All kinds of Paragraphs.

Agricultural & Horticultural

Education and Agriculture.

We have been gratified by the perusa of an address delivered by Professor B. Turner, of Jacksonville, Ill., before convention of farmers held in that Stat in support of the establishment of an Un versity, in which agriculture and the sc ences relating to it shall be made a spe cial branch of study. The suggestion i urged by Prof. Turner with zeal and abi ity, and his arguments are convincing a to the need and importance of such insti tutions. Important as the duty of agri cultural education is every where, in ne country is it so imperative as in our own nor is there any subject more worthy o the highest efforts of the human intellect nor one which has been, until recently, so culpably disregarded, if not contemned As the great object of utilitarian inquiry is the maintenance of the largest population, the most valuable art is that which attains that object. The importance of applying science to agriculture has, of late, been amply demonstrated, and is now, by all enlightened minds, admitted But the knowledge which is confined to the closet or laboratory of theoretical inquiries is of little practical use; and the invaluable discoveries referred to, and those which are daily added by the aroused labors of scientific men, are not generally available because not generally known, and are met, where but partially understood, with those prejudices which seem especially to hedge in the inherited habitudes of the farmer. To secure the diffusion and practical application of agricultural science, it seems necessary that it should be interwoven with general education, and its acquisition made an object of early pride and animated ambition.

Were this result attained by institutions such as are suggested by Prof. Turner, the consequence would be not only an early application of science to agriculture, but valuable additions to the stock of knowledge induced by stimulated inquiry and experiment. It cannot be doubted that, with the advance of agriculture

☞ A Frenchman being afflicted with the gout, was asked what difference there was between that and the rheumatism?

"One very great difference," said Monsieur. "S'pose you take one vise, you put your finger in, and turn de screw till you bear him no longer; dat is de rheumatiz. Den s'pose you give him one turn more, dat is de gout."

☞ A gentleman passing a country church while under repair, observed to one of the workmen, that he thought it would be an expensive job.

"Why, yes," replied he, "but in my opinion, we shall accomplish what our reverend divine has tried to do for the last thirty years in vain."

"What is that?" asked the gentleman.

"Why, bring all the parish to repentance."

Backing out of a position.—A somewhat eccentric lawyer, being engaged in defending a young scoundrel prosecuting Judge, remarked that he believed the whole court could be bought with a peck of beans.

The Judge, of course, took this remark in high dudgeon, and ordered the lawyer to sit down, and demanded an apology for this contempt of the Court, threatening him with commitment for the offence if he did not apologize.

The lawyer, after a little reflection, remarked that he had said he believed the Court could be bought with a peck of beans; that he had said it without reflection, and wished to take it back; but said he, "if I had put it half a bushel, I never would have taken it back in the world!"

☞ The physician who attends *sic transit* has arrived in this city and taken rooms at the Tremont. [Boston Times.

The pugilist that *nihil fit* has gone to Boston and hopes to see *sic transit* in *gloria mundi* morning. [Springfield Post.

He arrived safely, but soon *delta* blew at *sic transit* and *beta* hole in his head. [Boston Bee.

We understand that *nihil fit* him, and *noctes* head completely off. [Boston Museum.

This probably *nox sic transit* out of existence. [Bee.

Scene in a Court at San Francisco.—Enter Captain in custody of Marshal.

Judge—Captain, there are very grave charges brought against you. Spitting in a man's face—pulling his nose—and kicking him. Are they true?

Captain—(Hesitating, not liking to say no, as it might be telling an untruth; and not liking to say yes, thinking of a heavy fine) —will your Honor allow me to ask your Marshal a question?

Judge—Nodding assent.

Captain—Mr. Marshal, will you please to state to the Court whether the person who made this complaint was armed or not when he came on board my ship, accompanied by yourself?

Marshal—He was armed, for I handed him a revolver myself, which he placed in his pocket.

Captain—Does you Honor think it probable a man with a six barrel revolver in his pocket would allow another to spit in his face, pull his nose, and kick him?

