The Presidency Settled—Gen. Taylor President!

OUR PRINCIPLES TRIUMPHANT!

PHILADELPHIA, Nov. 10, 11½ A. M.

Nor yet the last to lay the old aside."

THE EMPIRE COOKING RANGE possesses the following advantages:—The oven is constantly supplied with pure hot air, rendering the operation of baking as perfect as when done in a brick oven.

It has a Chamber exclusively for Roasting meats with a split, thus doing away with the roasting action, usual in the shape of "tin kitchens."

It has a large cooking capacity, with an unobstructed flat surface on the top, which all housekeepers can appreciate.

It can be set up without mason work, in any ordinary fire-place, in any room as a stove; enabling those who occupy rented houses to have the advantage of a range at the cost of a stove. And lastly,

It burns less coal than any other cooking apparatus, not excepting the Empire Cooking Stove, which is also for sale at wholesale or retail, at

GILMOR'S Empire Stove Depot,
112 Market street, Girard Row,
Philadelphia.

Extract from a recommendation from Henry Buchman, Esq., 332 Market street:—"You can use no terms in recommendation of it, with me. I will not endorse it referred to."

SELLERS VERMIFUGE PREFERRED TO ALL OTHERS.—

LEXINGTON, Va., Oct. 12, 1848.

Mr. R. E. Sellers—One of our physicians, whose practice is very extensive told me this morning of a case in which one vial of your Vermifuge brought away above 60 worms; and a gentleman in the neighborhood said that less than half a vial caused the discharge of near 60 large worms from one of his children. Very many of such instances might be stated. It is well known about here, and almost all prefer it to any other. Send me 12 dozen and oblige

Yours, J. M. WILSON.

Parents who do not wish to trifle with their children, should use Sellers' Vermifuge.

PITTSBURGH BOARD OF TRADE
COMMITTEE FOR NOVEMBER.
H. B. CRAIG. W. J. TOTTEN. J. MAY

OFFICE PITTSBURGH GAZETTE,
Saturday Morning, November 11, 1848.

The markets yesterday were generally quiet, with no important change in quotations. The weather was clear and pleasant for out door transactions, and in the way of general sales a fair amount of business was done.

FLOUR—The receipts by river were more full, but the larger portion being intended for shipment east, but little was done in the way of first hand sales. The article may be fairly quoted from first hands at $4@4,12½ and from store at 4,25 ⅌ bbl with small sales.

RYE FLOUR—Receipts continue limited, and moderate sales only may be quoted at 3,37 per barrel.

CORN MEAL—With light supplies, sales are limited at 45@50c ⅌ bu.

GRAIN—We notice no change in the market. Small sales only are effected from store at yesterday's quotations.

In Groceries and Provisions, no change has occurred. The markets are quiet but firm at former quotations.

LEAD—We note regular limited sales of bar at 4½, and of pig at 4½ ⅌ lb.

GLASS—Of window glass, we note regular sales of city brands as follows:—8x10 $4; 10x12 4,50, other sizes in proportion. Sales of country brands 8x10 at 3,25; 10x12 at 3,50 ⅌ box.

CHEESE—Receipts continue fair, and supplies are full, with regular sales of W R at 5½, 5½ to 6c as in quality.

TALLOW—Not much doing in the article; 7@7½ is a fair quotation for rendered.

OILS—Sales of Linseed at 60c, of lard at 55@60, and of Tanners at $1,7@$1,9 ⅌ bbl.

LARD—Small sales at 7½ ⅌ lb.

BEESWAX—Moderate sales from store at 21@22c ⅌ lb.

BUCKETS AND TUBS—Nothing new in the market. Receipts have been to a fair extent, and supplies are about equal to the demand, with regular sales of the former at 2,25, and of the latter at $9@9,50 ⅌ doz.

WOOL—The market is without change. Regular purchases are making by our dealers at the following rates:

Common Wool	20
¼ blood	22
½ do	23
¾ do	27
Full do	30

AMOUNT AND VALUE OF WOOL—An Albany correspondent of the Detroit Advertiser, gives the following statement of the amount and value of wool which arrived in Albany, by the Canals, from the year 1834 up to the close of the navigation in 1847:

The increase over the season of 1847 may be stated in round numbers at $880,000. To the gross amount, Buffalo has contributed more than any other office on the line of the canal—the sum of $1,216,700—being about one-third of the whole

Spirit of the Domestic Market.

St. Louis, Oct. 30, 1848.

Tobacco—At the Planters' one hhd refused at 2,25, one at 3,50, one at 3,50, one hhd passed at 3,05, one at 3,45, one at 3,50, one at 3,65, one at 4,30 ⅌ 100 lbs.

Lead—Sales of 2600 pigs upper mines, on the Levee, and 1500 pigs to arrive, at 3,72½, sixty days time. On Friday, 400 pigs upper mines at 3,72½, cash, and a smaller lot at same price. No sales reported to day.

