FRIDAY MORNING.....SEPT. 18, 1863.

LOCAL INTELLIGENCE.

From Yesterday's Evening Edition.

Ministers of Great Britain to American Christians on the subject of Slavery.

A meeting of members of different denominations of Christians, in Pittsburgh and Allegheny, was held in the First Presbyterian Church (Dr. Paxton's), last evening, to hear an "Address to Ministers and Pastors of all denominations throughout the States of America," adopted by an anti-slavery conference in Manchester, England, on the 3d of June, 1863, and sent to this country by the hands of the Rev. Dr. Mizzie, of London. The Rev. Dr. M'Kinney, introduced the exercises by giving out a portion of Psalmody, and leading in prayer at a throne of grace.

The Rev. John Douglas, D. D., then introduced Dr. Mazzie in a few words, remarking that he was a man of high moral character and social position—not a deputy from the English nobility—nor an accredited ambassador from the English government—but a representative from the English *people*. He comes from the land of Wilberforce and Clarkson, and is filled with their spirit.

Dr. Mazzie then delivered a very interesting address, in which he showed that the masses of the working population of England sympathize with the United States Government in its present struggles.

He cautioned the people of this country against receiving the London *Times* as the organ either of the English Government, or the English people. It speaks for itself. It would say black is white to-day, and to-morrow affirm that white is black, without giving any reason for its change of opinion. At first, the *Times* said it was eminently proper for English ship-builders to construct ships to prey upon American commerce. Now it thinks it not altogether *moral*, because America may treat England in the same way—at some future day.

It is to be regretted that there was not timely notice given of the meeting, so that more of our citizens might have had an opportunity of hearing the admirable lecture of Dr. Mazzie, as well as the address of the Conference.

At the conclusion of the address, the meeting organized by calling Gen. William Robinson, Jr., to the Chair, and appointing Dr. Mc. Kinney, Secretary.

On motion of Rev. Mr. Smith, the chairman was authorized to appoint a committee of five to prepare a response to the address. The chairman nominated the following: Rev. Dr. Douglas, Rev. Mr. Smith, Dr. Jacobus, Rev. Mr. Reis and Dr. McKinney.

On motion of Dr. Douglas, Rev. James Prestley, D. D., was added to the committee.

The meeting then adjourned, Dr. Mazzie pronouncing the benediction.

A Copperhead Candidate.

The Copperheads of Stark county, Ohio, are running a fellow for the Legislature against whom the following charges are made and *not denied*: First, he embezzled $700 of money belonging to the United States—in other *words*, robbed the Postoffice of that amount, for which he was arrested and thrown into jail, and some time afterwards bailed out. His bondsman had to pay the money. Second, he gambled it all away. Blackleg got the cash of Uncle Sam, which he feloniously abstracted. Third, not long before this transaction he was Township Treasurer, and when his term expired it was found that he was a defaulter to the amount of $536 58, for which suit was brought against his bondsmen. Fourth, some years ago he was expelled from the Odd Fellows, under the following circumstances: A member of the order was killed accidentally, leaving a widow and children in destitute circumstances. The thirty dollars appropriated by the order to defray funeral expenses, was put in this Copperhead's hands to give her, and he keeps it, to this day. Fifth, at one time he kept a commission store, and ran it as long as any man could who kept most of the money and property that he got possession of from consignees. He made a haul out of a miller named Earle, for whom he sold flour to the amount of $1,000 at one time, and kept all the money. The paper from which we quote says: "One would suppose that such a persistent course of theft and robbery would have left him in possession of some money; but for well known reasons, he is penniless, and it is not a week since he tried to trade a bunch of envelopes for a bushel of bran. The envelopes he stole from ———, newsdealers in Pittsburgh, who have obtained judgment against him for $80 worth of stationery, and much good may it do them."

Another characteristic which probably recommends the fellow's case to the Copperheads, is an occasional turn of the delirium tremens, a spasm of which fetches him up, in his career, now and then.

