BY MAGNETIC TELEGRAPH.

REPORTED & TELEGRAPHED
Exclusively for the Pittsburgh Gazette.

CONGRESS.

WASHINGTON, Jan. 18, 1849.

SENATE—In this body to day the only business of importance was the consideration of the Minnesota Territorial Bill, which was discussed, amended, and finally laid over without any final action upon it.

The remainder of the session was occupied in Executive Business.

HOUSE—The Civil Appropriation Bill, after the usual morning business, was called up. After some discussion, an amendment was offered, making Wisconsin Territory, the same as Oregon, with an appropriation.

The amendment was lost; but the bill as reported, passed.

CONFIRMATION OF WELLER.

WASHINGTON, Jan. 18, 1849.

Colonel J. B. Weller, has been confirmed by the Senate, as Commissioner to settle the boundary line between the United States and Mexico.

Col. Duncan will be appointed Inspector General, in place of the late Col. Croghan.

PHILADELPHIA MARKET.

PHILADELPHIA, Jan. 18, 1849.

FLOUR.—Sales of 2000 barrels western at $5 25. Corn Meal, at $2 87½ per barrel.

Grain—Sales of 1000 bushels prime Red Wheat at 112 @ 113; Barley, 62; Oats, 35 cts. per bushel.

Provisions and Groceries without change.

Whiskey sells at 25 cts. per gal.

NEW YORK MARKET.

NEW YORK, Jan. 18, 1849.

Cotton—There is no change from yesterday, market duller.

Flour.—Sales of Western, at $5 62½ @ $5 81¼, and in extent to 1000 bbls.

Grain—Sales of mixed Corn, 60 @ 61; and 5000 bushels Yellow, at 65 @ 66 cents per bushel.

Whiskey—Sales at 24½ c. per gal.

Provisions—The market is heavy for Pork, but I hear of no sales. Lower offers would be accepted.

Stocks—Sales Treasury Notes, at 108½.

* * *

A lucky editor has received the following in a very neat billet, and a very neat style of chirography:

A Kiss.

A kiss, a kiss,
Replete with bliss,
I send within this paper,
Take it in haste,
Don't stop to taste,
'Tis little more than vapor.

Pray don't complain
That it's in this strain,
To pledges I'll be steady;
And were you here
I would appear
Not "Rough," perhaps, but "Ready."

* * *

BILL HATHAWAY AND THE TELEGRAPH.—There is an odd specimen of the masculine gender residing in 'these parts,' familiarly known as 'Bill Hathaway,' who *has a way* that is some times very amusing. 'This tel-*lie*-graph, with a startling emphasis on the middle syllable, 'is all a ho-ax and humbug, got up to catch pennies and gull the people,' said bill to a neighbor of his, on returning from the Telegraph Office in this borough a few mornings since—'you can't get anything sent, if you want to. I took a private letter there yesterday that I wanted to send over the mountains, and dang their picters if they did'nt *open and read it*, the first thing! so they did!—*Wash. Com.*

EXCHANGE BROKERS, &c.

N. HOLMES & SONS,
Bankers, Exchange Brokers,
AND DEALERS IN
NOTES, DRAFTS, ACCEPTANCES, GOLD, SILVER AND BANK NOTES.

COLLECTIONS.—Drafts, Notes and Acceptances payable in any part of the Union, collected on the most favorable terms.

FEATHERS—1200 lbs prime Ky. live geese Feathers, in store and for sale by ja11 JAMES A HUTCHISON & Co

PIG METAL—30 tons Allegheny, and 10 tons Hanging Rock, for sale by ja4 JAMES DALZELL

COMMERCIAL RECORD.

ALMANAC.

1849 JANUARY.	Sun rises.	Sun sets.	Moon rises.	Moon's phases.
13 Saturday,	7 25	4 53	6 15	
14 Sunday,	7 25	4 54	7 23	
15 Monday,	7 24	4 55	8 34	
16 Tuesday,	7 24	4 57	9 41	
17 Wednesday,	7 24	4 58	10 47	
18 Thursday,	7 23	4 59	11 59	
19 Friday,	7 23	5 0	morn.	

OFFICE PITTSBURGH GAZETTE,
Friday Morning, January 19, 1849.

The markets generally presented no marked change. The weather was very cold, and business was confined mainly to regular limited or retail sales, with little or no change in prices.

Business on the wharf is beginning to show some activity. Boats are beginning to arrive from above and considerable quantities of flour, bulk pork, and other articles are coming in.

FLOUR—The receipts yesterday were to a fair extent, but we could hear of no operations from first hands worth reporting. $3,90 on the wharf is about a fair quotation. From store in regular limited lots, $4@4,12½ are the ruling figures. For extra brands higher rates are obtained.

BUCKWHEAT FLOUR—Receipts have been light, and supplies are limited, with sales in small lots at $1,75@$1,87 ⅌ 100 lbs.

RYE FLOUR—Sales in small lots at 3,18@3,25—as in quality.

GROCERIES—No changes under this head.—N O sugar continues in fair request at 4¾@4½ for fair old, and 4½ for new crop. Prime is held at 5 @5½. Sales of N.O molasses to the extent of 30 bbls at 27@28c. Of St Louis refined loaf sugar at 8@10c, of Rio coffee at 8¼@8½c, and of rice at 4½c ⅌ lb.

PROVISIONS—We find nothing new in the provision market. Bulk Pork is beginning to arrive in considerable quantities, but we could hear of no large sales. Supplies of bacon are light, and prices nominal. We hear of regular sales of lard in limited lots at 6@6½c ⅌ lb, from store. Supplies of butter are light, and sales limited. We may quote keg at 9½, and good roll in bbls at 12@13c, as about the ruling figures of the market.

OILS—We continue to quote linseed firm at 50@57, and lard at 58@60c ⅌ gall.

FEATHERS—The market is steady but not active. Sales in limited lots at 32@33c ⅌ lb.

