ALABAMA CLAIMS—We are informed that the most persistent and unyielding of the private citizens who have claims vs. the British Government are Dr. J. O. Ayer & Co., Lowell, Mass., the manufacturers of medicines. They will consent to nothing less than that their demand for medicines destroyed by the British pirates shall be paid in gold and in dollars to the last cent. They are emboldened by the fact that the destruction of their goods by the English in China and elsewhere (for where are not that troublesome nation trampling upon somebody?) has hitherto been paid in full, and they now say that they shall be. They however propose this compromise:—Give us Canada and we will call it even, because we can then send our remedies there without duty.—[Washington News.]

RAILROAD ACCIDENT NEAR DAGUSCAHONDA.—Last Saturday, 30th ult., local freight west, due here at 6:20 p. m., collided with empire freight east, a few rods from Daguscahonda station, causing the total wreck of six cars, laden with oats, wheat, cheese, eggs, and other merchandise. One car containing goods for W. C. Healy, W. S. Service, and G. G. Messenger, of this place, was driven by the force of the concussion to the top of the freight engine, but, happily, not a thing in the car was injured. The local freight had orders to wait at Daguscahonda until three sections of Empire Freight had passed. While waiting for the trains to pass the hands on the local west to sleep, but were awakened by the second section, of Empire Freight, passing them, which they mistook for third section and "pulled out," but did not get very far before they met the third section with above stated result. No blame is attached to the hands on local, as it is alleged that they had not had a night's sleep for ten days prior to the accident, and were, as a consequence, nearly worn out.

COUNTERFEIT money is not only to be looked out for at the present time, but mutilated bills also. A gang of ingenious men in New York, too lazy to get a living honestly, are flooding the country with these mutilated bills. They have a way of shipping off a piece and pasting together, so that they—ke ten five dollar bills out of what were originally nine. How true it is that "it takes all sorts of folks to make up a world."

Interesting Letter from E. L. Elzel. The following letter, written to Jas. Hagerty, of this place, explains itself: Brookville, Oct. 3d, 1871.

My DEAR SIR:—I have just learned that there is a report in circulation that my opposition to Mr. English has been settled. Such is not the fact. I will never vote for English. This county will give Wilcox from 500 to 800 majority. I can find scores of Democrats who will never vote for English and the number is increasing daily against him in the Borough of Brookville, the town where English lives, Wilcox will get 100 majority. Mark this in your diary. You are at liberty to make the contents of this letter public and I will just state look out for the lies English and his little crew can circulate. There never has been a more unpopular nomination made in this county by the Democratic party, and those who would like to be leaders cannot force the party to vote for such a man as English is. I have written this in a hurry, excuse all errors and believe me now and eternally opposed to English and always for Wilcox over him. Yours Truly, K. L. BLOOD.

P. S.—Tell Messenger and my Democratic friends in Ridgway to do all they can for Wilcox. He is sure to be elected. But we want to give them such a rebuke that it will never be forgotten.

CONSTITUTIONS BREAK DOWN.—Why do they break down? Because, too often, constitutional debility is either pronounced incurable, and left to take its course, or is mistakenly treated. Rouse flagging nature with the wholesome, stimulating properties of Hoofland's German Tonic, or invigorate the system with Hoofland's German Bitters, the counterpart of the Tonic to all except the alcoholic basis, and the failing constitution will soon recover its energy.

Biliousness, Nervous Complaints, Dyspepsia, Intermittent Fever, &c., always impair the constitutional stamina, as well as the muscular strength, and the effect of these remedies is simultaneously to expel the virus of disease, and repair its ravages. The British markets are being supplied with a new article of food, kangaroo tail. It is imported in tin cans like Australian mutton, and is called kangaroo venison. Those who have tried it give a favorable report of its qualities and it bids fair to become popular. An English journal says that those who are vegetarians because they object to the destruction of animal life can eat this meat without scruple, as the tails of kangaroos are so large that they must be an inconvenience to their owners; while by placing the animals under the influence of chloroform their tails can be painlessly amputated and packed in tins before they are aware of the operation.

