LIGHTNING RODS.

THE awful calamities that every City, Town, Village and country falls victim to annually, thro' the gross neglect of its inhabitants, is beyond calculation, especially when the remedy is so easy to obtain—this is found in

Armitage's Patent Magnetic Lightning Rods,

and in this alone. This rod has been examined by the most scientific gentlemen in the world—Professors M'Murtrie, Johnson, Walker, and many others that have examined them, recommend and speak of them in the highest terms of approbation and have pronounced them the only safe rods now in use in this or any other country *for the protection of Lives and Property.* Our advantage is to divide and throw back a part of the electric fluid harmless to the clouds, this is in time of a stroke, the enables the rod to conduct that portion of fluid that belongs to the earth without the slightest danger of leasing the conductor. This rod has many other advantages over the old one.

The patentee takes pleasure in informing his friends and the public in general that after many years close investigation and numerous experiments he has arrived at the true principle of protecting Families, Dwellings and property from the destructive influence of LIGHTNING
