HIBBERT'S CHEMICAL WRITING FLUID.—In selecting the property of the public for this article, it is but right and just that its merits on which the claim for support is based should be fully and fairly set forth and also some guarantee be given that the community will not be imposed upon by using it.

In the first place it is well known, that the generality of black "inks" are composed of a precipitate, held together by gum Arabic, and when the water, either in whole or part is evaporated the gum and precipitate are left as a pasty mass in the pen or instead which contains it. It is also common to add vinegar to the Ink mixture to make it more fluid, which increases the evil by acting on the pen, if a steel one, corroding it through in a short time. Now the "Writing Fluid" differs from these mixtures in every respects, as it is a chemical solution of a peculiar nature, which when put together, therefore will never get thick, and being very fluid a large quantity flows from the pen into a given space, protracted stays and one less easily moved by stirring than if it was only plastered on the surface. It also contains no matter that can ever be affected by the atmosphere, therefore will not corrode pens—it will not mould, and although it writes of a bluish green color yet in a few hours it becomes a deep black with no ill effects to any part. This warranted superior to the four-gallon article known by the name of "Arnold's Writing Fluid," and one-third more given for the same price. As a public benefit and protection of any kind being attempted the following recommendations will suffice, as all must be aware, that the names there given could not have been obtained by any means for an unworthy purpose.

We recommend "Hibbert's Chemical Writing Fluid" to the public as being a very superior article in all respects, it flows free from the pen without clogging it up and in the course of a few hours becomes a deep bright black.

Mr Thos K Hibbert—Dear Sir: I have been using your Chemical Writing Fluid, and find it a first rate article for the office, it flows freely from the pen and becomes jet black in a few hours. Yours &c.

Mr T K Hibbert—Dear Sir: Having procured a bottle of your Writing Fluid, some three weeks ago, I consider it truly equal if not superior to Arnold's or any other ink now in use, I know of. Respectly y.

WILLIAM STEWART, Book-keeper for Arthur Nicholas & Co.

Pittsburgh, Sept 11, 1847.

Mr T K Hibbert—Dear Sir: I am using your Chemical Writing Fluid and find it to be a most excellent article for the steel pens, as it does not clog them spite the generality of other inks, it flows free and becomes a deep black in a few hours. Respectfully,

WILLIAM CARR, Book-keeper for John Parker.

SELLERS' IMPERIAL COUGH SYRUP.—It is cheap, easy to take, and highly efficacious.

ALLEGHENY, March 10, 1847.

Mr. R. E. Sellers: My children, like others, have been subject to troublesome coughs, and having used different remedies to very little purpose, I was induced by an advertisement about the cough syrup, to give it a trial. I gave it to two of my boys, and also to my daughter, several different times, but without effect, I never failed to do so. I have recommended it to my neighbors, and do most conscientiously say that it is the best cough medicine that has ever been offered for sale.

VEGETABLE PULMONARY BALSAM.—To the proprietor of the Vegetable Pulmonary Balsam—I am asked that the Vegetable Pulmonary Balsam is a valuable article. It has been used in this place with complete success in the obstinate complaint of the lungs, attended with a severe cough, loss of voice, and the raising of much blood which had previously resisted many approved prescriptions. After using the Balsam a few days the patient's voice returned, and he was enabled to speak audibly. This case occurred some time since and the Balsam is now engaged not only in another but in many other cases. Respectfully yours,

A STRONG EVIDENCE that DR JAYNE'S EXPECTORANT is superior to all other remedies for Coughs, Consumption, Bronchitis, Asthma, and other Pulmonary diseases is that the same persons who commenced the use of it in the last stages of the complaint prefer it to all other remedies of the kind; and where any have been induced by other means to try preparations they have almost invariably been disappointed in purchasing that for which was reasonably anticipated from the high praise bestowed by the proprietors, and returned to the use of the JAYNE EXPECTORANT, as a remedy that has never failed to relieve them, and which is probably never had its equal in arresting pulmonary diseases. PILES.

DR. INGOLDSBY'S Piles Specific, an internal remedy a certain and radical cure, whether internal, bleeding or blind, also, for irritation of the kidneys and bladder, pains in the back and side, habitual costiveness, erysipelas, &c.

