The "Union" Gun Overboard

The Baltimore Sun, of Saturday, says:—

"A few days since a monster gun, called "Union," cast at Pittsburgh, and weighing upwards of fifty thousand pounds, was brought to this city to be shipped to Fortress Monroe. Such was its immense weight that it was found necessary to build two platform cars especially for its transportation. It was taken to Locust Point, and the schooner J. J. Baill chartered to carry it to the Fortress. Yesterday preparations were made for putting it on board, to accomplish which the vessel was secured to the wharf, and heavy skids were prepared upon which to slide it from the wharf to the deck of the vessel. While it was going down, one of the skids broke, which caused the schooner to break her moorings, and the gun went to the bottom. The rail of the schooner was badly broken and the wharf was considerably damaged. The water where the gun fell in was about six feet deep, but there was under it a soft mud which was sounded to the depth of six feet more, and the gun last evening was about twelve feet below the surface of the water."

The sinking of the gun may have been accidental, but it is not altogether improbable that the "heavy skids" may have been weakened for the purpose by some rascally Secessionist.

The Clipper, in speaking of the accident, says: "The water at the point where the gun went down is about twenty feet in depth. It will require a great deal of labor to bring the monster once more to terra firma. A soldier who was standing on the skids when the accident occurred, was thrown about twenty feet from the wharf into the water, and was fished out by one of the hands on board the schooner."

The Spoils at Philippi.

A special correspondent of a New York paper states that, in the tents, and along the roads, on which the fugitives ran, were found 1,400 pistols, upward of 500 stand of arms, a large quantity of hats, caps, uniform trowsers, epaulets, and carpet sacks, in one of which there was $300. The roll, which was also found, showed that the whole number of the Rebels in camp was 1,940. Only fifteen were killed.

The inhabitants of the town, who had been driven away by the traitors, now flocked homeward, telling of their persecutions. Young women and children had been for two days in the woods. Farmers had been robbed of their produce, never receiving any pay. Two hundred sheep were taken from one. A forced loan of $25,000 had been demanded of the bank at Fairmont, and was to have been paid two hours after the rebels fled.

Stabbing Affray—Arrest of the Perpetrator.

On Thursday evening last, while a party was being held at Miller's Saloon, Oakland, a difficulty occurred between some of the men, in which James Huey was stabbed in the thigh by Henry Arnold, as was supposed. Huey was confined to his bed until Saturday, the wound being painful, though not at all serious. Arnold was arrested, and being fully identified as the party who used the knife, he was committed to jail by Mayor Wilson, to answer a charge of assault and battery with intent to kill.

Later in the day the police arrested Ben Hughes, charged with flourishing a knife on the same occasion. He did not cut Huey, although it is alleged that he made several lunges at him. The difficulty originated from Arnold and Hughes appearing at the party with girls of questionable reputation. Hughes was also committed for trial.

Our Book Table.

Messrs. Hunt & Miner have received Ballou's Magazine, for July, with an attractive table of contents and several spirited illustrations. It claims to be the cheapest magazine in the world, each monthly number costing only ten cents, and the yearly volume one dollar.

The Soldier's Pocket Health Companion. By Dr. J. Walter Scott.

A glance at this little book shows us that it is one likely to be most valuable to our soldiers. There is an incredible amount of instructive matter, of the utmost importance in a practical point of view all of it, contained in the sixty-four pages. We wish there was a copy of it in every soldier's knapsack.

The Rebellion Record.—This conveniently arranged diary of current events and collection of documents and verses, has reached its sixth number. It will often be referred to, long after the rebellion of 1860-61 shall have been quelled, as an interesting record of troublous times. For sale by Messrs. Hunt & Miner, Pittsburgh.

The Election of Field Officers.

We learn that less than one-third of the Home Guards comprising the three Brigades, voted at the election for Major General and Brigadier Generals on Saturday. Several companies did not vote at all. This was owing mainly to the entire absence of any concert of action between the companies composing the several Brigades. As the efficiency of the Home Guards will depend much upon the chief officers, perhaps it would be best for the Committee to afford an opportunity to the companies for consultation—giving them proper time to make nominations, canvass the merits of the respective candidates, etc. We presume that, under the blundering circumstances attending the election on Saturday, the "officers elect," whoever they may be, would have preferred a more general vote.

Court of Quarter Sessions.

Before Judges M'Clure, Adams and Parke.

The case of Wm. P. Welsh and Washington Rupert, charged with passing counterfeit money, which was called up on Friday afternoon, was resumed this morning. The defendants are charged with passing counterfeit bills upon the Farmer's Bank of Lancaster. One of these was passed upon Messrs Bigley & Co., and another upon Mr. Sturgis, both storekeepers in the vicinity of McKeesport. There were two indictments, under the first of which Welsh was convicted and Rupert acquitted. The second case was then called, and is still on trial.

Phillip Shoplar and M. F. Kohne, indicted for illegal liquor selling, both plead guilty and were fined ten dollars each, and costs.

Fracas at the Point.

On Sunday evening, an Irishman named Jennings, residing near the Point, and who had been arrested the previous day by officer Mathew Keep, paid a visit to the house of the latter, and out of revenge began to kick in his door. Keep made an assault upon the fellow, and kicked him behind the ear. The friends of Jennings rallied in considerable numbers, and the officer drew a pistol to defend himself. A report was made after started that Jennings had been stabbed by Keep; but upon an investigation before the Mayor, it turned out that Jennings got nothing more than he deserved, and there the matter dropped.

