Drugs, Medicines, &c.

NIXON'S COLUMN.

At no time since the commencement of Nixon's Drug Store, has there been so

FULL AND COMPLETE A STOCK

of Fresh and

PERFECTLY RELIABLE MEDICINES

To offer to those who are so unfortunate as to be compelled to indulge in such luxuries. The fact is, that unless there are large and rapid sales, no establishment can supply its customers with strictly fresh and reliable remedies, in the shape of Drugs and Chemicals. Time effects with much more rapidity many more articles in medicine than in any other merchandise, hence the necessity of rapid change of stock to secure to the purchaser just what is wanted. NIXON is able, by rapid changes in stock, always to present the very best to his customers. He desires to keep the above facts before the community, and to solicit a continuance of favors. In connection with his full stock of

DRUGS AND CHEMICALS,

he offers a full assortment of

PATENT MEDICINES OF STANDARD CHARACTER.

One of the best and most cleanly articles for the Hair, containing *no grease,* yet rendering the Hair soft and glossy, and preventing it from prematurely falling off.

NIXON'S GLYCERINE LOTION,

NIXON'S TETTER OINTMENT

continues as much a favorite as ever and *it can and does* perform remarkable cures of Skin Diseases, and is guaranteed in all cases to act as represented.

HORSE AND CATTLE POWDER.

In less than one year and a half OVER TWENTY-FIVE HUNDRED PACKS HAVE BEEN SOLD, and the sales are on the increase. It is just the powder for
The Horse,
The Cow,

The Hog.
It is neatly put up and full directions go with each pack. Hundreds of testimonials could be presented, but the proprietor deems it best to let it travel on its own merits.

RABER CROUP SYRUP

Is made only at Nixon's for this County, and has a host of friends who can testify to its merits.

Nixon is able to offer a large stock of

The important lever in business is money, and as all merchandise can be had at lower rates for cash than time, NIXON desires to make

HIS BUSINESS STRICTLY CASH.

WONDERFUL SCIENTIFIC DISCOVERY.—At the present time thoughtful minds everywhere are looking for the revelation of new and important discoveries in science, and when a theory is presented claiming to have discovered new light and to have removed the veil of obscurity from a subject of the highest importance, upon which much has been written, it is proper that the claims of this theory be presented and carefully examined and tested, which is destined to transcend in importance to suffering humanity, all other discoveries, the lightning rod and telegraph not excepted. We hold that the human system is but a galvanic arrangement, with its acids and alkalies, constituting the positive and negative forces, and that every mental and physical manifestation, either voluntary or involuntary, is the result of this antagonism; that digestion, circulation, secretion, and excretion are wholly attributable to the law of electrical influences; that the nerves are the conductors of ELECTRICITY, and that there is a polar action established through the nervous system which connects with every part of the body, establishing and preserving a proper balance of the electric element, which constitutes health, and a disturbance of which causes disease; that there are strictly but two conditions of disease—the one positive, the other negative; and as ELECTRICITY possesses these two inherent principles, it will, if applied according to the electric polarities and requirements of the system, arrest, or, in other words, neutralize the disease by the restoration of proper polar action. We also assert that all drugs taken into the system act strictly upon electrical principles; that from decomposition the latent electricity is set free, and that, through the electrical polarities of the nervous system, all changes are produced either for good or for evil; that in the incipient stage of disease it may tend to equalize the forces, and restore harmony; but after the case has become refractory, paralyzing the nervous communications, and changing the constituents of the fluids, and arresting the digestive action of the stomach and its power of approbation, no internal process of medication ever has, or ever can, succeed in removing the cause of the disease, its only tendency being to multiply and complicate the symptoms.

On the contrary, ELECTRICITY being the vital element upon which life depends, can be directed to any part of the body, and even after the vital functions seem paralyzed, possesses the power of arousing the dormant energies, equalizing the circulation, and the system to a self-sustaining system. One very important feature of this treatment is, that no time is lost in experimenting with disease. By means of electrical test an accurate diagnosis is given at once, determining the locality and character of the disease, and indicating the treatment to be pursued. The currents are perfectly under the control of the operator, and can be regulated to suit the delicate nerves of a child without any unpleasant sensation. All those who have long suffered from painful and obstinate disease—Acute, Chronic, Inflammatory or Paralytic—are invited to call and consult.

NOTICE.

Save your money. Do not be persuaded to purchase articles at 3s. to $1, which do not contain the virtues of a 13 ct. Bottle of Madame Porter's Curative Balsam, the cost of manufacturing which is as great as that of almost any other medicine; and the very low price at which it is sold, makes the profit to the seller apparently small, and unprincipled dealers will sometimes recommend other medicines on which their profits are larger, unless the customers insist upon having Madame Porter's and none other. Ask for Madame Porter's Curative Balsam, price 13 cts., and in large bottles at 25 cts., and take no other. If you can not get it at one store you can at another.

Sold by all Druggists and Store-keepers at 13 cts. and in larger bottles at 25 cts.