Females before and after confinement are often troubled with constipation of the bowels or costiveness, as well as the piles. In all such cases the Specific can be taken with perfect safety, and is a certain remedy. The Specific is a purely vegetable remedy, without a particle of gamboge, colocynth or other ingredient to take and positively harmless in the most delicate cases.

This is to certify that I know Dr. Ingoldsby's Pile Specific to be a certain cure and safe remedy. Having seen its effect in several cases, amongst my family connexions, in several confirmed and severe cases of the piles, where it made an entire cure in every case. HENRY WHITEHEAD.

GAZZAM'S PATENT BEDSTEAD.

THIS *Ne Plus Ultra* Improvement has now been in use about two years, and wherever it is known, preferred to all other Bedsteads.

For cheapness, strength and convenience it has not and cannot be equalled, as it is decidedly the best, cheapest and most convenient Bedstead in use, and perfectly proof against Bugs.

The Patent Bedstead Maker and Turner in Allegheny city and in Pittsburgh, have secured Rights to manufacture and sell the article. As there are spurious articles and imperfect imitations in the market, purchasers would do well to examine the cast iron pieces on which is the genuine article the name of the patentee, Jas. Gazzam, is conspicuously cast. As a proof of all that is claimed for Gazzam's Bedsteads, the following certificate from Cabinet makers well known in Pittsburgh and the West, is submitted to the public:

We, the subscribers, practical cabinet makers and Bedstead manufacturers of the cities of Pittsburgh and Allegheny, Pa., do hereby certify that we have bought the right to manufacture bedsteads with Gazzam's Patent Fastenings, and consider the same *superior* to any fastenings with which we are acquainted.

A Challenge to the World.

TWENTY-FIVE DOLLARS will be paid to any one who will produce a spot of paint, green or dry, that cannot be injured with Hoff's Improved Chemical Soap. I have the satisfaction of saying to the people of this place, that this article, by my own improvement on it, now stands universally in the country for extracting grease, tar, pitch, oil, paint, or any other greasy substance, from all kinds of gentlemen's or ladies' clothing, carpets, table cloths, marble tabbards, piano fortes, &c, without injuring anything that pure water will not injure. More than one thousand persons in different parts of the country have sold me they would not be without it, if it cost one dollar per cake. In trying this Soap on more than 300 articles of light silks, satins, alpacas, merinoes, and calicoes, I have only found three pieces of silk, two of alpacas, and four of calico, on which it stained the colors; therefore before putting it on a light dress it is well to try it on a small piece. I have no agent and I am determined not to recommend it any sooner than I have to be perfectly true. N H HOFF.

CIRCULAR.

WASHINGTON, D. C., Dec. 6th, 1847.

*Oscar D. Thompson, Esq., Pittsburgh, Pa.*—

SIR: I have read your advertisement in one of the Pittsburgh papers with much interest, and find that you have copied my business Circular entire, and consequently, I will take the liberty to inform you that my business Circular is my own composition, and is not common property. I shall not willingly remove to Pittsburgh in a position that will induce persons who do not know me to suppose that I am incapable of composing my own business card; or that I am capable of pilfering the ideas of others and copying of another to my own use. I am, therefore, under the necessity of noticing and exposing your plagiarism in this manner.

DR. A. FAHNESTOCK'S PNEUMONIC or Cough Balsam, has a great advantage over many other Cough preparations, as its pleasant taste permits it to be taken without inconvenience. Its great success consists in the speediness of its cure. We have known some of the most desperate coughs, some of which had run on for a considerable length of time, yield almost immediately to its power.

In such weather as we have had during the past winter we are all liable to take a cold, unless great precautions are used.

We feel no undue exposure in the inclemency of the weather when we have the assurance of a medicine, such which needs a quick remedy to prevent serious results.

We have numerous certificates of cures which it has performed, many of which are from persons in this city and the neighborhood, and they are a sufficient reference and will speak more than words in its favor.

## MEDICAL.

DR. TOWNSEND'S SARSAPARILLA.