Judge—(fired with indignation)—No sir! and if he did, he deserved it! Captain, you are honorably acquitted of the charges. Good bye, sir.—[Shaking hands.] I wish you a pleasant and prosperous voyage.

Captain—Adieu! most wise and righteous Judge.

☞ That is a good story told of an empty coxcomb, who after having engrossed the attention of the company for some time, with himself and his petty ailments, observed to the celebrated caustic Dr. Parr, that he could never go out without catching cold in his head.

"No wonder," said the doctor, rather pettishly; "you always go out without any thing in it."

We have heard somewhere of another of the same stamp, who imagined himself to be a poet, and who said to Nat Lee, whose insane verse was much in vogue at the time—

"It is not easy to write like a madman, as you do."

"No," was the reply, "but it is very easy to write like *a fool*, as *you* do!"

There was some "method" in the "madness" that dictated that cutting rejoinder, at

Rather Bitter.—Talleyrand being asked for his autograph by a doublemean, he sent it in an invitation to dinner, couched in these terms: "Dear sir—Will you oblige me with your company to dinner on Wednesday next, at 6 o'clock? I have invited a number of exceedingly clever persons, and *I do not like to be the only fool among them!*"

A writer out west thus informs his "lover" what he intends to do, should she "up and die" some day:

"I'll deck your tomb with flowers,
The rarest ever seen;
And with my tears for showers,
I'll keep them ever green."

That young man should be looked to. He will strangle himself some day with a bell wrench.

Ellen.—"Oh don't tease me to-day, Charley, I am not at all well!"

Charley.—(Twelve years old. A man of the world.)—"I tell you what it is you are in love! Now you take the advice of a fellow who has seen a good deal of that sort of thing and don't give way to it."

Showy Accomplishments.—There are few greater mistakes than the prevailing disposition among people in middling life to bring up their daughters as fine ladies, neglecting useful knowledge for showy accomplishments. "The notions," it has been justly observed, "which girls thus educated acquire of their own importance, is in an inverse ratio to their true value. With just enough of fashionable refinement to disqualify them for the duties of their proper station, and render them ridiculous in a higher sphere, what are such fine ladies fit for? Nothing, that I know, but to be kept like wax figures in a case. Woe to the man that is linked to one of them! If half the time and money wasted on the music, the dancing, and embroidery, were employed in teaching them the useful arts of making shirts and mending stockings and managing household affairs, their present qualifications as wives and mothers would be increased fourfold."

An auctioneer exclaimed: "Why really ladies and gentleman, I am giving these things away." "Are you?" said an old lady present, "well I'll thank you for that silver pitcher you have in your hand."

Buswell's Mineral Paint.

A SUPERIOR ARTICLE for painting on Wood Brick, Stone, Iron or Tin, *proof against fire water, and weather*, and unchangeable in its color It mixes readily with oil or composition, and is beautiful dark brown or Free Stone color.

☞ This paint received the premium at the New York State Fair, in 1850, in competition with the Ohio Fire-proof Paint, and several other kinds of mineral paint, as being superior to any thing of the kind now in use. For sale by

ABEL TURRELL.

Montrose, May 29, 1851.

LOOK TO YOUR LAND-MARKS!

THE subscriber will attend to occasional calls at his old business of *SURVEYING* in this vicinity when desired. Many of the old Farms in this county should be re-surveyed, to look up and renew the old land-marks, which are liable to get lost or obliterated by time so as to occasion disputes and difficulties for time to come. Every man who does not know the precise location of all his lines and corners therefore, should see to it in season, to prevent future trouble and litigation.

☞ *CONVEYANCING* also attended to, by

J. W. CHAPMAN

Montrose, Oct. 29, 1851.

THE ROAD TO WEALTH.

