NOTICE
THE following ordinance was duly passed by the City Council and signed by His Honor, the Mayor, on the 15th day of January, 1918, and is published as directed by Article 6, Section 7, of the Act of Assembly approved June 27, 1913:
AN ORDINANCE
Defining garbage and dead animals, providing rules and regulations for the collection and disposal thereof and penalties for the violation of the same, and repealing Common Council Ordinance No. 57, Session of 1907, entitled, "An ordinance providing rules and regulations for the collection and removal of garbage, dead animals, miscellaneous refuse and ashes, and also authorizing the Sanitary Committee or Board of Health to adopt and promulgate additional rules and regulations, and providing penalties for the violation of the same," and all other ordinances, or parts of ordinances, in conflict herewith.
Section 1. Be it ordained by the Council of The City of Harrisburg, and it is hereby ordained by authority of the same, That the term "Garbage" wherever used in this ordinance means the refuse from animal and vegetable matter after it has been used or prepared as food for man (night soil excepted), and all refuse animal and vegetable matter after it has been used as food for man, including all kitchen and table wastes of animal or vegetable nature such as vegetables, meats, fish, bones, fat and other ordinary kitchen wastes resulting from the preparation of foods. The term "garbage" does not include house and store rubbish, ashes or floor sweepings, nor ashes from wood or coal, nor miscellaneous refuse, viz: broken glass and china-ware, paper, grass, vine or tree trimmings, straw, excelsior, rags, bottles, tin cans, shoes and other like refuse or waste matter. The term "dead animals" means all dead animals and parts thereof not intended to be used as food for man.
Section 2. The occupants of dwelling houses, apartments, tenements and all other private houses, and the proprietors of boarding houses, hotels, restaurants, and the occupants of all other places where garbage is accumulated, shall provide or cause to be provided, and keep or cause to be kept, at all times, for the use of such premises, a sufficient number of receptacles to contain all garbage which may accumulate on said premises during the usual interval between the collections of garbage therefrom, and shall keep such receptacles at all times water tight, free from freezing and in good repair. Each receptacle shall be metallic, have a tight cover, and be provided with one or more handles. No person, firm or corporation shall use for the reception of garbage any receptacle having a capacity of less than three (3) or more than ten (10) gallons.
Each person, firm or corporation aforesaid shall cause all garbage from his, her, their or its premises to be deposited in the receptacles provided for that purpose, and no substance other than garbage, as herein defined, shall be deposited in any garbage receptacle. No more water shall be allowed or permitted in garbage than naturally accumulates from table refuse.
Each person, firm or corporation aforesaid shall cause such receptacles to be kept covered at all times and to be placed and remain, between the hours of 6 o'clock A. M. and 6 o'clock P. M., of each day, or while the collection is made from his, her, their or its premises, in such position upon the street level as to be easily accessible to the garbage collector.
No garbage receptacle shall be kept or placed at any time upon or in fire escapes, basements, subways, cellars, streets, alleys, sidewalks or other public places.
All private alleys and passageways necessary for the collection of garbage must be kept free from obstruction, viz: cans, ice, snow, etc., and all other accumulations, by the owners or users thereof.
The contractor shall be required to furnish to the bureau of garbage and ash inspection, or the Superintendent of Public Safety, immediate notice upon a regular adopted form of the failure of the occupant of any premises to have garbage ready for collection on the day set for such collection, or the placing by such occupant in the garbage receptacle of any substance except garbage as herein defined.
If these rules are not observed by the occupants of premises, as aforesaid, the contractor during the period of such non-observance shall be relieved from making the collection and shall report the matter in writing to the Bureau of Garbage and Ash Inspection, or the Superintendent of Public Safety, upon the prescribed complaint cards.
Section 3. All dealers in vegetables, fish, oysters and fruits, and the proprietors of slaughterhouses and butcher shops shall deliver or cause to be delivered at the garbage disposal plant all decayed vegetables, fish, fruit and offal in water-tight metal receptacles, with closely fitting lids, and such delivery shall be made before such refuse or offal becomes in anywise noxious or offensive.
Section 4. The owners, proprietors, agents or servants of any public market or market place shall collect the garbage of each market or market place on every day the same is open, immediately after the closing of the same, and shall put such garbage in an accessible place to be collected by the garbage collectors.
Section 5. No person, firm or corporation,