FISH—Sales of salmon at 18,50, of mackerel No 1 at 11,50@$12, No 2 8,50@$9, and No 3 at 5,75@$6. Sales of herring at 5,75@$6 ⅌ bbl.

WHISKEY—We note sales of rectified in small lots at 19@20c ⅌ gall.

CHEESE—The market is firm, with sales of good W R at 5¼@5½, and of cream at 6½@7c per pound.

BUSINESS AT THE SOUTH.—The steady improvement in the Liverpool market of the great Southern staple, cotton, has caused quite a revival in trade south of the Potomac. The Charleston Courier, of a recent date, says:

"There appears to be a general favorable movement in business matters in our city recently. The great staple of the South, cotton, has taken a start, after a most unexampled depression, and for some days past has been taken hold of with an avidity that augurs well for the continuance of a brisk demand for the article. Money matters are easier—every branch of trade is more prosperous—indeed the whole face of matters wear a favorable appearance, with every prospect of permanence."

LUMBER AND SHINGLE TRADE OF CLEVELAND.

The Port of Cleveland is a great lumber mart—supplied mostly from Michigan—between Saginaw Bay and Detroit.

Messrs. Francisco and Whipple & son, deal altogether in the Canadd products; the others in those both of Michigan and Canada. The usual ratio of Canada lumber to that of Michigan, received at this point, is as 1 to 4.

Mr. Butts is in the lumber and stave trade; confining himself to black walnut, white wood and stave, all being the products of the State of Ohio.

The receipts for the past season, of the different lumber yards, are as follows:

	Ft Lumber.	No. Shingles
A. Buttles,	2,283,860	363,000
J Holt,	1,400,000	600,900
S E Fox & Co.,	1,200,000	1,300 000
Whipple & Son,	1,202,974	2,187,000
J Francisco,	650,000	580,000
C Butts,	1,000,000	
C Sanburn,	2,780,311	1,327,000.
	10,517,145	7,357,000

The number of staves received by C Butts is 6,000,000.

The average price of lumber is $7,59 per M.; of shingles, $2,75; and of staves, $18. Mr. Butts' receipts of lumber were 800,000 feet black walnut and 2,000,000 feet white wood. The average of the former per M, is $29. This would give us the value of receipts as follows:

Lumber,	$88,888	58
Shingles,	20,231	75
Staves,	108,003	00
	$217,110	33

This shows a large increase in the trade over that of former seasons.

THE STEAMER'S NEWS—Effect on the Markets—The news by the steamer America has had rather a depressing effect of the markets for breadstuffs in all the Northern cities, as well as in our own market. The following are the comparative prices, at the time of the sailing of the two last British steamers, of the Liverpool market:

	Europa.	America.
Duty Paid.	Dec. 15th.	Dec. 30th.
Flour, bbl	27s 6da28s	26sa27s
Corn, white, ⅌ 480 lbs	30s 6da33s	30s
" yellow, "	33s 0da35s	32s 6d
Wheat, white, ⅌ 70 lbs	7s 4da7s 10d	6a7 duty 7s in bd, pr qr
" red, "	6s 9da7s 4d	

A New York letter says:

"Private advices by telegraph, to some of our merchants, report the stock of wheat, flour, and Indian corn on hand in Liverpool to be large, and prices declining. For Indian meal there was a tolerably brisk demand at Liverpool when the America sailed. Provisions remain about the same as at the date of last advices."

STATEMENT OF BRIGHTON MARKET, FOR 1848.

40,784	beef cattle.	Sales estimated at	$1,890 576
20,553	stores,	" "	493,272
146,755	sheep,	" "	264,159
87,690	swine,	" "	482,295
			$3,130,302

1847.

43,425	beef cattle,	Sales estima'd at $2,719,462
20,738	stores,	
133,550	sheep,	
62,015	swine,	

1846.

38,670	beef cattle,	Sales estima'd at $1,571,118
15,164	stores,	
105,350	sheep,	
44,940	swine,	

1845.

148,910	beef cattle,	Sales estima'd at $1,893,648
13,275	stores,	
7,960	sheep,	
56,550	swine,	

GALENA—The commerce of this city is rapidly increasing. According to a report made to the Mayor and Alderman, by the Wharf Master, the total number of steamboat arrivals from the 17th of March to the 6th of December was 259; keel boats, 158; flat boats, 107; from which a revenue of $1,950 was received. A very large amount of lumber, shingles, coopers' stuff, &c, was also landed at the wharf—the value of which is estimated at $106,662 67.

The following statement of the exports of Galena, during the same period is also published:

		Valued at.	
681,969	pigs of lead, 47,737,830 lbs,	$1,527,610	56
16,955	bushels of wheat,	9,311	75
3,467	" barley,	1,040	10
15,491	barrels of flour,	43,845	00
7,128	hides,	14,251	00
45,823	pounds of copper,	5,951	99
	Total value of exports,	$2,602,040	40

Cattle Market.

Baltimore, Jan. 15.—Cattle—There was a large supply of beeves at the scales to day, the offerings reaching 1200 head, of which 240 were sold to packer, 300 to city butchers, 210 were left over unsold, and 450 were driven to Philadelphia.—Prices ranged from 2,50 to $4 ⅌ 100 lbs, on the hoof, equal to $5@7,75 net, averaging 3,12½ gross.

Hogs—There was a fair supply at the scales, and prices remain as last quoted, viz: $5@5,37½.—[Amer.

* * *

☞ The soft, Angelic expression of some females is grateful to view, while the repulsive, coarse, muddy yellow faces of others, excites disgust—the same with males. Could such people be induced to try a cake of the true JONES' Italian Chemical Soap, they would be enraptured with the change. They would have a delicate, clear, white skin, while every disfigurement or eruption would be removed and cured.

PARTICULAR NOTICE.—Persons who have bought cheap counterfeits and imitations of this, and have had no effect produced, must try this, the original. Mind, ask for Jones' Soap. For sale at WM. JACKSON'S, 89 Liberty street. mar24

* * *

ANOTHER CERTIFICATE to the excellence of M'Lane's Vermifuge!

