MASON & HAMLIN'S CABINET ORGANS

MELODEONS were introduced some twenty years since, and were succeeded by the HARMONIUMS about nine years ago. The CABINET ORGAN was brought to its present state of perfection only in the summer of 1862.

THE AUTOMATIC BELLOWS SWELL has great advantages over any other invention of the kind, *is capable of much finer effects* than can be produced by any other, and *is more easily used by the performer*, and excels especially in *capacity for expression.*

MASON & HAMLIN'S CABINET ORGANS, WITH ONE OR TWO SETS OF REEDS, CONTAINING THE AUTOMATIC SWELL, DOUBLE BELLOWS, KNEE STOP AND COMBINATION VALVE.

☞ *Every Instrument warranted for Five Years.* ☜

PRICES FROM $70 TO $450.

The Cabinet Organ is the only instrument which combines the requisites for Church and Parlor Music; for the school room and the social festival gathering. For while it possesses sufficient power for the accompaniment of a large chorus, it is, from its capability of all shades of expression, and its wonderful *crescendo and diminuendo*, most effective as a solo instrument. It is capable of orchestral effects, and rapid music, as trills, arpegios, &c. From its sustained tones, it has a decided advantage over the Piano Forte, for the rendering of many of the choicest morceaux of the masters, such as symphonies, quartettes, etc.

with Steel Folding Finger-Bar and two Drive-Wheels, s now ready for sale.

In convenience and lightness of draft, this is superior even to the old Style of Allen Mower so long and so deservedly popular.

It has literally no frame, and nearly all its parts, with the exception of Drive-Wheels and Gears, are made of Steel or Wrought and Maleable Iron. It is thus the strongest and lightest machine in the market. mar2-4m

AGRICULTURAL CHEMICAL CO'S CHEAP FERTILIZERS. PABULETTE.

This Fertilizer is composed of night soil and the fertilizing elements of urine, combined, chemically and mechanically with other valuable fertilizing agents and absorbents.

It is reduced to a pulverulent condition, ready for immediate use, and without loss of its highly nitrogenous fertilizing properties.

Its universal applicability to all crops and soils, *and its durability and active qualities*, are well known to be all that agriculturists can desire.—Price, $25 per Ton.

CHEMICAL COMPOST

This Fertilizer is largely composed of animal matter, such as meat, bone, fish, leather, hair and wool, together with chemicals and inorganic fertilizers, *which decompose the mass, and retain the nitrogenous elements.* It is thoroughly impregnated with urine, and the thinner portions of night soil.

It is a very valuable fertilizer for field crops generally, and especially for potatoes, and garden purposes.

Its excellent qualities, strength and cheapness, have made it very popular with all who have used it. Price, $25 per Ton.

TREE AND FRUIT FERTILIZER.

It is a highly phosphatic fertilizer, and is particularly adapted for the cultivation of trees, fruits, lawns and flowers. It will promote a very vigorous and healthy growth of wood and fruit, and largely increase the quantity and perfect the maturity of the fruit. For hot-house and household plants and flowers, it will be found an indispensable article to secure their greatest perfection. It will prevent and cure diseased conditions of the peach and grape, and is excellent for grass and lawns.

The formula or method of combining its constituent fertilizing ingredients have received the highest approval of eminent chemists and scientific agriculturists. Price, $50 per Ton.

PHOSPHATE OF LIME.

The Agricultural Chemical Company manufacture a Phosphate of Lime in accordance with a new and valuable formula, by which a very superior article is produced, so as to be afforded at a less price than other manufacturers charge. Practical tests have proved that its value, as a fertilizer, is equal to the best Phosphate of Lime in the market. Price, $45 per Ton.

TERMS CASH.—Cartage and Freight to be paid by the Purchaser.

COOK'S SUGAR EVAPORATOR, manufactured by BLYMYER, BATES & DAY, Mansfield, Ohio.—We are willing to guarantee that from two acres of good Cane, a sufficient number of gallons of Syrup can be produced to cover cost of Machinery, capable of making eighty gallons of Syrup per day, which at fifty cents per gallon, will pay for cost of Mill and Evaporator in four days; or where pan is wanted for a brick arch, without the Furnace, in less time.

COOK'S SYRUPS have been sold at an average of sixty cents a gallon, and none in market. An acre of good Cane will produce from 2 to 300 gallons of Syrup.

SORGO SEED.—We offer a Superior Article, selected by ourselves. Sprout the seed and roll in plaster. Plant in drills four feet apart, from North to South. Light soil and Southern exposure preferred, although not absolutely necessary, as it will grow on soils where many crops would be a failure. Cultivate as for Corn.

Cook's Evaporator has taken the first premium over all others at two United States Fairs and over thirty State Fairs.

CONSTITUTION WATER.

THE GREAT REMEDY FOR THE CONSTITUTION. AND THE ONLY KNOWN REMEDY FOR DIABETES AND DISEASES OF THE KIDNEYS AND BLADDER.

CONSTITUTION WATER Has been pronounced by the Medical Faculty, and the public, to be the most wonderful remedy for the permanent cure of all diseases of the STOMACH KIDNEYS, and BLADDER, that has ever been offered.

It is not a MINERAL WATER. It is from experience that CONSTITUTION WATER has emanated, and we now say, let no man doubt, when a single bottle has been known to cure diseases which the best medical talent in this country has failed to relieve.

A remedy possessing the virtues of Constitution Water cannot be classed under "quack" preparations, as it is now used by the most scientific practitioners in this city. It is only second-class physicians that cries down *popular* remedies, while the better skilled make use of every means to accomplish a cure; and the success of the physician increases as his knowledge of different remedies enables him to produce a cure, while others fail in the attempt. Science is satisfied with the truth.

Give Constitution Water a fair trial—we mean you who are under some SPECIALIST'S care from year to year, and we particularly allude to ladies, who are *constantly resorting to* LOCAL TREATMENT, and all sorts of local applications for disease, with as much chance of success as there would be from local applications to the throat for diseases of the brain.

We have always been careful to use language in our circular that could not shock the most delicate organization, but we receive so many communications from persons for which Constitution Water is adapted, and of whose diseases no mention has been made, that we have come to the conclusion that if the remedy is capable of producing a cure, no matter *what the disease may be, it should be made known.* The medicine is put up for the public, and there should be no *exceptions.*

We would say Constitution Water is not like a gilded pill, made to suit the eyes and taste; it is a medicine in every sense of the term, placed in the hands of the people for their relief and if taken according to the directions it will in every case produce a radical cure. We would say that the directions in regard to diet, etc., relate only to the disease under which they occur.

DIABETES

Is a disease of the stomach and liver, acting through the kidneys, and is, without doubt, the most obstinate disease, except consumption that effects the human constitution. We have no space for discussing causes, but will state that the effect of the disease is the conversion of the *starchy principle* (or vegetable portions of the food) into sugar, which stimulates the kidneys to an excessive secretion of water. Many persons suffer from this disease who are ignorant of it; that is, they pass large quantities during the day, and are obliged to get up from one to fifteen or twenty times during the night. No notice is taken of it until their attention is called to the large discharge of water, and often when it is so far advanced as to be beyond the control of ordinary remedies. Another symptom is the great thirst, which when the disease is fully established, is intolerable—the patient drinks constantly without being satisfied; also dryness of the mouth, cracking of the lips, a sweet breath, in the more advanced cases, and finally loss of appetite, emaciation, and the patient gradually sinks from exhaustion.

CONSTITUTION WATER is, without doubt, the only known remedy for DIABETES, and we have as much confidence that it is a specific as we have that opium will produce sleep, and truthfully say that it has cured every case in which it has been used.
