HIBBERT'S CHEMICAL WRITING FLUID—In submitting the patronage of the public for this article, it is not right and proper that its merits on which the claim for support is based, should be fully and fairly set forth and also some guarantee be given that the confidence placed in it shall not be imposed upon by selling it.

In the first place it is well known that the generality of black "Inks" are composed of a precipitate, held together by gum Arabic, and when the water, either in whole or part is evaporated the gum and precipitate are left as a pasty mass in the pen or inkstand which contains it. It is also common to add vinegar to the Ink mixture to make it more fluid, which increases the evil by eating on the pen, if a steel one, corroding it through in a very short time. "New Ink" "Writing Fluids" differ from these mixtures in every respect; it is a chemical event on receiving an viscid matter to hold it together, thereby will never get thick, and being very fluid a large quantity flows from the pen into a given space penetrating deeper into the fibre of the paper making a more permanent stain and one less easily moved by attrition than if it was only plastered on the surface. It also contains no matter that has an affinity for metallic pens, therefore will not corrode steel pens—it will not gravel, and although it writes of a black green color yet in a few hours it becomes a deep black which will endure for ages. It is warranted superior to the foreign article known by the name of "Arnold's Writing Fluid," and one-third more given for the same price. As a guarantee against imposition of any kind being attempted the following recommendations will suffice, as all must be aware, that the same than given could not have been obtained by any means for an unworthy purpose.

We recommend "Hibbert's Chemical Writing Fluid" to the patronage of the public, as a first rate article in all respects; it flows free from the pen without clogging it up and in the course of a few hours becomes a deep bright black.

Mr Thos E Hibbert—Dear Sir: I have been using your Chemical Writing Fluid, and find it a first rate article for the office, it flows freely from the pen and becomes jet black in a few hours. T H TUTTLE Book-keeper for Ellwin & Temple.

Mr T E Hibbert—Dear Sir: Pittsburgh, Aug 28, 1847. [illegible] your Writing Fluid, some three weeks past, I consider it fully equal if not superior to Arnold's or any other ink now in use. Respectfully, WILLIAM STEWART, Book-keeper for Arthur Nicholson & Co

Pittsburgh, Sept 11, 1847.

Mr T E Hibbert—Dear Sir: I am using your Chemical Writing Fluid, and find it to be a most excellent article for steel pens, as it does not clog them up like the generality of other inks; it flows free and becomes a deep black in a few hours. Yours, Respectfully, WILLIAM CARE, Book-keeper for John Parker.

HARDEN & CO'S PASSAGE AND REMITTANCE OFFICE.

PERSONS brought out by the newest and the most reasonable terms from any part of England, Ireland, Scotland, and Wales, and to Parties Residing in the country, the Undersigned and agents of the British Government have frequently assisted Emigrants at Home and their friends in America, against the frauds that are continually practised upon them, and have always referred to the well known house of HARDEN & CO as the right place for all to apply, if they wished to be treated with punctuality and kindness.

Parties who advertise themselves Sole agents for the Black Ball Line, state what is untrue, and thus deceive the public; as we profess to be Agents not only of the Black Ball Line, but every other good Line, and also Canard's Steam Line.

Sight Drafts to any amount payable at any of the branches of the Provincial or National Banks of Ireland, England, Scotland, &c. We draw our own Exchange, so do not take money and send it to the East as yet some one else to remit, thereby causing mistakes and delays. Let the Brokers, &c. call upon us, and we will accommodate them at New York rates.

DAGUERREOTYPES—Two Silver Medals awarded at the Fairs of the Franklin and American Institutes for the best and most artistical specimens of Daguerreotype Portraits.

The recent improvement made by the subscriber, and which is peculiar to their establishment alone, viz: An Upper Light, has received the highest recommendations from the Press, and also written testimonials from the first Artists in the Country as to its great superiority over the usual Side Light.

The peculiar advantages of this Light is that the natural expression of the Eye can be obtained now more perfectly than heretofore. Citizens and Strangers are respectfully invited, whether desiring Portraits or not, to visit our spacious gallaries, probably the largest and finest saloon in the United States, and examine for themselves the astonishing improvements made by the subscribers in this Wonderful Art.

Notice to Emigrants and Others.

Valuable Lands for Sale, situated in Warren and Venango Counties, State of Pennsylvania.

THERE is now offered by the subscriber Ten Thousand Acres of Land, located in Connoss township, in Limestone and Tionesta townships, on the East side of the Allegheny River, bordering on the same; about 100 miles from the city of Pittsburgh, and 30 miles from the town of Franklin. The said lands are considered valuable for tanbarking and farming purposes, containing some large tracts of pine Timber.

A desirable Mill seat is located on Big Hickory Creek, which runs through the body of the land, and empties into the Allegheny River. There are grist mills as well as saw mills, quite convenient to said land. The whole body of land will be sold upon very easy accommodating terms, rather lower (for cash) than any lands can be purchased at the fair West.

Every satisfactory information will be imparted by the subscriber or B F Bradford, who will be at the Mecanic's Hotel, in the city of Pittsburgh, on Friday the 5th of October, 1847, at which time the draft of the Lands will be exhibited and the terms made known.
