MEDICAL.

SALTER'S
GINSENG PANACEA!

TO THOSE SUFFERING WITH DISEASED LUNGS.—The unprecedented success which has attended the use of the

GINSENG PANACEA

in all the various forms which irritation of the lungs assumes, has induced the proprietor again to call attention to this

WONDERFUL PREPARATION.

The changeable weather which marks our fall and winter months, is always a fruitful source of

COLDS AND COUGHS.

These, if neglected, are but the precursors of that fell destroyer,

COSUMPTION.

The question, then, how shall we nip the destroyer in the bud! how shall we get clear of our coughs and colds! is of vital importance to the public.

THE GREAT AND ONLY REMEDY

will be found in the Ginseng Panacea. In proof of this we have from time to time published the certificates of several of our best known citizens, who have experienced its curative powers. These, with a mass of testimony from all parts of the country—from

MEDICAL MEN OF THE FIRST STANDING,

Ministers of the Gospel, &c., together with copious notices from the

JOURNALS OF THE DAY,

we have embodied in pamphlet form, and may be had gratis of any of our agents throughout the country.

HUNDREDS OF BOTTLES

have been used in this city.

THOUSANDS AND TENS OF THOUSANDS

throughout the United States and Canada, and we challenge any man to point out a

SINGLE INSTANCE

in which, when used according to directions, and before the lungs had become fatally disorganized, it has ever failed to

EFFECT A PERFECT CURE.

Why, then, need the afflicted hesitate to try resort to the miserable nostrums, gotten up by unscrupulous individuals without the sanction of some or other medical physician, and pushed into notoriety by certificates of persons equally unknown? Whilst a medicine of

ORIGINAL ALLEGED EFFICACY

is to be had, whose vouchers are at home—our neighbors—many of whom it has

BEEN PUBLICLY USED THE GRAVE.

In order that this invaluable medicine may be placed within the reach of the poor as well the rich, we have put the price at

ONLY FIFTY CENTS,

just one half the usual cost of cough medicines. It is for sale by one agent in almost every town and village over the west, who are prepared to give full information relative to it.

ASTHMA, OR DIFFICULTY OF BREATHING.—This disease is caused by a paroxysmal constriction of the air vessels; it is very debilitating, almost causing suffocation. Dr. SWEETSER'S PANACEA is the only certain cure.

Hoarseness can be entirely cured by a free use of Dr. Sweetser's Panacea.

Catarrh, or common cold, which, if neglected, will terminate in Consumption, is effectually relieved and cured by Dr. Sweetser's Panacea.

Bronchitis, if unchecked, will eventually lead to Bronchial Consumption, but a timely use of Dr. Sweetser's Panacea will speedily cure it.

Inflammation of the Tonsils or Sore Throat—This distinct affection leads to serious consequences from neglect, such as ulceration of the Bronchial tubes, Consumption, Dr. Sweetser's Panacea should be procured and used freely.

A Cough and Colds find a sovereign remedy in Dr. Sweetser's Panacea.

Consumption Not—A very fatal disease, resulting from a violent cough and cold, or a debilitated or broken constitution; aged persons are subject to it—Dr. Sweetser's Panacea is a cough for

IMPORTANT PRECAUTIONARY

Night Sweats—This debilitating complaint will meet with a speedy check, by using Dr. Sweetser's Panacea.

Consumption—If on the first appearance of consumptive symptoms, which are a pain in the side and breast, cough or spitting blood, Dr. Sweetser's Panacea is freely used, no danger need be apprehended.

When the Lungs, the Windpipe, or Bronchial Tubes become diseased, it is folly to attempt to stop the expectoration or breathing, Dr. Sweetser's Panacea, which is a powerful Expectorant, should be taken according to the directions.

Influenza—This distressing epidemic, so prevalent in our climate, is speedily cured by Dr. Sweetser's Panacea.

Scratch! Scratch!!

TETTER, ITCH, SALT, RHEUM, &c.—Who would for a single day scratch, when afflicted with the Tetter, Itch, or other diseases of the skin, if they knew who would relieve and cure them.

The horrible to be obliged to rub and scratch when asleep, or when in company, to shake from the floor decency rules, when in company. Let it be remembered that Dr. LEDY'S TETTER and ITCH OINTMENT is the only reliable preparation in existence for curing the Tetter, Itch, and other diseases of the skin. As all diseases of the skin must arise from the impurity of the blood and fluids of the body, it is where such disease be of long standing, and the constitution affected thereby, if Dr. Ledy's Sarsaparilla Blood Pills be used without the ointment, a cure will not be effected. The sufferers have many strong testimonials of the manufacture of these reliable Trusses, in a superior style, in Philadelphia, and have them now for sale at their office, No 72, Smithfield st. near Sixth, Pittsburgh.

OED. WATT,
D. W. KAUFFMAN.

B. A. FAHNESTOCK'S Pectoral or Cough Balsam, has a great advantage over many other Cough preparations, as its pleasant taste permits it to be used without inconvenience. But its value as a Balsam consists in the expectoration of its cure. We have known some of the most desperate coughs, some of which had been entailed on for a considerable length of time, yield almost immediately to its power.

In such weather as we have had during the past winter, every one is liable to take cold, unless great precautions are used.

Wet feet and undue exposure to the inclemency of the weather often lays the foundation of a hacking cough, which needs a quick remedy to prevent serious results.

We have numerous certificates of cures which it has performed, many of which are from persons in this city and the neighborhood, and they are a sufficient testimony without going further for them.

VEGETABLE PULMONARY BALSAM.—To the proprietors of the Vegetable Pulmonary Balsam—I am satisfied that the Vegetable Pulmonary Balsam is a valuable medicine. It has been used in this place with complete success in an obstinate complaint of the lungs, attended with a severe cough, loss of voice, and the raising of much blood from the lungs. I have seen it administered to a young man of this place, who was pronounced by the physicians, and pulled into notoriety by certificates of persons equally unknown. Whilst a medicine of

S. JONES

S. JONES & CO, BLACK WRITING INK, for pens, stamped on the bottle, and the copying press. This ink is the result of the experiments of a chemist, long devoted to the manufacture, on an extensive scale, for pens and presses, and suited to the wants of the consumer. The perfection of this writing ink consists in the following properties: Fluidity—in which property it will be found superior to any other ink, for pens. It will flow with perfect freedom either from quill or steel pens, and is entirely free from any corrosive qualities. Color—The color is a jet black, and of a very intensely blue black. It is necessary, however, to give considerable time for drying.

All good black inks, from its necessary chemical constitution, requires exposure to the air to impart a good color. This ink does not, therefore, be expected, that the moment the bottle is uncorked, the ink will be found to be a jet black. The first appearance will be pale, but after exposure to the atmospheric action of the atmosphere either on paper or in the inkstand, it will assume a brilliant black hue.

The subscriber is unalterable by the lapse of time. It will never fade. On this account, the important records should be made in this article, as years only improve its strength and color.

N. B. This ink is suitable for all kinds of metallic pens, and for pens made of quills, and what is important and very desirable with many, will give a perfect impression by the copying press.

We are using in the institutions with which we are connected, Blue black writing ink, and in respect to fluidity, brilliancy of color and permanency, believe it superior to any ink we have heretofore used.

THIS is to certify that I purchased one vial of Dr. McLane's Worm Specific, some two months ago and gave to a son of mine, about seven years old, two teaspoons full, and although the amount used for a large urge, yet I have no doubt but there was upwards of a dozen worms passed from the boy, measuring from one quarter of an inch to two inches long.
