MISCELLANEOUS.

TO THE PROFESSIONS AND MINDERS OF THE MEDICAL SOCIETIES,

Mother, Wife and Daughter

IN THE UNITED STATES—Are hereby called upon to kindly call to your attention to Dr BARRETT'S GUARDIAN, expressly intended for the preservation of the health of both sexes—whether it arises from Incipient Phthisis, or early consumption, Debility of the Lungs, Bronchial Affections, Asthma, Pleurisy, Deranged and Disordered state of the Liver, Spleen, or Kidneys, Diseased Spine, Colic, Dyspepsia, Palpitation of the Heart, Loss of Muscular or Nervous Power, &c. &c.

DR. C. B. BARRETT'S GUARDIAN comes to the immediate relief of Females suffering from Irregularities, and all other Uterine difficulties and diseases incidental to women; whether occasioned by cold, wet feet, or any similar injudicious exposure, and all this without the use of medicine; as the most delicate and sensitive lady can at any moment apply it to herself without the possibility of incurring any risk or danger, or any unpleasant results arising from it, and with the certainty of obtaining immediate relief.

Dr. Barrett's Guardian is no catch-penny, or one of the many humbugs of the day; but it is an instrument made upon strictly scientific principles, in accordance with the laws of Electricity and Galvanism; and for neatness, durability and efficacy, infinitely surpasses everything of the kind ever before offered to the public for the relief of disease, and, in the language of one of the most enlightened men of the day, is pronounced to be the greatest discovery of the age.

A period of no less than four years has been occupied by Dr. Barrett in bringing the Guardian to its present state of perfection—during which time it has been in the hands of some of the most eminent physicians of the North and South, as well as in the dwellings of numerous families, who have used it for all of the above purposes, with the most perfect success; and who have cheerfully given their unqualified approbation of its efficacy and value, as can be seen by referring to the Manual of Instructions accompanying it.

Dr. C. B. Barrett's Guardian is secured from innovations by a patent from the United States Patent Office, and be had either with or without his Medico-Electro Galvanometer.

The Medico-Electro Galvanometer, in point of beauty, workmanship, durability and power, cannot be surpassed or even equalled, and the subscriber feels that he hazards nothing in the assertion that it will be found to possess more power and efficacy in the treatment and removal of diseases, by Galvanism and Electricity, than any other instrument, either in the United States or Europe. The Medico-Electro Galvanometer is warranted in every respect, and with common ordinary care will last a life-time, and is by far the cheapest, because the best, instrument ever offered to the public. A manual accompanies them, giving the most simple instructions, of practical experience, so that it is readily intelligible to the mind of every one, while the simplicity of arrangement is such that a child may manipulate with it.

Any information gratuitously given, and all communications cheerfully answered per mail, either in relation to the Electro-Galvanometer or Guardian.

Medical men are invited to call and examine Dr Barrett's Guardian, and test its efficacy.

W. P. JONES,
Jacob Miller, my12:2t* Agent for the Allegheny Coal Lands.

THREE LOTS containing, No. 1, from twenty-two to twenty-five acres; No. 2, fifty acres; and No. 3, fifty acres, will be offered and sold positively to the highest bidder, at the Auction Rooms of John H. Davis, corner of Wood and Fifth streets, in Pittsburgh, at 2 o'clock, P. M., on WEDNESDAY, the 17th of MAY NEXT. The three lots are adjoining, and embrace a front of about 130 rods on the river, of deep and safe harbor.

The above Coal Lands are about six miles above M'Keesport, on the first pool of the Youghiogheny improvement now constructing, and which the enterprising contractors expect to complete by next fall. They are part of one of the finest coal fields in Allegheny county, and contain not only what is called the Pittsburgh vein, six feet thick, overlapped at this point by a bed of near 200 feet, coming close to the river, but another vein about sixty feet higher up, of from three to four feet in thickness, of very pure Coal, free from sulphur, closely resembling the Mercer county coal, and found by actual trial to be still better adapted to the manufacture of Iron than that of the Pittsburgh vein. The two veins, it has been estimated, contain not less than 250,000 bushels of coal to the acre.

The supply of Youghiogheny Coal and Coke in this, as well as in the lower markets, is well known to coal dealers.

The immense amount of coal annually consumed in Pittsburgh, and shipped to markets below, has already exhausted a large quantity of the Coal most easily accessible to the river, and the consumption is constantly going on at a rate not less than 150 acres per annum. The better investment of capital can therefore be made than in well located Coal Lands in the vicinity of Pittsburgh. Persons wishing to visit the property before the day of sale, will find it convenient to go by M'Keesport and Elrod's Ferry.

At the same time and place will be offered five Lots in the city of Pittsburgh, 20 by 100 feet each, situated on Hancock street, between Penn street and Duquesne Way, and near the Allegheny river.

ALSO, a large lot, 95 by 150 feet, in Allegheny city, near Robinson street, fronting one end on the canal and the other on Craig street. This lot is advantageously situated for a foundry or other manufacturing purposes. It will be sold all together, or in sections to suit purchasers. Terms, which will be easy, will be made known at the time of sale.
