THE GLOBE:

The Official Paper of Congress, And Newspaper for the People.

It will be seen by the annexed extract from a letter of General Washington to David Stewart, dated New York, 17th March, 1790, that the idea of such a paper as I propose to make the Globe originated in the mind of the Father of his Country. He said:

"It is to be lamented that the editors of the different Gazettes in the Union do not more generally and more correctly (instead of stuffing their papers with acrimonious and nonsensical declamation, which few would read if they were apprised of the contents) publish the debates in Congress on all great national questions. The principles upon which the difference of opinion arises, as well as the decisions, would then come fully before the public, and afford the best data for its judgement."—*Spark's writings of Washington*, vol. 10, *page 14*.

THE DAILY GLOBE
AND
THE CONGRESSIONAL GLOBE.

In surrendering my interest in the organ of a great political party, I cherished the purpose of continuing the Congressional Globe, and, if possible, in time, to perfect it into a full history of the action of Congress, giving the debates accurately and fully with the proceedings—all stamped with the verity of an official record. From the passage in the letter of General Washington, which I have quoted, it will be perceived that he thought this office might be combined with that of a regular newspaper; and it is certain that the avidity of the public for news of the less important kind, greatly contributes to give wings to the weightier matter which may be called congressional news.

Having succeeded in my purpose of perfecting the reports of the debates in Congress and giving them the official stamp, I now propose to send them abroad, in connection with the news of the day, in such haste as shall outstrip full and accurate intelligence sent from the seat of Government in any other form whatever. It will even anticipate the scraps of news forwarded to cities within two hundred and fifty miles of Washington by telegraph. Before the events thus transmitted are published in the morning papers, (for instance, of the city of New York,) the Globe containing them will have reached the post-office of that city by the Express Mail of the previous night. The process by which this will be effected I now lay before the public.

I will have a corps of sixteen Reporters in Congress; each in succession will take notes during five minutes, then retire, prepare them for the Press, put them slip by slip in the hands of compositors, and thus, while a debate is going on in Congress, it will be put in type, and in a few minutes after it is ended it will be in print. I shall by this means be able to send by the Express Mail of 5 o'clock p. m. for the East, West, and North, and by that of 9 o'clock p. m. for the South, all the proceedings of Congress up to the ordinary hour of adjournment. Thus the accurate debates of Congress will reach the cities two hundred and fifty miles from the Capitol before their daily morning papers are in circulation.

The miscellaneous news I shall be careful to gather from remote sections of the country by telegraph. I will obtain from the Executive Departments, through official sources, the matters of moment transacted in them, and, through agents employed for the purpose, all the city news of consequence in sufficient time to be put into the Globe and mailed in the Express Mail trains. In this way I hope to create a new era in the dissemination of news from Washington. Hitherto no newspaper has attempted to give authentic accounts of things done at Washington before the public mind at a distance had received its first impressions from irresponsible telegraphic dispatches, or by letter-writers biased by peculiar views.

Washington has now become so great a center of political interest during all the year—the proceedings of the Executive Departments and the information collected by them even during the recess of Congress is of so much importance to the interests of every section of the country—that I shall continue the publication of the daily paper permanently, with a view to become the vehicle of the earliest and most correct intelligence.

It is part of my plan to reduce the price of the daily paper to half that of similar daily papers, and thus I hope to extend its circulation so as to invite advertisements. I will publish advertisements of the Government. To subscribers in the cities I hope to submit such terms as will induce them to advertise their business in every village throughout the Union, where the Globe is sent daily under the franks of Members of Congress, all of whom take it, and some of them a large number of copies.

The installation of a new Administration and a new Congress portends much change in the course of public affairs as the result of the next session. Many vast interests which were brought up in the last Congress were laid over by the Democratic majority to await the action of a Democratic Executive. The new modeling of the Tariff; the new land system; the question of giving homesteads, and making every man a freeholder who may choose to become one; the approximation of the Atlantic and Pacific oceans by a national railroad across the territory of the Union; reform in the Army, Navy, and civil offices—all these great questions, with a thousand minor ones, deeply affecting multitudes of men and every State in the Union, will, now being matured by public opinion, come up for the Government's decision. These new issues, co-operating with old ones, coming up to be disposed of by new actors on the scenes at Washington, will be apt to modify greatly, if not alter essentially, the party organizations of the country.