Messrs. J. Kidd & Co.—Gentlemen: It is with pleasure I hand this, my certificate, (testifying to the general popularity of Dr. M'Lane's American Worm Specific,) to your traveling agent, Mr. Munroe. Some time ago I received from him a small lot to sell on commission. I used a few bottles in my own family, to the good effects I can fully testify. The balance I sold to my customers, and found on inquiry, that it gave very general satisfaction. GEORGE MAXWELL.

Augusta, Carroll Co. Ohio, July 27, 1848.

For sale at the drug store of J. KIDD & Co.

New York—City Banks, par. Interior B'ks 1

CONSUMPTION AND LIVER COMPLAINT.—Suffering as I have for 3 years with these diseases, I feel from my heart for all persons equally unfortunate, and therefore I beg of them, if they love life and health; if they love their families and friends, not to lay and die under the hands of mercury doctors, or their useless trash, but try Dr. Taylor's Balsam of Liverwort. This medicine cured me when I was so ill I could not turn over in bed without assistance, and the mineral doctors said I could not live a week; yet this vegetable medicine cured me in six weeks. I had a hacking cough, pain in the side, raising of matter, night sweats, and was wasted to the bone; also, inward fever.

J B. MILLS, Milkman, Newtown, L. I.

The virtues of the herb "Liverwort," are in this vegetable preparation so powerfully and effectually concentrated as to render it a most superior and harmless medicine for all disorders of the Liver and Lungs, and is now considered by all persons familiar with its effect, superior in merit to any other medical preparation for these prevalent complaints. It has proved so astonishingly beneficial for Consumption, Coughs, Colds, Spitting of Blood, &c., that many of our physicians daily employ it in their practice, and esteem it a superior and valuable medicine.

Liver Complaint and Cough!—Having taken a violent cold, which settled on my lungs and liver, producing a severe cough, and pain in the side and shoulder, which was so severe at times I could scarcely turn over in bed. I was gradually wasting away, and wary even of my life. My cough was very distressing, and being accompanied with nausea, loss of appetite, debility and other distressing symptoms, my sufferings were extreme. Finding no benefit from any medicine, nor from my physicians, I got a bottle of Dr. Taylor's Balsam of Liverwort, which soon made me well and able to attend to my business GEO. YOUNG,

Druggist, 301 Fulton st, Brooklyn

Sold in Pittsburgh by J D Morgan 93 Wood st; J Townsend, 45 Market st; H Smyser, cor Market and 3d sts; Henderson & Co, 5 Liberty st Price reduced to $1,50 per bottle.

Remember, this is the only genuine preparation of Liverwort. All others are imitations. Be sure and buy only as above. ja9

Roofing.—Galvanized Tin Plates.

THE subscribers beg to call the attention of Builders, Architects and owners of Buildings, to the many advantages which these plates possess over all other metallic substances hitherto used for roofing, &c., as they possess at once the lightness of iron, without its liability to rust, having now been tested for several years in this particular, both in this country and in Europe. They are less liable to expansion and contraction from sudden change of the atmosphere, than common tin plates, iron, zinc, or any other metal now used for roofing, and consequently form a much better and tighter roof; requiring far less frequent repairs, whilst the first cost is but a trifle more.

A full supply, of all sizes, from 16 to 30 W. G., constantly on hand and for sale by

GEO. B. MOREWOOD & CO.,
16 and 16 Beaver street, New York.

The patent right for this article having been secured for the United States, all parties infringing thereon, either by importation or otherwise, will be prosecuted. oct30-d&w1y

Advertisement.

THE subscriber, in offering for sale a handsome lot of Nunns & Clark's, (New York,) and Chickering's (Boston,) Pianos, would direct attention to the fact that his is the only place in the West where the instruments of these two makers can be tried side by side, and where, consequently, a correct idea of their qualities can be formed. The subscriber being anxious to test their relative merits, and having for a number of years performed upon the Pianos of Nunns & Clark, has taken into use for the last twelve months, a Chickering Piano, in order to try its durability and fitness as an accompanyment to the voice. This Piano may now be seen and examined at his rooms. He feels confident of his ability to give a competent and reliable opinion on the subject.

A handsome lot of new Pianos will be opened in a few days.

LOCAL MATTERS.

REPORTED FOR THE PITTSBURGH DAILY GAZETTE.

Court of Quarter Sessions.

FACTORY RIOTS CONTINUED.

THURSDAY, January 18.

Judge Shaler in this case made an eloquent address to the jury, going through the whole evidence, and fixing beyond question the testimony in regard to the several defendants.

Mr Sawyer followed, defining the law as to riots. He very liberally abused the owners of the factory.

Mr M'Clure spoke next, and very emphatically defended Mr Gungle.

Mr Kennedy, on the part of two of the defendants, contended that there was no riot at all: that the throwing of pebbles, eggs and potatoes, was mere child's play, designed for sport: and that the jury could not possibly return a verdict of guilty, so far as related to his clients.

AFTERNOON SESSION.

The Court took a recess of fifteen minutes.

Colonel Black, on the meeting of the Court, delivered a brilliant address in favor of his clients, Vance, Hughes, and others, after which,

Mr Stanton wound up the case for the prosecution, urging in a very lengthened and eloquent speech, the necessity of maintaining the supremacy of the law.

The Court was densely crowded all the afternoon, even the bar being perfectly filled with listeners.

Judge Patton will charge the jury this morning at nine o'clock.

His honor Mayor Herron received the following letter yesterday. We publish it, believing it may subserve the cause of humanity:—

OFFICE OF THE COMMISSIONERS OF EMIGRATION,
New York, Jan. 12, 1849.

His honor the Mayor of Pittsburgh.—A woman named Ellen M'Connell, or Hughes, (the latter, I presume, her married name,) has arrived in this city, from the Parish of Glenfagle, County of Tyrone, Ireland, and is a patient in our Marine Hospital. She is anxious to hear from her brother, Hugh M'Connell, a cutler by trade, and her daughter, Mary Hughes, supposed to be in Pittsburgh.

