SATURDAY MORNING, APRIL 6.

RELIGIOUS INTELLIGENCE.

—The Revs. J. M. Thoburn, Waugh, and Messmore, missionaries to India; Rev. A. L. Long, of Bulgaria; G. H. Foehring, of Germany, sent out by the Parent Missionary Society of the M. E. Church—are all graduates of Allegheny College, at Meadville, Pa., under the patronage of the Pittsburgh Conference. The Rev. J. B. Burton, one of the first men who went to Liberia, was also an *alumnus* of that institution.

—It is stated that between five and six hundred ministers and laymen met in London to take steps to overthrow the Church-rate tax, and provide the necessary funds towards its abolition.

—According to the General Minutes of the M. E. Church, South, the total increase for the past year was rising thirty six thousand.

—The Baptist Missionary Union announces that their receipts are insufficient to meet demands. Fifty thousand dollars are needed within a month to prevent the Union from incurring a debt.

—The *Advocate and Journal*, of New-York, in an able editorial, thus sums up the result in Foreign Missions:

"The general result is, 20,000,000 of people in Asia, Africa and America have a written language and access to the word. Fifteen unwritten languages have been reduced to writing, and the Bible has been translated in whole or in part into more than twenty, and its truths taught in at least thirty, by the missionaries of the American Board alone. In Africa twenty dialects have been reduced to writing, in one of which, the language of 3 000,000 of men, a newspaper is published, printed by the natives, and circulated among 3,000 readers. The word of God has been translated and a Christian literature commenced for five-sixth of the heathen population of the world. In Africa about 100 churches have been organized; into which over 10,000 have been gathered. In India 1,170 missionaries, native preachers, and catechists are employed; 75,000 scholars, including 15,000 Hindu girls, are taught in the mission schools; and 125,000 converts are now living. In China about 90 missionaries are laboring at six stations. Throughout the whole missionary field nearly 3,000 European and American missionaries and their assistants, and more than 6,000 native helpers, are engaged, through whom about 500,000 have been brought under the influence of the truth.

—The *Valley Tan* says the Mormons, including the Rigdonites and other sects, branches of the Mormon family, number one hundred and twenty-six thousand. In Utah there are twenty-three hundred and eighty-eight men with eight or more wives; of these thirteen have more than nine wives; seven hundred and thirty men with five wives; eleven hundred with four wives; and twenty-four hundred with more than one wife. Recapitulation—four thousand six hundred and seventeen with sixteen thousand five hundred wives.

—According to the definition of a Theological Seminary in New England, of sin, "it is a disturbance of the balance of our moral sensibilities."

—It is stated that Lord Haddo (recently became the Earl of Aberdeen by the death of his father, the late Prime minister of England) is up the Nile, Egypt, accompanied by his wife, with a colporteur in his boat, and personally circulates the Scriptures among the Copts.

—The American and Foreign Christian Union are about to commence missions in New Granada, Brazil and Italy.

—Cardinal Wiseman, in his tract on "The Catholic Doctrine of the use of the Bible," says:

"It (the Bible) is the school-boy's task book; it is the jailer's present; it is the drunkard's pawn-pledge; it is the doctor's text-book; it is the inveterate jester's butt; it is the fanatics justification for every vice, blasphemy, and profanation which he commits." Tom Paine could have uttered nothing more blasphemous than this high Church dignitary against the word of God.

—The Rev. Mr. Cocken, the Baptist missionary to Germany, pleads for aid to send laborers to Russia with a view of spreading the glorious Gospel.

—A correspondent of the "Presbyterian Banner" says no individual of refinement will come into church and take his seat with his hat on, nor will he put it on his head till he has reached the door of exit.

—One of the secretaries of the General Committee on the Pew System, says:

"Few can be unaware of the actual exclusion of the bulk of the English nation from the national churches. Few probably are alive to the extent of social and moral evil brought by this great wrong. In order to make known these evils, and gradually to act upon the consciences of those who are parties to, and profit by this wrong, a society has been formed which has its branches or agents throughout England."

