[illegible] tariff [illegible] and is a liberal spirit have [illegible] in favor of large and [illegible] branches of our manufactures, not by [illegible] the rate of duty upon the importation of [illegible] articles from abroad, but what is the same in effect, by admitting articles free of duty which enter into the composition of their fabrics.

Under the present system it has been often truly remarked that this incidental protection decreases when the manufacturer needs it most, and increases when he needs it least, and constitutes a scale which always operates against him. The revenues of the country are subjects of similar fluctuation. Instead of approaching a steady standard, as would be the case under a system of specific duties, they sink and rise with the sinking and rising prices of articles in foreign countries. It would not be difficult for Congress to arrange a system of specific duties which would afford additional stability both to our revenue and our manufactures, and without injury or injustice to any interest of the country. This might be accomplished by ascertaining the average value of any given article for a series of years at the place of exportation, and by simply converting the rate of *ad valorem* duty upon it which might be deemed necessary for revenue purposes, into the form of a specific duty. Such an arrangement could not injure the consumer. If he should pay a greater amount of duty one year, this would be counterbalaned by a lesser amount the next, and in the end the aggregate would be the same.

I desire to call your immediate attention to the present condition of the Treasury, so ably and clearly presented by the Secretary in his report to Congress; and to recommend, that measures be promptly adopted, to enable it to discharge its pressing obligations. The other recommendations of the report are well worthy of your favorable consideration.

I herewith transmit to Congress the reports of the Secretaries of War, of the Navy, of the Interior and of the Postmaster General. The recommendations and suggestions which they contain are highly valuable and deserve your careful attention.

The report of the Postmaster General details the circumstances under which Cornelius Vanderbilt, on my request, agreed, in the month of July last, to carry the ocean mails between our Atlantic and Pacific coasts. Had he not thus acted, this important intercommunication must have been suspended, at least for a season. The Postmaster General had no power to make him any other compensation than the postages on the mail matter which he might carry. It was known, at the time, that these postages would fall far short of an adequate compensation, as well as of the sum which the same service had previously cost the Government. Mr. Vanderbilt, in a commendable spirit, was willing to rely upon the justice of Congress to make up the deficiency; and I, therefore, recommend that an appropriation may be granted for this purpose.

I should do great injustice to the Attorney General, were I to omit the mention of his distinguished services in the measures adopted and prosecuted by him for the defence of the Government against numerous and unfounded claims to land in California, purporting to have been made by the Mexican government previous to the treaty of cession. The successful opposition to these claims has saved to the United States public property worth many millions of dollars, and to individuals holding title under them to at least an equal amount.

It has been represented to me, from sources which I deem reliable, that the inhabitants in several portions of Kansas have been reduced nearly to a state of starvation, on account of the almost total failure of their crops, whilst the harvests in every portion of the country have been abundant. The prospect before them for the approaching winter is well calculated to enlist the sympathies of every heart.—The destitution appears to be so general that it cannot be relieved by private contributions, and they are in such indigent circumstances as to be unable to purchase the necessaries of life for themselves. I refer the subject to Congress. If any constitutional measure for their relief can be devised I would recommend its adoption.

I cordially commend to your favorable regard the interests of the people of this District. They are eminently entitled to your consideration, especially since, unlike the people of the States, they can appeal to no Government except that of the Union.

JAMES BUCHANAN.

WASHINGTON CITY, 3d Dec., 1860.

The Troubles in Kansas.

Further Particulars.—Later advices show that great alarm exists in the border counties of Missouri, through dread of the lawless proceedings of Montgomery, and that the roads leading eastward were crowded with wagons and families abandoning their homes in Kansas. Many Missourians on the border had been compelled to leave their property and take refuge in more secure localities. Meetings were being held and measures of public safety concerted in the border counties.

