MEDICAL.

WALTER'S

GINSENG PANACEA!

TO THOSE SUFFERING WITH DISEASED LUNGS.—The unprecedented success which has attended the use of the

GINSENG PANACEA

in all the various forms which irritation of the lungs assumes, has induced the proprietor again to call attention to this

WONDERFUL PREPARATION.

The changeable weather which marks our fall and winter months, is always a fruitful source of

COLDS AND COUGHS.

These, if neglected, are but the precursors of that fell destroyer,

CONSUMPTION.

The question, then, how shall we nip the destroyer in the bud! how shall we get clear of our coughs and colds! is of vital importance to the public.

THE GREAT AND ONLY REMEDY

will be found in the Ginsing Panacea. In proof of this we have from time to time published the certificates of dozens of our best known citizens, who have experienced its curative powers. These, with a mass of testimony from all parts of the country,—from

MEDICAL MEN OF THE FIRST STANDING,

Ministers of the Gospel, &c., together with copious notices from the

JOURNALS OF THE DAY,

we have embodied in pamphlet form, and may be had gratis of any of our agents throughout the country.

HUNDREDS OF BOTTLES

have been used in this city.

THOUSANDS AND TENS OF THOUSANDS throughout the United States and Canada, and we challenge any man to point out a

SINGLE INSTANCE

in which, when taken according to directions, and before the lungs had become fatally disorganized, it has ever failed to

EFFECT A PERFECT CURE.

Why, then, need the afflicted hesitate to lay resort to the miserable nostrums, gotten up by ignorant individuals under the assumed name of some celebrated physician, and puffed into notoriety by certificates of persons equally fictitious? Whilst a medicine of

UNPARALLELED EFFICACY

is to be had, which has been sent at home, our neighbors,—many of whom it has

SNATCHED FROM THE GRAVE.

In proof that this invaluable medicine may be placed within the reach of the poor as well the rich, we have put the price at

ONLY FIFTY CENTS,

just one half the usual cost of cough medicines. It is for sale by our agents in nearly every town and village throughout the country, who are prepared to give full information relative to it. T. SALTER, Proprietor,

Broadway, Cincinnati, Ohio.

ASTHMA, OR DIFFICULTY OF BREATHING.—This disease is caused by a peculiar irritation of the air cells; it is very debilitating; almost causing suffocation. DR. SWEETSER'S PANACEA is the only remedy.

Hoarseness can be entirely cured by a free use of Dr. Sweetser's Panacea.

Catarrh, or common cold, which, if neglected, will terminate in Consumption, is effectually relieved and cured by Dr. Sweetser's Panacea.

Bronchitis, if attended with Cough, will effectually lead to Bronchial Consumption, but a timely use of Dr. Sweetser's Panacea will prevent this.

Inflammation of the Tonsils or Sore Throat.—This disease often leads to serious consequences from neglect. Gargle it freely with the Panacea. On the first symptoms, Dr. Sweetser's Panacea should be procured and used freely.

Cough and Colds find a sovereign remedy in Dr. Sweetser's Panacea.

Pneumonia Notha.—A very fatal disease, resulting from a neglected cold, or from a disease in the broken down constitution; aged persons are subject to it.—Dr. Sweetser's Panacea should be used on the first symptoms, which are a sharp pain in the side and breast.

Night Sweats.—This debilitating complaint will meet with a timely check, by using Dr. Sweetser's Panacea.

Consumption.—If the Panacea be used on the first symptoms, which are a pain in the side and breast, cough or spitting of blood, if Dr. Sweetser's Panacea is timely used, no danger need be apprehended.

When the Lungs, the Windpipe, or Bronchial Tubes become clogged up with phlegm so as to impede respiration or Swallow, Dr. Sweetser's Panacea, which is a powerful Expectorant, should be taken according to the directions.

Influenza.—This distressing epidemic, so prevalent in our climate, is speedily cured by Dr. Sweetser's Panacea.

Price $1 per bottle, or six bottles for $5.

Scratch! Scratch!!

TETTER, ITCH, SALT RHEUM, &c.—Who would for a single day scratch, when afflicted with the Tetter, Itch, or other diseases of the skin, if they knew how speedily our remedy would cure them.

