SATURDAY, MORNING, JUNE 6.

RELIGIOUS INTELLIGENCE.

The Protestant Episcopal Convention of Pennsylvania, lately held in Philadelphia, was an occasion of much interest. The question of dividing the diocese gave rise to a spirited discussion, in which several leading ministers and laymen of this city took part. The subject was finally referred to a committee of seven, selected from various parts of the diocese, to investigate the facts and principles involved, and report at the next Convention. The Rev. Dr. Van Dersen, Rector of St. Peter's Church, of this city, delivered the annual Convention sermon from these words—"There remaineth yet very much land to be possessed." Among the most noticeable things of general interest was the visit of the delegates to the Union League rooms, in compliance with an invitation extended to them previously. After mutual congratulations, Mr. Horace Binney, Jr., formally welcomed the guests on behalf of the League. Rev. Mr. Lightner, of Danville, Pa., briefly and eloquently responded. Speeches were also made by Rev. Phillip Brooks, Rev. Mr. Morris, and Ex-Governor Johnston. The Convention, before its adjournment, passed a series of loyal resolutions. The next annual meeting of this body is to be held in May next, in St. James Church, in this city.

——The Fifty-fifth Anniversary of the Pennsylvania Bible Society was held some days since at the Church of the Epiphany, Philadelphia, Rev. Albert Barnes presiding. Addresses were made by Rev. J. H. A. Bomberger, D. D., Rev. Howard Malcolm, D. D., Hon. John Cosyngham, and Rev. Dr. Cox. According to the annual report, the issue of Bibles and Testaments during the past year was 21,555 Bibles; 2,286 books of the Bible; 74,834 Testaments; making a total of 98,675 volumes. The amount of cash received, $29,441 07. The society maintains its efficient agency in the general work throughout the State, under the care of their eastern and western Secretaries.

——It is stated a new form, of five or six questions, in installing a minister of the Lutheran Church, has just been adopted, each of which is audibly answered, "I do so promise, with the help of God." Six questions are also answered by the congregation, in one of which they solemnly promise to "take all due care in raising and regularly *paying* the salary" promised their minister.

——Upwards of fifteen hundred of the English clergy reply to the anti-slavery letter of the French Protestant clergymen, "that it is honorable to France and French Protestantism that it so heartily wishes the destruction of a slave system which makes four million of negroes wretched, which debases their masters, and which dishonors Christianity."

——The next session of the New School Presbyterian General Assembly is to be held at Dayton, Ohio.

——The annual meeting of the Wesleyan Missionary Society was held May 4th, in Exeter Hall, London. The receipts for the year amounted to £141,688, equal to $708,190. The expenditures were £145,537. Twenty-nine missionaries have been sent out by the Society to different points. The Society has 605 central or principal mission stations; 4,618 churches and other preaching places; and 889 missionaries and assistants. The work throughout is an improvement on last year. Addresses were made by Sir Andrew Agnew, the Rev. Charles Prest, Rev. John Stoughton, (Congregational) Rev. Wm. M. Punshon, Rev. Dr. Hannah and others. The exercises occupied five hours and a half.

——At the late session of the Old School Presbytery of St. Louis, a report representing rebellion as a sin, was tabled by a vote of 15 against 9. By a like vote, the Presbytery refused to recognize treason and rebellion as existing within their bounds.

——The *Presbyterian* gives extracts from the *Central Presbyterian*, of Richmond, Va., from which we learn the General Assembly of the Confederate States was to meet in Columbia, South Carolina, on the 7th of May, to be opened with a sermon by Rev. Dr. J. L. Kirkpatrick, the Moderator. The report on the instruction of the negroes is expected to elicit much interesting debate in the Assembly. The report, it is said, would take ground that the sacredness of the marriage relation among slaves should be recognized by law. Besides this, a report from the Committee on Psalmody was expected at the Assembly, and also a discussion concerning the union of Associate Reformed Church with the Assembly.

——In a recent revival work in Jacksonville, Illinois, over six thousand persons professed conversion.

——The receipts of the American Home Missionary Society, for the past year, have been $164,884 29. The Society has 784 ministers in its service in 21 different States and Territories. The number of congregational and missionary stations, supplied in whole or part, is 1,455. There have been 1,582 accessions to the churches on profession, and 1,526 by letter. Thirty-nine young men, in connection with the missionary churches, are preparing for the ministry.

