To Consumptives.

THE Advertiser, having been restored to health in a few weeks by a very simple remedy, after having suffered several years with a severe lung affection, and that dread disease, Consumption—is anxious to make known to his fellow-sufferers the means of cure.

To all who desire it, he will send a copy of the prescription used (free of charge) with the directions for preparing and using the same, which they will find a sure Cure for Consumption, Asthma, Bronchitis, &c. The only object of the advertiser in sending the prescription is to benefit the afflicted, and spread information which he conceives to be invaluable, and he hopes every sufferer will try his remedy, as it will cost them nothing, and may prove a blessing.

Parties wishing the prescription will please address

A PAIR OF REAL NOVELTIFS

And one Without a Mate.

1st.—"THE PAPER NECK-TIE."

(PATENT APPLIED FOR.)

This tie is made entirely of paper, in 100 different styles, and in perfect imitation of silk and other fabrics. The price is so low that a gentleman may wear A NEW TIE EVERY DAY, and yet not be chargable with extravagance, or one tie can be worn from 3 to 5 days, if necessary to economize.

2d.—THE RELIEF TIE.

(PATENTED JAN. 29, 1861.)

This is doubtless the most perfect silk tie ever invented, and is just what the name implies, a perfect "Relief" from all further trouble in tying bows.

3d.—THE LACE EDGE TIE.

An exquisitely beautiful article—it has only to be seen to be admired.

THE WEEKLY JOURNAL OF COMMERCE.

TO OUR SUBSCRIBERS.

The commencement of a new year is a good time for renewing subscriptions and increasing the circulation of the Journal of Commerce.—We address ourselves to the old readers of the paper, with entire confidence in their willingness to aid us, and extend the influence of the sound conservative principle and morals which have hitherto characterized and will hereafter characterize this paper. EVERY SUBSCRIBER to the Journal of Commerce might do a great service to these principles, and strengthen us in our ability to support and circulate them, by sending us the name of at least one new subscriber in his town.

Devoted firmly as we have been to our country's interests, and having long been called "Union Savers" as a term of reproach, we are and shall be the firm upholders of

THE UNION AND THE CONSTITUTION

opposing with heart and pen every man, South or North, who is an enemy to either. Every form of disorganization and revolution will find us ready for the combat. Among the foes of the American Union and American principles, we rank slavery side by side

ABOLITIONISM AND SECESSIONISM

and we propose with all our strength to defend the nation against the attacks of both.

A LIBERAL OFFER.

To encourage those who may volunteer to aid in the organization of Clubs, we hereby offer an extra copy of the Weekly to every person who shall forward twenty new subscribers with the money.

CLUBS

may be organized in communities with great advantage. The present is the best period for their commencement. The terms on which we can furnish the paper are as follows:—

To companies taking	
20 copies or upwards	ONE DOLLAR each
13 copies	FIFTEEN DOLLARS.
8 copies	TEN "
4 copies	SIX "
3 copies	FIVE "
Under 3 copies	TWO each

The papers will be addressed to different persons at the same Post Office, if desired, except in cases of clubs of 13 or more copies, which will be mailed to one address.

ADDITIONS TO CLUBS

may be made at the following rates:—Papers added to a club during the first quarter of the club's year will pay the full rate of the original club for a year, during the second quarter three-fourths of the original year's rate, during the third quarter one half, and during the last quarter one fourth, so that all such subscriptions will terminate with the year of the original club.

From Holbrook's U. S. Mail.

Where packages of *newspapers* or periodicals are received at any post office directed to one address, and the names of the club of subscribers to which they belong, with the postage for a quarter in advance, shall be handed to the postmaster, he shall deliver the same to their respective owners.

But this does apply to weekly newspapers which circulate free in the county where printed and published.

PROSPECTUS

OF THE

SCIENTIFIC AMERICAN.

THE BEST MECHANICAL PAPER IN THE WORLD

SEVENTEENTH YEAR.

Volume VI.—New Series.

A new volume of this widely circulated paper commences on the 4th of January. Every number contains sixteen pages of useful information and from five to ten original engravings of new inventions and discoveries, all of which are prepared expressly for its columns.

The SCINTIFIC AMERICAN is devoted to the interests of Popular Science, the Mechanic Arts, Manufactures, Inventions, Agriculture, Commerce, and the Industrial Pursuits generally, and is valuable and instructive not only in the Workshop and Manufactory, but also in the Household, the Library and the Reading Room.

To The Mechanic and Manufacturer!

No person engaged in any of the mechanical pursuits should think of doing without the SCIENTIFIC AMERICAN. It costs but four cents per week; every number contains from six to ten engravings of new machines and inventions, which cannot be found in any other publication. It is an established rule of the publishers to insert none but original engravings, and those of the first class in the art, drawn and engraved by experienced persons under their own supervision.

To the Inventor!

The SCIENTIFIC AMERICAN is indispensable to every inventor, as it not only contains illustrated descriptions of nearly all the best inventions as they come out, but each number contains an Official List of the Claims of all the Patents issued from the United States Patent Office during the week previous; thus giving a correct history of the progress of inventions in this country. We are also receiving every week, the best scientific journals of Great Britain, France, and Germany; thus placing in our possession all that is transpiring in mechanical science and art in these old countries. We shall continue to transfer to our columns copious extracts from these journals of whatever we may deem of interest to our readers.

Chemists, Architects, Millwrights, And FARMERS!

