Following close upon the terrible conflagration at Chicago, comes a great Manster in Michigan. The large tracts of woodland in the northern part of the State, have been on fire for some time, Immense forests have been destroyed, and millions upon millions of lumber wasted. The latest particulars inform us that the fires had devastated a great region of country, destroyed several towns and dwellings innumerable. It is also reported that more than four hundred lives have been lost. This calamity really equals the Chicago holocaust.

A Stewartstown, N. H., manufactory. makes three tons of starch daily out of potatoes at a quarter a bushel.

The mosquitoes are so plentiful in the Adirondacks that they can't all get on a stranger at once, so they stand around in reliefs and wait for their turns like customers in a barber shop.

"You here, Jenkins! How the duce did you find your way out??" "Find my way out! Out of where? What do you mean?" "Why, the last I saw of you, you were lost in slumber." "Oh sh; well, I rode out on a nightmare!"

In 1868, the expenditures of the Government, exclusive of those necessituted by the war, such as pensions, &c., were \$173,520,371.77. For the year closing June 80, 1871, they only aggregated \$95,648,592.30.

The story of a lazy school boy who spelled Andrew Jackson, "&ru Jaxon." has been equalled by a student who wished to mark half a dozen new shirts. He marked the first one "John Jones," and the rest "do."

AN OLD INSCRIPTION .- On the eastern slope of Clark mountain, Nevada, near its summit, there is a perpendicular cliff two hundred and fifty feet from the base of the cliff on its front are engraven the characters † I L D, The cross and letters are of immense size, being fully sixty feet in height, and cut into the cliff two and a half feet deep-so that they can be plainly seen at a distance of five miles. This strange workmanship was done, it is supposed; by the Jesuit missionaries. many years ago.

HALL'S HAIR PERTABLE SICILIAN

Every year increases the popularity of this valuable Hair Preparation, which is due to merit We can assure our old alone. patrons that it is kept fully up to its high standard; and it is the only reliable and perfected prepara-tion for restoring Gray or FADED HAIR to its youthful color, making it soft, lustrous, and silken. The scalp, by its use, becomes white and clean. It removes all eruptions and dandruff, and, by its tonic properties, prevents the hair from falling out, as it stimulates and nourishes the hair-glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most economical HAIR-DRESSING ever used, as it requires fewer applications, and gives the hair a splendid, glossy appearance. A. A. Hayes, M.D., State Assayer of Massachusetts, says, "The constituents are pure, and carefully selected for excellent quality; and I consider it the BEST PREPARATION for its intended purposes."

PROSPECTUS FOR 1872. FIFTH YEAR.

Representative and Champion of - American Art.

THE ALDINE. An Illustrated Monthly Journal claimed to the handsomest Paper in the World,

Give my love to the artist workmen of THE ALDINE who are striving to make their profession worthy of admiration for beauty, as it has always been for usefulness."-[Henry Ward Beecher.

THE ALDINE while issued with all the regularity, has none of the temporary of tiwely interest characteristic of ordinary periodicals. It is an elegant miscellany of pure, light, and graceful literature, and a collection of pictures, the rarest specimens of artistic skill, in black and white. Although each succeeding number affords a fresh pleasu e to its friends, the real value and beauty being more than forty thousand in advance of ethir sales of the previous year, and of THE ALDINE will be most ajpreciated after it has been bound up at ever forty-four thousand more than the sales of any other Company for 1870, as shown by the following figures from sworn re-turns of the sale of Licensees. the close of the year. While other publications may claim superior chespness as compared with rivals of a similar class, THE ALDINE is a unique and original conception-alone, and unapproached-absolutely without competition in price or character. The possessor of the volume just completed cannot duplicate the quantity of fine paper and engravings in any other shape or number of volumes for ten times its

The labor of getting THE ALDINE ready on the press is so great that reprinting is out of the question. With the exception of a small number specially reserved for binding, the edition of 1871, is already exhausted, and it is now a scarce as well as valuable

NEW FEATURES FOR 1872. Art Department.

The enthusiastic support so read y occorded to the enterprise, wherever is has been introduced, has convinced the publishers of THE ALDINE of the soundness of their theory that the American public would recognize and support any sincere effort to elevate the tone and standard of illustrated publications. That so many weakly wicked sheets exist and thrive is not evidence that there is no market for anything better-indeed the success of THE ALDINE from the start is direct proof of the contrary. With a population sovast, and of such varied taste, a publisher can choose his patrons, and his paper is rather indicative of his own than of the taste of the country. As w guarantee of the excellence of this dipartment, the publishers would bag to announce during the coming year, specimens from the following eminent American artists.

W. T. Richards, Granville Perkins, James Smiley, Wm. Hart, F. O. C. Darley, R. E. Pigeut, Wm. Beard, Victor Nehlig, Frank Beard, George Smiley, Wm. H. Wilcox, Paul Dixon, Aug. Will, James H. Beard, J. Hows.

These pictures are being reproduced without regard to expense, by the very best engravers in the country, and will bear the severest critical comparison with the best foreign work, it being the determination of the publishers that THE ALDINE shall be a succeesful vindication of American taste in competition with any existing publication in the world.

Literary Department,

Where so much attention is paid to illustration and get up of the work, tomuch dependence on appearances may very naturally be teared. To anticipate such misgivings, it is only necessary to state, that, the editorial management of THE ALDINE has been intrasted to Mr. Richard Henry Stoddard, who has received assurance of assistance from a host of the most popular writers and poets of the country.

The Volume for 1872. will contain nearly 300 pages, and about 250 fine engravings. Commencing with the number for January, every third number will contain a beautiful tinted picture on plate paper, inserted as a frontispiace.

The Christmas number for 1872 will be a splendid volume in itself, contain. ing fifty engravings, (tour in tint) and, although retailed at \$1 will be sent without extra charge to all yearly subscribers.

A Chromo to every Subscriber was a very popular teature last year, and form the Cittsens of Ridgway, and the The publishers have purchased and reproduced, at great expense, the beautiful oil painting by SEIS, entitled "Dame Nature's denool." The chromo is 11x 18 inches, and is an exact fac-simile, in size and appearance, of the criginal picture. No American chromo, which will at all compare with it, has yet been offered at retail for less than the price asked for THE ALDINE and it together. It will be delivered free, with the January number to every subscriber

who pays for one year in advance. TERMS FOR 1872. One Copy, one year, with Oil Chromo, \$5.00 Five Copies, " " 20.00 Any person sending 10 names and \$40
