MEDICAL.

DR. TOWNSEND'S

SARSAPARILLA.

Most extraordinary Medicine in the World.

This extract is put up in Quart bottles; it is six times cheaper, sweeter, and warranted superior to any sold. It cures disease without vomiting, purging, sickness or detaining the patient.

GREAT SPRING AND SUMMER MEDICINE

The great beauty and superiority of this Sarsaparilla over all other Medicine is, while it Eradicates Disease it invigorates the body. It is one of the very best SPRING AND SUMMER MEDICINES ever known, it not only purifies the whole system and strengthens the person, but it *Creates New, Pure and Rich Blood*; a power possessed by no other Medicine. And in this lies the grand secret of its wonderful success. It has performed within the past two years, more than 50,000 cures of Severe Cases of Disease; at least 5,000 of these were considered incurable. More than

3,000 cases of Chronic Rheumatism;
2,000 cases of Dyspepsia;
400 cases of General Debility and Want of Energy;
7,000 cases of different Female Complaints;
2,500 cases of Scrofula;
1,500 cases of the Liver Complaint;
2,500 cases of Disease of the Kidney and Dropsy;
7,000 cases of Consumption.

And thousands cured of Disease of the Blood, viz: Ulcers, Erysipelas, Salt Rheum, Pimples on the Face, &c., &c. Together with numerous cases of Sick Headache, Pain in the side and Chest, Spinal Affections, &c., &c.

This, we are aware, must appear incredible, but we have letters from physicians and our agents from all parts of the United States, informing us of extraordinary cures. R. Van Buskirk, Esq., Troe of the most respectable druggists in Newark, N. J., informs us that he can refer to more than 150 cases in their place alone. There are thousands of cases in the City of New York, which we will refer to with pleasure and to men of character. It is the best medicine for the Prevention of disease known. It undoubtedly saved the life of more than

9,000 CHILDREN THIS PAST SEASON!

As it removes the cause of disease, and prepared them for the Summer season.

UNITED STATES OFFICES.

CAPT. G. W. MCCLASH, OF THE UNITED STATES NAVY, and member of the New Jersey Legislature, has kindly sent us the following certificate. It tells its own story.

RAHWAY, Jan. 25, 1847.

A year since I was taken with the influenza, and my whole system fell in a debilitated state. I was induced to try Dr. Townsend's Sarsaparilla, and after taking two or three bottles, I was very much relieved, and attribute it entirely to the said Sarsaparilla. I have continued taking it, and find that I improve every day. I believe it saved my life, and would not be without it under any consideration.

G. W. MCLEAN, late U. S. N.

SCROFULA CURED.

This certificate conclusively proves that this Sarsaparilla has perfect control over the most obstinate disease of the blood. Three persons in the same house is unprecedented.

THREE CHILDREN.

DR. TOWNSEND—Dear Sir: I have the pleasure to inform you that three boys have been cured of the Scrofula by the use of your excellent medicine. They were afflicted very severely with bad sores; have only taken four bottles; think them entirely cured. I feel myself under deep obligation. Yours, respectfully,

ISAAC W. CRAIN, 105 Wooster st.

New York, March 2, 1847.

GREAT FEMALE MEDICINE.

Dr. Townsend's Sarsaparilla is a sovereign and speedy cure for Incipient Consumption, Barrenness, Leucorrhœa, or Whites, obstructed or difficult Menstruation, Incontinence of Urine, or irritating Urine and Stone in the Bladder, and for the general prostration of the system—no matter whether the result of laborious excess or excess, produced by irregularity, illness or accident.

Nothing can be more surprising than its invigorating effects on the human frame. Persons, all weakness and languishing, from sitting it, once become robust and full of energy under its influence. It immediately counteracts the nervousness of the female frame, which is the great cause of hurried marriages.

It will not be expected of us, in case of so delicate a nature, to exhibit certificates of cures performed, but we can assure the afflicted, that hundreds of cases have been reported to us. Several cases where families have been without children, after using two or three bottles of the invaluable medicine, have been blest with healthy offspring.

Dr. Townsend: My wife being greatly distressed by weakness and general debility, and suffering continually by pain and a sensation of falling down, failing of the womb, and with other difficulties, and having known cases where your medicine had effected great cures; and also hearing it recommended for such cases as I have described, I obtained of a bottle of your Extract of Sarsaparilla, and followed the directions given for use. In a short period it relieved her complaints and restored her health. Being grateful for the benefits she received, I take pleasure in thus acknowledging, and recommending it to others. H. D. MOORE, Jr.,

Albany, Aug. 17, 1846. Cor. of Grand and Lydius sts.