You would serve the cause of humanity by setting on foot some inquiries for them, and if found, communicating to them the fact of their mother and sister being in our care.

Any communication addressed to my care will immediately reach her. Very Respectfully,

JOHN H. GRISCOM, Genl. Agt.

MAYOR'S OFFICE.—His honor, Mayor Herron, had two cases yesterday morning. They were both of the ordinary character.

THEATRE.—Mr. Murdoch, the popular tragedian has arrived, and will appear this evening as Hamlet, in the play of that name. Miss Anna Cruise plays Ophelia, a character in which she appears to great advantage.

Presentment of the Grand Jury at the December Sessions, 1848.

The Grand Inquest, sitting for the December Term of the Quarter Sessions, and Oyer and Terminer, for Allegheny County, Pennsylvania, to whom have been referred all such matters as may of right be inquired into and presented, affecting the peace, safety and happiness of the inhabitants of the bailiwick, respectfully present the following as the result of their deliberations:—

Deeply impressed with the responsibility of their commission, and without any rule to limit their investigations other than the public good, they have determined to notice, not only all known violations of the laws on the part of the people, but, likewise, omissions of duty, and injurious practices on the part of those invested with power to detect, arrest, and commit offenders.

The subject of Intemperance has been again and again brought to the attention of the public authorities, and salutary results, no doubt, have followed, although not to the extent desired.

It is viewed as one of the most deadly foes of our race, the prolific parent of crime, and the poisoned fountain in which is concealed almost every ill of life. Experience has partially demonstrated, both here and elsewhere, that this dangerous habit cannot be controlled by severe enactments.

The present laws, assuming the system of license to be wise, if thoroughly executed, it is believed, are sufficiently stringent—that they are grossly neglected is the fault of the people, in giving too little consideration to the selection of *Constables*, whose duty it is made to return all persons violating the license laws to the officers of the Court.

The official oath is too often put aside in the fear of being rendered obnoxious as an informer. The constabulatory, therefore, should be selected for their courage and integrity, and held to strict accountability.

Similar views are entertained in relation to the offence of gambling. Under the old statute, punishments were not unfrequent. Under the new law, (in which the vending of lottery tickets is included,) whilst the vice has not, it is believed, been diminished, convictions are almost unknown, the natural effect, possibly, of the ignominious punishment it inflicts in arresting the vigilance of the officer, although several convictions under the present act, we learn, have been made by the civil authorities of Philadelphia county. Moderate and sure punishments, coupled with the more potent beverage of a wholesome public opinion, are the most formidable weapons to lop off the evil habits of the unlicensed venders of spirituous liquors, the drinker, and the gambler. Great severity in cases where the laws interfere to protect a man against himself, or are presented as a shield to ward off temptation, too often fails of the intended purpose, by exciting the indignation and resistance of those who may consider themselves oppressed, and leads to a secret and more dangerous indulgence.

Since the act was passed to protect the young of the gentle sex from the wiles of the libertine, by imposing an imprisonment disqualifying the condemned from the exercise of the rights of citizenship, not a single offender has been convicted in this district, although several cases of its violation, we have reason to believe, have occurred in our midst. Is the law satisfied with what the victim may consider an equivalent in dollars and cents? If so, then can the wealthy and shameless outlaw spread ruin broad cast over the domestic hearths of our fellow citizens with impunity, whilst poverty, in the event of its arrest for such a crime, would be adjudged to the bolts and bars of the prison.

It is as much the sworn duty of the police to seek the arrest and conviction of the seducer, as it is to secure the burglar, and bring him to the bar of the magistrate.

He may not discover either in the act, and, whilst his ingenuity is taxed to reach the slightest testimony to fix the crime on the former, he cannot claim immunity from the dreadful responsibilities of an oath, by pleading in the latter, that no citizen had volunteered to supply the necessary information.

The Guardians of the Poor should avoid any omission of duty calculated to render the law inoperative.

Our predecessors have repeatedly called the attention of the County Commissioners to the inhumanity of the mode adopted to secure prisoners. It is moral death to many, who under false charges, or as the consequence of slight misdemeanors have been deprived of their liberty. A university, where the subject of the first indiscretion may be inducted into the mysterious knowledge of the whole circle of kindred crimes. The old prison was scarcely more objectionable than the one now in use; and all who remember it, cannot have forgotten the depravity engendered within its walls. Cleanliness is no part of its discipline, so far as the persons of its inmates are concerned.

The separation of the sexes, if contemplated by its builders, has never been carried into effect—under the direction of the present High Sheriff it has been partially accomplished. On the occasion of an official visit, our attention was called to the indiscriminate mingling of male and female, colored and white—a system greatly calculated to excite unhappy prejudices, and pander to the vile passions of the licentious. This could be avoided by having the third tier of cells finished, and appropriated to the females.

The noise of industry is not heard within its walls, and the minds of the innocent as well as the guilty, are forced to fatten on the moral pestilence that surrounds them.

The health of the prisoners demands the erection of baths—a renewal in many instances of beds and bedding, a weekly and monthly purification of their apartments with lime, and the adoption of some mode for conveying the waste water of the cells outside the walls, and abating the nuisance created by permitting it to sink under the floors. The necessity for these sanitary regulations is rendered more urgent, in view of the rapid approach of the Cholera to our borders.

The secure keeping of the prisoners requires the substitution of new locks for those now in use; the escape of one ingenious inmate from his cell, would in a few minute's work, effect a "general jail delivery." This matter is entitled to the attention of the Commissioners.

It is proper whilst on the subject of the public buildings, to direct the attention of the Commissioners to the condition of the Rotunda of the Court House. Complaint has been made of its gloomy appearance; a defect that is felt by persons doing business in the various courts, and which may easily be remedied by a coat of white paint or lime—this, together with a more rigorous system of police in the small departments in the basement adjoining the County Offices, we must press on the consideration of the County Board, as necessary to the health, comfort and convenience of the people.