"The armed abolitionists have continued their murderous operations in Bourbon and Lynn counties, Kansas, hunting down and driving from the Territory all men who have disapproved of their robbing and murdering, and who have acted in any manner to sustain the laws. The roads leading eastward from the Territory have been crowded with wagons and persons, male and female, escaping from these fiends. In one instance a mother gave birth to an infant on the road, near Poppingsville, in this State, during the flight of the family.

"On Monday of this week a Mr. Bishop, who lives on the Osage river, about 12 miles north of Fort Scott, having been aroused by a noise in the night, upon going to the door to see what was the matter, was instantly shot down and killed. His body was found to have been pierced by several balls.

"Families living on and near the old Jackson place, within this State, have been notified to leave their homes, by these outlaws, and, having no means of defense, have fled to Butler and places in the interior for security, leaving their homes and effects behind them unprotected. Yesterday slaves owned by those living on the line, some twenty-five miles or more within the State, arrived here for safe-keeping.

"Thus have the citizens of Bates and Vernon counties, since the commencement of this insurrection, been threatened with destruction of life and property, without adequate means of defense or protection. Up to this time this state of things has continued."

Montgomery's men are all through the country, giving out reports to mislead the people. These frequent outrages in the west by abolition bands, are kindling in that section a strong disunion spirit.

Fatal Railroad Accident.—On Saturday evening, about 5 o'clock, Mr. Dunwoodie, the freight conductor on the Cumberland Valley Railroad, met with an accident in Chambersburg, which resulted in his death. It appears that Mr. D. was standing with one foot upon the fender of the engine, and another on the front car, when the train was nearing the turn out of the Franklin road, upon which some of the cars were to be switched. When he had uncoupled the locomotive, some one gave the signal, and the engineer started rapidly. Mr. Dunwoodie had nothing to cling to, and fell upon the track, when the long cars passed over him, crushing his head, spine and shoulder. [illegible] taken from under the cars as speedily as possible, but every attention paid him proved of no avail. He died Saturday night. Mr. Dunwoodie was a native of Franklin county, Pa., and has been in the employ of the Cumberland Valley Railroad Company for many years. He was a man of much worth, and his untimely death will be deeply felt by his numerous friends.

[illegible] currency is now generally known among bankers and brokers as "Lincoln money."

The Compiler.

M. J. STABLE, EDITOR AND PROPRIETOR.

GETTYSBURG, PA.

THURSDAY EVENING, DEC. 6, 1860.

☞ Nothing of special interest has yet transpired in Congress. Both Houses convened on Monday—the old officers, of course, holding over. Committees were appointed to inform the President of their readiness to receive any communications from him. He sent in his message at noon on Tuesday, which was read and the usual number of copies ordered to be printed.—Mr. Sherman moved to refer the Message to the committee of the whole. Mr. Boteler moved to amend, that so much of the Message as refers to the grievances between the slaveholding and non-slaveholding States, be referred to a select committee, to consist of one member from each State. On this the previous question was called, and the amendment adopted—yeas 193, nays 38. The South Carolina delegation did not vote, as that State was virtually out of the Union.

☞ The President's Annual Message will be found in this issue. We anticipate our usual publication day, in order to lay the document the earlier before our readers. It is the most important emanating from the President of the United States since the formation of the Government. That it will have a good effect upon the country, we cannot doubt. And we infer this from the fact that the extremists of both sections fail to receive it with favor. It is too conservative for them. READ THE MESSAGE, and ponder its weighty truths.

☞ The *Sentinel*, following the lead of an *interested* writer in the Star, says "a startling fact has been exhibited at our last Court in regard to our Juries." Why "startling"? Are citizens not to be trusted in the Jury Box *because* they are Democrats? Does the editor of the Sentinel suppose that they decide cases there—regardless of right, duty and their solemn oaths—in accordance merely with their political preferences? It would really seem that he does. We tell him that Democrats are as conscientious as Republicans—that they are as honorable and as good citizens—that they are as law-abiding and as oath-abiding,—and if he supposes that he can thus insult and outrage them with entire impunity, he may find himself mistaken.