——Friends of the Methodist Biblical Institute at Concord, New Hampshire, have taken measures to raise one hundred thousand dollars, to complete the endowment fund of the Institute.

——The position of Bishop in the Methodist Episcopal Church, as an *office* and not an *order*, is clearly illustrated in the retirement of Bishop Hamline from the position, on account of ill health to perform the duties of the office. The Ex-Bishop is in very poor health, and resides in Mount Pleasant, Iowa. The *Advocate and Journal* says: "What a pity that so bright a light is confined within so narrow limits!" Speaking of his compositions, the editor says, "his style is one of transparent purity and classic beauty. For pure and rich diction, compact and lucid argumentation, and harmonious periods, our Church, we think, has never produced a superior, perhaps not an equal, to Bishop Hamline."

——The yearly meeting of the Orthodox Friends was held some time since near Greenwich Park, New York city. The attendance was quite large.

——At the late annual session of the New York East M. E. Conference, the Rev. Mr. Milburn, the blind preacher and lecturer, applied for and was granted a location.

——Governor Geo. B. McClellan is reported to have joined the Rev. Dr. Adams' Presbyterian church, in New York.

——Wolcott Methodism, has temporarily ceased to be a church in name, but the society is flourishing.

——Scripture Illustrated.—The surface of the Allegheny river, for two days past, has been entirely free from oil, and the water is now clear as crystal. To be sure, there is but little oil being shipped by river now, but it would seem that the waste from the wells would be sufficient to spot the surface, and still give it that greasy appearance which it has been wont to wear for two or three years past.

ALTOONA has been flooded with counterfeit $5's on the Bank of Northumberland. The counterfeits are well executed and likely to deceive. The best way to prevent being imposed upon would be refuse all $5's on this bank. Quite a number of business men have more of them on hand than they will be likely to get rid of very soon.

COPPERHEAD TICKET FOR GREENE.—The "unterrified" of Greene county have nominated for Assembly, Dr. Alexander Patton; Prothonotary, Justus F. Temple; Treasurer, James S. Jennings; Register and Recorder, Peter Brown; Commissioner, John G. Dinsmore; Auditor, John Clayton; Poor Director, Daniel Fuller.

ASSAULTS.—J. S. Cupples has been held to bail by Mayor Alexander, to answer a charge of assault and battery preferred by Charles Heusebeck. Linhart Eckert was before the same magistrate, on a similar charge, preferred by Jacob Meisel, but the case was settled by the defendant paying costs.

The French Reported Again Severely Repulsed.

$2,500,000 for Europe.

NEW YORK, June 5.—The steamer Northern Light, from Aspinwall, on the 27th, has arrived at this port.

A Panama letter, of the 27th, states that the steamer Orizaba arrived on that day from San Francisco, with a million and a quarter in treasure. She has late news from Mexico, via Acapulco, but the date is not given, to the effect that the French had met with another severe defeat at Puebla, and were again repulsed, Comonfort having added his forces to those of Ortaga's.

The British steamer Tribune had arrived at Panama, from Mexico, with two and a-half millions of dollars for Europe. The United States ships Lancaster and St. Mary were at Panama.

There is no news of importance from South or Central America.

AFFAIRS IN ROSECRANS' DEPARTMENT.

Heavy Reconnoissance by the Rebels

OUR MEN ATTACKED AT FRANKLIN.

Prospect of Capturing the Enemy.

MURFREESBORO, June 4.—The rebels have been reconnoitering in our front. Yesterday Wheeler appeared on the Manchester road, and this morning on the Shelbyville road. Brisk skirmishing has been kept up all day. The 3d Indiana cavalry, on picket duty, was first attacked, and the 39th Indiana, Colonel Harrison, of the 1st brigade, of Gen. Davis' division, was subsequently sent to their assistance. The rebels were driven about a mile. Our loss was only one man killed and several wounded. The 4th cavalry was engaged at the time on the Middletown road. In this last fight seven were killed and wounded.

Colonel McCook reports heavy firing in the direction of Triune.

General Granger telegraphs that General Baird, of the 85th Indiana, in command at Franklin, was attacked to-day by rebel cavalry.

