COMMITTEE.

Sweeping the Carpet.

With a little care you can sweep the dirtiest carpet without raising much dust by placing outside the door of the room to be swept a pail of water Wet your broom, knock it against the side of the bucket to get out all the drops, sweep a couple of yards, then rinse off the broom again. Continue this until you have gone over the entire surface. If the carpet is very much soiled the water should be changed several times. Slightly moistened Indian meal is also used by the oldest housewives. Snow, if not allowed to melt, is also excellent as a dust settler.—Ex.

Township Election.

Under the amended ballot law certificates of nominations for township and borough officers must be filed with the County Commissioners at least eighteen days before the election. The Spring election this year comes on the 20th of February, therefore all nominations must be made so that the certificates of same can be filed on or before the 2nd day of February. The Republicans of every district in the county should at once arrange for holding their primary meetings and every district should have its ticket in the field not later than the last week in January. It is the duty of the county committeemen to give this matter their immediate attention. It should be remembered that the printing of the tickets, etc., has been taken out of the hands of the district auditors and is now entirely under the control of the County Commissioners.—Ex.

Ten-Day Excursion Tickets to Washington, D. C., at Greatly Reduced Rates.

The success attending low-rate excursions to the National Capital in the past prompts the Pennsylvania Railroad Company again to place similiar tickets on sale this winter and spring These will be good for ten days, and on the special train, or on any regular train except the Limited, leaving Pittsburg on the dates selected, which are January 25th, February 21st, March 22d, and April 19th. The tickets will be good for return passage for ten days, and stop-over at Baltimore in either direction will be permitted within the limit.

The rates on these trips place them within the means of all, and, considering the divers attractions of Washington and the educational benefits to be derived from a visit to its institutions, it would be difficult to imagine a better way in which to spend a few days.

The following rates will apply from the various points quoted, and the special train will be run on the following schedule:—

GOAT RAISING

Goat raising is an important and growing industry in Oregon and some other northwestern states. One rancher in Benton county, Oregon, has a fine herd of 450 goats which includes a number of thoroughbred Angora bucks. Twenty two cents a pound is the lowest this man has received for a fleece in a dozen years, while frequently he has received thirty to thirty-five cents a pound. The average yield from a goat is about four pounds, but from eight to ten pounds is frequently obtained from high grade goats. The goats are not only valuable for their fleece but in clearing off and, as they subsist largely on brush and weeds.

I would advise every weakly person to use this valuable and lovely remedy; A few bottles of it has cured me completely. I consider it the grandest medicin in the world." Warranted the most wonderful stomach and nerve cure ever known. Trial bottle 15 cents. Sold by L. Banks & Co., Druggist, Mifflintown,' Pa.

I had been in bed for five months from the effects of an exhausted Stomach, Indigestion, Nervous prostration and a general shattered condition of my whole system.