WHAT is there that guarantees to us a competency more surely, in our decline of life, than health, and vigour of youth, nothing; then the question is, how shall that be obtained and secured? If we have a Cough, Cold, Bronchitis, Asthma, Catarh, Pleurisy, Influenza or hoarseness, or any other affection of the Lungs or Chest, you will find in *DR. THROOP'S COMPOUND SYRUP OF BLOOD ROOT*, a sure and safe remedy, or if your children are afflicted with Croup or Hooping Cough, no better remedy can be found, thousands have been relieved with it, and certificates of its curative powers, now in my possession, places it beyond a doubt, the greatest remedy of the age, for any affection of the Lungs. The powers of Blood Root as a remedy has long been known, but its harsh action alone has kept it somewhat out of general favor, but I flatter myself that the above combination is perfect, and that its use will secure friends wherever it is offered to an enlightened public.

A Word to Mothers.—I wish to ameliorate your condition, to lessen your cares, perplexities, and anxieties, which I do by providing for your tender offspring, a remedy for their ills, that is adapted to their infirmities, without the fear of consequences from remedies charged with opiates, so destructive and detrimental to so many thousands of our race. Who amongst you but feels for the suffering infant, whose cries are the only indication of its suffering. Writhing with pains from cholic, emaciated from diarrhoea or dysentary, suffering great nervous irritation (often to fits) from teething—often brought to death's door by cholera infantum, and every ill arising from bad nourishment or nursing. I have seen all these cured in a day almost, by a remedy that I have been for years in perfecting, in an extensive practice of nearly twenty years, and now offer it to you under the true name of "*Dr. Throop's Infant Restorative and Mother's Relief.*" Where this remedy has been used, it has met with unbounded favor, and as you value your own comfort or the welfare of your darling babe, I ask you to give it a trial, and you will say truly in its behalf, it is the "Mother's Relief."

WORMS are also productive of great torture to children of riper years, the symptoms of which every parent is aware, and when suspected it is their duty to exterminate them as speedily as possible, which can be done only with a few doses of Dr. Throop's WORM POISON, which is beyond comparison with any Vermifuge of the day. It will destroy them; and the very small dose, makes it acceptable to the children that dislike medicines of any kind. It is a happy compound of harmless vegetable medicines, that in their combination produce wonderful effects upon those filthy intruders of the human system.

If you are suffering from derangement of the Stomach, Liver or Bowels, you have fever, headache, sour stomach, heart burn, flatulency, costiveness, and many other unpleasant symptoms, for their entire relief you have only to take a few doses of Dr. Throop's BILLIOUS PILLS, and you have a cure. They act upon disease by removing the cause, restoring the secretions of all the organ of the body, and health is the consequence.

To those afflicted with sore, weak or inflamed eyes, I furnish you also a remedy that has stood the test of years of experience, and has restored the worst cases when every other remedy has failed, Dr. Throop's EYE WATER. These comprise the list of

Dr. Throop's Medicines, that should be in the hands of every housekeeper, as a good remedy, always ready, and which only requires a trial to insure them a place.

AGENTS.—Bentley & Read, Montrose—N. Granger & Co., H. M. Southwell, Rush—C. C. Wright, Middletown—B. Glidden, Friendsville—P. M. Barber, Jessup—Brackney & Montfort, Brackney—J. S. Blaisdell, General Agent, Forest Lake—S. S. Grover, Dimock—Scott & Root, Springville—Dr. J. P. January 8, 1852. 1y

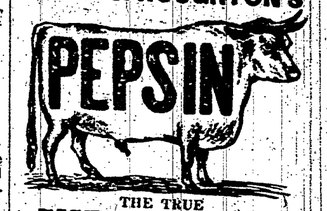
Entered according to Act of Congress, in the year 1851, by J. S. HOUGHTON, M. D., in the clerk's Office of the District Court for the Eastern District of Pennsylvania.

Another Scientific Wonder!

GREAT CURE FOR

DYSPEPSIA!

DR. J. S. HOUGHTON'S



THE TRUE

DIGESTIVE FLUID,

OR, GASTRIC JUICE.

Prepared from *RENNET*, or the fourth *STOMACH OF THE OX*, after directions of *BARON LIEBIG*, the great Physiological Chemist, by *J. S. HOUGHTON, M. D.* Philadelphia, *Pa.*

This a truly wonderful remedy for *INDIGESTION, DYSPEPSIA, JAUNDICE, LIVER COMPLAINT, CONSTIPATION*, and *DEBILITY*, Curing after Nature's own method, by Nature's own Agent, the Gastric Juice.

