BRANDS LEAGUE IMPERFECT

By Associated Press.

Berne, Switzerland, Wednesday, July 9.—Dr. Felix Calonder, former President and head of the political department of the Swiss government, speaking at a conference with the press on the League of Nations to-day, said he was convinced that the nonadhesion of Switzerland to the League and her consequent political isolation would be a great error. "The League founded at Paris," he said, "is imperfect and should be amended, but, nevertheless, it constitutes a work that commands respect and has an appeal as tending to facilitate the progress of humanity."

PARTY SQUARE BILL IS SIGNED

[Continued from First Page.]

such as State-wide and district, shall be filed at least sixty days before the November election and those to be filed with County Commissioners must be filed twenty-eight days before the election. Objections must be entered within fifty days in case of papers filed at the Secretary's office and twenty-five days in case of others. Provision is also made for withdrawals.

Providing that the fall primary shall be held on the third Tuesday instead of the third Wednesday of September in odd numbered years.

Providing that exclusive right to use of a party name shall be given for any precinct or other subdivision of a ward upon filing of affidavit by pre-emptors of a name for a ward.

Repealing act of May 29, 1917, relative to filing of nomination papers.

The general bill amending the primary act of July 12, 1913, which carries numerous provisions relative to accounting for ballots and other details of primary elections.

The Governor also announced approval of the bill fixing new salaries for officers and employes of the Legislature, which carries increases and places a number on a salaried basis from year to year instead of having them paid a salary for the session and a per diem for other periods. It provides some new places.

Mother's Pension Bill

Governor Sproul to-day announced his approval of the Vickerman bill changing various provisions of the mother's pension law, Representative John W. Vickerman, of Allegheny county, being here when it was approved.

Under the terms of the new law mothers who have resided two years in the State and one year in a county are eligible. Heretofore the requirement has been residence of three years in the county. Another change is an increase of the family allowance from $12 to $20. Counties that do not accept the act will lose appropriations which will be divided.

The appropriation bill of $600,000 will probably be signed immediately so as to make the money available. This provides for a new system of distribution of the funds among counties, Philadelphia getting eighteen per cent.; Allegheny twelve and others according to population.

A new system of distribution of the State appropriation for mothers pensions to be administered in conjunction with counties that appropriate a sum equal to their State allotment is provided in the bill approved by Governor Sproul to-day.

The bill also provides for a new assistant State supervisor of pensions at $1,600 a year.

The appropriations are to be paid annually, the share of each county bein sent to the county treasurer. At the end of the first fiscal year the money allotted to counties that fail to comply with the act is to be distributed among those which have done so, provided a like sum is appropriated over and above what the counties originally allot.

Philadelphia is to get eighteen per cent., Allegheny twelve, counties between 200,000 and 1,000,000 population aqual parts of fifteen per cent.; 100,000 and 200,000 equal parts of thirty per cent.; between 50,000 and 100,000 equal parts of fifteen per cent.; between 25,000 and 50,000 equal parts of seven per cent. and less than 25,000 equal parts of three per cent.

Highway Changes

Eight changes in State highway routes are made by the Governor's approval of the Senate bill to-day. Over 30 were made in a House bill recently approved.

The changes are in roads from Mercer to West Middlesex; Nazareth to Allentown; Geigertown to Downingtown; Brandywine Manor to Coatesville; Carlisle to Harrisburg, via York Springs, Lincoln highways, Gettysburg and Biglerville, connecting with various routes and Wormleysburg to Maryland line via York and Red Lion and Stewartstown.

Another approved was the Scott bill, providing that when any road 36 feet or more wide is improved the Highway Commissioner may arrange that spaces at the side may be constructed of material for "horse travel." The act is not to affect cities or boroughs.

The Governor also approved the bill designed to relieve the city of Philadelphia from payment of the inheritance tax on the John G. Johnson art collection. The new law would operate in any similar case hereafter provided the articles were left to a municipality for free exhibition.

Other Bills Approved

Other bills approved included:

Authorizing counties and municipalities to furnish rooms in public buildings for meetings of organizations of veterans of various wars.

Establishing an orphans' court for Washington county, the judge to be elected this fall.

