SALTER'S

GINSENG PANACEA!

TO THOSE SUFFERING WITH DISEASED LUNGS—The unprecedented success which has attended the use of the

GINSENG PANACEA

in all the various forms which irritation of the lungs assumes, has induced the proprietor again to call attention to this

WONDERFUL PREPARATION.

The changeable weather which marks our fall and winter months, is always a fruitful source of

COLDS AND COUGHS.

These, if neglected, are but the precursors of that fell destroyer,

COSUMPTION.

The question, then, how shall we nip the destroyer in the bud? how shall we get clear of our coughs and colds? is of vital importance to the public.

THE GREAT AND ONLY REMEDY

will be found in the Ginseng Panacea. In proof of this we have from time to time published the certificates of dozens of our best known citizens, who have experienced its curative powers. These, with a mass of testimony from all parts of the country, from

MEDICAL MEN OF THE FIRST STANDING, Ministers of the Gospel, &c., together with copious notices from the

JOURNALS OF THE DAY,

are have embodied in pamphlet form, and may be had gratis of any of our agents throughout the country.

HUNDREDS OF BOTTLES

have been used in this city.

THOUSANDS AND TENS OF THOUSANDS throughout the United States and Canada, and we challenge any man to point out a

SINGLE INSTANCE

in which, when taken according to directions, and before the lungs had become totally disorganized, it has ever failed to

EFFECT A PERFECT CURE.

Why, then, need the afflicted hesitate? by resort to the innumerable nostrums, gotten up by unprincipled individuals under the assumed name of some eminent physician, and puffed into notoriety by certificates of persons equally unknown? Which is medicine of

UNPARALLELED EFFICACY

is to be had, those vouchers are in our neighbors,—among of whom it may

SNATCHED FROM THE GRAVE.

In order that this invaluable medicine may be placed within the reach of the poor as well the rich, we have put the price at

ONLY FIFTY CENTS,

just one half the usual cost of cough medicine. It is for sale by our agents in nearly every town and village over the west. We are prepared to give full information relative to it.

JS MORRIS & Co's BLACK WRITING INK, for steel or quill pens, and the copying press. This ink is the result of the experiment of several years, devoted to the manufacture, on an extensive scale, of an article suited to all the purposes of the consumer. The perfection of this writing ink consists in the following properties: Firmness—in which property it will be found to surpass all previous preparations. It will flow with perfect ease either from quill or steel pens, and is entirely free from any corrosive qualities. Color—The color of this article is a rich, beautiful blue black. It is necessary, however, to give consumers the following caution:

☞ All good black ink from a necessary chemical crystallization, exposure to the air to impart a deep color. It must not, therefore, be expected, that the moment the bottle is opened, the ink will be found to be a jet black. The first appearance will be pale But after exposure to the chemical action of the atmosphere either on paper or in the inkstand, it will assume a brilliant black color.

PERMANENCY—The color is unalterable by the lapse of time. It will never fade. On this account, all important records should be made in this article, as years only deepen and strengthen its tint.

N.B. This ink is suitable for all kinds of metallic pens, and for preservation of pallets, and what is important, and very desirable with many, will give a perfect impression by the copying press.

☞ We are using in our publications with which we are connected, Morris' blue black writing ink and in preference to all others, for its durability and permanency, believe it superior to any ink we have heretofore used.

Great English Remedy.

FOR Coughs, Colds, Asthma and Consumption! THE GREAT ENGLISH REMEDY for the cure of the above diseases, is the HUNGARIAN BALSAM OF LIFE, discovered by the celebrated Dr. Buchan, of London, England, and introduced into the United States under the immediate superintendence of the inventor.

The extraordinary success of this medicine, in the cure of pulmonary complaints, warrants the American Agent in soliciting for treatment the worst possible cases that can be found in the community—cases that seem proof against skill from any of the common nostrums of the day, and have been given up by the most distinguished physicians as confirmed and incurable. The Hungarian Balsam is not a cure-all, but is the best and most dispensable of cases. It is no quack nostrum, but a standard English medicine, of known and established efficacy.

Every family in the United States should be supplied with Buchan's Hungarian Balsam of Life, not only to counteract the dangerous consequences of the climate, but to be used as a preventive medicine in all cases of colds, coughs, spitting of blood, pain in the side and chest, difficult and tedious breathing, hoarseness, difficulty of breathing, scarlet fever, night sweats, consumption and general debility, asthma, influenza, whooping cough and croup.

Sold in large bottles, at $1 per bottle, with full directions for the restoration of health.

Pamphlets containing testimonies of English and American certificates, and other evidence, showing the unequalled merits of this great English Remedy, may be obtained of the Agents, gratuitously.

Hoofland's German Bitters!

BITTER, ITCH, SALT, RHEUM, &c.—Who would for a single day scratch, when afflicted with the Bitter, Itch, or other diseases of the skin, if they knew how speedy relief and cure there.