"PUT A HEAD ON HIM."—The story that has been for some time afloat in relation to the origin of the slang phrase, "Put a head on him" is, without the slightest doubt, the false fabrication of the *Chicago Evening Journal*, the false fabrication of an imaginative mind, and it receives its refutation from Shakespeare himself, to whom must the credit be giving for having originated that chaste and expressive request. In the second scene of the first act of "Titus Andronicus," the original is used by Marcus Andronicus, but the lapse of time has caused a slight change to be made, and what is now the plain, straightforward "Put a head on him" was at the time—

"Be candid, then, and put it on, And help to put a head on headless Rome."

ONE MILLION OF LIVES SAVED.

It is one of the most remarkable facts of this remarkable age, not that so many persons are the victims of dyspepsia or indigestion, but its willing victims. Now, we would not be understood to say that any one regards dyspepsia with favor, or feels disposed to rank it among the luxuries of life. Far from it. The general prevalence of this most prevalent of diseases, and which more frequently prove fatal, but none the effects of which are so depressing to the mind and so positively distressing to the body, if there is a wretched being in the world it is he.

Of all the multifarious diseases to which the human system is liable, there is perhaps no one so generally prevalent as dyspepsia. There are diseases more acute and painful, and which more frequently prove fatal, but none the effects of which are so depressing to the mind and so positively distressing to the body, if there is a wretched being in the world it is he.

A CONFIRMED DYSPEPTIC. We have said that dyspepsia is perhaps the most universal of human diseases. This is implicitly the case in the United States. Whether this general prevalence is due to the character of the food the method of its preparation, or the last manner in which it is usually swallowed, is not our province to explain. The great fact with which we are called to deal is this:

DYSPEPSIA PREVAILS. Nearly every other person you meet is a victim, an apparently willing one were for the name, why so many sufferers, when a certain, and safe remedy is within the easy reach of all who will avail themselves of it? But says a dyspeptic: What is this remedy to which you refer? This great alleviator of human suffering is almost as widely known as the English language. It has allayed the agonies of thousands, and is to-day carried in comfort and encouragement to thousands of others. This acknowledged panacea is Hoofland's German Bitters.

Would you know more of the merits of this wonderful preparation than can be learned from the experience of others? Try it yourself, and when it has failed to relieve the sufferance of its effects, given by the proprietor, then abandon faith in it.

LET IT BE REMEMBERED. First of all, that HOOFLAND'S GERMAN BITTERS is a pure beverage.

It is composed wholly of the pure juice of natural principles. This is not a mere assertion. The extracts from which they are compounded are prepared by one of the ablest of German chemists, their effects can be beneficial only in all cases of the bilious system. Hoofland's German Bitters stand without an equal, acting promptly and vigorously upon the liver; they remove its torpidity and cause healthful secretion of bile—thereby supplying the stomach with the most indispensable elements of sound digestion in proper proportion.

They purify the blood, cleansing the vital fluid of all harmful impurities and supplying them with the elements of genuine healthfulness.

Now, there are certain classes of persons to whom extreme Bitters are not only unpalatable, but who find it impossible to take them without positive discomfort. For such Dr. HOOFLAND'S GERMAN TONIC has been especially prepared. It is intended to be a slightly alcoholic stimulant is required in connection with the well-known Tonic properties of the pure German Bitters.

HOOFLAND'S TONIC acts with almost marvelous effect. It not only stimulates the flagging and wasting energies, but invigorates and permanently strengthens its action upon the Liver and Stomach, thorough, and less prompt than the Bitters, when the same quantity is taken is none the less certain. Indigestion, Biliousness, Physical or Nervous prostration, yield readily to its potent influence. It gives the invalid a new and stronger hold upon life, removes depression of spirit, and inspires cheerfulness. But Dr. Hoofland's benefactions to the human race are not confined to his celebrated GERMAN BITTERS, or his Tonic. He has prepared another, another medicine, which is rapidly winning its way to popular favor because of its intrinsic merits. This is HOOFLAND'S PODOPHYLLIN PILLS, a perfect substitute for mercury without any of mercury's evil qualities.