Emigration from Georgia to Iowa.—That there is a disposition in some parts of the South to escape from the unpleasant consequences of secession, there have been frequent indications. Another is furnished in the following from the Dubuque "Times," of the 24th ult.:

Mr. Mark Miller, the editor and proprietor of the "Northwestern Farmer," in this city, informs us that within the past month he has received no less than forty subscribers from the State of Georgia—the first, in fact, he has ever had from that portion of the country. Nearly all of the letters accompanying the subscriptions say the writers are anxious to obtain information in regard to the agricultural resources of this State, evidently with a view of removing hither. Some of them state that the emigration from the Gulf States to the Northwest during the coming seasons will be unusually large. Mr. Miller has also received several letters recently from South Carolina on the same subject.

The Richmond Examiner is afraid of the effect of publishing the Union speeches made in the Virginia Convention. It says:

"Had millions been expended in locking the abolitionists up in some dark and unhealthy cavern, from which reporters were excluded at the point of the bayonet, every one Virginian would have cheerfully paid his proportion of so wise an expenditure, but it is a bitter, cruel wrong, for a loyal State to scatter broadcast at her expense the evidence of the submission character of the Convention which has betrayed her."

Virginia Secessionists are determined that if the State won't go South, they will. We think it not only commendable, but highly proper, that she should do so. They ought, by all means, to seek the warmest climate to be found on this terraqueous globe, inasmuch as the time is coming when they will invoke a very warm country, and it might set hard on them if they were not at least partially acclimated.—*Wheeling Intell.*

Among the applications for office to the new Administration, was one from a young lady on the Hudson river, asking for her lover the post of keeper of a light-house, promising that in the event of the appointment being made, the two would be married and made happy, and she would devote herself to the government light. Of course, the appointment was ordered to be made forthwith.—*Washington Letter.*

A suits case has been decided in favor of the plaintiff at Chicago. A well-to-do man went to an intelligence office, saying that he wanted a wife, and would like to try her first on a service. He paid $2 down, and agreed to cash up another $7 if he married the girl. He soon married, and then refused the $7 owing; hence the suit.

Measuring the Wind.—During the tremendous gale in England on the 21st of February, the anemometer at Lloyd's marked 36 pounds pressure of the wind on the square foot. This is the heaviest gale recorded for very many years.

The *Journal of Commerce* says the hotels are rapidly filling up with customers from the West, and the border slave States, even as far down as Tennessee and North Carolina.

Five million pounds of lead were raised at Dubuque the past year.

ALLEGHENY COUNTY, SS.—In the District Court of April Term, 1861, No. ——.

In the matter of the Report, Surveys, &c., of the Commissioners to establish High and Low Water Lines in the Allegheny, Monongahela and Ohio Rivers, in the vicinity of Pittsburgh:

"AND, April 6th, March 30, 1861. It appearing to the Court that the Commissioners appointed by this Court under the provisions of the act entitled "An Act to establish High and Low Water Lines in the Allegheny, Monongahela and Ohio Rivers, in the vicinity of Pittsburgh, in Allegheny county, approved the 19th day of April, 1858," have completed their surveys and determined the Public lines and lands, the line or low and high water mark along the said rivers, and have caused to be made accurate maps and plans of the same, with the necessary descriptions and explanations in a perfect and regular manner, and that they have returned the same, authenticated by their respective signatures, and that of the surveyor, to this Court, to provide for by said act. It is therefore ordered that the Prothonotary of the District Court receive and file said Prothonotary of the District Court receive and file said plans, and place in the office, for public inspection and examination, and that he give notice in the Legal Intelligencer, and that he give notice in the Legal Intelligencer, and that he give notice in the Pittsburgh Gazette, and that he cause the same to be published in said papers for four successive weeks, that on SATURDAY, the 6th day of May next, the Court will hear any objections who may come on to be heard by any party or parties who may consider themselves aggrieved by the adoption of the same as filed and published by said act.

By the Court.

FEVER AND AGUE.—Malaria or Miasma is the predisposing cause of Fever and Fever and Ague, but the immediate exciting cause may act, from over exertion, imprudent exposure, or irregularity of habits.

