CITY INTELLIGENCE.

From Saturday's Evening Edition.

Bold Burglary--A New Way to Open a Safe.

On Saturday morning, the office of the Pittsburgh, Allegheny and Manchester Passenger Railway Co., located on St. Clair street, was found to have been burglariously entered during the previous night, and the safe rifled of about one hundred and ten dollars in money. The office was locked up as usual, at eleven o'clock Friday night. In the morning, the door was found unlocked, but closed. On examination it was discovered that the safe (a medium sized fire-proof safe, made by Messrs. Herring & Marvin) had been cut through from the top and also the money drawer. An irregular hole, about six inches in diameter, had been cut through the top plate, by means of a cold chisel or some other hard tool, after which the composition filling was removed. This filling was about six inches deep, and being comparatively soft was soon removed. Another plate, not much thicker than tin, was next encountered, but it would not stand long in the way of a good chisel. A half inch board now only remained between the hand of the burglar and the object of his search, the money drawer. This board was begun with a small auger or breast-bit, and the thief had then free access to the drawer. Fortunately for the company, they had just deposited that day, and not more than a hundred and ten dollars remained in the safe. All this was taken, with the exception of two five cent notes which were found upon the floor. The filling which had been removed from the hole, together with a large number of the company's tickets, lay scattered over the floor. None of the tools, however, were left behind.

The top or outer plate of iron was about one-twelfth of an inch in thickness, and it must have required considerable labor, even with good tools, to break through it. The chief result has accomplished the work in less than an hour, and he must necessarily have made considerable noise. The office, moreover, is located on one of the most public thoroughfares, and it is difficult to imagine how a man could enter it from the front, dig through the safe in the manner indicated, and make his exit, without having been heard or seen by the watchman. There are no shutters on the office windows, and if a light was used, as is supposed, the robbery was one of the boldest ever perpetrated here. Taking it for granted that the thief worked in the dark, there was nothing but the thickness of ordinary glass to prevent the watchman from hearing him, as the safe did not stand more than ten or twelve feet from the sidewalk.

During the day, two young men, formerly in the employ of the company, were arrested on suspicion, and locked up for a hearing.

Alleged Conspiracy to Injure a Soldier's Wife.

On Wednesday last, Mrs. Mary Holsing, residing at Green Oak, and wife of a soldier now in the army, was arrested and committed to jail by Justice Patterson, of Elizabeth, charged on oath of her father-in-law, Wm. Holsing, with having committed adultery with Gottlob Laidley. She was released on bail the same day, but was re-committed on Thursday—her bail, J. H. Kramer, having surrendered her. On Friday she was again admitted to bail, officer Bernard Dougherty becoming her surety.

As soon as Mrs. Holsing got her liberty, she appeared before Alderman Donaldson and made a statement of her wrongs, in substance as follows: Her husband has been in the army for some time, leaving her in charge of her children, and always providing her with money to keep the family. Recently she ascertained that two of her neighbors, Mary Gearing and another woman whose name was not given to the Alderman, had been in the habit of writing letters to her husband (Holsing) and signing her name thereto. One of these letters purported to make a confession of her intercourse with Laidley; acknowledging that she was pregnant, and begging him to forgive her. This so incensed her husband that he at once wrote to his father, Wm. Holsing, to take the children from his wife, and everything in the house, and let her go; that he would have nothing to do with her. On the receipt of these instructions, the old man at once instituted the criminal charge against Mrs. Holsing, and when she was in jail they took possession of the children and the household goods.

Mrs. Holsing further alleges that her first surety, Mr. Kramer, was besieged by these parties who were conspiring to injure her, and was told that she was about running away—that he would be "in for the bail," etc., and that it was in consequence of these false statements that he surrendered her on a bail piece. She was arrested by officer Dougherty, at the instance of Mr. Kramer, but singularly enough, Mr. Dougherty himself became security for her appearance. He did so because her neighbors spoke of her in the highest terms, and because he believed her to be entirely innocent of the charge preferred against her.

On being released the second time, Mrs. Holsing preferred a charge of larceny against her father-in-law, William Holsing, her mother-in-law, Charlotte Holsing, and Mary Gearing. It is alleged that, among other things taken were fifteen dollars in money. Alderman Donaldson has issued warrants for their arrest, she has also instituted, at Elizabeth, a prosecution against all the parties concerned, for conspiring to injure her reputation. If the facts be as she alleges, she has been deeply wronged, and the guilty parties may well dread the consequences.

Arise and Come to the Rescue!