The only thing that secured him the nomination, is the fact, that he is a secessionist and an ardent admirer of the rebel Vallandigham. There is not a particle of doubt that he will get the vote of his party, but as the soldiers vote in Ohio this fall, he will be beaten with the rest of his ticket.

The Arsenal Explosion.

To-day is the first anniversary of the appalling catastrophe at the Allegheny Arsenal—an event which carried grief and distress to hundreds of worthy households. No less than seventy-four persons perished in consequence of the explosion, the great majority of whom were young girls, the daughters of poor but respectable parents. The building was blown to pieces, and the timbers fell crashing upon the heads of the unfortunate inmates. Many were killed by the explosion, others perished in the burning ruins, while a number were saved from instant death by being blown away out of reach of the flames, only, however, to linger and die of their injuries. So far as the loss of life was concerned, it was the most serious calamity which ever befel this community.

By reference to an advertisement published elsewhere, it will be seen that a meeting "of all the bereaved friends interested in the erection of a monument over the remains of the unfortunate sufferers," will be held at Robinson's Hall, Lawrenceville, on Friday, the 18th inst., at three o'clock in the afternoon.

The Oil Trade.

The Oil City *Monitor*, of the 16th inst., contains the following review of the market at that place, for the preceding week: Since our last report the market has been firm and active with an upward tendency. Notwithstanding the prognostications of buyers we have a steady increase in the demand for our product, while we cannot note any increase in the yield. The prospects are favorable to a still further advance. There appears to be a disposition of the producers to hold for higher prices. We have no creditable advices of any new wells being struck since our last. We hear of sales on the Tarr Farm at $7. This would bring it to $7,75 at the mouth of the Creek, in bulk, and $11 packages included. We will quote the above as the ruling figures. Buyers plenty. The river low as ever known to be, and the Creek almost dry. Hauling to railroad lively and remunerative. Freights to Pittsburgh, $1,70 per bbl. No change in price of barrels.

Homicide at Mansfield, Ohio.

On Tuesday night, the 8th inst., Daniel McJunkin, Esq., a worthy citizen of Washington township, Richland county, Ohio, was instantly killed by a companion named Jas. B. Ferguson. While returning from a singing party, the man had a dispute about some trifling matter, when Ferguson dealt him a blow on the neck, which felled him to the ground. He breathed but a moment after, when he expired. The murder occurred in the night, and although several persons were present no weapon was seen in Ferguson's hand. He is supposed to have used a "slungshot" or "handy billy," the muscles of the neck having been considerably lacerated. The deceased leaves a wife and three children. Ferguson was arrested and held to answer a charge of murder.

GODEY FOR OCTOBER.—Mr. Frank Case, Fifth street, Chronicle building, has just received the October number of Godey. Every lady will be anxious to see the Fall fashions, so elaborately set forth in this number. Pittock, opposite the postoffice; W. A. Gildenfenney, 45 Fifth street, and J. P. Hunt, Masonic Hall, have also received the above number.

DEATH OF MR. FICKESIEN.—Daniel Fickesen, whose attempt at suicide we have already reported, died of his injuries on Wednesday.

The Habeas Corpus and the President's Proclamation.

In the United States District Court, to-day, before Judge M'Candless, four writs of habeas corpus, directed to Capt. E. S. Wright, Provost Marshal, came up for hearing. These were cases already reported, and pending investigation. Capt. Wright made return that he held the bodies of the parties named, as soldiers in the service of the United States, and recited the late proclamation of the President, suspending the writ of habeas corpus, as a sufficient reason why the bodies should not be produced. Judge M'Candless decided the answer sufficient, and dismissed the writs at the cost of the United States. The proclamation, therefore, will put an end to the service of writs in cases of this character.

GOV. CURTIN, and friends, left the city at ten o'clock this morning, on a special train for Greensburg, at which place he will address a mass meeting of the Union party.

