> Every man is liable to accident. "Good luck" cannot always be depended upon. It will not prevent trains running off the track, steamboat boilers from exploding, machinery from mangling, horses from running away, sidewalks from being slippery, fire from burning, lightning from striking,

122 or injury from the careless of others. The questions to be answered are precisely the same as in fire insurance. Is it not cheaper to let a reliable company take the risk than it is 73 to fake it yourself? Is not the protection offered worth more than it costs?

Every prudent man will act with reference to future contingencies. Bodily injury by accident is one of the most fre-19 quent causes of distress to a man's fam-63 ly, if fatal to him; and to himself, also, if only disabling him from business. In 24 either case, this mode of insucance comes to you with certain relief. 80

Ayer's Cherry Pectoral

For Diseases of the Thront and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma,

discoveries of mo science, few are more real value mankind than this fectual remedy for all diseases of the Throat and Lungs. A vast trial of its virtues, throughout this and

trial of its virtues, throughout this and other countries, has shown that it does surely and effectually control them. The testimony of our best citizens, of all classes, establishes the fact, that Cherry Peccorat, will and does relieve and cure the afflicting disorders of the Throat and Lungs beyond any other medicine. The most daugerous affections of the Palmonary Organs yield to its power; and cases of Consumption, cured by this preparation, are publically known, so remarkable as hardly to be believed, were they not proven beyond dispute. As a remedy it is adequate, on which the public may rely for full protection. By caring Coughs, the forerunners of more serious disease, it saves unmusbered lives, and an amount of suffering not to be computed. It challenges trial, and convinces the most sceptical. Every family should keep it on hand as a protection against the early and unperceived attack of Palmonary Affections, which are easily met at first, but which become incurable, and too often faint, if neglected. Tender lungs need this defence; and it is unwise to be without it. As a sefeguard to children, maid the distressing diseases which beet the Throat and Chest of childhood, Cherry Pecconal, is invaluable; for, by its timely use, multitudes are rescued from premature graves, and saved to the love and affection centred on them. It acts speedily and surely against ordinary colds, securing sound and health-restoring sleep. No one will suffer troublesome Influenza and painful Bronchitis, when they know how easily they can be cured.

In Bronchitis, when they know how easily they can be cured.

Originally the product of long, laborious, and successful chemical investigation, no cost or toll is spared in making every bottle in the utmost possible perfection. It may be confidently relied upon as possessing all the virtues it has ever exhibited, and capable of producing cures as memorable as the greatest it has ever effected.

HALL'S VESETABLE SICILIAN HAIR

Every year increases the popularity of this valuable Hair Preparation, which is due to merit We can assure our old patrons that it is kept fully up to its high standard; and it is the only reliable and perfected prepara-tion for restoring Gray on FADED HAIR to its youthful color, making it soft, lustrous, and silken. The scalp, by its use, becomes white and clean. It removes all eruptions and dandruff, and, by its tonic properties, prevents the hair from falling out, as it stimulates and nourishes the hair-glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most economical HAIR-DRESSING ever used, as it requires fewer applications, and gives the hair a splendid. glossy appearance. A. A. Hayes, M.D., State Assayer of Massachusetts, says, "The constituents are pure, and carefully selected for excellent quality; and I consider it the BEST PREPARATION for its intended purposes."