The PERUVIAN PHOSPHATES, acting directly upon the Liver, Kidneys, Spleen, Pancreas, and Digestive Functions, has proved the most successful remedy ever introduced for the cure of this distressing complaint. A single trial will afford relief, and one bottle will in most instances stop the Chills and subdue the Fever. Two worst cases yield to its power. It has never been known to fail.

Prepared and sold by A. B. & D. SANDS, Druggists, 100 Fulton street, New York.

Sold also by H. A. FAHNESTOCK & CO., Pittsburgh, Pa.

MOFFATT'S LIFE PILLS—THE HIGH AND ENVIED CELEBRITY which these eminent medicine has acquired for its invaluable efficacy in all the diseases which it professes to cure, has rendered the usual practice of extentatious puffing not only unnecessary but unworthy of them. They are known by their fruits; their good works testify for them, and they need not but point to the results of the credulous. In all cases of Costiveness, Dyspepsia, Bilious and Liver Affections, Piles, Rheumatism, Fevers and Agues, obstinate Head Aches, and all General Derangements of Health, these Pills have invariably proved a certain and speedy remedy. A single trial will place the Life Pills beyond the reach of competition in the estimation of every patient.

Dr. MOFFATT'S PHŒNIX BITTERS will be found equally efficacious in all cases of Nervous Debility, Dyspepsia, Head Ache, the Sickness incident to Females in Delicate Health, and every form of Weakness of the Digestive Organs.

ANOTHER CURE BY DR. SCHENCK.—I called on Dr. Schenck some time ago in one of his visits to Pittsburgh, at the office of Dr. Keyser, No. 140 Wood st. He was examining patients with lung disease. One of my lungs and the bronchial tubes were found to be badly diseased. Oftentimes when I coughed I expectorated blood and matter in large quantities. I had night sweats and great cough, and was generally debilitated. Dr. Schenck prescribed for me his "PULMONIC SYRUP," "SEAWEED TONIC" and "MANDRAKE PILLS," and after taking them one week I have so far recovered that I do not spit any more blood or matter, and the cough has nearly left me. I live in Columbiana county, Ohio, twenty miles from any well known. You may publish this if you wish.

MARTIN KOONS.

Pittsburg, August 27, 1860.

N. B. Since his above was written, Mr. Koons has entirely recovered, and continues well, having regained his usual health.

I, WILLIAM W. ALEXANDER, residing on Ann street, Allegheny city, do hereby certify that I have been a sufferer from severe cough and pain in the breast for about eight years. During the whole of the time I have had general debility and extreme depression of spirits. I tried every nostrum I could hear of, but nothing took hold of my disease. I heard of Doctor Schenck's "PULMONIC SYRUP," but knowing so one personally that it had cured, I hesitated confidence in it. In April, 1858, I took a severe cold, accompanied with a violent cough, difficulty of respiration, and night sweats, which so prostrated me that I was confined to my room for two months.

Several of my friends who called to see me spoke in very high praise, as they knew what it had done. My friends and conditions discouraged me as one incurable, and I made up my mind to waste no more money for doctors or medicines, but would take the chances, life or death, as I felt myself so sick that I felt completely discouraged. However, after reading several advertisements in the Pittsburgh Dispatch I felt induced to give Dr. Schenck's medicines a trial, and, now, nearly two years afterwards, I am in good health, by taking less than my dollars worth of Dr. Schenck's medicines. I unhesitatingly state that it has made a perfect cure of me. I am a well man, and I attribute my good health and vigor of constitution entirely to Dr. Schenck's medicines. I enjoy as good health to-day, Feb. 4th, 1861, that I have done for twenty years past. If persons knew the value of Dr. Schenck's Pulmonic Syrup, Seaweed Tonic and Mandrake Pills, they would be never troubled in the least about the expense of a doctor's bill. I have the living witness before me, who was given up by the doctors to die with consumption, and I believe he would be living now if he had taken Dr. Schenck's medicines. Any person wishing to know the facts as here stated can call on me at my place of business, Water st., Fulton's Row, Allegheny, in this city, or at my residence, corner of Ann and Sterling sts.

