

HENRY A. PARSONS, JR., Editor.

THURSDAY, NOVEMBER 2, 1871.

Thanksgiving Proclamation.

His Excellency, the President of the United States, having by his proclamation set apart Thursday, the thirtieth of November, 1871, as a day of National Thanksgiving:

Now, therefore, I, John W. Geary, Governor of Pennsylvania, do hereby cordially commend to the people thereof the observance of the same as a day of Thanksgiving to Almighty God for our State, National and individual blessings, and of prayer for the continuance of His gracious favor.

As entirely as may be possible let business pursuits be suspended. Let us spend the day in religious worship, and in such sacred communings and festivities of the home circle, and so secure its pleasures and perform its duties as to make our hearts more deeply sensitive of our obligations to God and our fellow men. "Whoso offereth praise glorifieth me." "He that hath pity upon the poor lendeth unto the Lord, and that which he hath given will He pay him again."

Given under my hand and the great seal of the State at Harrisburg this twenty-sixth day of October, in the year of our Lord one thousand eight hundred and seventy-one, and of the Commonwealth the ninety-sixth.

By the Governor,

JOHN W. GEARY.
F. JORDAN, Secretary of the Commonwealth.

HOOKS AND EYES.

Belfast, Ireland, sent \$15,000 to Chicago.

Two inches of snow fell in Ulster county, N. Y., last week.

The Sisters of Charity of Omaha sent \$50,000 to the relief of Chicago.

Nevada has a spring that will color the hair a jet black.

The Chicago fire has used up nearly fifty insurance companies.

The Allegheny river has not been so low as it is now since 1831.

An elm over three centuries old was cut down in Connecticut recently.

The gold crop of Montana, for the year 1870, has yielded \$44,000,000.

The bullion production of the United States amounts to about \$39,000,000 a year.

Some 3,000 persons are said to have perished in the recent storms and floods in China.

Rabbits, hares, wild turkeys, coons and other game are abundant in Virginia this fall.

Mr. Seward has traveled seventy-two thousand miles since he left the State Department.

Remember that when you are happy you are on the top of a bill; you can't move either way without going down.

There were 89 newspaper establishments burnt out by the great Chicago fire.

A woman in North Carolina died recently at the age of 113; said to be the oldest person in the State.

The women of Utah have sent a petition to Washington, 50 feet long, protesting against polygamy.

Five thousand acres of the Lake Erie islands, cultivated with grapes this year have yielded a crop valued at \$90,000.

Drink nothing without seeing it; sign nothing without reading it, and make sure that what you sign means no more than it says.

It is estimated that America, when her productive power is fully developed will be able to feed four times as many persons as there are now on the face of the earth.

In 1850 Chicago had only 20,963 inhabitants. During the succeeding decade the population nearly quadrupled, and in 1860 she had 110,973 persons living within her limits. In 1870 the number had increased to 298,977.

It is asserted that fourteenth per cent. of the fires in New York city are caused by kerosene, and the citizens are urged to report the dangerous use of that fluid.

A Missouri newspaper claims that the hogs of that State are so fat that in order to find out where their heads are it is necessary to make them squeal and then judge by the sound.

A few days ago 225 Mexicans in the City of Mexico were led out, made to kneel down, and shot, for being engaged in an insurrection. This sort of thing has been very common of late in that unhappy country.

The steamship Alps, which arrived at New York one day last week from Rio Janeiro, reports that two hours before her sailing from that port the bill for the abolition of slavery in Brazil had passed the Senate by an overwhelming majority.

Ports from which commerce was driven during the hot months by their terrible fevers are visited all the year with impunity now. Many localities in the South and West kept tenantless by their deleterious miasms are now filling up with populations under the protection of Ayer's Ague Cure.

Their afflicting Chills and Fever are so effectually cured by this remedy that the disease no longer turns emigration aside or destroys the settler if he ventures upon its infested districts.—[Gazette, Independence, Mo.]

Ayer's Hair Vigor,

For restoring to Gray Hair its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. It soon restores faded or gray hair to its original color, with the gloss and freshness of youth. Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. The restoration of vitality it gives to the scalp arrests and prevents the formation of dandruff, which is often so uncleanly and offensive. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a HAIR DRESSING, nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre, and a grateful perfume.

HALL'S VEGETABLE SILICIAN HAIR RENEWER.

Every year increases the popularity of this valuable Hair Preparation, which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard; and it is the only reliable and perfected preparation for restoring GRAY OR FADED HAIR to its youthful color, making it soft, lustrous, and silken. The scalp, by its use, becomes white and clean. It removes all eruptions and dandruff, and, by its tonic properties, prevents the hair from falling out, as it stimulates and nourishes the hair-glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most economical HAIR-DRESSING ever used, as it requires fewer applications, and gives the hair a splendid, glossy appearance. A. A. Hayes, M.D., State Assayer of Massachusetts, says, "The constituents are pure, and carefully selected for excellent quality; and I consider it the BEST PREPARATION for its intended purposes." Sold by all Druggists and Dealers in Medicine. Price One Dollar.

Buckingham's Dye FOR THE WHISKERS.

As our Renewer in many cases requires too long a time, and too much care, to restore gray or faded Whiskers, we have prepared this dye, in one preparation, which will quickly and effectually accomplish this result. It is easily applied, and produces a color which will neither rub nor wash off. Sold by all Druggists. Price Fifty Cents.