It has been a matter of complaint for years, that persons convicted of vagrancy, have been sentenced for short periods, thus leading to two, three, or more arrests within the period of thirty days, and imposing increased burthens on the county by multiplying commitments. Were Justices of the Peace, who have summary power to sentence for thirty days, to make a general rule from which they would not depart, unless in special cases, to give the *full* period, particularly if the jailor would appropriate the cells to their intended use of close confinement, vagrancy would become less prevalent, and the treasury of the county would be largely benefitted.

The practice of magistrates in cases of summary convictions for disorderly conduct, &c., to release prisoners on payment of fees and costs, after their delivery to the custody of the jailor, is manifestly contrary to law, and should be promptly discontinued.

We cannot too strongly press on municipal and township authorities, the adoption of rigid rules to prevent the obstruction of the streets and highways by builders and others, and to guard against their unprotected state in the progress of excavations, the neglect of which has too frequently resulted in serious injury to the person and property of our fellow citizens.

This notorious want of order and care is a reproach, which the Councils of the *County Seat* and other authorities will, no doubt, soon wipe out.

The ponderous and obtrusive machinery which constitutes a Coroner's Court, requires reform, and the private intrusion, coupled with the public exhibition consequent to its sessions, induces the concealment, it is believed, of many cases of sudden and unexplained death, where the examination by the Coroner might have discovered violence or poison.

It may be idle, and perhaps we may be traveling out of the record, to propose any improvement, yet we cannot refrain from calling the attention of the public to the matter, and recommending to the Legislature to reduce the number now required to constitute a Coroner's Jury. We would further urge on the Coroner in delicate cases of investigation, where the character of the details could alone interest horror-mongers and the licentious, to either exercise the power of exclusion, should it rest in his discretion, or press on spectators the importance of avoiding the publication of notes of the evidence elicited.

In the country from which we copy largely in matters of law, the Coroner has the power of holding his Court in private—"and this power and exclusion is considered necessary to the due administration of justice."

It is universally conceded that the display in print of the revolting particulars of crime, tends largely to the corruption of society—a practice which follows preliminary examinations when *none* are *excluded*—and when the examining officer assumes the provinces of the Court and Jury before whom the prisoner is to be adjudged "guilty or not guilty," searching out the most minute facts in the belief, "that he is not justified in committing him for trial, until he is satisfied that there is sufficient evidence to hang him."

It is more than enough that the minute history of crime, developed before the traverse jury, should be immediately sent, with illuminated and over-wrought pictures, on the wings of the Press, into the pure moral atmosphere that prevails around the hearth-stones of every habitation in the land.

The people should be shielded as much as practicable from such poisonous visits. A single infliction cannot be avoided; justice demands an open trial, and the freedom of the Press cannot be invaded. There is no good reason, however, why these offensive matters should be rendered familiar by being twice previously, through the Coroner and magistrate, paraded before the populace. If they have the power of avoiding the publication of the proceedings where the evidence would be prejudicial to public morals, we demand that they will exercise it.

The loose manner of conducting *post mortem* examinations before Coroner's inquests, has been and is still a prolific theme for commentary, and is therefore entitled to more than a passing notice.

The medical profession, and the Coroner and his juries, are alike culpable, and whilst the former has failed, from no want of capacity, to sustain its character for science in the walks of jurisprudence, the latter, in the performance of their disagreeable duties, have too frequently been satisfied with hurried and imperfect examinations.

The County Commissioners have heretofore rendered themselves subject to a part of the odium that attaches to hasty *post mortem* investigations, by their refusal to make liberal allowances for the services of the medical examiners—a blind economy which the present Board of Commissioners it is hoped will refuse to endorse.

The delivery of opinions before a court and jury are always distasteful to medical men, in view of the unintentional discourtesy indulged in by counsel, in a searching cross examination; and their duties before the Coroner's Court are not only highly responsible, where the fate of a fellow-being is pending, but attended in every instance with the most painful feelings. We must, therefore, insist on a fixed and liberal system of compensation on the part of the Commissioners.

Our purpose is not to censure, but to turn the present excellent Coroner and Commissioners from the errors of their predecessors.

The great number of trifling assaults and batteries presented for our action, admonishes us of the necessity of the adoption of speedy means to arrest them hereafter, before they reach the Grand Jury.

This is only to be effected by urging the active interference of the Magistrate to compromise every petty case brought before him, or by an appeal to his discretion to discharge all cases at the cost of the prosecutor, presenting the appearance of spite or provocation.

The same rule will apply to sureties of the peace, where a word of kind and wholesome advice from the magistrate would, in a majority of cases prevent all further alarm and litigation, and avoid the ruin that is sure to follow.

Although, happily, it has not been made our duty to pass on any cases of *Minors*, charged with gross misdemeanors or felonies, we cannot in view of the convictions at previous terms of the Quarter Sessions of this class of culprits, withhold from pressing on the proper authorities and the people, the benevolent project of establishing in the west, an institution based on the principles of the "House of Refuge," now in successful operation in Philadelphia.

It will prove a school of reform, where reform is practicable—will secure the public against their unlawful propensities, and after an apprenticeship, long or short, as may be deemed necessary, the youthful offender will be permitted to go from his confinement without the mark of the felon.

The heart of the Philanthropist, wherever this plan has been pursued, has been made glad with the evidence of sincere reform that follow the discipline it imposes.

The promptness and courtesy of the high Sheriff, and the counsel of the zealous Prosecuting Attorney and his assistants, have aided us greatly in the execution of our duties.

Adopted and signed this 6th day of Jan.
A. D. 1849.

MISCELLANEOUS.

Consulting Engineers & Counsellors for Patentees:

Office for procuring and defending Patents, imparting information on Mechanics and the application of Science to the Arts, and on American and Foreign Laws of Patents.