From information received, danger threatens not only the borders of our State, but Pittsburgh and its vicinity. At present we are quite helpless, and could not repel the assault of even a comparatively small force of troops, accustomed to the dangers of war. For the purpose of defence within the limits of the Department over which Gen. Brooks has been placed in command, I desire to form a military organization of a thousand men. All who have seen service, and those who are animated with the spirit of patriotism, are desired for this organization. Let the companies be formed at once, for there is no time to be lost. It will be much better for us to come forward voluntarily than by delay and resistance on our part—compel the proclamation of martial law. After a sufficient number have been enrolled, all preliminaries can be settled. Let us first get the organization completed, and if it be the pleasure of the parties concerned, we can act as a sort of independent force for the repulsion of invaders. For the sake of your own safety, and the well being of the community, don't delay.

JOHN B. CLARK.

To Our Business Men.—Mr. Delevan, a deaf mute, called on us to-day with the prospectus for a new advertising medium for our business men. It is really the best of the kind ever gotten up here, and those who wish to extend their trade at a small cost, would do well to patronize Mr. D. His "Business Views" having exclusive entree in all the depots of all the railroads centering in Pittsburgh.

Arrest of a Juvenile Incendiary.—On Thursday evening, a boy named Jas. Cadley, aged about sixteen years, was caught in the act of setting fire to the stable of Harry Lewis, near "the Point." He had a supply of matches in his pocket, and in a few minutes the stable would have been in flames. The boy is said to have a bad record. He was committed to the House of Refuge.

Alleged Nuisance.—John McKeraban, owner of the "old foundry building" in the First Ward, Allegheny, was before Mayor Alexander, on a charge of maintaining a nuisance. It is alleged that the walls of the building are about tumbling down, and endanger the life and limb of passers by. McKeraban promised to remove the building forthwith.

Sale of the Belmont Iron Works.—The sale of the Belmont Iron Works took place on Wednesday afternoon, in Wheeling. The purchaser was Henry McCullough, of this city, and the price paid was $127,500.

Personal.—Capt. W. P. Craighill, of the Engineer Corps, has arrived in this city, and will assist Gen. Barnard in the discharge of his duties. Lieut. D. D. Wheeler, of Gen. Brooks' Staff, has also arrived here.

Resigned.—Rev. Marcus Ormond, Chaplain of the 140th Pennsylvania volunteers, has resigned in consequence of ill health. He is now in the city, on his way home.

LATE TELEGRAPHIC NEWS.

[FROM OUR EVENING EDITION.]

Rebel Dispatches--News from Vicksburg and Port Hudson--Their Account of the Late Cavalry Fight.

WASHINGTON, June 13.—The following dispatches are taken from the Richmond papers of the 11th:

Jackson, June 9.—Our scouts report that the enemy's pickets around Vicksburg are ten miles deep, and every means of approach is closely guarded. The greatest courage and care is required to reach Vicksburg.

Grant communicates with the fleet by signals, seen night and day, betokening movements, it is thought.

The firing of the enemy's mortars has been heard, at intervals of two seconds, all night, and continued this morning.

There is no news from Port Hudson.

A dispatch from Shelbyville, Tenn., of the 9th, says all is quiet.

A dispatch from Gen. Lee, dated Culpepper, June 9th, claims that Stuart drove the Federals back on that day, after a hand to hand fight all day. General F. Lee is reported severely wounded. Col. Williams, of the North Carolina cavalry; Col. Hampton, a brother of Wade Hampton; and Capt. Farley of Stuart's staff, were killed on the 9th. A loss of prisoners is also admitted.

The rebel loss at Brandy Station is variously stated. The information at the Provost Marshal's office at Culpepper, on the morning of the 8th, says that about 200 rebels were taken prisoners, killed and wounded, but some put the figures higher and some lower.

The federals gained so much ground as to capture General Stuart's headquarters near Brandy, and also Brandy Station, and, we understand, destroyed some stores there.

Murderers Arrested--Rebel Report of the Defeat of General Banks--Race at Louisville.

CINCINNATI, June 13.—A special dispatch to the *Commercial* from Indianapolis, dated the 12th, says:

The murderers of Provost Marshal Stevens were arrested and brought here to-day.

A man was hung till almost lifeless, by a crowd of excited citizens to-day, in the vicinity of the murder, for using traitorous language.

A company of cavalry have been sent to Johnson county to aid the enrollment.

Memphis, June 12.—The *Mieriesippian* of the 4th and 5th gives details of the fight at Port Hudson. It says Kirby Smith drove Banks in confusion, he leaving his dead and wounded on the ground. According to that paper Smith was pursuing Banks on the 5th.