Local Items.

NEW P. O.—A new Post Office has been established at Idavillo, (Whitestown,) Adams county, Pa., and Mr. JESSE SMYERS appointed Postmaster. It is on the Bendersville route, and will be served three times a week.

PROPERTY SALES.—Mr. JOHN PROUTZ has sold his farm on Marsh creek, (formerly McGaughy's,) to Mr. JOHN SOCKS—214 acres, for $8,000, cash.

Mr. JOHN FORSYTH has sold his house and lot, on the "Wolf hill," to Mr. HENRY M. BISHOP, (of Geo.,) for $250.

BRIGADE STAFF.—Brigadier General C. H. Buehler has made the following appointments:—Aid-de-Camp, Franklin Hersh, with rank of Captain; Judge Advocate, Wm. A. Duncan, Esq., with rank of Major; Quarter Master, C. B. Haines, with rank of Captain; Pay Master, F. B. Picking, with rank of Captain; Surgeon, Dr. T. T. Tate, with rank of Major.

IN LUCK.—Our exchanges record various instances of "good luck" on the part of the editors, coming in the shape of donations of "gobuliers" and other feathered "animules" to their otherwise scanty tables. We have the pleasure of being "in *that* ring." A few days since, our good friend, PETER EPLEY, of old Straban, favored us with a fine fat turkey—for the which we return him our own and the thanks of the household. "May he live a thousand years and his shadow never grow less."

☞ The Palmetto flag raised—and lowered—at Littlestown!—lowered "quicker 'n wink." The Black Republicans at Littlestown "jolified" over the success of Lincoln, as they had a right to do; whether it was in *good taste* for them, located as their thriving town is, to run into ecstacies over the triumph of Abolition sectionalism, is another matter. Among the "appliances" of their jolification, was an evergreen arch across the street at the square. It was *intended* to be *very* handsome; but opinions varied after the thing was up. Those whose work it was were so well pleased with it that they allowed it to remain up for days and days—frightening teams, and occasionally annoying a good Maryland customer of the town, who went there to dispose of his grain and other produce, and lay in his dry goods, groceries, &c. The arch came down at last, however. One morning, a regular Palmetto flag—the ensign of the secessionists of South Carolina—was seen to float from it in all imaginable grandeur. This did not seem to please the immediate "proprietors" of the arch. If it indicated sectionalism of any character, it was in the *wrong direction*. Suddenly then

There was "a terrible fall"—
Down came the flag, the arch, and all!

Thus disappeared the last relic of the Littlestown Republican jolification.

John Brown Meeting Broken Up.

BERROW, Dec. 3.—The John Brown meeting was called to order by James Redpath, this morning at the Tabernacle. The place of meeting was immediately taken possession of by a body of Union men, who chose Richard Sullivan Fay to chairman.

The moment this duly organized assembly [illegible] John Brown, John Jones, and shouting the Star of Virginia.

Fred Douglass, Redpath, Frank Sanborn and other John Brown abolitionists vainly endeavored to be heard.

Much confusion ensued, the police were called in, the hall was cleared and the Tabernacle closed by order of the Mayor.

Special Notices.

THE OXYGENATED BITTERS.—The qualities of this medicine have placed it upon an imperishable foundation. In destroying disease, and inducing health, it has no parallel.

For the following Complaints these Bitters are a Specific, viz:—Dyspepsia, or Indigestion, Heart Burn, Acidity, Costiveness, Loss of Appetite, Headache, and General Debility.

In many sections of our country this preparation is extensively used by physicians in their practice, and it seems to have restored many to health who were apparently beyond the reach of the healing art.

REMARKABLE CASE OF AN AGED PERSON.

RICHMOND, Tioga co., Pa., Aug. 25, 1858.

