OUR ENDORSERS.

The One Price Regulator.

This immense establishment in our village, under the auspices of Messrs. S. H. Butler and C. H. Thing, which is, and for some time has been attracting marked attention, for the extent of their stock, the quality of their goods and the reasonableness of their prices. Our business relations with these gentlemen have been pleasant and satisfactory. We have always found them. We have always found them courteous, obliging and honorable. One great secret of the large trade the Regulator secures from the country for many miles around, and the very many firm friends in this vicinity, is their strict integrity in business. Olean can not spare the Regulator. We give a third broadside from their battery this week, to which we refer our readdrs.—*Olean Advertiser.*

THE ONE PRICE REGULATOR, Olean, is in the field with a new stock of Dry Goods, Boots, Groceries, &c. Everything they offer is worth the money asked; and as for their winning way, they have the secret, somehow, of doing double the business of any other House we know of. Their agencies for the sale of Cotton Goods gives them great advantages over others. Our friends from this place who have traded with them need no recommendation of ours to induce them to go again; those who have not, we ask you, for your own sakes, to give them a call and their goods an examination.—*Cattaraugus Democrat.*

BUTLER AND THING, at the One Price Regulator, Olean, are truly benefactors of their race. They *buy* for *cash*, sell for *cash*, practice no deception in business; have but one price, and that extremely low, and we think doing much larger business than any other Dry Goods House in this County.—*South Western New Yorker.*

A FEW cases of Boots and Shoes to give away at B. F. RIGHT'S

JEFFREY'S DOUBLE-ACTING

SUCTION & FORCE PUMP

WITH

India Rubber Ball Valves.

THE SUBSCRIBER having purchased the right to make and sell this New Pump, feels a confidence that his efforts to bring it into general use, in this county, will be seconded by all who see its construction and operation.

Among the many advantages secured by the use of this Pump, the following may be enumerated:

1. A double action, by which twice the water can be raised at the same time.

2. Great ease in working, thus adapting the *Force Principle* to common wells.

3. The transformation, in a moment, of the Pump into an efficient FIRE ENGINE, thus rendering the loss of dwellings by fire, totally unnecessary.

4. Capability of watering gardens, Lawns, or sprinkling walks, washing windows, &c., with the utmost ease and thoroughness.

5. Power to raise water with slight labor to any reasonable height, as in supplying chambers &c.

6. The convenience of having the Pump in a kitchen, or other rooms of your dwelling, without regard to the location of the Well or Cistern.

7. The easy protection of the instrument against Frost.

8. The ease with which it may be mounted on wheels, or in other ways be made portable.

9. A *simplicity* which ensures great durability, protects it from being thrown out of order, and makes any repairs easy and of little cost.

10. Great *Cheapness*: for the first time bringing the cost of the Force Pump into the neighborhood of the common Suction and Chain Pumps, while it is immeasurably superior to both.

Inventors, Manufacturers, Farmers and Millwrights,

The Scientific American

TO BE ENLARGED!

A NEW VOLUME—NEW SERIES,

To Commence on July 2d, 1859.

Instead of 416 pages, the Yearly Volume, Enlarged Series, will contain EIGHT HUNDRED AND THIRTY-TWO PAGES of Valuable Reading Matter, useful and instructive to all classes.

THE SCIENTIFIC AMERICAN is published weekly in quarto form, suitable for binding and the numbers for a single year contain information in regard to NEW INVENTIONS, all branches of MANUFACTURING PROCESSES AGRICULTURAL IMPLEMENTS, ENGINEERING, MILLWRIGHTING, IRON MANUFACTURE, CHEMISTRY; in fact, almost every industrial pursuit receives more or less attention in its columns.

All Patent Claims officially published every week as reported from the Patent Office; and for

INVENTORS AND PATENTEES

it contains information not to be obtained elsewhere, and which no mechanic, inventor, or patentee can well do without.

As a Family Journal it has no superior for real practical utility, since in its columns will be found useful practical Recipes.

Careful attention will be given from time, to reports of the Metal, Lumber and other markets.

Every number will contain sixteen pages and forty-eight columns of matter, with several illustrations of patented machines and other engravings, comprising in a single year about

SIX HUNDRED ORIGINAL ENGRAVINGS.

With the Enlarged Series is presented an opportunity to subscribe not likely to occur again for many years. It will be like commencing a new work—Vol. I, No. I, New Series.

Terms $2 a Year—One Dollar for Six Months.

Southern, Western, and Canadian money or Post Office stamps taken at par for subscriptions. Canadian subscribers will please to remit twenty-six cents extra on each year's subscription to pre-pay postage.

A liberal discount to clubs. A prospectus giving full particulars of the inducements for clubs, with specimen copies of the paper, and a pamphlet containing information concerning the procuring of Patents may be had gratis by addressing MUNN & CO.,

Publishers of the Scientific American,
