THE CHIO EARTHQUAKE.

The London *Tim s'* correspondent at Chio, Greece, telegraphs as follows: "I have just arrived from Constantinople and find a picture of desolation as is rarely witnessed. The town looks as if it had been terribly bombarded. Hundreds of houses have been transformed into shapeless masses of ruin, under which lie unburied an unknown number of victims. The majority of the remaining houses are already cracked, roofless, and may fall at any moment. Nearly every building in town suffered. The inhabitants wander about anxious to search for missing relatives or lost property, but are afraid to risk their lives in the perilous work of clearing away the rubbish. Many who would willingly expose themselves to danger are prevented by friends or the police. Fear, grief and despair are depicted on nearly every face. All have a sad or tragic tale to tell. The first shock was felt Sunday afternoon at half-past one. Immediately the houses began to fall. Wild shrieks were heard on every side. Then followed an awful silence of some minutes. The terrified survivors gradually ventured into the narrow lanes and reached the open spaces. Shortly afterwards another terrible shock completed the devastation. Then it remained quiet until sunset, when the island again began to shake as severely as before. All night shocks succeeded each other at short intervals, each preceded by dull sounds like subterranean explosions. Since that frequent shocks have been felt. The old Genoese fortress, containing 400 houses, inhabited by Mussulmans and Jews, suffered more than the rest of the town. The ground there sank about twenty feet, and nearly all the houses were immediately destroyed. Several hundred persons must have perished. It is known that of about thirty Mussulmans women assembled in one of the houses not one escaped.

The southern part of the island is said to have suffered more than this town In Chesme many houses are in ruins, and three-fourths are in a dangerous condition. The inhabitants are afraid to live even in those uninjured, for every night frequent shocks are felt. Nearly all camp out. As the weather is fine the hardship in this respect is not great.

In Kastro the work of extricating the bodies and attending the wounded is progressing, but the stifling odor in the vicinity of many of the ruins proves that the former operation is far from complete. On the other hand wonderful escapes occurred. A woman was buried under the ruins forty-two hours, and at last was rescued, having given birth meantime to a child.

A correspondent has visited the southeastern part of the island and found Menita, a town of 12,000 inhabitants, and the villages Monastir, Verinos and Philatia, masses of ruins. Not a single house escaped. The English and American physicians are assisting the survivors.

Gen. Grant at City of Mexico

CITY OF MEXICO, April 7. via New Orleans, April 15.—General Grant and Minister Romero have arrived. The movements of the former are regarded with apprehension, and the latter is in bad odor with the President. No reception whatever was given them. The incorporators have transferred the franchise for a railroad from Matamoras to Monterey to Palmer & Sullivan and a contract for the construction of the road made. Ex-Governor Pacheco and Colonel Lemes, of California, are in the city in the interest of the Topolavampo railroad. Six thousand laborers are stated to have been discharged from the Palmer and Sullivan railroad. The cause is not known.

An Innovation in Car Seats.

Jay Gould has lately ordered from the inventor a number of new car seats for Western lines which may revolutionize railroad traveling. The seat is like those in ordinary day cars, but at night it can be converted into a comfortable bed by the passenger without the intervention of a porter. It is proposed to use this seat on all passenger cars, and he rate to be charged the passenger will, it is said, be merely nominal. By an ingenious arrangement an upper and lower berth can be made which are distinct and separate, and a curtain makes either as private as necessary. Eventually Mr. Gould proposes to place these seats in all his cars and the first-class passenger and the emigrant will be able to travel as comfortably at night as in an ordinary sleeper. A shipment of the new seats will shortly be made to the Missouri Pacific Railway which will be the first company to use them.

One of my children was recently attacked with a severe case of Croup, which really assumed a distressing phase; I was recommended to try Dr. Bull's Cough Syrup, after other remedies had failed. The effect was most happy and speedy, causing an entire cure. F. Albrecht, 241 S. Sharp St. Baltimore.

A Canadian correspondent of the *Scientific American* gives the following simple remedy for scratches in horses: 'Having tried many lotions, etc., only to obtain temporary relief for my horse, I concluded to try a mixture of flowers of sulphur and glycerine, which I mixed into a paste, using sufficient glycerine to give it a glossy appearance, and the results I obtained in a short time were truly wonderful. I apply this paste at night, and in the morning before going out I apply plain glycerine.'

It does not make any difference how severe the case of billious derangement is, Simons' Liver Regulator will cure it speedily and effectually without salivation, or that prostration of the system ensuing from the use of drastic purgatives. As there are many spurious imitations of this valuable medicine, take care you get the genuine. 'We have been selling your medicine for some time, and we find it better adapted to the cure of *bilious* attacks than any other medicine we have ever used or sold. Jas. M. Beasley & Co., Magnolia Ark.

Lettuce, says Miss Corson, is excellent stuffed; it is well washed in salted cold water, the roots trimmed off, two tablespoonfuls of cooked force-meat of any kind, or chopped cold meat highly seasoned, inclosed within the leaves, which are bound toegther with tape or strips of cloth; several heads thus prepared are placed in a saucepan, covered with broth or cold gravy well seasoned, and set over the fire to simmer about five minutes; the tapes are then removed and the lettuce heads and stalks are served hot.

You get an entire meal, as good as is served in any first-class hotel, for seventy-five cents.

Appreciating the fact that a majority of the people prefer separate apartments for different purposes (and the immense passenger business of this line warranting it), we are pleased to announce that this Company runs *Pullman Palace Sleeping Cars* for sleeping purposes, and *Palace Dining Cars* for eating purposes only. One other great feature of our Palace Cars is a SMOKING SALOON where you can enjoy your "Havana" at all hours of the day.

