An exchange says:—The severest test of manhood is never found in good times, but only in hard times. It is not the man who has success when others do well, but it is the man who keeps up his courage and struggles on when everybody else is wavering or going down, who is the hero in sight of God and men. It is an easier matter to make good time when both wind and tide are in one's favor, or when one is moving with the current; but it requires character and skill and daring to make head in spite of opposing forces, or to work successfully against the current.

It is almost inconceivable that Lancaster, Pa., should have a bomb thrower. Only a few nights ago, a bomb was placed on the front porch of Dr. James E. Baker and exploded. The building was greatly damaged, so severe was the explosion that the inmates of the house fell out of bed. Glass in the windows and doors, for a considerable distance on every side was shattered and broken. The man who placed the bomb on the porch was seen but not indentified, his capture is only a question of time, for the blowing of the Baker house was not his first offense, a rail road bridge or two, and a police station in that city are among the things that he directed deviltry against

Barbourville, Ky., March 2.

A frightful fate has befallen Len Tye, the captured negro ravisher, in Harlan County. A party of hunters lay in ambush and caught him. They then proceeded to skin him alive, and before he was dead a girl, his latest acknowledged victim, built a fire on his head, and he was roasted alive.

Low Rate Excusion to Washington, D. C., Pennsylvania Railroad.

The two remaining excursions to the capitol will be run on March 22d and April 19th, and judging from the extensive patronage accorded previous trips there is every likelihood of their being even a greater number of people who will avail themselves of the extremely low rate in effect for this popular series. The entertainment afforded by a visit to the handsomest city in the Union, and the educational benefits following an inspection of the architectural achievements and other attractions there, will more than repay the journey which, in any event is rendered exceedingly pleasant by the admirable train service of the Pennsylvania Railroad Company.

A stop off at Baltimore will be allowed within the limit, which is ten days, and return trip may be made on any regular train within the prescribed time. The tickets will be sold and the special train of parlor cars and day coaches will leave as per the schedule below.

A Winter Vacation in Florida.

On February 13th and 27th and March 13th and 27th the Pennsylvania Railroad Company will run personally-conducted tours to Florida. The special trains in charge of experienced tourist agent and chaperon will leave New York 9.30, Trenton 11.08 A. M., Philadelphia 12.10, Wilmington 12.50, and Baltimore 2.36, P. M. These trains will be composed of the finest Pullman sleeping and dining cars fitted with modern appointments and conveniences of the most sumptuous type. $50 from New York, $48 from Philadelphia and Baltimore, and proportionately low from other points on the system, will cover all expenses while on the special trains—transportation, Pullman accomodation, and meals, with the exception of the last tour, the ticket for which covers Pullman facilities south bound only, the limit, however, being May 31st, thus allowing a much longer visit.

A stay of two weeks in the glorious health inspiring peninsula may be enjoyed on the first three, and that time may well be spent in following out the numberless side trips available from Jacksonville. These tours are especially apropos during the penitential season now upon us, and a vacation in this beautiful State should prove of great benfit to those more or less fatigued from the pleasure of the social life and excitement of the winter.

It cures Oily Skin, Freckles, Black Heads, Blotches, Sunburn, Tan, Pimples, and all imperfections of the skin. It is not a cosmetic but a cure, yet is better for the toilet table than powder.
