & Refining, Sequoyah, Osage-Hominy and other active dividend paying oil companies.

STEEL OVERSHADOWS ALL MARKET ISSUES

Gains Point on First Sale Over High Mark Established Yesterday; Kindred Industrials Correspondingly Strong; Rails Change Fractionally

By Associated Press

New York, May 25, (Wall Street).—United States Steel again overshadowed all other stocks at the very active opening of to-day's market. Steel's first sale comprised a block of 20,000 shares at 132¼ to 132½, representing a gain of a point over its previous high record. A further rise to 133 occurred before the end of the first half hour. Kindred industrials, especially Bethlehem and Crucible Steels, Republic Iron and Great Northern Ore were correspondingly strong. Coppers, oils, Central Leather, Industrial Alcohol, the motors and Ohio Gas all rose appreciably. Lackawanna Steel lost a point at the outset but more than recovered its loss later. Rails recorded only fractional changes, except New Haven, which rallied another point from yesterday's minimum.

POOR RAILWAYS HURT TEUTONS

Heavy Traffic and Neglect Makes Lines Deteriorate Rapidly

By Associated Press

New York, May 25.—By a staff correspondent of The Associated Press, just returned from Vienna:

Central Europe's food problems have during recent months been adversely influenced by the fact that slowly the railroads are losing their efficiency and are no longer able to do their share in the distribution of these necessities. The war has made heavy demands upon the lines, and it has been impossible to give trackage and rolling stock the care they require.

For almost two years now the railroads have been neglected. This and the heavy traffic over many of the principal lines due to the war has made the railroad system a mere shadow of what it was formerly. Ballasting has been very indifferently done by old men, boys, women and prisoners of war, with the result that the wear on the ties has been unusually severe, a condition which in its turn has caused a rapid deterioration of the rails and rolling stock.

Locomotives especially are in poor condition. It is very doubtful whether in Central Europe it would be possible to-day to find an engine capable of performing a service within sixty per cent. of its former efficiency.

American Flotilla Plays Big Part in Destroying German Submarines

Washington, May 25.—Definite information has reached the Navy Department that more submarines are being run down, captured and destroyed than ever before, and although the exact details cannot be divulged, it is known that the American destroyer flotilla, under Rear Admiral Sims, has been playing an active part in the work with the British and French fleets.

One report to-day had it that during the past week, in which twenty-seven merchant vessels were sunk, twenty-eight German submarines were captured or destroyed. It was also said that the amount of food and munitions reaching England from the United States last week was the largest since February 1.

The increased success of the campaign against the U-boats is attributed more to improvements in organization than to any new devices. It is said the presence of American destroyers has enabled the British and French to send some of their small craft to their bases for docking and sorely needed repairs, after virtually continuous service for the past two years.

Hereafter, it was announced at the Navy Department, information regarding the operations of American naval vessels in the war zone will be given out here simultaneously with publication in Europe.

A general reduction of about 33 1-3 per cent. from the higher quotations of early May prevailed and in some instances a reduction of 50 per cent. was recorded.

City Furnishes $150,000 Bonds as Security in Hardscrapple Proceedings

Bonds totaling almost $150,000 have been furnished by the city as security in the Hardscrabble proceedings.

While a number of the property owners in the district have agreed to accept the city's security without asking bonds from a private company, in case any are refused, City Solicitor John E. Fox, will ask the court, probably next week, to settle these disputes. The bonds were presented during the last few days and the court will be asked in the near future, city officials said to award issues so that the appealed cases can be tried.

Juice of Lemons! How to Make Skin White and Beautiful

At the cost of a small jar of ordinary cold cream one can prepare a full quarter pint of the most wonderful lemon skin softener and complexion beautifier, by squeezing the juice of two fresh lemons into a bottle containing three ounces of orchard white. Care should be taken to strain the juice though a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman konws that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan, and is the ideal skin softener, smoothener and beautifier.

Just try it! Get three ounces of orchard white at any pharmacy and two lemons from the grocer and make up a quarter pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. It should naturally help to whiten, soften, freshen and bring out the roses and beauty of any skin. It is truly marvelous to smoothen rough, red hands.—Adv.