The SCENTIFIC AMERICAN will be found a most useful Journal to them. All the new discoveries of science of chemistry are given in its columns, and the interests of the Architect and Carpenter are not overlooked, all the new inventions and discoveries appertaining to these pursuits being published from week to week. Useful and practical information pertaining to the Artisan, Millwrights and mill-owners will be found published in the SCIENTIFIC AMERICAN which information they cannot possibly obtain from any other source. Subjects in which planters and farmers are interested will be found discussed in the SCIENTIFIC AMERICAN, most of the improvements in agricultural implements being illustrated in its columns.

TERMS.

To mail subscribers:—Two Dollars a Year, or One Dollar for six months. One Dollar pays for one complete volume of 416 pages; two volumes comprise one year. The volumes commence on the first of January and July.

CLUB RATES.

Five copies, for six Months - - - - $5
Ten copies, for Six Months - - - - $8
Ten copies, for Twelve Months - - - $15

AYER'S Sarsaparilla

FOR PURIFYING THE BLOOD.

And for the speedy cure of the following complaints:

Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.

OAKLAND, Ind., 6th June, 1859.

J. C. AYER & Co. Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a scrofulous infection, I have suffered from it in various ways for years. Sometimes it burst out on the skin on my hands and arms, sometimes it formed in lumps and distressed me at the stomach. Two years ago it came out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but received no relief from anything. In fact, the disease grew worse. At length I was advised to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilla), and I knew from your reputation that any thing you made must be good. I went to Cincinnati on purpose, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used nine or three bottles. New and healthy skin soon began to form under the scab, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. Mothers can well believe that I feel what I am saying when I tell you, that I hold you to be one of the apostles of the age, and remain ever gratefully, Yours,

ALFRED B. TALLEY.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Eyes, Dropsy.

Dr. Robert Overfield writes from Salem, N. Y., 12th Sept., 1859, that he has cured an inveterate case of *Dropsy*, which threatened to terminate fatally, by the persevering use of our Sarsaparilla, and also a dangerous *Malignant Erysipelas* by large doses of the same; and he cites the common *Breptions* by it constantly.

Bronchocele, Goitre or Swelled Neck.

Zebulon Sloan of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured me from a *Goitre*—a hideous swelling on the neck, which I had suffered from over two years."

Leucorrhea or Whites, Ovarian Tumors, Uterine Ulceration, Female Diseases.

Dr. J. B. S. Channing, of New York City, writes: "I must cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which you recommend such a remedy, but especially in *Female Diseases* of the Scrofulous diathesis. I have cured many inveterate cases of Leucorrhea by it, and none where the complaint was caused by *ulceration* of the *uterus*. The ulceration itself was soon cured. Nothing within my knowledge equals it for those female derangements."

Edward S. Morrow, of Newbury, Ala., writes, "A dangerous *ovarian tumor* on one of the females in my family, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy six weeks no symptom of the disease remained."

Syphilis and Mercurial Disease.

NEW ORLEANS, 25th August, 1859.

DR. J. C. AYER: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have cured with it in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of *Venereal and Mercurial Disease*. One of my patients had Syphilitic ulcers in his throat, which were consuming his palate and the roof of his mouth. Your Sarsaparilla, steadily taken, cured him in five weeks. Another was attacked by secondary symptoms in his nose, and the ulceration had eaten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, not of course without some disfiguration to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become so sensitive to the weather that on a damp day she suffered excruciating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from the formula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

Fraternally yours, G. V. LARIMER, M. D.

Rheumatism, Gout, Liver Complaint.

INDEPENDENCE, Preston Co., Va., 6th July, 1859.

DR. J. C. AYER: Sir, I have been afflicted with a painful chronic *Rheumatism* for a long time, which baffled the skill of physicians, and stuck to me in spite of all the remedies I could find, until I tried your Sarsaparilla. One bottle cured me in two weeks, and restored my general health so much that I am far better than before I was attacked. I think it a wonderful medicine. J. FRIEND.

Jules V. Gotchell, of St. Louis, writes: "I have been afflicted for years with an *affection of the Liver*, which destroyed my health. I tried every thing, and every thing failed to relieve me; and I have been a broken-down man for some years from no other cause than *derangement of the Liver*. My beloved pastor, the Rev. Mr. Espy, advised me to try your Sarsaparilla, because he said he knew you, and anything you made was worth trying. By the blessing of God it has cured me, and has so purified my blood as to make a new man of me. I feel young again. The best that can be said of you is not half good enough."

Scirrhus, Cancer Tumors, Enlargement, Ulceration, Caries and Exfoliation of the Bones.

A great variety of cases have been reported to us where cures of these formidable complaints have resulted from the use of this remedy, but our space here will not admit them. Some of them may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia.

Many remarkable cures of these affections have been made by the alterative power of this medicine. It stimulates the vital functions into vigorous action, and thus overcomes disorders which could be supposed beyond its reach. Such a remedy has long been required by the necessities of the people, and we are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral,

FOR THE RADICAL CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in Advanced Stages of the Disease.

This is a medicine universally known to surpass any other for the cure of the air and lung complaints, that are so prevalent and fatal in this climate. Its virtues, long tested by all who know them, have made it a household word in many families among the civilized nations of the earth. Its extensive employment by the public, and the testimony of those who know personally of its effects, are the grounds on which we rely for its success in subduing the dangerous disorders of the throat and lungs. All know the dreadful liability of these diseases, and all need a remedy, and all can find it in this. We need not do more than assure them that it has now all the virtues which it did when it was made by the same hands which have won such energy upon the confidence of mankind.