The horrible to be obliged to rub and scratch when alone, but more horrible to abstain from it, for decency sake, when in company. Be it remembered that Dr. LEDDY'S BITTER and ITCH OINTMENT is the most efficacious of any preparation in existence for curing the Bitter, Itch, and other diseases of the skin. As all diseases of the skin must arise from the impurity of the blood and fluids of the body, and whatever such disease is of long standing, and the constitution affected thereby, if Dr. Leddy's Sarsaparilla Blood Pills be used with the ointment, the cure will be more speedy, and if they do not, the money will be returned by Dr. Leddy. Most cases, however, will be effectually cured by Dr. Leddy's Bitter and Itch Ointment, unless the whole system is impregnated by the diseased humors which will be completely carried off from the system by Dr Leddy's blood pills, and the surface of the skin healed by the ointment. Price of ointment 25 cents.

Extraordinary Balsam.

MESSRS. REED & FOULDS—I feel it a duty I owe to my fellow creatures, to state something more respecting your Vegetable Pulmonary Balsam. Since I first used it, which is about seven years ago, the happy effect by which I then gave an account of, have had several severe complaints and attacks at my lungs, and to-day I can say that in every instance I have used the Balsam along with complete and perfect success. It has effectually broken and cure in a very few days. It is certainly a safe medicine. I do not know that it will cure a fixed consumption, but I believe it will be the means of a preventive, and a prevention is better than cure: I do therefore, for the love of my fellow men, earnestly recommend the use of this Balsam, in all pulmonary complaints. I am convinced that it has been the means of preserving my life to this day.

MANUFACTURERS of Patent fire proof safes, south side, second street, between Wood and Smithfield Pittsburgh. J. S. Strickler having deceased and the surviving partner Mr. Jos Lippencott, having associated himself with Mr. Wm C Barr, the firm will hereafter be conducted under the style of Lippencott & Barr.

Trial of a safe in Cincinnati, O.—We, the undersigned were present at the testing of one of J. S. Strickler & Co's improved Phenix fire-proof safes. The safe was placed in a furnace on the public landing, and subjected to the intense heat of a stone coal fire for more than three hours. In one hour and a half the safe came to a bright red heat, the door of the furnace was then closed, which caused an increased and steady heat for the balance of the time, until the cast iron wheels were partially melted off, the furnace was then thrown down and the safe cooled and opened. The money, papers and books which it contained were as perfect as when placed there, the binding only of the books being injured by the water in cooling the safe. We have no hesitation in recommending it to the public as a safe superior to any we have ever seen tested, and believe that it will stand any heat which might be produced, except a heat which would melt iron as easily as lead.

MISCELLANEOUS.

HIBBERT'S CHEMICAL WRITING FLUID—In soliciting the attention of the public to the superiority of this article, we feel it our duty to state the reason which the claim for support is based upon, and be satisfied that the generality of black "inks" are composed of a precipitate, held together by gum Arabic, and when the water, either in whole or part is evaporated the gum and precipitate are left as a pasty mass in the pen or bottle and which contains it. It is also common for the ink manufacturer to make it more fluid, which increases the evil by acting on the pen, if a steel one, corroding it through in over a short time. Now the "Writing Fluid" differs from these mixtures in every respect, as it is a chemical solid on requiring no viscid matter to hold it together, therefore will never get thick, and being very fluid it will always flow from the pen into a given spot penetrating deeper into the fibre of the paper making a more permanent stain and one less easily moved by attrition than if it was only plastered on the surface. It also contains matter that has no affinity for metallic iron, therefore will not corrode steel pens—it will not mould, and although it writes of a bluish green color yet in a few hours it becomes a deep black which will endure for ages. It is warranted superior to the foreign article known by the name of "Arnold's Writing Fluid," and can afford more given for the same price. As a guarantee against imposition of any kind being attempted the following recommendations will suffice, as all must be aware, that the large sums given can not but have been obtained by any means for an unworthy purpose.

We recommend "Hibbert's Chemical Writing Fluid" to the patronage of the public, as first rate article in all respects, it flows free from the pen without clogging it up and in the course of a few hours becomes a deep bright black.

Mr T K Hibbert—Dear Sir: I am using your Chemical Writing Fluid, and find it to be a most excellent article for office use, as it does not clog, thus uplike the generality of other inks, it flows free and becomes deep black in a few hours.

It has been used in this place with complete success in so obstinate complaints of the lungs, attended with severe cough, loss of voice, and a tedious cough, which had previously resisted many approved prescriptions. After using the balsam one week the patient's voice returned, and he was enabled to speak aloud, which he could not some time since, and the man is now engaged not only in active but in laborious business. Great D. Thompson, Esq., Pittsburgh, Pa.—

Sir: I have read your advertisement in one of the Pittsburgh papers, and feel it a little surprise that I should have been copied my business throughout entire, and appropriated it to yourself. I will take the liberty to inform you, that I commenced the business of my own room, and it is not common property. I think not well, that you should seek to place in a position that will induce persons who do not know the impropriety, that I am not capable of conducting my own business and, or that I stand in the way of obtaining and appropriating the earnings of another to my own use. I am therefore under the necessity of claiming and exposing your plagiarism in this manner