*Most extraordinary Medicine in the World.*

This extract is put up in Quart bottles: it is six times cheaper, pleasanter, and warranted superior to any sold. It cures disease without vomiting, purging, sickness or debilitating the patient. 54

GREAT SPRING AND SUMMER MEDICINE

The great beauty and superiority of this Sarsaparilla over all other Medicines is, whilst it Eradicates Disease it invigorates the Body. It is one of the very best SPRING AND SUMMER MEDICINES ever known, it not only purifies the whole system and strengthens the person, but it *Creates New, Pure and Rich Blood*, a power possessed by no other Medicine. And in this lies the grand secret of its wonderful success. It has performed within the past two years, more than 25,000 cures of Severe Cases of Disease, at least 5,000 of these were considered incurable. More than

3,000 cases of Chronic Rheumatism;
2,000 cases of Dyspepsia;
400 cases of General Debility and Want of Energy;
7,000 cases of Female Complaints;
2,000 cases of Scrofula;
1,500 cases of the Liver Complaint;
2,000 cases of Disease of the Kidney and Dropsy;
3,000 cases of Consumption.

And Thousands of cases of Disease of the Blood; viz: Ulcers, Erysipelas, Salt Rheum, Blotches on the Face, &c. &c. Together with numerous cases of Sick Headache, Pain in the Side and Chest, Spinal Affections, &c., &c.

This, we are aware, sounds very boastful, but we have letters from physicians and our agents from all parts of the United States, containing a recital of extraordinary cures. H. Van Buskirk, Esq., one of the most respectable druggists in Newark, N. J., informs us that he can refer to more than 150 cases that have come under his observation, and hundreds of cases in the City of New York, which we will refer to the public and to men of character. It is the best medicine for the prevention of disease known. It undoubtedly saved the life of more than

5,000 CHILDREN THE PAST SEASON!

As it removed the cause of disease, and prepared them for the Summer season.

UNITED STATES OFFICER.

CAPT. G. W. MCCLEAN, OF THE UNITED STATES NAVY, and member of the New Jersey Legislature, has kindly sent us the following certificate. It tells its own story.

BARNEY, Jan. 22, 1847.

A year since I was taken with the influenza, and my whole system fell in a debilitated state. I was induced to try Dr. Townsend's Sarsaparilla, and after taking two or three bottles, I was very much relieved, and attribute it entirely to the use of Sarsaparilla. I have continued taking it, and find that I improve every day. I believe it saved my life, and would not be without it under any consideration.

G. W. MCLEAN, late U. S. N.

SCROFULA CURED.

This certificate conclusively proves that this Sarsaparilla has perfect control over the most obstinate disease of the blood. Three persons cured in one house is unprecedented.

DR. TOWNSEND—Dear Sir: I have the pleasure to inform you that three of my children have been cured of the Scrofula by the use of your excellent medicine. They were afflicted very severely with bad sores; have only taken four bottles; it took them away, for which I feel myself under deep obligations. ISAAC W. CRAIG, 105 Wooster st.

New York, March 1, 1847.

GREAT FEMALE MEDICINE.

Dr. Townsend's Sarsaparilla is a sovereign and speedy remedy for Female Complaints, Barrenness, Leucorrhœa or Whites, obstructed or difficult Menstruation, Incontinence of Urine, or involuntary discharge thereof, and for the general weakness of the system—no matter whether the result of inherent cause or causes, produced by irregularity, illness or accident.

Nothing can be more surprising than its invigorating effects on the human frame. Persons, all weakness and languor, from taking it, at once become robust and full of energy under its influence. Its effects are immediately counteracted by its lenness of the female frame, which is the great cause of barrenness.

It will not be expected of us in cases of so delicate a nature, to exhibit certificates of cures performed, but we can assure the afflicted, that hundreds of cases have been reported to us, where the most distressing and dangerous cases have been relieved, after using a few bottles of this invaluable medicine, have been blest with healthy offspring.

*Dr. Townsend*—My wife being greatly distressed by weakness and general debility, and suffering continually by pain and a sensation of bearing-down, falling of the womb, and with other difficulties, and having heard many cases where your medicine has effected great cures; and also hearing of recommendations in cases as I have described, I obtained a bottle of your Extract of Sarsaparilla, and followed the directions you gave me. In a short period it removed her complaints and restored her health. Being grateful for the benefits she received, I take pleasure in bearing testimony to it, and recommending it to the public. M. D. MOORE,
