PATENT PRESS BRICK MACHINE
IT is unknown having obtained a patent, May 16 1846, for a Press Brick Machine, and having since thoroughly tested its ability, are now prepared to sell rights and contract to deliver machines in any part of the U ited States. The machine is designed to make Brick from crude clay, and will make 30,000 good moon' fun brick per day, sufficiently hard to stack, in the kiln; thus avoiding the expense and labor of preparing the clay, drying and handling the brick after being moulded. It is simple, strong, not liable to get out of repair, and is compact and portable, it can be taken in pieces and put together with great facility, thus rendering it portable. We are now building machines, and can furnish them on short notice. For a full description we w. uld refer to a machine now in successful operation o Mill creek bottom, near the Western of Eighth street, Pittsburgh. We are also prepared to do everything connected with it to all who may call. We have at present no authorized Agent. All letters to our address will be promptly attended to.