Messrs. S. W. Fowle & Co: Gentlemen:—After suffering for thirty years with Dyspepsia, and trying many remedies recommended for that disease without any good result, I was induced by Dr. F. H. White to give the Oxygenated Bitters a trial. I took two bottles, which gave me much relief; I concluded to try two more, which have nearly or quite effected a cure. I am now nearly seventy-five years of age, and for three months past have eaten my food without experiencing the slightest inconvenience or suffering; and it is with pleasure that I recommend your remedy to dyspectics.

A. HERARD.

FROM DR. WHITE.

MANSFIELD, Tioga co., Pa., Aug. 2d, '58.

I have used the Oxygenated Bitters in my practice with decided success in debility and general prostration, &c., and confidently recommend it in general debility and diseases of the digestive organs. F. H. WHITE, M. D.

PRACTICAL CALCULATOR.

Rohrer's Practical Calculator,

A Book of plain Rules and Calculations for Business Operations, by MARTIN M. ROHRER, Practical Surveyor and Conveyancer. New Edition. Published by J. B. LIPPINCOTT & Co., Philadelphia.

THIS Work contains 204 pages, and upwards of 600 Rules and Examples, entirely and thoroughly PRACTICAL, such as arise every day in the common pursuits of Business. It has already passed through a number of Editions in rapid succession, and is pronounced by all classes of business men to be the HANDIEST BOOK OF REFERENCE, pertaining to calculations, that has ever been published.

Every Example in the book is WORKED OUT IN FULL, and stated in a plain manner, so that when a parallel case arises, those referring to the work will find no difficulty in readily solving it; in a word, the general arrangement of the CALCULATOR is so simple, that any one who knows how to ADD, SUBTRACT, MULTIPLY, or DIVIDE, can easily solve any ordinary example that arises in business, or arrive at the true result of any estimate required.

The chief aim of the author has been to eschew theory and philosophy in figures, aiming only at facts and simplicity, believing that business men care little about spending time in discussing the philosophy of rules, or the science of figures, deeming it sufficient for their purpose to be able AT A MOMENT, by reference, to arrive at the TRUE RESULT. The CALCULATOR differs in this respect from all Arithmetics of the day and kindred works—it is a key to practical business calculations—it is, in the hands of the business man, what the key to mathematical works is in the hands of the teacher in the school-room—it facilitates time and correctness.

The Work treats of the Measurement of Land, of Lumber, of Brick and Brick Work, of Stone & Stone Work, of Grain and Grain Bins, of Coal & Coal Bins, of Wood, of Solids, of Circular, Square, or Irregular Vessels, of Cisterns and Vats, of Roofing, of Plasterers', Painters', Glaziers', Pavers', Plumbers', Paper Hangers', and Upholsterers' Work. It treats of Currency and of Foreign and Domestic Exchange, of the Decimal System, of Reduction and its extended application to Business, of Simple and Compound Interest, and their entire application to Business transactions, with the laws and usages governing and regulating the same, together with numerous commercial Forms,—of Legal Tender, of Partial Payments on Notes, of Banking and Bank Discount, of Equation of Payments and of Partnership Accounts, of Assessment of Taxes, of Weights and Measures, of Square and Cubic Measure, of the Square Root and its Application to Business, of Surface, or Excavation, and of many other important practical matters not within the scope of an advertisement to mention.

It is just the Book for the Farmer, the Mechanic, the Artisan, or the Professional man. It has proven a valuable auxiliary to the Lawyer, the Justice of the Peace, the Conveyancer, and Real Estate Broker, to the Assessor, the Banker, the Clerk, to the Civil Engineer and the Surveyor, to the Carpenter and Bricklayer, to the Stone Mason and the Plasterer, to the Paper Hanger and Upholsterer, to the Paver and the Tiler, &c., &c.; each and all will find it adapted to their various wants better than any book published.

