[illegible]

DAVID EARLEY,

[illegible] Fancy Goods, Perfumery, Hair-Oils, &c., &c., [illegible] persons in search of an article in any of the above lines, to call upon them before purchasing.

Sewing of Work sent by mail.

[illegible] a stitch sewing machine?

1. It should be well made, simple in its construction, and easily kept in order.

2. It should make a TRUE LOCK-STITCH, alike on both sides of the material.

3. It should sew any and all materials that can be sewed.

4. It should be able to use Cotton, Thread, or SILK, directly from the spool.

5. It should be able to sew from coarse to fine, and from thick to thin, with rapidity, and without changing the tension.

6. It should be able to make the tension greater or less, on both the under and upper threads, and with uniformity.

7. It should have a straight needle; curved ones are liable to break.

8. The needle should have perpendicular motion. This is absolutely necessary for heavy work.

9. It should be capable of taking in the largest piece of work.

10. It should be able to bind with a binder, hem with a hemmer; should stitch, fall, run and gather.

11. It should be always ready to work.

12. It should be capable of using the same size of thread on both sides of the work, and of using different colored thread or silk, above or below, to correspond with any two colors of cloth to be united.

13. It should be able to make a long or short stitch.

14. It should be able to fasten off the seam, and commence sewing tightly at the first stitch.

15. It should run easily and make but little noise.

16. It should have a wheel feed; none others are in constant contact with the work.

17. It should not be liable to get out of order.

18. It should not be liable to break the thread, nor skip stitches.

19. It should not be necessary to use a screw-driver or wrench to set the needle.

20. It should not be liable to soil the operator's dress.

21. It should not form a ridge on the under side, nor ravel out, nor be wasteful of thread, as is the case with all SHUTTLE-STITCH machines.

22. It should not be "more trouble than it is worth."

23. Finally, all of these advantages are possessed by our Sewing Machine.

LADD, WEBSTER & CO.