PROF. WALTER R. JOHNSON, late of Philadelphia, and Z. C. ROBBINS of Washington city, (to be aided by Hazard Knowles, Esq., late Machinest of the United States Patent Office,) have associated themselves together for the prosecution of the above branches of professional business, either in their office, at the Patent Office, or before the Courts; and will devote their undivided attention to forwarding the interest of Inventors and others who may consult them or place business in their hands. Mr. Knowles has for the past twelve years held the post of Machinest in the United States Patent Office, and resigns that situation to take part in the present undertaking. His talents and peculiar fitness for the important office so long filled by him, have been fully recognised by Inventors wherever the office itself is known.

The office of Messrs. J. & R. is on F street, opposite the Patent Office, Washington, D. C., where communications, post paid, will be promptly attended to; examinations made, drawings, specifications, and all requisite papers prepared—and models procured when desired—on reasonable terms. Letters of enquiry, expected to be answered after examinations had, must be accompanied by a fee of five dollars.

In the duties of their office which pertains to the Patent Laws, Messrs. J. & R. will be assisted by a legal gentleman of the highest professional character, and fully conversant with Mechanics and other Scientific subjects.

N. B.—All Dr. D. Jayne's Family Medicines for sale.

dec9-d&wS A. JAYNES.

Pittsburgh Water Works.

PROPOSALS will be received at the office of the Water Works, until Monday, the 29th inst., at 5 o'clock, for furnishing Pipes, as follows, to wit:

50 pipes, 18 inch bore, each 2550 lbs.
230 " 20 " " varying from 1900 to 2450 lbs.
160 " 12 " " each 900 lbs.
150 " 8 " " " 460 "
290 " 6 " " " 330 "
300 " 4 " " " 200 "

With the usual complement of branches. All the pipes of 8 inch and upwards must be cast on end, and it is desirable to have the 6 inch and the 4 inch cast on end also: bidders will therefore state in what way they propose to make these sizes, and the difference in price, if any, between casting them on end and on the inclined position. It should be kept in view that portions of all the sizes will be required early in the season, and the whole number by the first of November next.

Payments to be in Bonds bearing interest, and running twenty years.

Testing and delivering to be at the expense of the contractor. J. H. M'CLELLAND, Supt.

ja9-dtd

OYSTERS! OYSTERS!!

FRESH FROM THE SHELL—By Burke & Co's Fast Express, at reduced prices.—To accommodate all lovers of this delicious luxury, BURKE & Co. have resolved to supply the people regularly throughout the season, with the choicest Fresh Oysters in cans, half cans and shell, at such reduced prices as will enable every family to enjoy this delicacy at their tables.

Coltart, Jr, Penn'a Avenue; Mercer & Robinson, Allegheny city.

nov21

NEW YORK AND BOSTON PIANOS.

JOHN H. MELLOR, No 81 Wood street, has received invoices of a large supply of Piano Fortes from the celebrated manufactory of Chickering, Boston, to arrive in a few days, of which due notice will be given, varying in price from $275 to $700.

Also from the manufactories of H Worcester, and Bacon & Raven, New York, a handsome assortment of 6, 6¼ and 6½ octave Piano Fortes, rosewood and mahogany cases, of the most elegant description, and with all the late improvements.

The above, in addition to the stock on hand, will make the largest and most desirable selection ever offered for sale in this city, and will be sold in all cases at manufacturers prices, on accommodating terms, and a written guarantee given with every Piano Forte sold.

JOHN H. MELLOR,
Sole Agent for the sale of Chickering's Piano Fortes, for Western Pennsylvania. dec20

NEW INSTRUMENT.

THE subscriber has been appointed Sole Agent for the sale of CARHART'S IMPROVED MELODEONS, as manufactored and and perfected by Messrs. Murch & White, of Cincinnati. The usual compass and extent being but four octaves, Messrs. M. & W., in accordance with the general desire and demand, have extended the scale of these instruments to 4½ and even 5 octaves, thus making it practicable to perform upon them any music written for the Piano or Organ. The exterior, also, has been much improved by placing the body of the instrument upon a cast iron frame beautifully bronzed and ornamented, rendering it at once a most elegant and extremely desirable article. The price is put so low as to bring it within the reach of every one to obtain a perfect musical instrument, and, at the same time, a most elegant piece of furniture for a comparative trifle.

RUST PROOF IRON.

THE undersigned have erected works in the city of New York, for the purpose of Galvanizing all articles of Iron, which it is desirable to PROTECT FROM RUST, such as Telegraph Wire, Bolts, Spikes, Nails, Wire for Fences, and any other article which may be required. For Hoops for Casks, as a substitute for bale Rope; for Clothes Lines, Lightning Rods, and a host of other applications, it will be found cheap and durable. They would particularly call attention to the Galvanized Wire for fences, it requires no paint, and will not rust. Also to Spikes and Bolts, the preservation of which is of so much importance, that it will commend itself to the notice of all those interested.

TO COTTON AND SUGAR PLANTERS.

PLANTATION IN ARKANSAS.—The subscriber offers for sale the extensive plantation in Arkansas, formerly belonging to and occupied by the late Governor Kent, of Maryland, and containing twenty-eight hundred and eighty-three and a half acres of land.

This estate lies in the counties of Phillips and Crittenden, and is situated in Walnut Bend, on the Mississippi river, twenty-five miles above the town of Helena. It is said to be the highest river land in that region of country. Its soil is peculiarly adapted to the growth of cotton. Its improvements are an overseer's house, a horse-mill, several corn houses, and good quarters for servants.

Upwards of seven hundred acres of this land have been cleared and are now cultivated. The rest of it may be easily cleared, (the most being already done,) and has less timber upon it, and that chiefly of ash, which is readily sold at a well located wood yard, in quantities of several thousand cords every year.

This plantation is one of great value, and presents a rare opportunity to the public. In the hands of a good planter it may be easily made of immense annual profit. Its facilities of intercourse with New Orleans afford a constant avenue for the disposal of its products.