LATE TELEGRAPHIC NEWS.

AFFAIRS AT CHARLESTON.

Cause of the Defeat of the Assault on Fort Sumter.

MEADE'S POSITION UNCHANGED

The Election in Texas.

&c., &c., &c.

Special Dispatch to the Pittsburgh Gazette.

PHILADELPHIA, Sept. 17.—The dispatch steamer Mary Sanford arrived at New York last night with news to the 12th inst. The white rebel flag is flying over Moultrie. Gen. Gillmore is erecting new batteries on Morris Island, under a heavy fire from Moultrie and Johnson. Two fifteen-inch guns on Moultrie are very mischievous.

Sumter is still formidable to assault. The late expedition was defeated because the gorge wall slopes only from the parapet to the top of the sand bag barricades, piled by the rebels to protect the wall against breaching batteries. The wall is twelve feet high. The expedition took no scaling ladders, and instead of finding a slope of debris up to the parapet of the gorge wall the expedition found it a perpendicular range of masonry, and the parapet manned with infantry. Three boats were shattered by hand grenades, and the rebel Ram coming down with a fire of grape and cannister, a retreat was imperative.

A batch of small blockade runners are coming up as prizes from Point-Look Out, valued at $30,000.

General Meade's position is unchanged. Pleasanton is taking many prisoners.

The Richmond *Dispatch* says the affair at Culpepper and Rapidan had no result, but that Meade is making an advance.

Pendleton Murrah, elected Governor of Texas, is well known here. He graduated at Brown's University in 1848, and is a native of Alabama. He was a poor boy, partly supported by the female members of the Baptist Church.

Philip C. Herbert, elected to the rebel Congress, was a representative in the thirty-fourth Congress from California, and while in Washington killed an Irish waiter at one of the hotels.

The Democrats are preparing for a mass meeting in Independence Square to-night. They are desperately working. They have no hope of carrying the city and look to the country for majorities.

Weather sultry; thermometer 74.

W. J. J.

From Morris Island.

NEW YORK, Sept. 17.—A Morris Island letter to the *Herald*, dated Sept. 11th, says: Ever since our occupation of Fort Wagner and Gregg the rebels have been exceedingly morose and savage. They do not allow us a moment's peace. They fire right and day upon Wagner, but they lofe as such an admirably constructed work and so capacious and safe bomb-proofs that no one is injured. They are often enough during the night to enable us to sleep soundly.

Since Tuesday ten or twelve deserters have come in from James Island belonging to Georgia regiments. They report a continued dissatisfaction among the men, and a general desire to escape from the service which has become disagreeable to them. They state that the rebels are building several new batteries on Sullivan's Island, above Fort Moultrie and Battery Bee, to cover the channel to the city. Additional batteries are also being constructed in the most approved style between Fort Johnson and the city, on James Island, on which they are mounting 10 inch Columbiad and 7-inch Brook rifles.

On the green at the city the rebels had mounted a 13-inch Blakely rifle, which they have just received from Mobile, whence it was brought with another of the same calibre, in an Anglo rebel blockade runner, two weeks ago. The second of these is in Charleston, not mounted. It was at first proposed to mount it on Fort Johnston, but that idea was given up, and so far as deserters know no place had yet been determined upon where it could be put in position. Ninety of these monster projectiles, weighing over five thousand pounds each, were lying by the side of the gun on Charleston green.

The *Times* has the following: It is stated on good authority that General Gillmore has tendered his resignation to the President, because of a disagreement between himself and Admiral Dahlgren. Report says that the President will not give up Gillmore, and Admiral Farragut has been appointed, with a proposition to assume command of the naval forces at Charleston.

The health of the command is good. The soldiers and sailors have fresh vegetables.

General Gillmore has issued a general order giving thirty days furlough to privates who have distinguished themselves in the recent siege. They are not to exceed two per cent. of the effectives on the island, and must be recommended by their Colonel.