These wonderful Pills, which are intended to act upon the Liver, are mainly composed of Podophyllin, or the vital principle of the mandrake root. It is the medicinal virtues of this health-giving plant in a perfectly pure and highly concentrated form. The Podophyllin acts directly on the Liver, stimulating its functions and causing it to make its biliary secretions in regular and proper quantities. The injurious results which invariably follow the use of mercury is entirely avoided by their use. But it is not upon the Liver only that their powers are exerted. The extract of Mandrake contained in them is skillfully combined with four other extracts, one of which acts upon the stomach, another upon the bowels, and prevents any griping effect, thus producing a pill that influences the entire digestive and alimentary system, in an equal and harmonious manner, and its action entirely free from nausea, vomiting or griping pains common to all other purgatives.

Possessing these much desirable qualities the Podophyllin becomes invaluable as a FAMILY MEDICINE.

No household should be without them. They are perfectly safe, require but two for an ordinary dose, are prompt and efficient in action, and when used in connection with Dr. Hoofland's German Bitters, or Tonic, may be regarded as certain specifics in all cases of Liver Complaint, Dyspepsia, or any of the disorders to which the system is ordinarily subject. The PODOPHYLLIN PILLS act upon the stomach and bowels, carrying off improper obstructions, while the Bitters or Tonic purify the blood, strengthen and invigorate the frame, give tone and appetite to the stomach, and thus build up the invalid anew.

Dr. Hoofland, having provided internal remedies for disease, has given the world one mainly for external application, in the wonderful preparation known as Dr. HOOFLAND'S GREEK OIL.

This Oil is a sovereign remedy for pains and aches of all kinds. Rheumatism, Neuralgia, Toothache, Chills, Stomach Colic, Pain in the Back and Loins, Kingworms, etc., etc., all yield to its external application.

Taken internally, it is a cure for Heartburn, Kidney Diseases, Sick Headaches, Colic, Dysentery, Cholera Morbus, Cramps, Pains in the Stomach, Colds, Asthma, etc.

These remedies will be sent by express to any locality, upon application to the PRINCIPAL OFFICE, at the GERMAN MEDICINE STORE, No. 631 ARCH ST., PHILADELPHIA.

CHAS. M. EVANS, Proprietor. Formerly C. M. JACKSON & CO. These Remedies are for sale by Druggists, Storekeepers, and Medicine Dealers everywhere. v1n27f.

BURLINGTON.

Leaving the East and arriving at Chicago or Indianapolis, how shall we reach the West? The best Line is acknowledged to be the C. B. & Q., joined together with the B. & M. Railroad by the Iron Bridge at Burlington, and called the Burlington Route.

The Main line of the Route running to Omaha, connects with the great Pacific Roads, and forms to-day the leading route to California. The Middle Branch, entering Nebraska at Plattsmouth, passes through Lincoln, the State Capital, and will this year be finished to Fort Kearney, forming the shortest route across the Continent by over 100 miles.

Another branch of the B. M., diverging at Red Oak, falls into a line running down the Missouri through St. Joe to Kansas City, and all Kansas.

Passengers by this route to Kansas, see Illinois, Southern Iowa, and Missouri, and, by a slight divergence, can see Nebraska also.

Lovers of fine views should remember the Burlington Route, for its towns "high-gleaming from afar"—its tree-fringed streams—its rough bluffs and quarries—its corn-oceans stretching over the prairies further than the eye can reach.

Land-buyers will be sure to remember it, for they have friends among the two thousand who have already bought farms from Gen. S. Harris, the Land Commissioner of the B. & M. R. R. at Burlington, Iowa, or among the four thousand home-steaders and pre-emptors who last year filed claims in the Lincoln land office, where "Uncle Sam is rich enough to give us all a farm."