'Tis horrible to be obliged to rub and scratch when alone, but more horrible to abstain from it, (for decency sake,) when in company. It is remembered that Dr. Leidy's TETTER and ITCH OINTMENT is the most efficacious of any other preparation in existence for the Tetter, Itch, and other diseases of the skin. As all diseases of the skin must arise from the impurity of the blood and fluids of the body, and where such disease is of long standing, and the constitution affected thereby, if Dr. Leidy's Sarsaparilla Blood Pills be used with the ointment, they will effect a cure where nothing else, and if they not, the money will be returned by Dr. Leidy. Most cases, however, will be effectually cured by Dr. Leidy's Tetter and Itch Ointment, unless the whole system is impregnated by the diseased humors which will be completely carried off from the system by Dr. Leidy's Blood pills, and the surface of the skin healed by the ointment. Price of ointment 25 cents.

PEACE! PEACE!!

BUT IN EVERY MOTHER'S HOMESTEAD.

THE undersigned has long been convinced of the necessity of some medicine designed to the use of Children and Infants to supercede the use of all those medicines which contain opium, and has at length succeeded in perfecting a preparation which he feels confident fully answering every purpose for all diseases of the bowels, without the use of that deleterious drug, or any other injurious ingredient. It has been tested, the last twelve months, by numerous persons, and found to possess all the extraordinary virtues, and to produce all the astonishing effects set forth in the following "Table of directions." Diarrhœa, Vomiting, Cholic, Griping, Pains, Sickness and Diseases arising from Teething, acting immediately upon the stomach and bowels, the functions of the body, producing the happiest and most pleasant transition from violent pain to a tranquil and joyous state of feeling and sleep. J S Strickler having deceased and the surviving partner Mr. Jos Lippencott having associated himself with Mr. Wm C Barr, the business will hereafter be conducted under the style of Lippencott & Barr.

Trial of a safe in Cincinnati, O.—We, the undersigned were present at the testing of one of J S Strickler & Co's improved Phœnix fire-proof safes. The safe was placed in a furnace on the public landing, and subjected to the intense heat of a stone coal fire for more than three hours. In one hour and a half the safe came to a bright red heat the door of the furnace was then closed, which caused an increased and steady heat for the balance of the time, until the cast iron wheels were partially melted off the furnace was then thrown down and the safe cooled and opened. The money, papers and books which it contained were as perfect as when placed there, the binding only of the books being injured by the water in cooling the safe. We have no hesitation in recommending it to the public as a safe superior to any we have ever seen tested, and believe that it will stand any heat which might be produced, except a heat which would melt it to a solid mass.

MISCELLANEOUS.

HIBBERT'S CHEMICAL WRITING FLUID.—In collecting the opinions of the public for this article, it is but right and just that its merits on which it stands for support be heard and should be fully and fairly set forth and the sound guarantee be given that the community will not be imposed upon by using it.

In the first place it is well known that the generality of black inks are composed of a precipitate, held together by gum Arabic, and when the water, either in whole or part is evaporated the gum and precipitate are left as a pasty mass in the pen or bottom of the inkstand which contains it. It is also common to add vinegar to the ink mixture to make it more fluid, which increases the evil by acting on the pen, if a steel one, corroding it through in a year, but time. Now the "Writing Fluid" differs from these mixtures in every respect, as it is a chemical solution requiring no vinegar, water to hold it together, therefore will never get thick, and being very fluid a large quantity flows from the pen into a given space penetrating deeper into the fibre of the paper making a more permanent mark and may be easily moved by adding to it that it was only plastered on the surface. It also contains no matter that has an affinity for metallic ink, therefore will not corrode steel pens—it will not mould, and although it writes of a black green color yet in a few hours it becomes a deep black which it will endure for ages. It is warranted superior to the foreign article known by the name of "Arnold's Writing Fluid," and one-third more given for the same price. As a guarantee against imposition of any kind being attempted the following recommendation will suffice, as it must be aware, that the names there given could not have been obtained by any means for an unworthy purpose.

We recommend "Hibbert's Chemical Writing Fluid" to the patronage of the public, as a first rate article in all respects; it flows free from the pen without clogging it up and in the course of a few hours becomes a deep bright black.

Mr Thos K Hibbert—Dear Sir: I have been using your Chemical Writing Fluid, some three weeks ago, I consider it equal if not superior to Arnold's Writing Fluid, and that I shall use it in preference to any other ink we have in use, I know of.

for Arthur Nicholson & Co

Pittsburgh, Sept 15, 1847.