From the Army of the Potomac.

ARMY OF THE POTOMAC, Sept. 16.—The enemy contests Gen. Pleasanton's further advance on the south bank of the Rapidan, with a strong force of cavalry, artillery and infantry, aided by strong breastworks and rifle-pits. Considerable sharp skirmishing occurred at Raccoon Ford yesterday, but our loss was slight and our force remained quiet this side of the river. I have as yet no positive information concerning the main body of rebel infantry, but it is quite evident their position will be entirely developed within a day or two.

The *Times'* dispatch says: Commissary and Quartermasters' stores at Warrenton and Manassas are being removed to Alexandria out of reach of rebel guerrillas, whose cupidity increases proportionately with the length of our lines of communication. Two trains a day run through to Culpepper, stopping only at water and wood stations.

It is reported to-night that a cavalry force 3,000 strong, with artillery, is in the vicinity of Hancock's Ferry, on the Upper Potomac.

Dr. McDonald, Rev. W. G. Scandlin, and several other members of the Sanitary Committee, captured at Gettysburg by the rebels and sent to Richmond, will be released on Friday next.

Officers in the Army of the Potomac complain that the fresh horses received by the cavalry in exchange for worn out animals are worse than those returned to the Government. Officers say that the horses, issued since the established new cavalry bureau, are not so good as those furnished before its organization.

Quantrell's Guerrillas Routed—Another Raid Frustrated.

KANSAS CITY, Sept. 16.—A detachment of the 9th Kansas regiment, under Capt. Coleman, came upon Quantrell's camp, near Sinabar, on the 6th, and killed two and destroyed a quantity of subsistence stores, capturing four horses, equipments, some arms. The rebels fired one volley and fled to the thick underbrush, where pursuit was impossible. The rebels are evidently concentrating for another raid. The loss of horses and stores will prove more disastrous to them than the killing of the men, as the country is completely denuded of stock and provisions.

Slaves Absconding.

ROCKVILLE, MD., Sept. 16.—The *Sentinel*, of the 11th inst., says: In consequence of the frequent absconding of slaves from that region, the farmers will not have sufficient help to gather their fall crops.

Successful Expedition.

MEMPHIS, Sept. 16.—Official information from Gen. Smith's division, four thousand strong, with two batteries in support of Gen. Steele, have been received. They are this week on their way up White River. Reports from Steele's continue favorable.

Generals Stevenson and Crocker returned to Vicksburg from the expedition against Genessee and Harrisonburg. The expedition was successful. The enemy are evacuating Petersburg, in the direction of Shreveport, destroying large quantities of stores, and blowing up magazines.

Patent Medicine Manufactory Destroyed by Fire.

LOWELL, MASS., Sept. 17.—J. C. Ayer & Co.'s Patent Medicine Manufactory took fire last evening, burning the two upper stories. Loss about $60,000. Insurance $30,000. About 200 hands lose employment.

COMMERCIAL RECORD.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH DAILY GAZETTE, THURSDAY, Sept. 17, 1863.

The produce market has been tolerably active to-day, as much so as could be expected under the existing circumstances. The river is too low for navigation at this point, and our railroads are so crowded with business, that it is almost impossible for our merchants to get produce forward from the west, and no material improvement, therefore, need be looked for until this drawback to trade is removed. Gold and Silver have both advanced slightly in New York to-day, the former being quoted at 192½, and the latter at 122. Here, our bankers are paying 128 for Gold, and 125 for Silver.

GRAIN & FLOUR—The receipts of Wheat, are very light, and the market is quiet and unchanged. Oats are very firm and higher, being held at 64@65c by the car load, and 66@68c from store. Corn is firm with sales of 300 bushels shelled on track at 83c, and 1 car to arrive at same figure. Rye and Barley are firm but unchanged. Flour is steady with a fair local demand, and we note small sales of Extra Family from store at $5,75 to $6, according to quality.