Hemp—Several fair sized lots have been sold since our last at full rates. Receipts a mere trifle coming up only 239 bales. Sales on Thursday of 116 bales prime from store at $110. On Friday, 200 bales fair from Levee, and 70 bales do from store at $108; 59 and 80 bales at $109. To day the only transaction was 129 bales prime from store at $110. We quote inferior to fair D R at from $90 to $108, prime $110@$110 ⅌ ton. Holders in most instances, however, are asking more.

Flour—The market at the close unsettled. To day the inclement state of the weather prevented much being done. Sales reported were 100 bbls Tully; 100 Buena Vista; 116 Spring and 215 Rushville at 4,12½; 150 family at 4,25, and about 1000 bbls assorted brands, the particulars of which were not made public. The market closed heavy, with a fair stock on sale. In city mills nothing has transpired. Agreeable to prices paid we now quote common country brands at $4@4,06½, good 4,12½, choice 4,20@4,25 ⅌ bbl.

Wheat—To day the market was flat, and the few millers purchasing had it all their own way. The stock on hand at the landing did not fall short of 35,000 bu, whilst sales did not exceed 2,500 sacks fair to good Illinois at a range of 65 to 78c; one lot of near 400 sacks bringing the latter figure. There were no shippers in the market, and both buyers and holders evinced a willingness to hold off until Monday—the one party relying upon the increase of stock, the other upon fair weather and more competition among buyers for shipment and domestic purposes.—[Republican.

☞ DYSPEPSIA is the bane of many a man's existence. No tongue can describe the sufferings caused by this distressing disease. It unfits man for his station in life, whatever it may be, and makes him feel as though he would rather not exist than endure such misery. Yet these sufferings are produced in the first place by derangement of the stomach, and if this were at once set right, the cause would be removed. Prepared and sold by B. A. WORM SPECIFIC—M'Lane's Vermifuge!—This invaluable remedy for worms, is rapidly supplanting all others in public estimation. Where it is used it has produced the best effects, and driven out all other remedies. "It is the best they have ever seen," is the remark of all who have ever used it in their families.

TYRE SPRINGS, SUMNER CO. TENN.
Feb. 10th, 1845.

"J. Kidd & Co.—I received a lot of M'Lane's Vermifuge from your agent last spring, which I sold out in one week, and I think I could have sold one thousand bottles by this time, if I could have got it, but not knowing where to get it, I had to wait until your agent came around. Every person that has tried M'Lane's Vermifuge, tell me it is the best they have ever seen. In fact it is impossible for any one to say too much in favor of M'Lane's Vermifuge. W. R. ROBB."

A genuine article of the above valuable medicine can be had at the drug store of

☞ The soft, Angelic expression of some females is grateful to vision, while the repulsive, coarse, muddy complexions, excites disgust—the same with persons; people be induced to try a cake of Chemical Soap, they would be males. Could such persons see the true Jones' Italian Chemical Soap. They would have a delightful contrast with the clay, like every disfigurement or eruption, clear, white skin, which, when once cured.

PARTICULAR NOTICE—Persons who have bought cheap counterfeits and imitations of this genuine article, and have had no effect produced, must try this, the original, and ask for Jones' Soap. For sale at Wm. Jack's, 84 Liberty street.

☞ Worms, by their irritation, augment the secretion of mucus or slime in the stomach, in which all so, they involve themselves; and it is said they feed upon it, and if deprived of it they die. The celebrated Vermifuge prepared by B. A. FAHNESTOCK, Pittsburgh, Pa., is admirably adapted to its operation; first, to remove the protecting mucus, and secondly, to expel the worms rendered helpless and tender by being thus denuded. It is a remedy in which every confidence can be placed; and that it has answered the purpose is manifest from the hundreds of certificates given in its favor

Roofing—Galvanized Tin Plates.

THE subscribers beg to call the attention of Builders, Architects and owners of Buildings, to the many advantages which these plates possess over all other metallic substances before used for roofing, &c., as they possess at once the lightness of iron, without its liability to rust, having now been tested for several years in this particular climate, and proved to be in no instance, or less than little liable to expansion and contraction from sudden change of the atmosphere, than common tin plates, iron, zinc, or any other metal now used for roofing, and consequently much better and lighter roof, requiring far less frequent repairs, whilst the first cost is but a trifle more.

RUST PROOF IRON.

THE undersigned have erected works in the city of New York, for the purpose of galvanizing all articles of iron, which it is desirable to PROTECT FROM RUST, such as Telegraph Wire, Bolts, Spikes, Nails, Iron Fences, and any other article which may be required. For Hoops for Casks, as a substitute for bale Hoops, for Cotton Bales, Lightning Rods, and a number of other applications, it will be found cheap and durable. They would particularly call attention to the Galvanized Wire for fences, it requires no paint, and will not rust. Also to Spikes and Bolts, the preservation of which is of so much importance, that it will commend itself to the notice of all those interested.