Pennsylvania Railroad—Change of Time.—The time for the arrival and departure of trains on the Pennsylvania Railroad has been materially changed. The through mail leaves at 2:30 a. m., instead of 3:50 a. m., as heretofore, and the through express at 12:20 a. m., instead of 4:00 p. m., while the fast line, which left at 8:05 p. m., takes the place of the through express, leaving at 4:00 p. m. Returning, the trains reach here as follows: Express, 11:50 a. m.; mail, 11:50 p. m.; fast line, 12:20 a. m. There is also a slight change in the time of the arrival of the Johnstown accommodation. Other trains are without change of time. These changes take effect to-day.

Post Office Affairs.—The following appointments have been made for Pennsylvania: Joseph S. Hahn, postmaster at Millersburg, Centre county, vice John S. Proudfoot, removed. Jos. C. Schoeneost, postmaster at Putneysville, Armstrong county, vice David Putney, removed. Joshua A. Sedwick, postmaster at Butler, Butler county, vice Daniel Cell, removed. John English, postmaster at Perrysville, Allegheny county, vice John Keown, removed.

The Ladies of Mansfield.—The members of the Chartiers Valley Guards, Captain C. Barnes, take pleasure in returning their most heartfelt thanks to the ladies of the loyal town of Mansfield, for the noble hamper of delicacies, in the shape of butter, eggs, pies, preserved fruits, etc., so kindly and spontaneously sent them through Dr. Jos. P. Webb and Thomas E. Kirkbride, who, with some expense and much trouble, delivered the articles safely into camp.

Another Company for Camp Wright.—The Washington Blues, of Blairsville, under command of Capt. Nesbitt, arrived in the city yesterday, preparatory to going into Camp Wright. They dined at the Mansion House, where an excellent dinner was prepared for them by order of Hon. John Covode. They presented a very fine appearance, and reflect credit upon their native county.

Accident to a Pittsburgh Volunteer.—On Tuesday night last, as the thirteenth Pennsylvania Regiment, Col. Rowley, was passing through Carlisle, on the Cumberland Valley Railroad, Martin Kane, of Co. I, fell from the platform upon a paved street, and was severely injured. He was attended by Dr. Smith, and has been suffering from congestion of the brain. At last accounts he was doing well.

The Stay Law.—A married lady wishes to know if the stay law recently passed by the Legislature will not compel her truant husband to stay at home o' nights? Who can enlighten her?

Yesterday at Camp Wright—New Companies in the Camp, &c.

Three companies went up, yesterday, from Camp Wilkins to the new camp—the Government Guards, Capt. Anderson; City Guards, Capt. Jackson; the Union Volunteers of Fayette county, Capt. Bierer.

Two other companies were taken into camp—the Indiana National Guards and the Washington Blues, of Blairsville. These are very good companies. The former company has the following officers: Captain, J. R. Porter; 1st Lieutenant, D. S. Porter; 2d Lieutenant, H. K. Sloan. The members were each presented, by the young ladies of the borough, with a neat pocket Bible. The Captain of the latter company is Mr. Nesbit, who will make a very good officer. This company was accompanied to the new camp by Capt. Graham, of Westmoreland, who is a good man and true. Long may he prosper.

Gen. Irwin, the Commissary General of the State, paid his first visit to the new camp yesterday. He is well pleased with the management of the camp. Indeed, the supervision of Major Weaver should ensure good management. He is assisted by M. S. Welsh, Esq., clerk, and Messrs. J. P. Snowden and Frank Welsh, Wag. Masters. With such aids and his own administrative abilities, Maj. Weaver cannot fail to succeed.

Through Major Weaver, the ladies of the Benevolent Society of the M. P. Church, presented to the companies a large number of shirts and towels.

Two deserters, we are sorry to say, tried the experiment of leaving the Washington company. They will have a hot time of it. The men who compose that company are brave and true patriots, and a deserter from their ranks will be dealt with as he deserves.

We learned, to-day, from Gen. Irwin, what not all of our people really know, that there are but five State camps in Pennsylvania—Camp Curtin, at Harrisburg; Camp Washington, at Easton; Camp Wayne, at West Chester; Camp Wilkins, at Pittsburgh, and Camp Wright, at Hulton.

It is very amusing to go round among the tents and see the eccentric names adopted for them by the different messes. The Beaver company, the Curtin Rifles, have the "Mud Sills," "Ellsworth Avengers," "Jolly Boys of Beaver," "Gay Boys of Rochester," "Bridgewater Buffs," "Funny Hill's Varieties," and "Beaver and Baden Rangers." Three young men have named their quarters an Oyster Saloon, while a mess containing one man 6 feet 4, one 6 ft. 4½ and one 6 ft. 4½, is appropriately named "Shanghai, No. 3."

In the Washington company, they have the "Buzzard's Roost," and the "Lion's Den," the "Wild Tiger's Nest," and the "Blue Goose's Nest," the "Four Wild Horses," the "Jolly Family," and the "Eagle Tent." The latter is ornamented by a rather rude representation of an eagle with a streamer in its mouth, on which are the words—Death to Traitors.

Several new companies will be taken up to the Camp to-day.

The Number Killed at Philippi.

Notwithstanding the many conflicting accounts of the loss of the rebels at Philippi it is becoming pretty clear that a good many of the fugitives bit the dust. Their policy appears to have been the same as at the siege of Sumter, to conceal their real loss, and to do this they piled the dead and wounded in wagons and fled with them as precipitately as they could. We conversed, says the Wheeling Intelligencer, with a gentleman who left Philippi Saturday afternoon, and he says it is now generally conceded there that a good many were killed—not less than 40 or 50. He had talked with a Mr. Shuttlesworth who resides near Philippi, and Mr. S. told him that on a hill, some four miles beyond Philippi, near the Beverly road, he had that day seen about forty newly made graves. Who were buried in them he did not know, but the graves were there. The gentleman who gives us this information is a man of unimpeachable veracity, and he says the same of Mr. S. If this be true, and considering that their best men would not be buried there indiscriminately but would be taken on home for interment, we may begin to conclude that there was somebody hurt at the battle of Philippi after all. Perhaps this was what they had been doing with the spades, picks and shovels which Col. Venum's messengers reported them as having with them. They needed them to bury their dead more than for fortifying. The only pity seems to be that the gallows should be so cheated of its dues.

