TO INVENTORS, MECHANICS, AGRICULTURISTS.

THE ANNUAL
PROSPECTUS
OF THE
Scientific American,
THE CHEAPEST AND BEST
MECHANICAL JOURNAL IN THE WORLD,
A NEW VOLUME OF WHICH COMMENCES
JANUARY 1, 1865.

THIS valuable journal has been published nineteen years, and during all that time it has been the firm and steady advocate of the interests of the Inventor, Mechanic, Manufacturer and Farmer, and the faithful chronicler of the PROGRESS OF ART, SCIENCE AND INDUSTRY.

The SCIENTIFIC AMERICAN is the largest, the only reliable, and most widely-circulated journal of the kind now published in the United States. It has witnessed the beginning and growth of nearly all the great inventions and discoveries of the day, most of which have been illustrated and described in its columns. It also contains a WEEKLY OFFICIAL LIST OF ALL THE PATENT CLAIMS, a feature of great value to Inventors and Patentees. In the MECHANICAL DEPARTMENT a full account of all improvements in machinery will be given. Also practicle articles upon the various Tools used in Workshops and Manufactories.

STEAM AND MECHANICAL ENGINEERING will continue to receive careful attention, and all experiments and practical results will be fully recorded.

WOOLEN, COTTON AND OTHER MANUFACTURING INTERESTS will have special attention. Also, Fire-arms, War Implements, Ordinance, War Vessels, Railway Machinery, Mechanics' Tools, Electric, Chemical and Mathematical Apparatus, Wood and Lumber Machines, Hydraulics, Pumps, Water Wheels, &c.

HOUSEHOLD AND FARM IMPLEMENTS, this latter department being very full and of great value to Farmers and Gardners; articles embracing every department of Popular Science which everybody can understand.

PATENT LAW DECISIONS AND DISCUSSIONS will, as heretofore, form a prominent feature. Owing to the very large experience of the publishers, Messrs. MUNN & Co., as SOLICITORS OF PATENTS, this department of the paper will possess great interest to PATENTEES AND INVENTORS.

The Publishers feel warranted in saying that no other journal now published contains an equal amount of useful information, while it is their aim to present all subjects in the most popular and attractive manner.

The SCIENTIFIC AMERICAN is published once a week, in convenient form for binding, and each number contains *sixteen pages* of useful reading matter, illustrated with NUMEROUS SPLENDID ENGRAVINGS of all the latest and best inventions of the day. This feature of the journal is worthy of special notice. Every number contains from five to ten *original engravings* of mechanical inventions, relating to every department of the arts. These engravings are executed by artists specially employed on the paper, and are universally acknowledged to be superior to anything of the kind produced in this country.

This year's number contains several hundred superb engravings; also, reliable practical recipes, useful in every shop and household.—Two volumes each year, 416 pages—total, 832 pages. SPECIMEN COPIES SENT FREE. Address,