Mr T K Hibbert—Dear Sir: I am using your Chemical Writing Fluid, and find it to be a decided first rate article for steel pens, as it does not clog them up like the generality of other inks, it flows free and becomes deep black in a few hours. Yours, Respectfully,

JUST RECEIVED—Ink, BLACK WRITING INK, for steel pens. This ink is of a superior quality, the black ink is the result of the experiments of several years, devoted to the manufacture, on an extensive scale, of black inks, for the use of the Pittsburgh and surrounding country. The perfection of this writing ink consists in the following properties: Firmness—in which property it will be found to surpass all other previous preparations, it will flow with perfect freedom either from quill or steel pens, and is entirely free from any corrosive qualities. Color—The color is a deep black, and will not change to a blue black. This is necessary, however, to give consumers the following caution.

Durability—Which is derived from its necessary chemical constitution, requires exposure to the air to impart a deep color. It cannot, therefore, be expected, that on the moment the bottle is uncorked, the ink will be found to be a jet black. The first appearance will be pale blue, after exposure to the atmospheric action of the atmosphere either on paper or in the inkstand, it will become a brilliant black ink.—Cj

Durability.—Durability is inalterable by the lapse of time. It will never fade. On this account, all important records should be made in this article. As years roll on the ink will become more and more black.

N B. This ink is suitable for all kinds of metallic pens, and for pens made of quills, and what is important and very necessary, for those many, will give a perfect impression by the copying press.

☞ We are using in the institutions with which we are connected, Hibbert's Chemical Writing Fluid, in respect to fluidity, brilliancy of color, and permanency, believe it superior to any ink we have heretofore used.

GAZZAM'S PATENT BEDSTEAD.

THIS IS THE FIRST THREE improvement that has been in use for a long time, wherever it is known, preferred to all other Bedsteads.

For cheapness, strength and convenience it has not and remains to equalled. It is recommended by the highest testimonials of convenience Bedstead in use, and perfectly proof against Bugs.

The principal Bedstead makers and Turners in Allegheny City and in Pittsburgh, have secured Rights to manufacture and sell the article. As there are respectable articles now manufactured and in the market, purchasers would do well to examine the cast iron plates on which in the genuine article the name of the patentee, E. P. Gazzam, is invariably cast in the iron. The price is claimed for Gazzam's Bedsteads, the following certificate from Cabinet makers well known in Pittsburgh and the West, recommend it to the public:

We, the subscribers, practical cabinet makers and Bedstead manufacturers, do hereby certify that we have seen Gazzam's patent Bedstead, and do hereby certify that we believe it to be the best article for the purpose we have seen in use, and we do recommend it to the public as such.

Pittsburgh, Aug 28, 1847.

Mr T K Hibbert—Dear Sir: Having procured a bottle of your Writing Fluid, some three weeks ago, I consider it equal if not superior to Arnold's or any other ink we have in use, I know of.

Respectfully,

O. W. McLEAN, Ins. U. S. N.

SCROFULA CURED.

This certificate conclusively proves that this Sarsaparilla has perfect control over the most obstinate disease of the blood. Three persons cured in one house is unprecedented.

DR. TOWNSEND—Dear Sir: I have the pleasure to inform you that three of my children have been cured by your Sarsaparilla, by the use of your excellent medicine. They were afflicted very severely with bad scrofulous sores on their backs; it took them a year, the best part of a bottle to cure them, I feel myself under deep obligation. Yours, respectfully,

ISAAC W CRAIG, 105 Wooster st.

New York, March 3, 1847.

GREAT FEMALE MEDICINE.

Dr. Townsend's Sarsaparilla is a most certain and speedy cure for incipient Consumption, Barrenness, Leucorrhœa, or Whites, obstructed or difficult Menstruation, Incontinence of Urine, or any other complaint incidental to the female, or general prostration of the system—no matter whether the result of inherent cause or causes, produced by irregularity, illness or accident.

Nothing can be more appropriate than its invigorating effects, during the female frame. Persons, all, weakness and languide, from taking it, at once perceive the great and full effect of energy under its influence. It immediately counteracts the mere lassitude of the female frame, which is the great cause of long repasses.

It will not be expected of us, in cases of so delicate a nature, to exhibit certificates of the astonishing effects of this medicine, but hundreds of cases have been reported to us. Several cases where families have been without children, after using a few bottles of this invaluable medicine, have been blest with healthy offspring.

Dr. Townsend: My wife being greatly distressed by weakness and pain, I procured a bottle of your Sarsaparilla. N B.