An Opportunity for Investment.

To those of our fellow-citizens desiring a sure and safe investment which will realize them six per cent. interest, we call attention to the proposals for the State Loan, which are to be opened on the 13th instant. This Loan can be had in certificates of one hundred, five hundred, or a thousand dollars, bearing six per cent. interest free of any taxation whatever, and the interest and a sinking fund for the principal has also been provided for by the Legislature. And this affords every citizen an opportunity also of manifesting their patriotism by coming forward to sustain our noble Commonwealth in her efforts and exertions in behalf of our General Government, which is at this time engaged in putting down Treason and Rebellion. Let every man, then, who has one hundred, five hundred, or a thousand dollars to invest, come forward at once in response to the call of our State. Let us show the Southern Traitors that while they cannot get their loan taken at any price, that the citizens of Pennsylvania are ready to back up their State to any amount in her defence of the Union, the Constitution, and the Laws.

Theatre.—To-night, the public of Pittsburgh will have another chance to witness the splendid acting of Mr. C. W. Couldock, in his greatest character, that of Luke Fielding, in the interesting drama of the Willow Copse. Mr. Couldock has made this part entirely his own, and we doubt very much if there is another actor now "treading the boards" who will begin to make a comparison with Pittsburgh's favorite representative of the old grey-haired farmer. All who would spend an evening of real enjoyment should attend the Theatre to-night. Mrs. Ettie Henderson personates Rose, and judging from the perfect manner in which this lady performs all parts allotted her, there is no reason to doubt that full justice will be done the character she assumes this evening.

A Dreary Sentence.—The man Edwards, who was recently implicated in the murder of Otho Farmer, near Sunfish, has been sentenced to the Penitentiary for life. The prisoner's father, who is said to have aided and abetted the murder, is still in jail awaiting trial. Farmer was an old man, and the quarrel in which he lost his life was the result of an enmity of long standing between the parties.

Rev. Theodore Lyman.—At a meeting of loyal Americans in Paris, a subscription was started for the purpose of purchasing rifled cannon. Up to latest date the amount had reached 40,000 francs, ($8,000.) Among the names of subscribers we notice that of Rev. B. Lyman, of Trinity (Episcopal) Church, for $200.

Pittsburgh Secessionists.—Among those who have enlisted in the rebel service, at New Orleans, are George M. Brisbin, printer, formerly of this city, and John Lyons, of Allegheny. They are both Lieutenants in a volunteer company.

Change of Time.—The trains on the C. & P. R. R. now leave the Union Passenger Depot, Liberty street, at 12:35 a. m., 6:05 a. m., 12:10 and 4:00 p. m. Trains run by Columbus time, which is 13 minutes slower than Pittsburgh time.

Traitors About.—A few nights ago Mr. Selah, watchman on the Northern Central Railroad bridge a few miles below York, had a lighted lantern shot from his hand, by some cowardly assassin, who fled after discharging his weapon.

Reopened—Since the 1st of June, 1861, M. W. Cimiotti's Summer Resort, Phillipsburg, Beaver county, Pa. 1mo

RELIGIOUS NOTICES.

Prayer Meeting.—A Prayer Meeting in behalf of our Country will be held EVERY MORNING, at 9 o'clock, in the Lecture Room of the First Presbyterian Church, Wood street. my27-tf

United Prayer for the Country.—Christians of all denominations meet every afternoon at 4 o'clock, at the Lecture Room of the First Presbyterian Church in this city, to pray for the country and our brave friends who are leaving us every day to defend it in this day of darkness and peril. All are cordially invited to come, for except the Lord keep the city, the watchman waketh but in vain.

A Daily Prayer Meeting is held in the Second United Presbyterian Church, on Sixth street, (Dr. Presley's,) at 4 o'clock in the afternoon, to which all are cordially invited who desire to unite in prayer for our Country, our Magistrates and our friends who are offering themselves willingly for our defence in this our time of need. my20:tf

To Horse Owners.

DR. SWEET'S INFALLIBLE LINIMENT FOR HORSES is unrivaled by any, in all cases of Lameness, arising from Sprains, Bruises or Wrenching, its effect is magical and certain. Harness or Saddle Galls, Scratches, Mange, &c., it will also cure speedily. Spavin and Ringbone may be easily prevented and cured in their incipient stages, but confirmed cases are beyond the possibility of a radical cure. No case of the kind, however, is so desperate or hopeless but it may be alleviated by this Liniment, and its faithful application will always remove the Lameness and enable the horse to travel with comparative ease.

Every horse owner should have this remedy at hand, for its timely use at the first appearance of Lameness will effectually prevent those formidable diseases mentioned, to which all horses are liable and which render so many otherwise valuable horses nearly worthless.

Blood Food.—Attention is called to this most remarkable and scientific preparation, advertised in another column. It is an entirely new discovery, and must not be confounded with any of the numerous patent medicines of the day. It is a certain remedy for all the diseases specified, and especially those of a chronic nature—of long standing—of weeks, months, and years. Sufferers, try it!

Messrs. Church & Dupont, of New York, are the sole agents for it, and also proprietors of the world-renowned Dr. Eaton's Infantile Cordial, an article which every Mother should have in her medicine closet in case of need, and containing, as it does, no paregoric or opiate of any kind, it can be relied upon with the utmost confidence, and will be found an invaluable specific in all cases of infantile complaints.—Ohio State Journal, Columbus.