It is distant about 600 miles from Cincinnati, 290 miles from the mouth of the Ohio, and 740 miles from New Orleans.

This property will be divided into several parts, if desired.

For terms, &c., apply (post paid) to
WILLIAM B. PERINE,
ja4-d3m* Baltimore, Maryland.

FOR SALE,

THAT SPLENDID PRIVATE RESIDENCE now in the occupancy of Mr. Samuel M. Wickersham, situated in the First Ward of Allegheny city. This property is beautifully located on the bank of the Ohio, having a river front of 200 feet, protected by a stone wall, and extending back 348 feet, commanding a beautiful view of the city and the rivers. There are two steam ferry boat landings within a few steps of the property, furnishing convenient access by steam, at all times, to the city of Pittsburgh, and Temperanceville on the south side of the river.

The house is a large double two story brick, finished in the latest style, with all the modern conveniences and improvements, suitable out houses, wash house, stable, carriage house, &c &c.

The garden is well supplied with shrubbery, and 50 choice fruit trees, including pears, apples, and peaches. For terms and other particulars, apply to
WILLIAMS & SHINN, Attornies at Law

MEDICAL.

FITS! FITS!!

HART'S VEGETABLE EXTRACT

IS THE ONLY REMEDY that can be relied on for the permanent cure of Spasmodic Contractions, Irritation of the Nerves, Nervous or Sick Headache, Nervous Tremors, Neuralgic Affections, General Debility, Deficiency of Nervous and Physical Energy, and all Nervous Disorders, including the most dreadful of all diseases that ever affect the human race—

EPILEPTIC FITS,

or Falling Sickness, Hysterical Fits, Convulsions, Spasms, &c. Hart would impress it upon the minds of the afflicted that the Vegetable Extract is the only remedy ever discovered that can be relied on for the permanent cure of this most dreadful of all diseases. As its tendency is to insanity, madness and death, the most

SKILLFUL PHYSICIANS

of Europe, as well as those of our own country, have pronounced Epilepsy incurable. And it has been so considered by many, until this most important of all discoveries was made by Dr. S. Hart, nearly sixteen years since, during which time it has been performing some of the most

REMARKABLE CURES

upon record, and has acquired a reputation which time alone can efface. Physicians of undoubted skill and experience, ministers of various denominations, as well as hundreds of our eminent citizens, all unite in recommending the use of this truly valuable medicine to their patients, charge, and friends, who are afflicted, as the only remedy.

WE QUOTE THE LANGUAGE

used by those who have been cured by this valuable medicine; One says, "I have suffered beyond my power of description, but I now rejoice in being fully restored to health and happiness." Another says, "I thank God I feel that I am a well man. I also feel it my duty to proclaim it to the ends of the earth, that those similarly afflicted may find relief." Another (who is an EMINENT LAWYER and well known in this city) says, "My son has been afflicted for years with Epilepsy, but is now enjoying good health from the Vegetable Extract. Its fame," says he, "should and ought to be sounded to the ends of the earth." Another says, "Language is entirely inadequate to express my gratitude to Dr Hart for having been the means, under the blessing of God, of restoring me to the enjoyment of good health, after having been afflicted with Epilepsy in its worst forms for more than twenty years, and my morning and evening oblation of praise and thanksgiving shall continue to ascend to that God who has afflicted but to make me whole."

Mrs. J. Bradley, 115 Orchard street, N. Y., states that she has been subject to fits for many years, and has been restored to perfect health (after every other means had failed) by the use of the Vegetable Extract.

Dr. Charles A. Brown, of Dover, Russell county, who is one of the best physicians in the State, says that he has been much benefited by the use of the Vegetable Extract, and that he unhesitatingly prescribes it in every case of Epilepsy which comes under his knowledge.

Curtis G. Mayberry, Esq. formerly Postmaster at Lime Mills, Crawford county, Pa., now living in Erie county, Pa., states that for many years past he has been sorely afflicted with fits, and he is now happy to state that a persevering use of Dr. Hart's Vegetable Extract, has restored him to sound health, being entirely freed from that worst of all diseases.

From the Cincinnati Commercial.

REMARKABLE CURE.

The following certificate was given to Messrs. Thomas & Miles, Doctor Hart's Agents for the sale of his Vegetable Extract, for the cure of Epileptic Fits, or Falling Sickness. We are induced to give it a place in our editorial columns from the fact that is the only known medicine that will cure Epilepsy, at the same time believing it to be one of the greatest discoveries in medical science. Physicians and men of science of all ages have been trying to discover a remedy for this disease, but all has been in vain until the present discovery of Dr. Hart, and we would now say to those afflicted with fits, despair no longer, for there is help.

MESSRS. THOMAS & MILES, 169 Main street, Cincinnati, Ohio, Agents for Doctor Hart's Vegetable Extract for the cure of Epileptic Fits:

Gentlemen—It is almost impossible for language to express with what heartfelt satisfaction I address these few lines to you, for the purpose of informing you of the beneficial results that have been effected by the use of Dr. Hart's Vegetable Extract.

My son, aged twelve years, has been severely afflicted with Epileptic Fits, and with such severity, the opinion was, he could not be cured.

In one of his paroxysms he fell and broke his arm. I called in Dr. Mulford, a very excellent physician, who re-set it. He informed me that my son's Nervous System was very much deranged, and that it would be impossible to cure him of Epilepsy, as Epileptic Fits were almost incurable, and employing physicians in his case would be only throwing money away.

I called upon Dr. Pultee; he informed me that the disease had assumed a chronic form, and it would take a long time to cure him if he could be cured at all.

He became worse and worse, and I began to think there was no cure for him, until I saw the advertisement of Dr. Hart's Vegetable Extract in one of our city papers, with certificates from persons who had been afflicted for ten, fifteen, twenty, thirty, and even forty years, and restored to health by the use of the Extract.

I called at your store, and after conversing with Mr. Thomas, I came to the conclusion to purchase a three dollar package. It done little or no good. I thought I would try another, from the use of which I perceived some little benefit.