The Woodlawn race at Louisville yesterday was won by Maid of Ashland, in two straight heats. Time, 5:36 and 5:35.

Blockade Runners Chased at Nassau--Great Excitement.

NEW YORK, June 13.—The Nassau papers are in a flurry of indignation. The gunboat Rhode Island, had chased the steamers Margaret and Jessie, and the Linus, within the proscribed limits of maritime law, firing a full broadside at them which ploughed up the ground near the dwellings on the shore, and wounded two fishermen.

A dangerous explosive war weapon, shipped from Nassau for Charleston on the former, was thrown overboard by order of the Captain, near Charleston. The concussion caused by its fall into the water, exploded it, and the steamer was badly damaged. Captain Wilson was nearly killed.

From New Orleans and Port Hudson.

NEW YORK, June 13.—Advices from New Orleans state that Gen. Sherman was better, and the probability now is that not only his life but his limb will be saved, though he will be lame for life.

Skirmishing was going on constantly at Port Hudson. Our forces were busily constructing batteries along the entire line, which would be completed, and opened against the enemy on the 6th. The opinion was that the enemy could not hold out twenty-four hours longer thereafter.

A deserter says there is but a small force at Port Hudson.

Skirmish near Middletown, Va.

WASHINGTON, June 13.—The 13th Pennsylvania Cavalry, and 87th Pennsylvania Infantry, with one section of artillery, had a skirmish with some three hundred rebel cavalry, yesterday afternoon, near Middletown, Va. The 13th skirmished with the rebels for a short time, and drew them into an ambuscade of the 87th infantry and the artillery. Eight of the rebels were killed, a number wounded, and thirty-seven, including a Captain and two Lieutenants, were taken prisoners. There were no casualties on our side.

Deserters Loading Transports.

NEW YORK, June 13.—The Government officials have set the deserters to work loading the transports during the strike of the stevedores, and have a company of regulars to protect them.

From the North Atlantic Blockade.

BALTIMORE, June 13.—The U. S. gunboat Dacotah, of the North Atlantic blockade, arrived here to-day. All is well.

COMMERCIAL RECORD.

PITTSBURGH MARKETS

OFFICE OF THE PITTSBURGH DAILY GAZETTE, SATURDAY, June 13, 1863.

Gold is without material change being quoted to day at 142¾c in New York. Here our bankers and dealers are paying 139@140c for Gold and Demand Notes and 126@127c for Silver. Eastern Exchange is steady at par buying and ¼ per cent prem. selling. Government Certificates of Indebtedness remain unchanged.

The produce market is excessively dull and depressed, the transactions being very limited and altogether of a local character. The apprehension of a rebel raid has produced considerable excitement and business for the present is much neglected and looked upon as a kind of secondary matter. We hope, however, to be able to record an improvement before many days pass.

GRAIN—Wheat is nominal with small sales of Red from wagon at $120. Corn is steady with sales from depot at 70 to 75c, as to quality. There is nothing doing in Rye or Oats, except in the small way.

PROVISIONS—Bacon is quiet with small sales at 5¾@5¾c for Shoulders; 7@8 for Bibbed and Clear Sides; 8¼@8½c for Plain Hams and 11@11½c for Sugar Cured. Lard and Mess Pork continue dull and unchanged.

FLOUR—There is no new feature to notice in this article. Sales of 250 bbls from store at $5,50 for Extra and $6,25 to $6,75 for Extra Family. Rye flour may be quoted at $5,00 from store.

GROCERIES—dull and unchanged. Sugar ranges from 11¼ to 12½c Coffee 32 to 34c and Molasses 55 to 60c.

BUTTER & EGGS—Butter is steady and prime Roll sells readily at 14@15. Sales of 10 bbls of Eggs at 17c—an advance.

CHEESE—Sales of 75 boxes new W R at 9¼@10c and 10 boxes Cream do at 11c.

POTATOES—Are in better demand and prices are a shade higher. We note small sales at from $1,50 to $2,00 per bbl, according to quality.

Pittsburgh Oil Market.

JUNE 13—The market for Crude is dull and inactive without however, any material change in rates. The probability of larger receipts and lower prices, cause buyers to hold off, while at the same time holders do not seem disposed, as yet, to make any concessions. Everything depends on the Alleghany river. If there is a rise, it is altogether probable that prices will decline slightly—if not, higher rates may be expected. We continue to quote at 16@16½c packages returned and 21@22c package included with a sale of 125 bbls at 16½c.