A Rebel Lawyer in an Uncomfortable Situation.

A Secession lawyer, named Ben Martin, a resident of Pruntytown, Va., and who was with the rebel forces at Phillippi when it was surprised by the Federal troops, was captured under the following ludicrous circumstances:

"Ben heard the first shot from the Indiana boys, about as quick as any other man, and rushed for the stable and commenced harnessing up his horse, but had merely time to throw the gearing over the animal's back, before some dozen or more soldiers rushed into the stable. Ben heard them coming, and, as the safest plan which suggested itself, he crawled under a pile of hay, as far as he could, and succeeded in concealing his entire person. The soldier seeing the horse only partly harnessed, and not having observed any one leave the stable, had a strong suspicion that there was somebody about. In order to satisfy themselves on this point, they went about thrusting and jabbing their sharp bayonets into the hay. Ben's feelings at this juncture may be imagined. Some of the soldiers were "full of strange oaths," and continued to stick their bayonets into the hay with an unnecessary vigor. Ben was tolerably sure that he would be slaughtered if he came out, and knew he would be killed if he didn't. He remained in this delightful state of mind for some time, and at last raised straight up with about a ton of hay on his back, and asked for quarter. He told the boys that he had been thinking very seriously about this secession business—within the last twenty-five moments, and he had concluded that it wouldn't pay. He consented to take the oath of allegiance, and upon doing so, was released. It is said that Ben afterwards went back to Pruntytown, and was heard to remark, in the presence of a prominent secessionist, that the thing was played out, and ought to be stopped. He was coerced."

Troops from Wisconsin.—We learn that Col. Starkweather's Regiment, of Wisconsin volunteers, 800 strong, will arrive in this city by the Cleveland and Pittsburgh Railroad, at five o'clock this morning, en route for Washington. They occupy eighteen passenger and six baggage cars.

STATE INSPECTOR OF DOMESTIC DISTILLED SPIRITS, FOR THE COUNTY OF ALLEGHENY:

JOHN SMITLEY.

Office, No. 12, corner Diamond Alley and Diamond.

Orders left with Joseph Ross, 12 Diamond street, will be promptly attended to.

The attention of the trade is respectfully called to the following sections of the law, in regard to Inspections, from Purdon's Digest:

Section 12, page 264.—If any person shall export or lade for exportation, from the Port of Philadelphia, any distilled spirituous liquors, liable to inspection as aforesaid, before the same shall have been inspected and marked according to law, such person shall forfeit and pay ten dollars for every barrel, and twenty dollars for every double barrel and hogshead or other cask or vessel containing such liquor so exported or laden, to be recovered by the inspector aforesaid, for the use of the city and county of Philadelphia, for the use of the Poor of said city and county.

Section 14, page 264.—All liquors sold by inspection at the Port of Philadelphia, shall be inspected and gauged by the inspectors of domestic distilled spirits, appointed as aforesaid.

Section 23, page 265.—Any person who shall hereafter act as inspector or deputy inspector of domestic distilled spirits, in the city or county of Philadelphia, not being legally authorized for that purpose, shall, for every such offense, forfeit and pay the sum of twenty dollars, one-half for the use of the Commonwealth and the other half for the use of any person suing for the same; and shall, likewise, be deemed guilty of a misdemeanor, and upon conviction thereof shall for every such offense, suffer an imprisonment in the county jail for a period of thirty days.

Section 24, page 266.—Every person who shall counterfeit, forge or fraudulently impress, or make the brand mark, or any number or other mark of any such inspector, or a mark or number in imitation thereof, upon any article subject to inspection, or upon any cask or other vessel containing such article, or shall fraudulently alter, deface, conceal or erase any inspection mark, duly made, shall, for every such offense, be deemed guilty of a misdemeanor, and be punishable by a fine not exceeding three hundred dollars, or by imprisonment not exceeding six months, at the discretion of the court having jurisdiction of the offense.

Section 26, page 266.—Every person who shall counterfeit, forge or fraudulently impress upon any article liable to inspection, or upon any cask or vessel containing such article, the brand mark or other mark of any inspector, or shall fraudulently impress the brand mark or other mark of any inspector, upon any such article or vessel, shall be deemed guilty of a misdemeanor, and shall be punishable by a fine not exceeding three hundred dollars.

A further Supplement, relative to the Inspection of Liquors approved the 21st day of April, 1858:

That all domestic distilled spirits for sale at the port of Philadelphia, whether for exportation or otherwise, shall be inspected and gauged by the duly appointed inspectors of domestic distilled spirits, or their deputies, in the manner now provided by law, and if any other person shall inspect such liquors, he or they shall, for every such offense, be liable to all the fines and penalties set forth in the 23d section of the Act of the 12th of April, 1819.

An Act authorizing the Governor to appoint an Inspector of Domestic Distilled Liquors for the county of Allegheny:

Section 1. Be it enacted by the Senate and House of Representatives of the Commonwealth of Pennsylvania, in General Assembly met, and it is hereby enacted by the authority of the same, That the Governor is hereby authorized to appoint an Inspector of Domestic Distilled Liquors for the county of Allegheny, whose duties and compensation shall be the same as those of the Inspector of domestic distilled liquors for the city and county of Philadelphia.

The undersigned Inspector, being obligated by heavy bonds, and bound under severe penalties for the faithful performance of his duties, intends most respectfully but firmly to enforce the above sections and all other laws appertaining to the inspection of domestic liquors.

THE LATEST NEWS.

BY TELEGRAPH.