☞ Mailed (post paid) to any part of the United States upon receipt of the money.—Price of a single copy, in cloth, 60 cents, or two copies for $1 00. Bound in pocket-book form, Morocco, $1 00 per copy. Address,

J. C. Ayer & Co. Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous affection, I have suffered from it in various ways for years. Sometimes it burst out in Ulcers on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was rejoiced to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilla,) for I knew from your reputation that any thing you made must be good. I sent to Cincinnati and got it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. New and healthy skin soon began to form under the scab, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the apostles of the age, and remain ever gratefully, Yours, ALFRED B. TALLEY.

ST. ANTHONY'S FIRE, ROSE OR ERYSIPELAS, TETTER AND SALT RHEUM, SCALD HEAD, RINGWORM, SORE EYES, DROPSY.

Dr. Robert M. Preble writes from Salem, N. Y., 12th Sept., 1859, that he has cured an inveterate case of Dropsy, which threatened to terminate fatally, by the persevering use of our Sarsaparilla, and also a dangerous attack of Malignant Erysipelas by large doses of the same; says he cures the common Eruptions by it constantly.

BRONCHOCELE, GOITRE OR SWELLED NECK.

Zebulon Sloan, of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured me from a Goitre—a hideous swelling on the neck, which I had suffered from over two years."

LEUCORRHŒA OR WHITES, OVARIAN TUMOR, UTERINE ULCERATION, FEMALE DISEASES.

Dr. J. B. S. Channing, of New York City, writes: "I most cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in Female Diseases of the Scrofulous diathesis. I have cured many inveterate cases of Leucorrhœa by it, and some where the complaint was caused by ulceration of the uterus. The ulceration itself was soon cured. Nothing within my knowledge equals it for these female derangements."

Edward S. Marrow, of Newbury, Ala., writes, "A dangerous ovarian tumor on one of the females in my family, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

RHEUMATISM, GOUT, LIVER COMPLAINT.

Independence, Preston co., Va., 6th July, '59.

Dr. J. C. Ayer: Sir—I have been afflicted with a painful chronic Rheumatism for a long time, which baffled the skill of physicians, and stuck to me in spite of all the remedies I could find, until I tried your Sarsaparilla. One bottle cured me in two weeks, and restored my general health so much that I am far better than before I was attacked. I think it a wonderful medicine. J. FREAM.

Jules Y. Getchell, of St. Louis, writes: "I have been afflicted for years with an affection of the Liver, which destroyed my health. I tried every thing, and every thing failed to relieve me; and I have been a broken-down man for some years from no other cause than derangement of the Liver. My beloved pastor, the Rev. Mr. Espy, advised me to try your Sarsaparilla, because he said he knew you, and any thing you made was worth trying. By the blessing of God it has cured me, and has so purified my blood as to make a new man of me.—I feel young again. The best that can be said of you is not half good enough."

SCIRRHUS, CANCER, TUMORS, ENLARGEMENT, ULCERATION, CARIES AND EXFOLIATION OF THE BONES.

A great variety of cases have been reported to us where cures of these formidable complaints have resulted from the use of this remedy, but our space here will not admit them.—Some of them may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them.

DYSPEPSIA, HEART DISEASE, FITS, EPILEPSY, MELANCHOLY, NEURALGIA.

Many remarkable cures of these affections have been made by the alterative power of this medicine. It stimulates the vital functions into vigorous action, and thus overcomes disorders which would be supposed beyond its reach. Such a remedy has long been required by the necessities of the people, and we are confident that this will do for them all that medicine can do.

AYER'S CHERRY PECTORAL,
FOR THE RAPID CURE OF
Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease.

This is a remedy so universally known to surpass any other for the cure of throat and lung complaints, that it is useless here to publish the evidence of its virtues. Its unrivalled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the earth. Few are the communities, or even families, among them who have not some personal experience of its effects—some living trophy in their midst of its victory over the subtle and dangerous disorders of the throat and lungs. As all know the dreadful fatality of these disorders and as they know also the effects of this remedy, we need not do more than to assure them that it has now all the virtues that it did have when making the cures which have won so strongly upon the confidence of mankind.

Prepared by Dr. J. C. AYER & CO., Lowell, Mass.