I then came to the conclusion to purchase a ten dollar box. I found that it was of so much service to him I was induced to purchase a second. And I am truly thankful that I done so, as by the use of the ten packages he has been restored to perfect health.

Should any person be desirous of seeing him, and ascertaining further particulars, I should be pleased to gratify them by their calling on me at my residence, south west corner of Fourth and Park streets, Cincinnati, Ohio. ISAAC N. PERKINS.

Cincinnati, August 28th, 1848.

THE TIME IS NOT FAR DISTANT

When thousands who are now trembling under the hand of this dreadful disease, and fearing that every attack may prove fatal, will find permanent relief and be restored to new life, by using this celebrated medicine. Over one thousand certificates have been received in testimony of the beneficial results produced by the use of Dr. Hart's Vegetable Extract.

Prepared by S. HART, M. D., New York.

DALLEY'S MAGICAL PAIN EXTRACTOR!

THE following from George E. Pomeroy, Esq., the well known proprietor of the Express, speaks for itself of the importance of the Pain Extractor to every parent.

EXPRESS OFFICE, Albany, Sept [illegible]

MR. DALLEY: My Dear Sir—With feelings of extraordinary pleasure I address you in relation to the benefit I have received from your invaluable Pain Extractor. Lately, my little daughter, 6 years old, had a [illegible] of boiling water turned into her bosom; her screams were dreadful, so that a crowd instantly gathered before the house to learn the cause of the terrible screams. I tore her clothes asunder, and soon spread on the salve, and she was carried and laid upon a bed. [illegible] was soon relieved from her pains, and says "Ma, I feel as if I could laugh," and was soon in sweet sleep. She was scalded to a blister from the top of her [illegible] over more than half her chest, and round under her arms. On the shoulder and breast it was very deep, yet from the first hour, she complained only when it was dressed. The sore healed rapidly, and there is no contraction of the muscles.

With many wishes, my dear sir, for your success in the sale of this mighty article,

I am yours, with respect,
GEO. E. POMEROY.

THE TEST and NO MISTAKE!

The genuine Dalley, will ever produce instantaneous relief, and soothing, cooling [illegible] severest cases of Burns, Scalds, Piles, &c.

The Counterfeits—no matter under what name they may appear—always irritate, and increase the [illegible]

TO THE PUBLIC

I, Edward P. Holmes, of Chatham, Melvin [illegible], Columbia county, N. Y., have been afflicted with inflammation in my breast, feet, and all over my body, six years, so that I could not stand, and was cured by three applications of Dalley's Magical Pain Extractor.
EDWARD P. HOLMES.

Mr Dailey: Sir—I cut my finger with a [illegible], the poisonous nature of which caused my arm to swell considerably, with constant shooting pains to the shoulder. A large swelling taking place under the arm-pit, with increasing pain, I became fearful of the lock jaw. In this extremity your Pain Extractor was recommended to me, and which I was prevailed upon to try. The consequence was that it afforded me almost instant relief, and in three days I was completely cured. JOSEPH HARRISON, New [illegible],
corner Broome and Sullivan sts, Sept 8, 1848.

NOTICE—H. DALLEY is the inventor of this [illegible] able remedy, and never has and never will communicate to any living man the secret of its combination.

All Extractors, therefore, not made and put up by him, are base counterfeits.

PROPRIETOR'S DEPOTS—415 Broadway, New York; 235 Chestnut street, Phila.

nov15 d1yis Agent, Pittsburgh.

MEDICAL & SURGICAL OFFICE,

No. 65, DIAMOND ALLEY, a few doors below Wood street, to market.

DR. BROWN, having been regularly educated to the medical profession, and been for some time in general practice, now confines his attention to the treatment of those private and delicate complaints for which his opportunities and experience peculiarly qualify him. 11 years assiduously devoted to study & treatment of those complaints, (during which time he has had more practice and has cured more patients than can ever fall to the lot of any private practitioner) amply qualifies him to offer assurances of speedy, permanent, and satisfactory cure to all afflicted with delicate diseases, and all diseases arising therefrom.

Dr. Brown would inform those afflicted with private diseases which have become chronic by time, or aggravated by the use of any of the common nostrums of the day, that their complaints can be radically and thoroughly cured; he having given his careful attention to the treatment of such cases, and succeeded in hundreds of instances in curing persons of inflammation of the neck of the bladder, and kindred diseases which often result from those cases where others have consigned them to hopeless despair. He particularly invites such as have been long and unsuccessfully treated by others to consult him, when every satisfaction will be given them, and their cases treated in a careful, thorough and intelligent manner, pointed out by a long experience, study, and investigation, which it is impossible for those engaged in general practice of medicine to give any one class of disease.

☞ Hernia or Rupture.—Dr. Brown also invites persons afflicted with Hernia to call, as he has paid particular attention to this disease.

CANCERS also cured.

Skin diseases; also Piles, Palsy, etc., speedily cured. Charges very low.

N. B.—Patients of either sex living at a distance, by stating their disease in writing, giving all the symptoms, can obtain medicines with directions for use, by addressing T. BROWN, M. D., post paid, and enclosing a fee.

Office No. 65, Diamond alley, opposite the Waverly House.

Office of American & Foreign Patents.

JAMES GREENOUGH, of the late firm of Keller & Greenough, continues the business of Civil Engineer and Patent Attorney, at his office in the city of WASHINGTON. He may be consulted or employed in making examinations in machinery at the Patent Office and elsewhere, in furnishing drawings and specifications of machines, and all papers necessary to transfer, amend, re-issue or extend letters patent in the United States or Europe. He can also be consulted professionally on all questions of litigation arising under the Patent Law, and will attend to applications before the Patent Office or an appeal therefrom, for which his long experience in the Patent Office and in his profession, have peculiarly fitted him. The professional business of the late Dr. [illegible] having been placed in his hands, all letters in relation thereto should be addressed to him post paid. [illegible]