CATARRH, Sept. 25, 1846.

Dr. Townsend: To all whom this may concern—This is to certify that my wife had one bottle of your Sarsaparilla previous to her confinement, under the most alarming and fatiguing circumstances, being very much reduced, with the drops, weakness of the feet, nervous affections, and very much debilitated; with my recommending it to Mrs. Moore, Albany, Mrs. H. D. MOORE, Jr., who had used it, she was induced to try it, with little or no faith; and suffice it to say, the medicine had the happy and desired effect, not only in the restoration of health, but the expiration of one week of its use, the drops and nervous affection gave way to astonishing degree, and her health is now as good as it was before, if not better than it has been for many long years past.

If this will be of any service to you in any one who doubts the efficacy of the medicine, you are entirely welcome to it.

I subscribe myself your most obedient and obliged servant,

S. GALE, M. D.

TO MOTHERS AND MARRIED LADIES.

This Extract of Sarsaparilla has been expressly prepared in reference to female complaints. No female who has reason to apprehend the approaching that critical period, "as Turn of Life," should be without it. It is, as it will be a certain preventive for any of the numerous and horrible diseases to which females are subject at this time of life. This period may be delayed for several years by using this medicine. Nor is it less valuable to those who are approaching womanhood, as it is unrivalled as a tonic for quickening the blood and invigorating the system. Indeed, this medicine is invaluable for all of the delicate diseases to which women are subject.

It braces the whole system, renews permanently the natural energies—by removing the impurities of the body—not by stimulating the system and producing a subsequent relaxation, which is the case of most medicines taken for female weakness and disease.

GIRLS READ THIS.

You who have pale complexion, dull eyes, blotches on the face, rough skin, or freckles, and are "out of spirits," use a bottle or two of Dr Townsend's Sarsaparilla. It will cleanse your blood, remove the freckles and blotches, and give you animation, sparkling eyes, fine spirits, and beautiful complexion, the effect of which are of immense value to unmarried ladies.

DYSPEPSIA.

No fluid or medicine has ever been discovered which so nearly resembles the gastic juice or salina in decomposing food and strengthening the organs of digestion, as this preparation of Sarsaparilla.

BANK DEPARTMENT, Albany, May 10, 1845.

Dr Townsend: Sir—I have been afflicted for several years with dyspepsia in its worst forms, attended with sour rising of stomach, loss of appetite, extreme heartburn, and a great aversion to all kinds of food, and for weeks (what I could eat) I have been unable to retain but a small portion on my stomach. I tried the usual remedies, but they had but little or no effect in removing the complaint. I was induced, about two months ago, to try your Extract of Sarsaparilla, and I must say with little confidence, but after using nearly two bottles, I found my appetite restored, and the unpleasant sensations entirely removed; and I cheerfully recommend the use of it to those who have been afflicted as I have been. Yours, &c. W. W. VAN ZANDT.

Nov 22, 1846. Staten Island.

ALMOST A MIRACLE

Read the following, and doubt if you can, that consumption cannot be cured. Read what Dr. Townsend has done in cases that *Townsend's Sarsaparilla* has cured:

Dr Townsend: Sir—About a year ago, I was taken a little over a week with a severe cough and pain in my side. It increased on me very fast indeed. I was pronounced by physicians to be in the quick consumption. I raised large quantities of bad matter, had night sweats, and nothing very flattering doctor said he could do nothing for me. I went into the hospital hopeless of being cured. My disease was pronounced incurable. I was now greatly distressed at the lungs so that I could hardly breathe; I soon became emaciated, and expected to die; was reduced to my bed, and was obliged to have watchers; indeed I cannot give you any description large enough to do it justice. I was supposed by my friends to be past recovery; I had tried a great number of remedies, and all seemed to be to no purpose. I read of some one at Troy, many cures performed by your medicine, and to tell you the truth, I almost despaired there was some humbug in them. But I was induced to try it, I did so, and am very thankful I did. I cannot say that I am entirely well, but am so far improved as to be about the house, and have hope to be entirely well in a few weeks. My cough and pain in the side, and night sweats have left me, and raise but very little, and that getting my usual strength. I feel it a duty to give you a statement of my case, to publish if you please.

PETER BROWN, 47 Little st, Brooklyn.

Opinions of Physicians.

Dr Townsend is almost daily receiving orders from physicians of different parts of the Union.

This is to certify that we, the undersigned, Physicians of the City of Albany, have in numerous cases prescribed Dr. Townsend's Sarsaparilla, and believe it to be one of the most valuable preparations of the Sarsaparilla in the market.