GROCERIES—The Grocery market is considerably excited in consequence of an advance in the East, and while no material change has, as yet, taken place in prices here, holders are very firm, in anticipation of higher figures.

BACON—The market is quiet but firm, and the stock in first hands is becoming very light. Small sales at 6¾@6¾c for Shoulders; 6¾@7c for Ribbed Sides; 10½@10¾c for Plain Hams, and 13 to 14c for common to prime Sugar Cured.

MILL FEED—The demand is fair, and the market is firm but unchanged. Sale on track of 10 tons at $7,15 for Shipstuffs, and $1,60 for ordinary Middlings; also, 25 tons prime Shipstuffs at $28,50 per ton.

SEEDS—Sale in one lot of 127 bush Timothy Seed at $2,60 per bush, and 40 bush prime in small lots at $2,50. No sales of Flax or Clover Seeds reported.

BUTTER & EGGS—unchanged; sale of 200 lbs good Roll Butter at 20c; 8 crocks fresh at same figure and 5 bbls Eggs at 15c.

HAY—firm with a continued good demand at former quotations. Sales of 21 bales prime Timothy at the rate of $29 per ton, and 16 loads from scales at $30 to $35.

APPLES—have declined; sale of 100 bbls at $2,00 per bbl.

SALT—unchanged; sale from yard of 50 bbls No 1 Extra at $2,40 per bbl.

DRIED FRUIT—Sales with a sale of 32 bush Small Peaches at $2,75 per bush.

CHEESE—is in good demand, and prime W R sell readily at 12½c.

Pittsburgh Petroleum Market.

SEPT. 17.—The oil market continues to rule very quiet, with no particular variation to notice in it. Crude is in fair demand and firm, with a sales of 1,600 barrels in tank at 23½—the buyer to furnish the barrels and the seller to fill them; and 45 barrels at 27c—barrels returned. A fair quotation, including packages, would be 31½, and some sales have been made at this figure. Refined in bond is very quiet, as we were unable to hear of a single transaction. For immediate delivery, good brands may be quoted at 63@63½, some holders asking 64. The first named figure (63) was offered for 500 barrels and we also heard of 63½ being offered for a similar number. Future deliveries are unsettled and in the absence of sales we omit quotations. Refined, free, is steady with a fair jobbing demand at from 63 to 65. There is an improved demand for deodorized Benzine, and the market may be quoted firm at 18—some holders asking 20.

New York Petroleum Market.

Special Dispatch to the Pittsburgh Gazette.

NEW YORK, Sept. 17, 1863.

The market for Crude is dull and nominal with small sales on the spot at 36c. Refined in bond, is quiet, with sales at 56c on the spot, and 62½@63c for for October delivery, buyer's option. Refined, free, ranges from 66 to 67c. Naptha is firm and a shade higher, with sales of Refined at 28@28c. C.

Iron and Nails.

Sept. 17.—The demand for Bar Iron during the past month has been fully equal to the capacity of our mills to produce. For Sheet, Hoop and Plate iron, there is considerable inquiry, and the demand appears to be in excess of the present supply. The demand for Sheet and Plate iron, however, is always large at this season of the year, though, ordinarily, it falls off in October.

There is a full supply of nails to meet the present demand. During the last of August an advance of 25 cents per keg was established. The price before the advance was less than for bar iron, and even now the price is less, relatively. The impression appears to be gaining ground, that nails will still further appreciate 25 cents per keg the coming month.

Pig metal continues firm with a strong tendency to higher rates, especially for those descriptions suited for the manufacture of Hoop, Sheet and Plate iron.

Cleveland Market.