The following dispatch was received at the Oil Exchange:

OIL CITY, June 13—Crude at the wells is quoted at $3,00 to $3,50 per bbl, some holders are asking $4,00 at the mouth of the Creek. $4,00 to $4,50. Market firm though the transactions are light.

Their has not been a single transaction in Refined to dry that we could hear of and, in the absence of which, we omit quotations.

Some small sales of deodorized Benzine were reported at 20c. which may be considered the prevailing rate.

New York Petroleum Market.

Special Dispatch to the Pittsburgh Gazette.

NEW YORK, June 13—Evening—The market for Crude but opened unchanged at 26¼@27¼c. Refined in bond is nominal with sales for August delivery at 50c. Naptha is nominal at 26@27. Onerous government regulations restricts considerably the export demand. C.

Chicago Market.

June 12.—There was no important change in prices to-day. The demand for No. 1 Spring Wheat was rather more active, with sales at $1,13@1,14 outside of the Government Elevator. Receipts of Spring were less active and a shade easier, sales ranging from 95 @96c. Flour was dull and heavy, and prices had a drooping tendency.

Corn opened firm and active at yesterday's extreme figures. Upwards of 200,000 bushels changed hands at 71¾@72½c for Ear in store; 69¾c for White Mixed sold; 69½c for Yellow mixed sold; and 69c for Canal Mixed sold.

There was fair demand for Oats, but holders generally asked higher prices, and sales were only moderate at 57¾@58½c for No. 1 in store.

Rye was quiet at 86c. Barley inactive. Salt firm and steady. Provisions dull. High wines steady at 39½c. Small lots of City manufactured have been sold at 40c.

The Wool Clip.

The sheep shears have been making merry music with their "click clack"—for the past few days.—Many of the sheep in the township are already shorn. The wool is of an excellent quality and is in good condition—free from oil and gum. The fleece weigh, on an average, less than usual, but in quantity as well as quality, the wool clip will be better than in former years—*Portage Co. O., Dem*

There does not appear to be any fixed value for wool just yet. Buyers herebouts are offering from fifty to sixty cents, but farmers are holding off, expecting to realize from ninety cents to one dollar. Prices will depend on so many contingencies connected with the war, that we do not feel warranted in giving any advice on the subject. A medium fleece—say seventy five cents—will most probably be the prevailing one, as the season advances.—Youngstown, O., Register.

Petroleum Markets.

LIVERPOOL, May 29—This market is quieter; there are sellers, but the trade shows little disposition to operate. During the week 234 crates of Spirit were sold at 1s. 9d.; and 100 (iron) casks at 1s. 6d. per gallon, also 50 barrels at 1s 5d. per gallon. In Refined, 120 barrels brought 1s. 11d. per gallon, which is the price now demanded. Pennsylvania Crude is quoted at 16l. per ton. The market for Crude is very flat at the quotations.

LONDON, May 29—The market is flat; 200 barrels English refined tinged have sold at 1s. 6d. The nearest price of American is 1s. 4½d. to 1s. 9d.

Cleveland Market.

JUNE 12—Wheat—The tone of the market was firmer this morning, and holders demanded 120c for red on board, but buyers were not disposed to take hold. The only sales on Change were a car of Indiana white and a car of choice amber on track, at 120c. After Change 4000 bush sold at 120c f o b, and 2 cars on track at 127½c. Corn—Market still for shelled. Ear was quite active, but lower, and a car on track sold at 54c. Oats—There is very light demand at unchanged rates. Sales 2 cars on track at 59c—Herald.

Toledo Market.

JUNE 12—Wheat—Market, all before report—2,000 bush No 1 Red at 120c; 1,000 bush do at same; 625 bush White Mich at 142c; 1,000 bush Red Mich at 121c; 500 bush do at 120c; 500 bush White Mich at 140c; 2,000 bush No 1 Red at 120c; 2,000 bush No 1 Red at 123½c; 2,000 bush Red Mich at 131c. Corn—Market heavy to report—5,500 bush No 1 at 56c; 700 bush 1,500 bush, 1,200 bush and 6,800 bush No 1 mixed, all at 55c; 3,000 bush yellow at 55c. Oats—Market nominal at 60c; 1,100 bush at 60c. Rye—Last sales at 85c.—Blade.

GROVE,

A RARE CHANCE FOR A

BEAUTIFUL AND DESIRABLE

COUNTRY HOME.

