PITTSBURGH BOARD OF TRADE

COMMITTEE FOR MAY

J. CROTHERS. J. McFADEN. W. W. WALLACE.

OFFICE PITTSBURGH GAZETTE, Monday Morning, May 29, 1848.

The markets on Saturday were generally very dull and little was done in any of the branches of trade.

FLOUR—None was received by river; and we heard of no sales from first hands, except a few wagon loads from the country, which were taken at $4.31@4.37 ⅌ bbl. Sales from store were also very light, amounting only to about 100 bbls in different lots at $4.45@4.60, according to quality. Some shipments are still making east, but they are comparatively light.

GRAIN—Sales of 400 bu corn at 35c ⅌ bu; oats, sales of some 500 bu in different lots were reported to us at 28@30 from store,—25@26 are the ruling first hand rates.—Other grains are quiet with no change in prices.

GROCERIES—We observe no change in the prices of any article under this head. Sugar is steady, with regular sales N O at 4½@5c by the hhd.—For a choice article, 5½c is obtained, without however, any heavy sales.

BACON—The market is dull, and very little is doing. Sales of excellent western cured meat, in a regular way at 2½, 3½ and 4½c. We quote city cured at 3@3½—4@4½, and 5c ⅌ lb. Limited lots of a very prime article have been sold at a fraction higher.

LARD—Is inactive—5½@5½c are the ruling figures.

OILS—Regular sales of linseed are effected at 54@55c,—and lard, at the same.

WESTERN WATERS—The St. Louis Republican of the 22d inst. states that a rise had taken place in the Mississippi at Dubuque. The Wisconsin was high, and the streams below Galena are also rising. The Missouri was still falling with three and a half feet water in the channel at Brunswick, and four to four and a half feet water below. The Illinois was reported rising in the lower part, and it is thought that the recent heavy rains which have fallen will cause a rise in the upper river also. The weather at St. Louis indicated rain all round.

There were 7 feet 10 inches water in the canal at Louisville on the 25th inst., and falling.

Cattle Market.

Baltimore, May 27.—Cattle—A decline has taken place in the price of beeves since this day week. On Monday there were 679 head offered at the sales, of which 300 were purchased by city butchers; 110 remained over unsold, and 269 were drawn for Philadelphia. No sales of any moment have since taken place. We quote the rates this week at $2.50@3.50 ⅌ 100 lbs on the hoof, equal to $5@6.75 net, and making an average of 5.25 gross.

Hogs—We have been selling slowly at $4@4.50.

The Cholera is strangely destructive in the human cuticle, (skin) the sudden change from heat to cold, and the sake causes yellow, dark, coarse complexions. There is reqaisite that the pores of the skin should be kept open, and their mouths should be freed from impurity. The thus the ancient Roman Philosophers cured all diseases—they considered all diseases and healthy vapors left through in the pores of the skin, as