RECEIVED AT THE DAILY GAZETTE OFFICE.

FROM WASHINGTON.

Special Dispatch to the Pittsburgh Gazette.

WASHINGTON, June 10—Evening.

The Government troops have been moving all day. About six thousand have already left for points north and west of Washington.

The Rhode Island Regiment and Battery, as is supposed, have gone to a point east of Harper's Ferry, [illegible]

A troop of United States Dragoons have gone to the Relay House, and will move thence to Frederick, Md.

The First Pennsylvania Regiment, and four Battalions of District troops, together with the First New Hampshire and Ninth New York Regiments, also left. The supposed object of these movements is to cut off the anticipated advance of the Rebels from Harper's Ferry eastwardly towards the Capital, and at the same time to keep in check the disaffected element in Baltimore.

The plan of Jeff. Davis is to strike Washington from Maryland, as is reported.

At Alexandria, all is quiet at this hour. D. L. E.

[This confirms the programme of the operations of the rebels, as detailed by the special correspondent of the New York Tribune, and published elsewhere in our paper.—Eds. Gazette.]

Washington, June 10.—The explanation made by the friends of James E. Harvey, Minister to Portugal, in relation to an alleged complicity with secession, is as follows: Mr. Magrath, to whom Harvey sent the dispatches, has been his friend from boyhood and constant correspondent, with whom he communicated unreservedly, being very anxious that a conflict of arms should be avoided; and believing that the troops were to be removed, he telegraphed to his friend, to prevent an attack; but when he discovered his mistake, he felt himself in honor bound to communicate that fact, just as he had done the other—as otherwise it might have been supposed that he had intentionally misrepresented the case, for the purpose of leading them into trouble. It was an unpleasant situation; but not having received his information from the Government, there was no other course for him than to protect his own honor; and it was well known, both here and in Charleston, that he opposed secession in all its forms. He did not anticipate misconstruction on that point anywhere.

The Rhode Island Regiments break up their camp at midnight and leave per railroad in the direction of Harper's Ferry early to-morrow. Their marine battery was to-night brought into the city, taken to the railroad depot, unlimbered and loaded on the train, together with the artillery horses and those belonging to the fall staff, at six o'clock this evening.

Professor Allen, of Rhode Island, this afternoon brought into the city a large balloon, which he inflated from the city gas pipe at the corner of Massachusetts Avenue and Fourth street, and afterwards loaded it down with sand bags for more convenient transportation to the Rhode Island Camp, about one mile north of the Capitol, at which place a cord five thousand feet long was attached to the basket, and an experimental ascension made to that heighth. The balloon is for immediate reconnoitering purposes, and it is said that he will start on his aerial voyage early to-morrow morning.

It is also said that several other regiments are under orders for a movement at day break.

The Third, Fourth and Fifth Battalions of the District of Columbia volunteers are also under similar orders. They believe they are to go to Frederick, Maryland.

Washington, June 10.—A lady of undoubted veracity, who was within full view of the batteries at Acquia Creek, when attacked by the steamer Freeborn, communicates to her relations in Washington the fact that fifteen were killed to her certain knowledge, and she has no doubt that as many as fifty were killed, beside a large number wounded. She says that every effort was taken to conceal the fact, even from the friends of the victims, and that as fast as any casualty occurred the sufferer was removed to the woods for concealment. She says the batteries contained 400, including the troops. The studied concealment of the rebels in respect to their loss in the second and third attacks at Acquia Creek, more than a week ago, taken in connection with the circulation of the news of their escape from loss in the first attack, affords a strong presumption that the casualties in the two last engagements were serious.

The President made the following appointments to-day: Charles A. Washburne, of California, Commissioner to Paraguay; Edward Joy Morris, of Penna., Minister resident at Constantinople; Henry T. Blow, of Missouri, Minister resident at Venezuela; Charles M. Riotte, of Texas, Minister resident at Costa Rica; Samuel Whiting, of New Jersey, Consul at Nassau, New Providence.

The administration has resumed diplomatic relations with Peru, suspended by President Buchanan. He has appointed Christopher Robinson, of Rhode Island, envoy extraordinary and Minister Plenipotentiary to that country.

The Secretary of War has addressed a letter to Surgeon General Wood, of the army, in which he says that during the present war, the forces being made up chiefly of volunteers, the public sentiment and the humanity of the age requires that the services of women, as nurses, should be made available in the general hospitals, where, except in a very humble department, they have heretofore been excluded. As many carefully selected women are in training in various cities of the loyal States, it is the order and wish of the Department that women should be substituted for men in the general hospitals, whenever it can be effected, and that such women as have received previous training for the purpose, be accepted as nurses, except when they can no longer be had, and it is ordered that none be received except those who have presented their application to a lady appointed by the Department to preside over the volunteer nurses, and who shall have some authority to accept nurses, requiring their age to be above 30, with certificates of character and capacity. Miss Dix has been appointed Superintendent of the women nurses, with the exclusive charge of accepting such as she may deem proper for the service. The transportation, subsistence and wages of such nurses as may be accepted by her are to be paid from moneys that would be expended in the wages and support of men nurses, or are derived from the usual source of hospital service.

Washington City, June 10.—The fortifications at Arlington Heights have already become very formidable, and would require an immense force to take them from the federal troops. Company B, of the 2d Cavalry, under Lieut. Tompkins, is there, with no trace of the severe skirmish at Fairfax Court House, and is ready to fight again at a moment's notice. Two of the five Secession prisoners recently captured by the 69th and the Cavalry, have been released, but the others are in the guard house. All the troops at Alexandria are in good health and fine spirits.

Maj. Gen. Banks has left Washington to assume command of the department at Annapolis. He has not yet selected his staff.