SEPT. 16—Flour—Sales 250 bbls fine at $4,00; and small lots common XX red at $4,00. Wheat—Receipts light and market better. Sales on Change 1 car common white on track at 1,00; 1 car Kentucky white on track at 132c; 1 car red on track at 107c; and 2 cars choice red do at 108c. Since morning holders have been firm, but the market was not quite so active as yesterday. The only sales reported were 1 car Indiana white on track at 120c; 2 cars red from store at 107c. Corn—sales 1 car from store at 70c. Oats—Firm with sale 1 car from store at 57c. Rye—Held at 73@75c.

Toledo Market.

Sept. 16.—Our market is nearly lifeless to-day, the sum out of grain which has changed hands, affording but a small index to the feeling of holders. Flour—No sales reported. Wheat—Market very quiet; sales 5 for export: 700 bus M. S. Red at $1,10; 2000 bu do at $1,09, 500 bu do at $1,10. Since report, no sales, and it is impossible to name quotations. For some months past Corn—Oats and other grains dull. Freights—No charters that we could hear of. Salt—Fine, $2,20 per bbl.; Coarse and Ground Solar, $2,25.

Allegheny Live Stock Market.

THURSDAY, SEPT. 17, 1863.

This has been a very hard week upon drovers, and one which will not be forgotten soon by those who have but recently embarked in the business. We do not remember of ever seeing so hard a market and we certainly never saw as many hard cattle on sale in any one week. One would almost be forced to the conclusion after looking over the stock on sale of late, that there were no good cattle raised in this country; or, if there was, they were left at home for a show, rather than to satisfy the palate of those who are fond of good beef. We have had again this week another large supply of bulls and stags from Ohio, which were sold at the low price of 1½ cents per pound. The owner of one lot assured us that all of his (bulls) were Vallandigham "men," and he urged some of his (V's) friends to buy them for their own table use, as it was the kind of meat that Val. and his "Southern friends" were very fond of.

Good cattle sold readily, as the supply was very light, not one half enough to supply the local trade, and while we believe that this grade of stock sold at a fair profit, small and inferior cattle sold at a loss of from three to six dollars per head. There was no demand for stock cattle except for those of first class, weighing from one thousand to eleven hundred pounds, which sold readily at 3@3½c.

On Wednesday morning, Myers & Bro., to whom was awarded the government contract on Tuesday, commenced buying, but only at low figures, say 3 to 3½c, and these will be the extreme rates paid for that class of cattle. There are plenty of this grade waiting shipment, and will be brought forward, let the prices be high or low.

The following are the correct quotations for the different grades of cattle:

Premium—None in market.		
Extra	4 @4½c	℔ lb.
First quality	3 @3½	"
Second quality	3 @3½c	"
Third quality	2 @3	"
Inferior	1½@2	"

The whole number of cattle sold this week, amounted in the aggregate to 1542 head, being 212 head less than last week. The cattle sold were from the following named States:

810 head from Illinois.
181 head from Indiana.
54 head from Kentucky.
761 head from Ohio.
103 head from Pennsylvania.

Below will be found a correct report of all the leading sales:

H M Funk, 38 head of fair 1100 pound steers, of nice quality but not fat—cost 3 cents in Chicago—sold here at $3,30 per cwt.

A Cartastine, retailed 21 head of very fair cows and heifers from Northern Ohio, at 2½@3½c.

Wm Murdoch, wholesale 19 head of fair Ohio steers averaging 1150 pounds each at 3¾c.

M Shaler, sold a mixed lot of 22 head of small stock at 2@3c.

Wm Kurdy, sold 40 head of small Ohio stock at 2@3½c.

M Seddon, retailed 10 head at 2@2½c.

D Patterson, retailed a mixed lot of 20 head at 2½@3½c.

D Rose, sold 21 head of small Ohio cattle, in fair flesh, at $2,90 per cwt.

W Roberts, sold 21 head of small Ohio cattle at 12½ per head; or 2½ cents per pound.

Wm McFadden, retailed 33 head of very fair Ohio stock at 2½@3½c.

