JOSEPH LITTLEJOHN. WM C BARR
LITTLEJOHN & BARR,
(Late J S Strickler & Co.)
MANUFACTURERS of Phœnix fire proof safes, second street, between Wood and Smithfield Pittsburgh. J S Strickler having deceased and the surviving partner Joseph Littlejohn, has taken Mr. Wm C Barr, the business will hereafter be conducted under the style of Lippincott & Barr.
Trial of a safe in Cincinnati, O.—We, the undersigned were present at the testing of one of J S Strickler & Co's improved Phœnix fire proof safes. The safe was placed in a furnace on the public landing, and subjected to the intense heat of a stone coal fire for more than three hours. In consequence of the high wind, the "bright coal heat" in the door of the furnace was then closed, which caused an increased and steady heat for the balance of the time, until the cast iron wheels were entirely melted off; the furnace was then thrown down and the safe cooled and opened. The money, papers and books in it contained were all in good order, as when placed there, the binding only of the books being injured by the water in cooling the safe. We have no hesitation in recommending the safe to the public as a safe superior to any we have ever seen tested, and believe that it will stand any heat which might be produced, except a heat sufficient to melt the iron to a solid mass.

MORGANS COUGH SYRUP—Is proved to be the great Panacea in curing by my child's distressing cough.
From the Temperance Banner, Nov 3 1847.
Corn Syrup—We are sorry to see in the habit of puffing much free taking patent medicines, but we feel disposed to recommend Morgan's Syrup to those who are afflicted with a cough. We have tried the usual remedies to remove a constant and distressing cough, that had for several days afflicted one of our children, without success, we were indeed at a loss to try Morgan's cough syrup, and by it relief was obtained in a few hours. It proved to be the panacea in this case at least.

VEGETABLE PULMONARY BALSAM.—To the proprietors of the Vegetable Pulmonary Balsam:—I am satisfied that the Vegetable Pulmonary Balsam is a valuable medicine. It has been used in my family with great success in an obstinate complaint of the lungs, attended with a severe cough, loss of voice, and the raising of matter (that which had previously resisted many powerful prescriptions. After using the balsam one week the patient's voice returned, and he was enabled to speak audibly. This remedy was used some time, and the patient is now engaged not only in active but in laborious business. Respectfully yours,

A STRONG EVIDENCE that Dr JAYNE'S EXPECTORANT is superior to all other preparations for Coughs, Consumption, Bronchitis, Asthma, and other Pulmonary affections, is that the same persons who commenced the use of it in their families ten years ago, still prefer it to all other remedies of the kind, and have never been induced to try other preparations they have almost invariably been disappointed in receiving the benefit which they have always received from the high genius bestowed by the proprietors, and have returned to the use of JAYNES' EXPECTORANT, as a remedy that has never failed to relieve them, and which has probably never had its equal in arresting pulmonary diseases.

HIBBERT'S CHEMICAL WRITING FLUID—In soliciting the public for the sale of this article, it is but right and just that the manner in which the claim for support is based should be fully and fairly set forth and also some guarantees be given that the community will not be imposed upon by using it.
In the first place it is well known that the generality of black "inks" are composed of a precipitate, held together by Gum Arabic, and when the water, either in whole or part is evaporated the gum and precipitate are left as a pasty mass in the pen or bottom which contains it. It is also common to add vinegar to the ink mixture to make it more durable which increases the evil by acting on the pen, if a steel one, corroding it through in a year or two time. Now the "Writing Fluid" differs from this mixture in every respect, as it is a chemical scout on requiring no viscid matter to hold it together, therefore will not get thick, and being very fluid a large quantity flows from the pen into a given space penetrating deeper into the fibre of the paper making a more permanent stain and can be easily moved by attrition than if it was only plastered on the surface. It also contains no matter that has an affinity for metallic iron, therefore will not corrode steel pens, and will not mould, and although it writes of a bluish green color yet in a few hours it becomes a deep black which will endure for ages. It is warranted superior to the foreign article known by the name of "Arnold's Writing Fluid," and one-third more given for the same price. As a guarantee against imposition of any kind being attempted the following recommendations will suffice, as all must be aware, that the names there given could not have been obtained by any means for an unworthy purpose.
We recommend "Hibbert's Chemical Writing Fluid" to the patronage of the public, as a first rate article in all respects; it flows free from the pen without clogging it up and in the course of a few hours becomes a deep jet black.