Information has been received here that letters from seceded States, brought to the west, have no additional postage charged, as required by Postmaster General Reagan's official programme, thus showing that his system is not yet in operation. Postmaster Blair, it is said, will require persons receiving letters from Confederate States to pay postage, notwithstanding they bear prepaid stamps, which are regarded as having been stolen by the seceded States from the Government of the United States, and therefore are not entitled to credit, no equivalent having been received for them.

Washington City, June 10.—The Hon. John Cochrane, of New York, was to-day authorized by the Secretary of War to have mustered for immediate service, under a U. S. Commissioner for 3 years, a regiment of infantry, to be raised and commanded by himself as Colonel.

The Postmaster at Nashville, Tenn., having refused to obey the laws and regulations issued from this Department, and having resigned his office, it is ordered by the Postmaster General that that office be discontinued until further orders, and that all mail matter directed to that office, be forwarded by all postmasters immediately to the dead letter office at Washington, to be disposed of according to law. [Signed] John A. Kasson, 1st Assistant Postmaster General.

Washington City, June 10.—The non-payment of the troops, which is exciting some comment, is caused by the absence of the necessary pay rolls. There is no lack of money, or of a disposition on the part of the Government to pay them so soon as the requisite forms can be complied with, this temporary inconvenience will be remedied.

A recent general order of the War Department is as follows:—2d Lieutenant McCreary, 4th Artillery, having tendered his resignation when in the face of the rebels, his name will be struck from the rolls of the army. [Signed] L. Thomas, Adjutant General.

The 2d Michigan Regiment arrived here early this morning. Several of the members report that in the neighborhood of Baltimore, stones were thrown at them, when shots were fired at the rioters, and one was killed.

The Rhode Island Regiment left here this morning by railroad, taking with them their Maine battery. Their destination is supposed to be Harper's Ferry. About 80 cavalry proceeded in an opposite direction, and were last seen in the vicinity of Georgetown. Infantry movements are contemplated in the same direction.

So far as the Government is concerned, the plans of the campaign are properly concealed.

Some of the District of Columbia volunteers left here about 8 o'clock this morning, on foot, taking with them camp equipage, a bountiful supply of provisions, and entrenching implements.

Baltimore, June 10.—Great activity prevailed last night in the transportation of war materials, horses, troops, etc., from the Washington depot to that of the Northern Central Railroad. Howard street was in a bustle the whole night from loaded cars passing up and horse teams returning to draw fresh loads.

After making the most diligent inquiries about the reported attack on the Michigan Regiment, your correspondent believes it wholly untrue. In fact large numbers thronged the streets from depot to depot, and the correspondent accompanied them the entire way. Not an unpleasant remark was heard, but many expressions of kindness and admiration.

Cleveland, June 10.—The First Wisconsin Regiment, Col. Starkweather, passed through this city this afternoon for Washington. The men were fully armed and equipped, and made a fine appearance.

Cincinnati, June 10.—The 11th Indiana Zouaves, Col. Wallace, reached Cumberland this morning and took the town.

LATEST FROM EUROPE.

Arrival of the Fulton.

New York, June 10.—The steamship Fulton, from Havre, via Southampton, on the 29th, arrived here early this morning. Her European advices are three days later than those previously received.

Commercial.—Liverpool, May 29th.—The sales of cotton on Monday and Tuesday reached 18,000 bales, the speculators and exporters taking 6,000 bales. Tuesday's market closed firm. The estimated sales to-day are 12,000 bales, the market closing steady.

Breadstuffs.—The market was generally dull, but wheat was firm. Flour had declined 16d. Corn was active; mixed 31s; yellow 32s@32s 6d; white 33s@34s.

Consols 91⅞@91¼.

The following is an extract from Russel's letter to the London Times:

"Savannah, Ga., May 2.—May day was so well kept yesterday that the exhausted editors cannot bring out their papers and consequently there is no news; but there is, nevertheless, much to be said concerning our President's Message, and there is a suddenness of admonition for pacific tendencies which can with difficulty be accounted for, unless the news from the North these last few days has something to do with it. Not a word now is said about an instant march on Washington; no more threats to seize on Faneuil Hall. The Georgians are by no means so keen as the Carolinians on their border; nay, they are not so belligerent to-day as they were a week ago. Mr. Jefferson Davis' message is praised for its moderation and other qualities, which were by no means in such favor while the Sumter fever was at its height. Men look grave and talk about the interference of England and France, which cannot allow this thing to go on. But the change which has come over them is unmistakable, and the best men look grave. As for me, I must prepare to open my lines of retreat; my communications are in danger."

Arrival of the Arabia.

Halifax, June 10.—The steamship Arabia arrived to-day, with Liverpool dates to the 1st inst.

The steamship Hammonia arrived out on the 30th ult.

The Arabia has 150 passengers. She is said to have no specie, but another report says her specie list amounts to £83,500.

The steamer North America put into Queenstown on the 1st inst., with screw damaged.

The steamer Africa arrived out on the 2d inst.

The proceedings of Parliament on the 31st ult. were unimportant. The House of Lords are debating the expediency of encouraging the cultivation of cotton in India.

Count Cavour has been dangerously ill, but, at the latest dates, was better.

Prince Gortschakoff, the Governor of Poland, is dead.

The Americans at Paris have held a Union meeting at which speeches were delivered by Fremont, Dayton, Clay and Burlingame.

Commercial.—Liverpool Cotton Market.—The sales of the week were 67,000 bales, including 10,000 for speculation and 10,500 for export. The market closed quiet and plentifully supplied. The prices favored the buyers except for good staples. On Friday the estimated sales were 10,000 bales, including 2000 for speculation and export. The market closed heavy. Orleans fair 8¾; Orleans middling 7⅞; Mobile fair 8½; Mobile middling 7 11-16; Uplands fair 8¼; Uplands middling 7 11 16. The stock in port was 1,151,000 bales, including 800,000 of American.