To these elements of interest another is likely to be introduced by the interposition of the agitations of Europe. After nearly forty years of peace in Europe, there is an evident restlessness that now seems fraught with tendencies threatening war; and if war comes, in all likelihood there will follow such universal change that the United States can scarcely hope to escape its vortex. Indeed, from late events it is apparent that our Government is already drawn into European difficulties. These circumstances are calculated to draw the public mind towards the next Congress with much expectation.

The DAILY GLOBE will be printed on fine paper, double royal size, with small type, (brevier and nonpareil,) at five dollars a year.

The CONGRESSIONAL GLOBE will also be printed on a double royal sheet, in book form, royal quarto size, each number containing sixteen pages.—The Congressional Globe proper will be made up of the proceedings of Congress and the running debates as given by the Reporters. The speeches which members may choose to write out themselves, will, together with the messages of the President of the United States, the reports of the Executive Departments, and the laws passed by Congress, be added in an Appendix. Formerly I received subscriptions for the Congressional Globe and the Appendix separately. But this has not been found satisfactory, inasmuch as it gave in incomplete view of the transactions in Congress; and therefore I have concluded not to sell them apart, considering that neighbors can have the advantage of both by clubbing, in case individuals shall find it too onerous to be at the charge of both.

To facilitate the circulation of the Congressional Globe and cheapen it to subscribers, Congress passed last year a joint resolution making it free of Postage. I annex it, as the law may not be accessible to postmasters generally:

Joint Resolution providing for the distribution of the Laws of Congress and the Debates thereon.

With a view to the cheap circulation of the laws of Congress and the debates contributing to the true interpretation thereof, and to make free the communication between the representative and constituent bodies:

Be it resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That from and after the present session of Congress, the Congressional Globe and Appendix, which contain the laws and debates thereof, shall pass free through the mails so long as the same shall be published by order of Congress: *Provided*, That nothing herein shall be construed to authorize the circulation of the Daily Globe free of postage.

Approved August 6, 1852.

As I sell the Daily Globe at half the price of similar publications, so the Congressional Globe and Appendix is sold at half the cost of so much composition, press-work, and paper. This I can afford to do, inasmuch as the subscription of Congress almost covers the cost of composition, and this enables me to sell for little more than the cost of press work and paper. It requires the sale of about 9,000 copies to reimburse expenses. If 500 only were sold, the cost of each copy would be about $10!! The debates in the English Parliament cost about *eleven* times as much as I charge subscribers for the debates in Congress, equal in quantity, and as well reported and printed.

The next session of Congress will be a long one; and it is believed the Congressional Globe for it will reach 4,000 royal octavo pages, as the last long session made 3,842, and the long one before that made 4,201 royal quarto pages—four large volumes each session. If subscribers will be careful to file all the numbers received by them, I will supply any that may miscarry in the mails.—This work increases in value as it grows old. The first seventeen volumes will now command *three times*, and some of the subsequent ones *twice* their original subscription price.

The subscription price for the Congressional Globe (including the Appendix and the laws) is six dollars.

Complete indexes will be made out and forwarded to subscribers soon after the session is ended.

Subscribers for the Daily should have their money here by the 5th, and for the Congressional Globe by the 15th of December. The money must accompany an order for either the Daily or the Congressional Globe. Bank notes current where a subscriber resides will be received at par.

"Lives of great men all remind us
We can make our lives sublime,
And, departing, leave behind us
Pictures which will last some time!

"PICTURES which perhaps another,
Sailing o'er life's stormy main,
Some forlorn and wayworn brother,
Seeing, *can go and get some more*
just like them!"

The above was sent us by a friend, and, being *right to the point*, we give our readers the benefit of it, hoping that they will heed the wise suggestion and "go and get some more just like 'em."

Our stock of cases, lockets, keys, pins, &c., is varied and complete, and we are anxious to set them all with "natural" pictures, and get the PAY for so doing.

Our motto is, "good work and fair prices."
