GUARDSMEN ARE PASSING TESTS

Continued From First Page

to the stables. There they receive instructions as to the proper way to apply a comb to a horse that has just returned from a little practice run through the mud. It is a new duty to the recruits but they are taking their instructions like regulars.

Many Anxious Faces

The question most in the minds of the guardsmen this week has been and will be: "Do you think I'll get through all right?" Those returned from the examination and safely passed were inclined to be a little skeptical at the expense of their fellow troopers. "Not a chance, kid, not a chance. You have smoked too many cigarets." A resounding whack on the chest and a laugh has put many of the men in better spirits when their place in the line drew perilously near the examining surgeon.

Treat Company D Roughly

Company D got its full time of drilling on the lower end of the Island this morning. They were put through the different paces including practice skirmishing. After they become accustomed to the forming and reforming, the alignment of lines that don't want to stay straight, the work will gradually be made harder. Long hikes and real skirmishing are yet on the program.

Weather Not Pleasing

When reporters appeared on the scene this morning the first question was: "What's the latest weather report?" "Is there anything in that St. Swithin's stuff or will it really be clear to-morrow, as the weatherman says?" All agreed that doing sentinel duty in the rain wasn't making parlor conversation by a long shot, and the sooner the weatherman decided to send a few clear nights the better they would be satisfied.

"That isn't a line that runs off the page, that's a note," instructed the leader of the Eighth Band this morning during practice. A few of the men wanted to hold the notes a trifle longer than was deemed necessary to keep the band up to the reputation that it has made in the surrounding country. Visitors have flocked to the island in great numbers and concerts will be given whenever the weather permits.

All Shined Up

Reporters this morning noticed Regular Army headquarters were even cleaner than usual. The floor had been scrubbed so clean it looked almost like new. Inquiring the cause of the rather unusual circumstance they were told another deserter had been hunting transportation. A man on a furlough had gone broke and dropped into headquarters for transportation. Such men are always helped on their way but just as a way of reminder that such conduct was bad for a Regular Army man, Lieutenant Lesher detailed him to scrub the floors.

Canadians Pass Through

Two Canadian troopers passed through the city last evening. Both men had seen service at the front and were on their way to their homes.

Word has been received at the signal recruiting headquarters, room 5, Victoria Building, saying it is expected to call the signal men into training camps within a few weeks. A large percentage of recent Harrisburg enlistments have preferred the signal corps because of the opportunities it offers.

Need Bakers At Once

Regular Army recruiting officers this morning received a circular letter on the organization of bakery companies. An expert baker, with some technical knowledge, now has the opportunity to become a first lieutenant. The letter follows:

"The Quartermaster General has been directed to organize at once forty bakery companies in addition to the ten companies now within the continental limits of the United States.

"These companies will be numbered from No. 1 to 52, Nos. 5 and 6 are in Honolulu and the Philippine Islands.

"The personnel of these companies will consist of:

"1 First lieutenant,
"1 Second lieutenant,
"1 Sergeant, first class, $51 per month,
"23 Sergeants, $44 per month,
"15 corporals, $36 per month,
"45 Privates, first class, $33 per month,
"15 Privates, $30 per month,
"2 Cooks, $38 per month,

"In addition the government furnishes food, lodging and clothing.

"The equipment consists of the Army Field Bakery No. 1 oven, with equipage. One of these ovens with equipage is designated as a unit and is so equipped that it is a field bakery complete in itself with a personnel of six men capable of supplying 1,800 men per day with bread.

"Fifteen (15) of these units constitute a bakery company and the company has a capacity of forty thousand pounds of bread per day.

"This is an opportunity for strong and energetic young men to learn a trade. Men who volunteer now will have an excellent opportunity for promotion. There are about 800 vacancies in the grade of sergeant baker and 600 in the grade of corporal to be filled by the most capable men.

"In addition to this there will be vacancies in the grade of first and second lie
