...Saturday
...mp near White
...miles of Falmouth.
...a beautiful day, and we
...ering from the effects of our
...ition against the rebels. *We ex-*
...soon to move again." All of which proves that that portion of the army at least was in a state of repose on Saturday afternoon, and the writer gives no intimation whatever that any part of the army had then moved, or were moving across the river. This, taken in connection with the numerous reports of SEDGWICK'S Corps having recrossed on Thursday and Friday, is puzzling beyond anything we ever had to deal with.

Capt. SCHOYER, of the same regiment, writes, on the same day, a letter, an extract from which we give in another column, and does not give any intimation of a movement then in progress.

Capture of Five Valuable Prizes.

UNITED STATES STEAMER DE SOTO,
Off Key West, Fla., April 27.

On the morning of Friday, the 24th instant, while on a cruise off Mobile Bay, we captured the following schooners, viz: Gen. Prim, Rapid, Bright and Jane Adella. All of them had run the blockade at Mobile during the previous night. Their cargoes consist of cotton and turpentine. They were bound for Havana. We placed prize crews on board and took the four vessels in tow for Key West. Good luck appears to have joined us, for yesterday (Sunday) morning, as we were going to Divine service, we overhauled and captured the English schooner Clara, with a valuable general cargo, from Havana for Matamoras, via Mobile. We put a prize crew on board and took her also in tow. She is in her proper place—that is, in the rear of four rebel craft. We will give them all in charge of the United States Marshal, and then we are off for a cruise. The De Soto is under the command of Capt. Wm. M. Walker.

THE ENGLISH FLEET.—The public should be on its guard against such reports as that given by a special dispatch to the New York paper, to the effect that the English Government has ordered its steam reserve fleet of three hundred vessels to be made ready for sea, in view of complications here. The present juncture of affairs and position of the market, especially for gold, holds out extraordinary temptations for the circulation of "panic news" of every sort.—*Boston Paper.*

—The above remarks refer to a pretended dispatch which the New York *Herald* stated that its London correspondent had sent to Queenstown, to meet the Liverpool and New York steamer on its way out to this country. We exposed the shameless character of this falsehood several days ago.

Gifts from Germany for Our Soldiers.

One of the steamers of the Hamburg and American Steamship Company, lately arrived, brought to this port over eighty large packages of fine linen and lint, which had been contributed by the friends of the Union along the Rhine, for the benefit of our sick and wounded soldiers. Some of the packages were of the size of hogsheads, and all were made up of the best material. The linen was especially fine.

Every package bore this inscription: "Rhine, Bavaria. For the Wounded Defenders of the United States." These packages were a free gift of the freedom-loving men and women of Rhineland, and were brought over free by the Hamburg and American line. In the light of such exhibitions as this and others that have preceded it, there is do room at all for doubt as to the existence among the people everywhere throughout Europe of a deep and profound sympathy with the North in its grand struggle for liberty and good government.

From Charleston and Hilton Head.

By the U. S. transport Oriole, from Port Royal on the 6th, which arrived at New York on Monday, we learn that all the iron-clads had left Port Royal for the North Edisto, having repaired damages.

Gen. Hunter's forces continued in possession of Folly, Seabrook's and Cole's islands, and were entrenching themselves.

The Ironsides remained at anchor inside of Charleston bar.

At Hilton Head another expedition was in preparation, but for what point no one was permitted to know.

The negro troops, a full brigade having been organized, under the command of Col. Jim Montgomery, will soon start upon an expedition different, in many respects, from any heretofore projected, and with every prospect of success.

THE TREASURE recovered from the steamer Golden Gate, amounting to $780,000, has been made the subject of an action in the United States District Court for California. On the 8th ultimo a libel was filed by a portion of the party engaged in the expedition against others who took part in it, including the representatives of the Lloyds. The former allege that, after fitting out a vessel to fish for the treasure, one of their number was induced to leave, and subsequently to engage in the enterprise with a separate vessel. They therefore pray that process may issue against the forty-five boxes of treasure recovered, and that the court shall decree to them and all other parties entitled to share therein proper salvage and compensation. As there is a vast sum at stake, the trial promises to be one of much interest.

CONSOLIDATION OF REGIMENTS.—Except where consolidations of regiments have been made, or are to be made, it is ordered by the War Department that no commissioned officer or enlisted man of any grade, in excess of the legal organization, will be reorganized. Any commander who may acknowledge or receive as in the service such officer or enlisted man, will be brought to trial for neglect of duty and disobedience of orders. No person acting in the capacity of a supernumerary will, under any circumstances, be permitted to receive pay and allowances. Paymasters making payment to such supernumeraries will be held individually accountable for the amounts.

THE REBELS AT VICKSBURG ALARMED.—It is reported that the recent operations of Col. Grierson, together with the advance of Gen. Grant, have excited the liveliest apprehensions in Vicksburg, and measures have been adopted to put the city in the strongest position for defence. Additional guns have been mounted and public meetings held. At one of these meetings Gen. Pemberton was denounced as a traitor, because he thinks Vicksburg may be captured. "No one," says the Jackson *Appeal's* correspondent, "doubts the ability to defend Vicksburg in front. The attack is now coming in another direction than the front. Vicksburg is in consternation. The possession of Big Black river by gunboats aroused the acutest fear."