The Manchester market was generally unchanged, but more was doing for the same articles.

Liverpool Breadstuff Market.—The market was generally unchanged.

Provisions quiet.

London, May 31.—Consols 91⅞ for money, and 92 for account.

Cincinnati, June 10.—A special dispatch from Indianapolis to the Commercial, says: "There are still two regiments here of the first six, and four more of the second levy, all well armed and uniformed, and will compare favorably with any troops in the field. They are all anxious to go forth to war, and are expecting to receive their marching orders soon.

The Twelfth Regiment State Troops, Col. John M. Wallace, paraded the streets yesterday. Four weeks ago these were at their homes and now they are ready for marching orders, fully equipped and well drilled.

Quartermaster Vajin left for New York and Montreal last night to close the contract for four thousand Minie rifles.

Over one hundred and one companies have organized under the new military law, being armed and equipped in good style.

Special Dispatch from Grafton to the Commercial.—The Eleventh Indiana Zouaves passed through to Cumberland to-day, where they will join Gen. Patterson's command.

Reports from Cheat Mountain Pass state that quite a number of rebels are entrenched there; a few are at Beverly and others are in camp at Huttonsville; but they are represented as being demoralized, and that companies are disbanding. They report that ten thousand abolitionists came down upon them at Phillippi, but that they cut their way through, killing one thousand men. They admitted at Beverly of losing thirty men.

Prominent secessionists were shot in Friday in Randolph county, Va., while warning the Union men to obey Letcher's instructions.

Special Dispatch to the Grafton Gazette.—Gen. Morris has issued the following proclamation in connection with that of Gen McClellan:

HEAD QUARTERS OF U. S. VOLUNTEERS, Western Va., Grafton, June 8, 1861.

To Virginians:—On issuing the above proclamation of the Commanding General of the War Department of Ohio, I have now the pleasure of announcing that we have routed and completely discomfitted the Secessionists in arms at Philippi. Their forces are demoralized; desertions are numerous, and the panic stricken remnant have taken refuge in the passes and mountains. Western Virginia is free from enemies to her freedom and peace. In full confidence of your ability and desire to protect yourselves, I now call upon you to come to the support of your Constitutional Government. I am empowered to muster you into the service of the United States, to serve only in the defense of your own soil; arms and ammunition will be furnished you. Assemble at once at your various county seats, and report to me for instructions. Cavalry and infantry will be received at once. Signed T. A. Morris, Brig. Gen. Commanding U. S. troops at Philippi.

The troops are anxious to march on Huttonsville, but nothing is known of the intended movements.

Hagerstown, June 10.—Friends of Gov. Hicks, Senator Goldsborough and the Secretary of State, arrived here this morning from Frederick. They have visited Gen. Thomas's Brigade and asked for the protection of Frederick. Gen. Patterson will immediately advance a brigade to that point, and it is understood that they will march to-day. Disloyalty is very strong at Frederick among the members of the Legislature.

Gen. William's 3d brigade, consisting of the 7th, 8th and 10th regiments and the 20th regiment and Scott Legion, reached Greencastle yesterday, and forward movements must be made towards this point to-day or to-morrow.

Positive information has been received here of the destruction of dam No. 4, on the Potomac, and it excites great indignation among the people of Southern Maryland.

All the members of the 1st city troop are well, and but very little sickness prevails among the Scott Legion. None are seriously ill. Good health generally prevails in Col. Dare's 23d and Colonel Ballier's 21st regiments.

There is a report of a conflict at Dam No. 5, on the Potomac, originating in an attempt by the Virginians to complete the destruction of that work. This, it is said, they renewed this morning, and were resisted by the Home Guards of Clear Spring and Williamsport, and that the engagement is now going on. No particulars have yet reached here, but an express has been sent and full particulars will probably be received to-night, as the distance is only fifteen miles.

The Virginians are escaping in great numbers; twelve crossed at Licking's creek, 12 miles above Dead Spring, last night, and 21 are expected to-night. Every man in Virginia, between the ages of 18 and 60, are required to enter the service on or before Thursday next.

A Virginian, just arrived, says the secessionists claim to have 15,000 men at Harper's Ferry, but the Union men in Virginia say there are not more than 9,000.

The Berkley Border Guards and the Clark Rifles left Martinsburgh on Saturday for Harper's Ferry. They numbered 150 men. The Rifle Rangers from Winchester are stationed at Martinsburgh.

It is reported that there are six pounders close to Williamsport, on the Virginia side, concealed from view.

Raleigh, N. C., June 10.—The permanent Constitution of the Confederate States was ratified unanimously by the Convention.

Satisfactory from Abroad.

The Washington correspondent of the N. Y. Evening Post, writes to that journal on Saturday:

"It is given out here to-day, on apparently the best authority, that the late dispatches from Europe were of the most favorable tenor.

France, it is said, is open and above board, in her expression of friendship to the federal government, and in her determination to support the nation as it is, in every proper way.

The same authorities declare that Lord John Russell is beginning to discover that he has been too precipitate in his recognition of the belligerents. There has been a perceptible modification of opinion in the British Councils, and England will prove true, not to the prejudices of her ministers, but to the great instincts of the British people.

This intelligence has given great satisfaction to those to whom it has been communicated."

To the above the Post adds the following editorial:

"We have other authority, besides that of our correspondent at Washington, that information received at the State Department is very decided and positive as to the attitude which will be hereafter assumed by the British Minister.