THE NEW YORK DAY BOOK says:

"The majority of Hair Dyes, Restoratives, Hair Tonics, Hair Oils and the numberless preparations which are now before the public under such extravagant, hyperbolical and fantastic titles as are so profusely set forth in the circulars, and newspaper headings, as hair preparations, are all humbugs of the first water; their real ingredients being lard, oil, common grease, &c., &c. Such as BEAR'S LARD, WHALE OIL, LARD OIL, SWEET OIL, accepted and covered, make up, when of beautiful transparency and of tonic and when thus costly, are bottled with some irritating acrid, and caught at by credulity and old age, as the fountain of youth. It is not the character of Professor Wolcott's Hair Restorative. This gentleman comes before the world without any "high falutin," "Kickshaws or any other extravagant, pretentious and startling catchpenny terms; he simply styles it a *Hair Restorative*—what it expressly proclaims, and what it is, and he invites the public to try it. Professor Wolcott's Hair Restorative, and see for yourselves if it will restore your hair, supply natural secretions, cure all scurfiness, and make you a handsome man. Professor Wolcott's Restorative for the Hair is the best article extant."

It Will, by Nature's own Process,

Restore Gray Hair to the Original Color,

Will restore Hair Grow on Bald Heads,
Will restore the Natural Secretions,
Will remove at once all itching,
Will cause all dandruff,
Will cure all eruptions—even Bald Head,
Will make the Hair Soft and Glossy,
Will make the old appear young again,
Will preserve the Color of Hair to old age,
Will always Fasten it and stop its Falling,
And be one of the best Toilet Articles for the Hair now in use.

AN ORDINANCE authorizing the construction of a Public Sewer from the East Side of Smithfield Street, from Fifth Street to Wood street, thence along Wood Street to Second street.

SECTION 1. Be it enacted and ordained by the Mayor, Aldermen and Citizens of Pittsburgh, in Select and Common Councils assembled, and it is hereby enacted and ordained by the authority of the same, That the Recording Engineer be and he is hereby authorized and directed to advertise for proposals for the construction of a Public Sewer, with the necessary inlets, from the Centre Side of Smithfield Street, thence along Fifth Street to Wood Street, thence along Wood Street to Second Street.

SEC. 2. That for payment of the cost and expense of constructing said sewer, and inlets, it is hereby ordered and directed that the property benefited by the construction of said sewer shall be assessed quarterly and fairly; and the Councils do hereby appoint John G. Hadley, Seward Moriers and Amos Ford to make said levy and assessment, and when approved by Councils it shall be filed in the sewer book in the Recording Engineer's office; a duplicate copy shall be deposited with the City Treasurer, who shall regularly enter credits thereon opposite the names of persons as they pay their assessments, and shall take receipts from contractors or others for all moneys paid them; by authority of the street Commissioner: *Provided*, That no part of said sewer-work shall be upon the city.

SEC. 3. The assessment, when approved by Councils, shall be published once time in the papers authorized to do the city printing, with notice attached that if not paid within thirty days after the approval of Councils, the same will be collected by the City collector, with five per cent. added.

Ordained and enacted into a law in Councils this 24 day of April, A. D. 1861.

The amount of bodily and mental misery arising from a neglect of small complaints is incalculable, and it is therefore of the utmost importance that a strict attention to the least and most trifling bodily ailments should be had, for diseases of the body invariably affect the mind. DR. THE PHŒNIX BITTERS!!!

So denominated from their astonishing power of creating new life and strength, as it were from the very ashes of the most dilapidated constitutions—are more strongly tonic and more immediately invigorating than the Pills containing the same choice vegetable extracts as the latter, in a different medication. Although really less cathartic than the LIFE PILLS, they nevertheless begin to cleanse the alimentary canal much sooner, generally slightly operating within three or four hours, and producing a decided sense of relief to the Head and Stomach, and exhilarating the Mind, even in less time than this.

MOFFAT'S LIFE PILLS!!!

In Affections of the Head, Sick Headache or Bilious Headache, these Pills will be found to possess the most salutary efficacy.

MOFFAT'S PHŒNIX BITTERS!!!