☞ Half a teaspoonful of *Pepsin*, infused in water, will digest or dissolve, *Five pounds of Roast Beef in about two hours*, out of the stomach.

Pepsin is the chief element, or Great Digesting Principle of the Gastric Juice—the *Solvent of the Food, the Purifying, Preserving, and Stimulating* agent of the Stomach and Intestities. It is extracted from the Digestive Stomach of the Ox, thus forming an *artificial digestive fluid*, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a complete and perfect substitute for it. By the aid of this preparation, the pains and evils of *Indigestion* and *Dyspepsia* are removed, just as they would be by a healthy Stomach. It is doing wonders for Dyspeptics, curing case of *Debility, Emaciation, Nervous Decline*, and *Dyspeptic Consumption*, supposed to be on the verge of the grave. The Scientific Evidence upon which it is based, is in the highest degree *curious* and *remarkable*.

Scientific Evidence.

BARON LIEBIG in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the Calf, in which various articles of food, as meat and eggs, will be softened, changed and digested, just in the same manner as they would be in the human stomach."

☞ Call on the agent and get a descriptive Circular, gratis, giving a large amount of scientific evidence similar to the above, together with reports of remarkable cures, from all parts of the United States.

As a Dyspepsia Curer

Dr. Houghton's *Pepsin* has produced the most marvellous effects, in curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption. It is impossible to give the details of cases in the limits of this advertisement, but authenticated certificates have been given of more than two hundred remarkable cures, in Philadelphia, New York and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful, but permanent.

It is a great Nervous Antidote, and particularly useful for tendency to bilious disorder, liver complaint, fever and ague, and the evil effects of quinine, mercury, and other drugs upon the Digestive Organs, after a long sickness. Also for excess in eating, and the too free use of ardent spirits. It also reconciles Health with Intemperance.

Dr. Houghton's *Pepsin* is prepared in powder and fluid form—and in prescription vials for the use of physicians.

Private Circulars for the use of *Physicians* may be obtained of Dr. Houghton or his agents, describing the whole process of preparation, and giving the authorities upon which the claims of this new remedy are based. As it is not a secret remedy, no objection can be raised against its use by physicians in respectable standing and regular practice. *Price*, ONE DOLLAR per bottle.

☞ Observe This—Every bottle of the genuine *Pepsin* bears the written signature of J. S. HOUGHTON, M. D., sole proprietor, Philadelphia, *Pa.* Copy-right and Trade-mark secured.

☞ Sold by all Druggists and Dealers in Medicines.

To Dairymen & Farmers.

VALUABLE PROPERTY FOR SALE!

A FARM of 200 acres, situate in Bridgewater township, Susquehanna county, and state of Pennsylvania, 150 acres of which are under good improvement.

The farm is well designed for a dairy, and is capable of feeding 40 cows during summer and winter, and every part of it is well watered. The buildings and land are in good condition, and the fences are in good condition, and the farm. There are two large barns upon the premises, besides a granary and convenient sheds for cattle.—Three orchards principally of grafted fruit and other fruit trees.

Said farm has a very pleasant and desirable location about two miles from Montrose, the County seat of Susquehanna county, and about nine miles from the Leggett's Gap Railroad, to which there is a Plank Road in process of completion, and is very convenient to meetings, schools and mechanics.

Also, another valuable Farm adjoining the above containing 200 acres, of which 150 are under a high state of cultivation. Upon it there is a large frame dwelling house with outbuildings to correspond, and a large orchard. It is well watered and fenced and admirably adapted to dairy purposes.

Said property will be sold on reasonable terms, and a portion of the purchase money may remain on bond and mortgage to suit the purchaser.

Application may be made personally or by letter to Hon. Wm. Jessup or R. J. Niven at Montrose, in said county, and any further particulars that may be required will be given. 27tf