Authorizing corporations to tunnel under streams to mine coal under regulations made by the Water Supply Commission and for payment of value of coal mined in constructing tunnel.

LABOR OPPOSES BIG SHIPMENTS OF IMMIGRANTS

Gompers Explains Attitude as Checkmate on Large Corporations

By Associated Press.

New York, July 10.—Opposition of the American Federation of Labor to unrestricted immigration during the next four years is based largely on a desire to checkmate "a combination of corporations, trusts and shipping companies" to bring immigrants to the United States under contracts which made them virtually "slaves to these trusts," Samuel Gompers, president of the Federation, declared in an address before the Pan-American Federation of Labor here last night.

Mr. Gompers spoke in response to a resolution adopted at the day session, inquiring why the Federation had taken a stand on immigration at its Atlantic City convention "which conflicts with the conclusions of the first congress of the Pan-American Federation of Labor, held at Laredo, Tex."

The second reason, Mr. Gompers asserted, was the fact that four million American soldiers were being returned to industry and that the Federation's duty was to so adjust our affairs that the Americans shall have the right to a job before any one who may come here from another country."

Thousands View Sailing

Announcement by Major G. H. Scott, commander of the R-34, of his intention to sail over the city was made in theaters and restaurants with the result that thousands of persons crowded in Broadway for a glimpse of the airship as she passed through the shafts of light shot skyward from scores of searchlights. She flew quite low over Broadway, not being much over 800 feet in the air and proceeding at low speed.

burg on pass that evening and then came to this city.

Since then he has been employed as an electrical worker and has lived in North Sixth street.

Lawson is said to have represented himself continually as a wounded soldier and to have appeared on numerous occasions, wearing his wound stripes, the Croix de Guerre and a foreign service bar. He has several times shown pictures which he represented as having been taken in France, and in one instance succeeded in having a local newspaper print what was represented as a photograph of a captured German listening post. This picture it has since developed, was made at Gettysburg, and later enlarged at a local establishment.

Police authorities were notified that he was in the habit of carrying a loaded revolver, and have had him under surveillance for some time. Later they learned that he had been a soldier and his arrest followed this morning. He at first denied that he had ever been a soldier, but is later said to have admitted that he had deserted.

PHOSPHATE HIGHLY RECOMMENDED FOR THIN, NERVOUS PEOPLE

Nothing Like Bitro-Phosphate to Build Firm Healthy Flesh, Vitality and Nerve Force

"Should Be Prescribed by Every Doctor and Used in Every Hospital," Says Editor of Physicians' "Who's Who."

When one stops to consider the host of thin people who are searching continually for some method by which they may increase their flesh to normal proportions by the filling out of ugly hollows, the rounding off of protruding angles with the attendant bloom of health and attractiveness, it is no wonder that many and varied suggestions along this line appear from time to time in public print.

While excessive thinness might be attributed to various and subtle causes in different individuals, it is a well-known fact that the lack of sufficient phosphorous in the human system is very largely responsible for this condition. Experiments on humans and animals by many scientists have demonstrated beyond question of doubt that a body deficient in phosphorous becomes nervous, sickly and thin. A noted authority and professor in his book "Chemistry and Food Nutrition," published in 1918, says: "* * * that the amount of phosphorous required for the normal nutrition of man is seriously underestimated in many of our standard text books."

It seems to be well established that this deficiency in phosphorous may now be met by the use of an organic phosphate known throughout English speaking countries as Bitro-Phosphate. Through the assimilation of this phosphate by the nerve tissue the phosphoric content when absorbed in the amount normally required by nature soon produces a welcome change in our body and mind. Nerve tension disappears, vigor and strength replace weakness and lack of energy, and the whole body soon loses its ugly hollows and abrupt angles, becoming enveloped in a glow of perfect health and beauty and the will and strength to be up and doing.

Our soldiers always pick out the plump, rosy-cheeked girls.

Physicians and hospitals everywhere are now recognizing its merits by its use in every increasing quantities. Frederick Kolle, M. D., editor of New York Physicians' "Who's Who," says: "Bitro-Phosphate should be prescribed by every doctor and used in every hospital to increase strength and nerve force and to enrich the bl