Shaw & Roberts, sold 34 head of small Penna. cattle, suitable for stock, at an average of 2½c.

G Prater, sold 43 head of small inferior stock at 2@2½c.

Doane & co, retailed a mixed lot of 40 head at 3@3½c.

J Burnick, sold a mixed lot of 21 head at 2@3c.

P Kline, retailed a good lot of 25 head of Ohio cows and heifers at 3@3½c.

W Warrence, sold 20 head of nice fleshy small cattle at $2 90 per cwt.

Kidd & co, sold a mixed lot of 30 head of small Penna. stock at 2@3½c.

M Johnson, sold 60 head of small Ohio cattle of good quality—40 head retailed at 2½@3½c; and 20 head of stock cattle, averaging about 800 lbs, sold by Merrick at 1½c.

M Partrigee, 40 head of Ohio steers, which the owner held at $36 per head, at the opening of the market, but subsequently sold at $34.

Crum & Co, sold 35 head of heavy Illinois steers, one of the best lots in market, at 3½c.

Hasbhurer & Co, retailed a mixed lot of 30 head at 2@3½c.

J Hoglan, sold 20 head of inferior stock at 1½@2½c.

A Lantz, sold a medium lot Ohio stock at 2½c.

R Boone, sold 54 head of fair Ohio steers, averaging 1000 lbs each at 3c.

J Bybee, sold 162 head of the finest stock we have seen in market to-day, raised by himself, and weighing 1123 pounds, at 3½c—said to be cheap.

O Hudson, sold 20 head of bulls at 1½c, and 22 head of small heifers at 1½@2½c.

E Whittlesy, sold 12 head of small heifers at 2 @3c.

E Wolfe, 20 head of Ohio heifers which cost him $27 per head at home, sold here at $26—pretty heavy discount.

R H Monroe, had 20 head of bulls for which he was offered 1¼ cents per pound at home, and sold here at the same.

B King, 20 head of small Ohio cows and heifers at 2@3c.

J Pringle, sold 25 head, which have been in market for several weeks at 2½@3c.

Wm Marion, sold 22 head of small cattle at $25,50 per head; or about 2¾c per pound.

Webb & Or, sold 20 head of fair Illinois steers, not very fat, at 3½c.

H A Merrick, sold 50 head of fair small cattle for J Wood, at 2½@3c; also 20 head inferior small cattle for J Tanner, at 1½@2½c; and a mixed lot of 110 head on his own account at 3@3½c.

J Elliott, sold 54 head of nice stock raised by himself, in Ohio, and average 1250 pounds each at 3½c.

Marks & Co, sold 23 head of very good cows and heifers at $3,50 per cwt.

There were other small lots sold which we do not think it important to notice. We think, however, that we have given enough to satisfy any one that the market was a hard one, and that they were very few good cattle on sale.

HOGS.

Merrick & Lafferty, Commission Merchants for the sale of hogs, report the following transactions:

Merrick & Lafferty retailed 100 head at 4¼@6¾c, and wholesaled 150 head at 6; Wm. Hoe sold 200 head extra prime at 5¾; O. Hudson 55, common at 4¾; S. Orbt 44 at 4¾; J. H. Bell 100 inferior at 4; Wm. McFadden 48 fair at 4¾; Wm. Bundy 56, a good lot, at 6¼; and J. N. Axe 50 common at 4¾.

The market closed dull and none but prime heavy are inquired for.

SHEEP.

The whole number of Sheep sold this week amounts in the aggregate to 2140 head, as follows:

M. Bushnell sold 172 head at 5¾; J. Mitchell 194 at and 600 at 5@4, J. Glass 473 at 5¾@4; also 191 at 4½. C. Swisher 191 at 4; M. Johnston 173 at 5¾; and —. King 90 at same figure.

The above quotations show a decline of nearly ½ cent per pound below former quotations, and even at this decline, the market is rather dull.