The subscriber offers for sale that beautiful woodlot known as THE GROVE, containing about 9½ acres, situated in the Borough of Sewickley, immediately opposite the new Presbyterian Church, and adjoining the beautiful residence of Charles McKnight, Esq.

This property possesses many advantages for a country residence, first among which is a never failing and abundant *Spring of good Water*. The spring is located at a point sufficiently elevated to enable the purchaser to convey the water to any part of the grounds. The soil is good, and as the ground is now covered with *fine old forest trees*, the purchaser will have nothing to do but to remove a few of the trees immediately around the site he may choose for his house, lay out a few roads, and he will have all that can be desired for a country home. There is a fine entrance to the property both front and rear.

It is unnecessary to say anything with regard to the desirableness of the neighborhood—SEWICKLEY IS WELL KNOWN.

This property will be sold on terms to suit the purchaser.

FOR SALE—

THE "CROTON ROCK GLASS WORKS,"

AT NEWCASTLE, PA.

These Works, situated about one mile east of the town of New Castle, are offered for sale. They are located on a beautiful eminence of land, containing 16 ACRES, on which is erected the Factory, suitable for an 8 or 10 Pott Furnace, with all the buildings necessary to the successful manufactory of WINDOW GLASS; also, with some 15 DWELLING HOUSES; and on the same land is the fine sandstone rock from which the Croton Rock Glass is manufactured, which for beauty and strength is not surpassed in this country. Also, a 10 or 12 year lease of all the oak on 22 acres of land, three-fourths of a mile distant, which is in successful operation, and from which the Factory is supplied with coal. All the improvements are in good running order, and in successful operation at this time.

Possession given on the first of July, next, and if not sold will be for rent for one year from the above date. Information and terms made known by application to the subscriber at New Castle, or to J. Dewalt, at the office of Graff, Bennett & Co., Pittsburgh.

FOR SALE.—MADISON FOUNDRY AND MACHINE SHOP.—The above established establishment, in Madison, Indiana, is most slightly situated for business. It contains a large amount of machinery, and also a very large assortment of the most modern patterns for engines, mill and railroad work. Madison is a very desirable place of residence and possesses superior advantages for manufacturing—having good facilities for transportation to all parts of the country. Reasons for selling, ill health and the locality named to no other in the United States for good health. The proprietor will sell the establishment, if applied for soon, at a good bargain, or one-half of it only to some competent person, who understands well the running and management of such an establishment. Or if not disposed of soon, would rent to responsible parties for a term of years, retaining an interest or not, as may suit the parties wishing to rent. There are two large shipyards in the place, with more work offering than they can do, and many parties desiring to contract for steamboats, engines and machinery, are compelled to go to other cities, for the want of parties here to do the work.

For terms and price address BOX 480, Madison, Indiana. jd2:1m

FOR SALE—About 20 Acres choice Land, just right for country seats, with fine views, &c., and 14 acres of river bottom land, between the railroad and river, and fronting on both about six hundred feet, just right for manufacturing sites, all or any of which I will sell low, if applied for now. This property is at the terminus of the Manchester Street Railway, and at the Woods Run Station of the Fort Wayne & Chicago Railroad, on which the fare is only five cents, and time of transit only eight minutes.

Also, A large lot of ground in Manchester, 50 feet front on the Ohio river and Large street, with large dwelling of twelve rooms, and large fruit trees and shrubbery, &c., formerly occupied by James McKain, as a "Second Hand Garden." The property would be exchanged for a suitable piece of land near the city. Further information and plans of the property are to be had at my residence, at Woods' Run Station.

or THOS. C. LAZEAR, cor. Fourth and Grant sts., Pittsburgh. my29:3md

FOR SALE.—One superior second-hand CYLINDER BOILER, 30 inches by 30 feet long, all perfect.

The manufacturer of Sugar from Sorghum, or the Chinese Sugar Cane, and the plaid of Samuels, if not fabulous profit from the article even at ordinary prices, are all consulted in the purchase of this perfect demonstration. As Southern Illinois, in point of climate and soil, is admirably adapted for the growth of the cane, and as the cultivation of the cane already forms a great feature in the agricultural pursuits of the people, the fitness of the location for the factory will be readily conceded.

It is the purpose of the Company to erect and have in operation a large factory before the close of the present season, and with a view to aid in that purpose, a parcel of land, on Saturday, June 20th, 1863, at 5 o'clock p. m., a certain blind BAY HORSE, which was left at our stable some time since by a gentleman, will be sold at auction, for the purpose of defraying the expenses of keeping said horse.