Mr T K Hibbert—Dear Sir: I am using your Chemical Writing fluid, and find it to be a most excellent article for steel pens, as it does not clog them uplike the generality of other inks, it flows free and becomes perfect black in a few hours. Yours Respectfully,

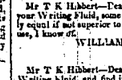
GAZZAM'S PATENT BEDSTEAD.


THIS *Ne Plus Ultra* improvement has now been in use about two years, and wherever it is known, preferred to all other Bedsteads.
For cheapness, durability and convenience it has not and cannot be equalled, as it is decidedly the best, cheapest and most convenient Bedstead in use, and perfectly proof against Bugs.
The principal Cabinet makers and Turners in Allegheny city and in Pittsburgh, have secured Rights to manufacture and sell the article. As there are some spurious articles and imperfect imitations in the market, purchasers would do well to examine the cast iron plates on which is the patent date and the name of the patentee, E. F. GAZZAM, is invariably cast. As a proof of all that is claimed for Gazzam's Bedsteads, the following certificate from Cabinet makers who have used them in Pittsburgh and the West, is submitted to the public:
We, the subscribers, practical cabinet makers and Bedstead manufacturers of Pittsburgh and Allegheny, Pa., do hereby certify that we have bought the right to manufacture bedsteads with Gazzam's Patent (in the east) by which we turn out a superior article. Glass flattened on this plan is perfectly level and true, with a very fine lustre. Purchasers in other parts generally, are requested to call and examine for themselves.

After using the balsam one week the patient's voice returned, and he was enabled to speak audibly. This remedy was used some time, and the patient is now engaged not only in active but in laborious business. Respectfully yours,
Concord, N.H., Jan 20, 1845. MARSHALL S. PILSBURY, M. D.

CIRCULAR.
WASHINGTON, D. C., Feb. 6th, 1847.
Gent. D. Thompson, Esq., Pittsburgh, Pa.—
This is certify that we have used in one of the Pittsburgh papers with not a little surprise. I find that you have copied my business Circular entire, without permission, or even asking the leave. It will take the liberty to inform you that my business Circular is my own composition, and is not common property. It shall not be highly complained to be placed in a position that will induce persons who do not know me to suppose that I am not capable of composing my own business Circular, or claiming the merit of plotting and appropriating the card of another to my own use. I am, therefore, under the necessity of noticing and exposing your delinquency in this manner.

From the New York Daily Express of April 9, 1847.
A pretty thing appeared in the streets yesterday. It was the advertising cab, or Sarsaparilla Express of Dr Townsend. Everything about it was in good taste; some of the ornamental landscape paintings are beautiful, which, together with the scroll work, in gold, glistening in the sun, made a show that attracted many eyes. We take this opportunity to say we believe this extract of the Sarsaparilla deserves the very great popularity it has acquired.
Nervous Debility.
NEW YORK, March 27, 1847.
Dr. Townsend:—I have been afflicted more or less for 3 years, with a dreadful sinking in the chest, giddiness in the head, loss of appetite, pain in the limbs, and general debility, rendering me unfit for business, and capacity to do any thing. I was subject to it in my business as a dyer. I have taken other medicines, too numerous to mention, but with little or no success. I was induced to try your Sarsaparilla, and I am happy to say it has cured me. I have gained in flesh, from which I found great relief. I have since taken several more bottles, and I can unhesitatingly say it is the best medicine I have ever taken—the pain in my chest is gone, and I feel quite a different man altogether since I have been your Sarsaparilla. I have power a better appetite than ever I had. My wife has taken it with the same benefit. I would recommend it as a family medicine generally, and I feel confident that if those who need it would use it, it would be half the sickness there is, and consequently not so many Doctor's bills; for while it restores appetite, it also gives to the stomach and bowels their regular tone of keeps the blood in a healthy state, so that disease is not so likely to attack the system. And to all those who are not in a healthy state, I say try Dr Townsend's Sarsaparilla.

Cankers in the Mouth.
Below is an account of another child saved. Dr Townsend's Sarsaparilla has saved the lives of thousands of children.—The following certificate is selected from a great number received this week.
NEW YORK, April 9, 1847.
Dr Townsend: Dear sir—One of my children was very sick with the Cancer in the mouth and throat, attended with great debility. It came near dying; I obtained some of your excellent medicine, and it cured it directly, for which I can assure you I feel very grateful. Yours respectfully,

Dr. McLane's Worm Specific.
THIS is to certify that, by taking one vial of Doctor McLane's Worm Specific, a child of James Shaw's passed upwards of 70 worms, and by the use of said medicine a child of my own passed 14 large worms. It is truly the most surprising worm medicine I ever saw. I must have two more vials.