Magnificent Iron Bridges span the Mississippi and Missouri rivers at all points crossed by this line, and transfers are avoided at Council Bluffs, Kansas City, Leavenworth, and Atchison, connections being made in Union Depots.

WHY DOES

... often break down at an early age? Put a man at the wash-tub ... hot suds until every pore is opened; then let him stand over the scalding and boiling clothes, that are full of sweat and exhalations ... he too would break down before long; and yet this most terrible ...

A WOMAN

These facts ... many women suffer with colds, rheumatism, weak nerves, or neuralgia ...

SOONER THAN

Now that there is a remedy for this, *so economical that the poorest can use it,* there is not a woman or

A MAN

who is not directly interested in having used in their homes, **in spite of prejudice,** THAT WONDERFUL WAY OF WASHING CLOTHES, which does away with the hard work, offensive smell and fearful steam on wash-days, makes the white pieces whiter, colored pieces brighter and flannels softer than they can be made by washing the old way, leaves the hands smooth, enough to do fine sewing and every article as clean, as sweet and as pure as if never worn.

TESTIMONIALS

From H. E. BOWLES, M. D., Hammonton, N. J., Editor *South Jersey Republican.*

My attention was called to FRANK SIDDALLS SOAP from an advertisement in my own paper, and its use in my house for nearly a year, according to the directions, has proved that its remarkable properties have not been overstated. For removing pencil ink it is invaluable, while for toilet and shaving it is the best Soap I have ever seen.

From Mrs. H. L. KENYON, Northfield, Vt.

I do my wash with FRANK SIDDALLS SOAP in ... the time and with no expense for Soap, *as the ... in fuel can ... pays for it.* I have no steam ... from the wash, while the saving in ... clothes and labor can hardly be estimated.

From Mrs. E. STOCKWELL, Hammonton, N. J.

FRANK SIDDALLS SOAP has been used in my house for the last seven months, and by following the printed directions, we find it to do everything claimed on the wrappers. We have not scalded or boiled a single article, *and the clothes are whiter and sweeter than when washed in the old way.* My husband, who is a dealer here, has a steady demand for the Soap from his customers.

From MANAGER OF DEXTER LAUNDRY, 3rd Street, Corner C Street, N.W. Washington, D. C.

No laundry or family can afford to be without FRANK SIDDALLS SOAP. We follow directions and use no other Soap, and have a reputation second to no laundry in Washington for white clothes; the superior work we have been enabled to turn out having secured us the trade of ... the best gentlemen's furnishing stores in the city.

Following are the Directions for Use, so simple that a child can understand them ... do anything so ridiculous as to buy the Soap unless you intend following them ... *positively forfeited if it injures the clothes, or will not do everything ...*

... put the white clothes in a tub of water, only made warm enough to be comfortable ... Then take one piece out at a time on the wash-board, rub the Soap ... roll it up and put it back into the same tub, and so on with each piece ... Soap rubbed on them. Then go away and let them soak at least twenty ... touching them, when the dirt will all be loosened, and a very little rubbing on the wash-board, out of that one suds, will make them perfectly clean, being ... each piece while washing so as to get at the seams. Then wash lightly ... through a lukewarm rinse-water (without any Soap,) so as to get the ... out through blue-water, and on the line, *without scalding or boiling* ... put flannels and colored pieces to soak, and wash them exactly ... important not to heat the wash-water in a tin, brass or copper kettle ... enough water for a large wash with this Soap.

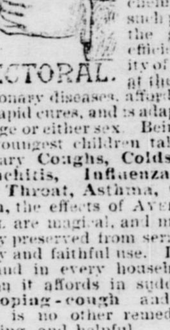
THE BEST REMEDY FOR Diseases of the Throat and Lungs.



In diseases of the pulmonary organs a safe and reliable remedy is invaluable. AYER'S CHERRY PECTORAL is such a remedy, and no other so eminently merits the confidence of the public. It is a scientific combination of the medicinal principles and curative virtues of the finest drugs, chemically united, of such power as to insure the greatest possible efficiency and uniformity of results. It strikes at the foundation of all pulmonary diseases, affording prompt relief and rapid cures, and is adapted to patients of any age or either sex. Being very palatable, the youngest children take it readily. In ordinary Coughs, Colds, Sore Throat, Bronchitis, Influenza, Clergyman's Sore Throat, Asthma, Croup, and Catarrh, the effects of AYER'S CHERRY PECTORAL are magical, and multitudes are annually preserved from serious illness by its timely and faithful use. It should be kept at hand in every household for the protection it affords in sudden attacks. In Whooping-cough and Consumption there is no other remedy so efficacious, soothing, and helpful.

Low prices are inducements to try some of the many mixtures, or syrups, made of cheap and ineffective ingredients, now offered, which, as they contain no curative qualities, can afford only temporary relief, and are sure to deceive and disappoint the patient. Diseases of the throat and lungs demand active and effective treatment; and it is dangerous experimenting with unknown and cheap medicines, from the great liability that these diseases may, while so trifled with, become deeply seated or incurable. Use AYER'S CHERRY PECTORAL, and you may confidently expect the best results. It is a standard medical preparation, of known and acknowledged curative power, and is as cheap as its careful preparation and fine ingredients will allow. Eminent physicians, knowing its composition, prescribe it in their practice. The test of half a century has proven its absolute certainty to cure all pulmonary complaints not already beyond the reach of human aid.