Mr. Adams, in a consultation with Lord John Russell, has obtained such assurances of the disposition of the Cabinet as will prove abundantly satisfactory in this country.

France has never allowed her feelings to be doubted for a moment, and Prussia is most emphatic in her declarations of approval and sympathy."

RIVER NEWS.

The river continues to recede slowly at this point, with 6 feet 2 inches in the channel by the pier mark last evening. The weather was clear and oppressively hot in the sun......There was but little activity at the wharf yesterday. The receipts, however, were moderate, and considerably in excess of the shipments......The arrivals since our last were the Emma Graham from Zanesville, Lavina Logan from Parkersburg, and W. I. Maclay from St. Louis, all with moderate trips. The Sallie List from Portsmouth had failed to arrive up to last evening, but will doubtless be found at the wharf this morning. She returns again as usual on Wednesday at 10 A. M.

The Florence, Capt. Brickell, is announced to leave for St. Louis and the Upper Mississippi this evening. She is just a new boat, and has fine accommodations for passengers. ......The punctual steamer Emma Graham, Capt. Ayers, leaves promptly to-day at 4 P. M. for Zanesville and all intermediate points. Mr. W. G. Wilson, the accommodating clerk, will see that passengers and shippers receive every attention.

In addition to the above the following boats are loading and will be ready to clear during the week: The Mary Cook, Capt. Frisbee, for Cincinnati and Louisville; Dacotah, Capt. Hendrickson, and Anglo-Saxon, Capt. Dalzell, for St. Louis and the Upper Mississippi.

The St. Louis Democrat of Saturday, says:

A boat is actually loading for Pittsburgh, and goes this evening. It is the bold John Bell, Capt. Tom Voorhees. The Bell was getting along very well yesterday. She has one lot of flour, and a lot of fire clay for Pittsburgh.

Proposals for Furnishing Mail Locks.

POST OFFICE DEPARTMENT, April 22, 1861.

SEALED PROPOSALS for furnishing mail locks and keys of new kinds, to be substituted for the locks and keys now used on the United States mails, will be received at this Department until nine o'clock a. m. the tenth day of July, 1861.

It being desirable to obtain locks and keys of a new construction, and invented expressly for the exclusive use of the United States mails, no model is prescribed for bidders; the Department relying for its selection on the results of mechanical skill and ingenuity which a fair competition, now invited, may produce. It is deemed necessary only to state that a mail lock should be self-locking, and that its other principal requisites are uniformity, security, lightness, strength, durability, novelty of construction, and facility of use.

Two kinds of mail locks and keys—one of brass and the other of iron—different in form and construction, are required; and proposals should specify, separately, the price of each iron lock, each key for same, each brass lock, and each brass key for same.

Duplicate samples or patterns of each kind of locks proposed, are required to be submitted with the proposals; one of each kind of sample locks to be riveted up and finished, and another to be open or unriveted, so that its internal structure may easily be examined. Every sample should be plainly marked with the bidder's name.

The locks offered should not be patented, nor should their internal construction be otherwise publicly known, or be similar to any locks heretofore used; and they must be warranted not, in any way, to infringe or interfere with any patented invention.

The various sample locks presented by bidders will be submitted to a board of examiners, to be commissioned by the Postmaster General, for the purpose of examining and reporting on them; and, unless the Postmaster General shall deem it to be for the interest of the Department to reject all the proposals and specimens submitted under this advertisement, contracts will, upon the report of the examiners, be entered into, as soon as practicable, with the successful bidder whose locks are adopted, for furnishing similar locks and keys for four years, as they may be required and ordered; with the right, on the part of the Postmaster General for the time being, to extend and continue the contract in force for an additional term of four years, on giving notice, in writing, to the contractor, not less than six months before the termination of the first term of four years; or, at the expiration of the first term of four years, to contract with any other party for furnishing similar or different locks and keys, as the Postmaster General may determine.

The contractor must agree and be able to furnish, if required and ordered, 6,000 brass locks and 600 brass keys, within three months from the time of entering into contract, and 30,000 iron locks and 30,000 iron keys, within eight months from such time. But the Postmaster General will reserve the right to increase or diminish, as the wants or interests of the service may demand, the quantities of the locks and keys above specified, with a proportionate allowance of time to furnish them.

All the locks furnished by the contractor must be warranted to keep in good working order for two years, in the ordinary use of the service, when not subjected to obvious violence; such as become defective, during that time, to be replaced with perfect locks, without charge.

The contractor will be required to deliver the locks, at his own expense, at the Post Office Department, Washington, D. C., put up on sticks, for airing separate [illegible] five locks each, and securely packed in wooden [illegible] containing not more than two hundred locks each [illegible] are to be delivered to an agent of the Department [illegible] duly and specially authorized in each case to take charge of and convey the same from the contractor's factory to the Department, where both locks and keys are to be inspected and approved before they shall be paid for.

The contractor will be required to give bond, with ample security, in the sum of twenty-five thousand dollars, for the faithful performance of the contract on his part, both as to furnishing the supplies ordered, and guarding the manufacture of the mail locks and keys with due privacy, integrity and care. No proposal will therefore be considered, if not accompanied with a written guarantee from the proposed sureties, (whose responsibility must be certified by the postmaster at the place of their residence,) that they will become responsible on the required bond, for the fulfilment of the contract by the bidder, in case such proposals be accepted.

In deciding on the proposals and specimens, the Postmaster General may deem it expedient to select the brass lock of one bidder and the iron lock of another. He therefore reserves the right of contracting with different individuals for such different kinds of locks as he may select.

Proposals should be carefully sealed, addressed to the Postmaster General, and endorsed on the envelop, "Proposals for Mail Locks."

M. BLAIR, Postmaster General.