Have been happily used for the cure of FEVER AND AGUE, with INVARIABLE SUCCESS!

BILIOUS COMPLAINTS AND A MODE OF CURE!!!

☞ A well-regulated and proportionate quantity of this mild medicine is at always effectual for the promotion of health and health—it stimulates digestion and keeps the intestinal canal free from all obstruction. When there is a deficiency of bile, the fecal matter is generally costive. On the other hand, an overabundance of bile causes frequent nausea in the stomach, and often produces very severe attacks of cholera, which sometimes proves fatal in death.

Dr. Moffat's Life Medicines!!!

Should be taken in the EARLY STAGES of Bilious complaints and if persevered in strictly according to directions, will RADICALLY CURE the most inveterate cases.

PILES! PILES! PILES!

As a remedy for this most distressing and obstinate malady, the VEGETABLE LIFE MEDICINES deserve a distinct and emphatic recommendation. It is well known to medical men, that the tissular portion of these valuable Medicines are blended, effected with this complaint for upwards of thirty years; and that by its aid in vain every remedy prescribed within the whole compass of the *Materia Medica*. But however at length tried, the Medicines have now proved to be fully equal to the task; he was cured in a very short time, after his recovery had been pronounced as only improbable, but absolutely impossible, by any human means.

MOFFAT'S

Life Pills and Phœnix Bitters!!!

Cure Dyspepsia, by thoroughly cleansing the first and second stomachs, and creating a flow of pure, healthy, invigorating blood, which is the foundation of life. Purify Loss of Appetite, Heartburn, Headache, Restlessness, Lassitude, Palpitation, Languor, and Melancholy, which are the concomitants of Dyspepsia, will vanish, as a natural consequence of its cure.

THE

LIFE MEDICINES!

For Bilious and Liver Complaints, with their many well-known attendants, *Bilious and Sick Headache, Costiveness, Impregnation after Meals, Giddiness, Dizziness, Heartburn, Loss of Appetite*, are acknowledged to be vastly superior to anything ever before offered to the public.

MERCURIAL DISEASES.

Persons whose constitutions have become impaired by the injudicious use of Mercury, will find these medicines a perfect cure, as they never fail to eradicate from the system all the effects of Mercury, infinitely sooner than the most powerful preparations of Sarsaparilla.

SCROFULA!

The most horrible cases of *Scrofula*, in which the Face, Bones and Limbs of the victim had been preyed upon by the loathsome disease, are proved by the most reliable authority of the sufferers themselves, to have been completely cured by these purely Vegetable Medicines, after all others had been found more than useless.

Acute or Inflammatory Rheumatism!

ARTHRITIC CHRONICA, OR CHRONIC RHEUMATISM!!!

These diseases, which are among the most painful, and, by ignorant treatment, the most inveterate to which suffering humanity is liable, are CURED, *speedily and permanently* cured, by a proper course of the Life Pills and Phœnix Bitters.

MOFFAT'S PILLS AND BITTERS!!!

But it is unnecessary to enumerate the many cases in which these purely vegetable medicines have been strongly felt, and so loquent. Why are they so universal in their happy effects?

Because they PURIFY THE BLOOD, and thus remove all causes of disease in the system.

Because they act powerfully upon the secretions of the body, and remove all impurities at once.

Because they are mild in their operation, but invigorate it—it is requiring no restraint from pleasure or business during their operation.

RICHARDSON'S

IRISH LINENS,

DAMASKS, DIAPERS, &C.

CONSUMERS OF RICHARDSON'S LINENS, and those desirous of obtaining the GENUINE ARTICLE, should see that the articles they purchase are stamped with the full name of the firm,

J. N. RICHARDSON, SONS & OWDEN,

as a guarantee of the genuineness of the goods. Genuine Linen is rendered essentially necessary, as large quantities of inferior and defective linens are prepared, and sold by unprincipled dealers, as and for RICHARDSON, by Irish Houses, who, regardless of the injury thus inflicted alike on the American consumer and the manufacturer of the genuine article, sell and readily obtain a business so profitable, while purchasers can be imposed on with goods of a worthless character.