At the latest dates Baird was still fighting, with some prospects of capturing the enemy.

We hear of no rebel infantry engaged. Their cavalry is engaged in reconnoitering the whole line.

TO CAPITALISTS AND MILLERS

THE

PEARL STEAM FLOURING MILL

FOR SALE.

The owners of the "PEARL STEAM MILL," being actively engaged in other pursuits, and desiring to make a division of their interests, offer for sale this large and valuable establishment, on terms that must prove advantageous to any party wishing to engage in the milling business.

To persons residing in this vicinity a particular description of the property may be unnecessary, as the Mill is in full and successful operation by the lessees, Messrs. R. T. REMNEDY & BROTHER, and open to the examination of any who may desire to look through it. For the information of parties at a distance, a brief description is here given:

SITE.

The Mill occupies a small square of ground in the City of Allegheny, at the corner of Lacock and Darragh streets, which bound the property on the south and east. The Pennsylvania Central forms its northern and western boundary, turning at the mill and running southwardly about one hundred yards, where it empties into the Allegheny river. It is thus completely isolated and protected from fire risk from the surrounding property, having streets on the south and east fifty feet wide; the canal on the north the same width; while on the west there is a basin about 100 feet square. Just across the Pennsylvania Canal, about 75 feet from the north end of the Mill, runs the track of the consolidated Pittsburgh, Fort Wayne & Chicago and Cleveland & Pittsburgh Railways.

A bridge across the canal, recently rebuilt, brings the Mill into easy communication with those roads, and makes the receiving of grain from them convenient and cheap.

THE MILL

is substantially built of brick, and rooked with slate. It is 187½ feet long, 55 feet wide, five stories high, and a sixteen foot gavel, making six floors virtually in use. It was completed in the spring of 1858. There is ten pairs of stone and five complete bolting chests. The machinery for cleaning and scouring the Wheat is extensive, and the best that can be procured. *The capacity of the Mill may be fairly put down at 500 barrels per day.* As many as 1,000 barrels per day have been made, but under ordinary circumstances 550 only could be relied upon as an average product.

THE STOREHOUSE

Was added to the Mill shortly after it got into full operation, when the necessity for increased room for storing Wheat, Flour and Barrels became apparent. It is 60 feet long, substantially built, like the Mill, and roofed with slate. It adjoins the Mill, and will be used for the latter in the same manner as the canal on north side.

THE SOURCES OF SUPPLIES.

Of Wheat are by the Ohio River, from Southern Ohio, Indiana, Illinois, Missouri and Kentucky, and in time of peace from Tennessee and Northern Mississippi, by the Pittsburgh, Fort Wayne & Chicago and Cleveland & Pittsburgh Railways there is a direct and easy access to the greatest grain market in the country, and the City of CHICAGO—as well as to an immense grain growing region nearer at hand, in northern and central Ohio and Indiana. During the low stages of water in the Ohio river, in the months of July and August, supplies of Wheat are obtained from Southern Ohio and Kentucky by rail.

The Pittsburgh & Steubenville Railway, now nearly completed, will afford an additional source of supply.

The market for the product of the Mill in the eastern cities is reached by the Pennsylvania Railroad, while all around it is a manufacturing and consuming district, requiring large quantities of Flour and Meal.

For further particulars and for terms apply to any of the undersigned.

GROVE.

A RARE CHANCE FOR A

BEAUTIFUL AND DESIRABLE

COUNTRY HOME.

The subscriber offers for sale that beautiful woodlot known as THE GROVE, containing about 9½ acres, situated in the Borough of Sewickley, immediately opposite the new Presbyterian Church, and adjoining the beautiful residence of Charles McKnight, Esq.

This property possesses many advantages for a country residence, first among which is a new, *full* and abundant *Spring of pure Water*. The soil is good, and as the ground is heavily covered with fine old forest trees, the purchaser will have nothing to do but to remove a few of the trees immediately around the site he may choose for his house, lay out a few roads, and he will have all that can be desired for a country home. There is a fine entrance to the property both front and rear.

It is unnecessary to say anything with regard to the desirableness of the neighborhood—SEWICKLEY IS WELL KNOWN.

This property will be sold on terms to suit the purchaser.