THE REBEL GEN. PEMBERTON REPORTED SHOT.—A late letter from Memphis mentions a report, received from Vicksburg, that Gen. Pemberton, commanding that stronghold has been shot in a quarrel with some of his own officers. It is said that, being a northern man by birth, he was an object of jealousy and suspicion—was half suspected of being at heart a Yankee, a mudsill and a Judas. The exciting cause of the recontre which resulted in his death was the idea that he was guilty of treachery in allowing our vessels to run the batteries of late.

MASSACHUSETTS COLORED REGIMENTS.—The Massachusetts colored regiment is to proceed in a few days to active duty. A second regiment is to be at once recruited.

Col. Collier's (139th Pa.) Regiment.

We take great pleasure in laying before our readers a letter from an officer of Col. COLLIER'S Regiment, describing the part which that regiment took in the battle of Salem Heights, near Fredericksburg.

From other accounts, we learn that the Regiment was the rear-guard of the retreat—the last Regiment to leave the field. Officers and men did well. Pittsburgh has great reason to feel proud of this noble Regiment, which, although for the first time in battle, stood when old regiments faltered, broke and ran. Generals SEDGWICK and NEWTON complimented its commander on the field. Well may Col. COLLIER feel proud of his officers and men and their achievements.

THE RED RIVER COUNTRY.—The St. Paul *Press* says that one of the worst material effects of the Indian outbreak along the western frontier of Minnesota is the interruption of communications with the Red River Settlement, and the consequent suspension of the prosperous trade and emigration which have been rapidly growing up since 1859 between that region and the navigable waters of the Mississippi.

FIRST PAPER MILL IN AMERICA.—An essay on this subject by Horatio Gates Jones, Esq., of Roxborough, Mass, locates the first mill at Paper Mill Run, in Roxborough, and fixes the date at 1690, a much earlier date than usually given.

PUBLIC NOTICES.

CHARLES B. WHITE,
Ast. Surgeon U. S. Army, Surgeon in charge.
my11:tf

TO CAPITALISTS AND MILLERS
THE
PEARL STEAM FLOURING MILL
FOR SALE.

The owners of the "PEARL STEAM MILL," being actively engaged in other pursuits, and desiring to make a division of their interests, offer for sale this large and valuable establishment, on terms that must prove advantageous to any party wishing to engage in the milling business.

To persons residing in this vicinity a particular description of the property may be unnecessary, as the Mill is in full and successful operation by the lessees, Messrs. R. T. KENNEDY & BROTHER, and open to the examination of any who may desire to look through it. For the information of parties at a distance, a brief description is here given:

SITE.

The Mill occupies a small square of ground in the City of Allegheny, at the corner of Lacock and Sarah streets, which bound the property on the south and east. The Pennsylvania Canal forms its northern and western boundary, turning at the mill and running southwardly about one hundred yards, where it empties into the Allegheny river. It is thus completely isolated and protected from fire risk from the surrounding property, having streets on the north and east fifty feet wide; the canal on the north the same width; while on the west there is a basin about 100 feet square. Just across the Pennsylvania Canal, about 75 feet from the north end of the Mill, runs the track of the consolidated Pittsburgh, Fort Wayne & Chicago and Cleveland & Pittsburgh Railways.

A bridge across the canal, recently rebuilt, brings the Mill into easy communication with those roads, and makes the receiving of grain from them convenient and cheap.

THE MILL

Is substantially built of brick, and roofed with slate. It is 137½ feet long, 55 feet wide, five stories high, and a sixteen foot garret, making six floors actually in use. It was completed in the spring of 1858. There is no pains or stone and five complete bolting chests. The machinery for cleansing and securing the Wheat is extensive, and the best that can be procured. *The capacity of the Mill may be fairly put down at 350 Barrels per day.* As many as 1,000 barrels per day have been made, but under extraordinary circumstances 350 only could be relied upon as an average product.

THE STOREHOUSE

Was added to the Mill shortly after it got into full operation, when the necessity for increased room for storing Wheat, Flour and Barrels became apparent. It is 50 feet long, substantially built, like the Mill, and roofed with slate. It adjoins the Mill, and with it forms the latter lot, the lease resting on the canal or north side.

THE SOURCES OF SUPPLIES

Of Wheat are by the Ohio River, from Southern Ohio, Indiana, Illinois, Missouri and Kentucky and in lines of pass from Tennessee and Northern Mississippi. By the Pittsburgh, Fort Wayne & Chicago and Cleveland & Pittsburgh Railways there is a direct and easy access to the greatest grain market in the world—THE CITY OF CHICAGO—as well as to an immense grain growing region nearer at hand, in northern and central Ohio and Indiana. During the months of July and August, supplies of Wheat are obtained from Southern Ohio and Kentucky by rail.

The Pittsburgh & Steubenville Railway, now nearly completed, will afford an additional source of supply.

A market for the product of the Mill in the eastern cities is reached by the Pennsylvania Railroad, while all around it is a manufacturing and consumer district, requiring large quantities of Flour and meal.

For further particulars and for terms apply to any of the undersigned.
