To those who like to ride easy!

SAMUEL ENSMINGER,

RESPECTFULLY informs his friends and the public in general, that he has purchased the Patent Right of Robert Wilson, for Cumberland co, for constructing a new and improved

Spring Seat

SADDLE,

and that he is now prepared to receive orders for the same. The improvements claimed are applicable to any of the saddles now in use, and consist of springs of a peculiar construction in the seat, warranted to be good, durable and superior to any ever yet invented.

Persons desirous of examining the above named saddle, are requested to call and judge for themselves, at his well known establishment in High street, nearly opposite the Post office, where they can also be accommodated with any article in the line of *Saddle, Harness, &c.* on the most reasonable terms.

The saddlers of the county are most respectfully invited to call and see this excellent improvement in saddles.

Reference, as to the ease and superiority of this improved spring, may be had to the following named gentlemen:—Hon. Samuel Hepburn, Samuel Alien, M. G. Ege, Joseph Ege, Thomas Greason, Henry Stubbs, Henry Butterff, H. Fetter, J. Stevenson, and Benjamin Peffer, jr.

IMPORTANT TO MILLERS & MANUFACTURERS.

Howd's Improved Water Wheel.

THE Subscriber having purchased of the original Patentee the right of the above Water Wheel for the state of Pennsylvania; will dispose of individual rights or counties on advantageous terms. This water wheel has been fully tested and proved to be so far superior to any kind in its power of propelling machinery, having a greater force than any other wheels in proportion to the quantity of water applied. It is calculated to be more particularly useful at mills, having from two to eight feet head and fall, and to greatly obviate the inconveniences experienced from back water. It is considered by those having them in use as one of the most important improvements that has ever been introduced for its simplicity, strength, steadiness of motion and durability. It is constructed altogether of iron and not so expensive to make as an undershot; and operating with about half the water and not liable to be obstructed by ice in the winter. The subscriber will devote his attention to calls for these wheels at such places as may be required.

MICHAEL M'MATH, Harrisburg.

[COPY.]

This is to certify, that I have put in one of Howd's Patent Cast Iron Direct Action Water Wheels, in place of a Reaction Wheel, that the Direct Wheel does not flood the tail race as much by three inches as the reaction did; and that I can grind seven bushels with the direct action wheel an hour, and drive two run of stones, where I could not grind four bushels in the same time with the reaction and drive one run of stones. PETER FAHNESTOCK.

Euphrata, Lan. co. Oct. 1838.

Alloway, May 5, 1838.

This may certify, that I have been engaged in putting in S. B. Howd's cast iron direct action water wheel, both in the State of New York and in Michigan, and can give it as my decided opinion that with 8 feet head or under, rightly put in, it will do more business with the same water than any other water wheel which I have yet had any experience in, and in reference to back water, is second best to none that I have yet tried. In reference to guarding against ice, there can be no better operation; and it is very easy to be kept in repair.

STEREN AILES, *Millwright.*

Alloway, Sept. 3, 1838.

This may certify that I have had in my Mill one of Mr. Howd's direct water wheels for the space of one year. It is a five feet wheel, and I have had a reaction in the same place—I have also had Wheeler's Union Wheel, yet I think Mr. Howd's will do more business with less water than any other I have tried. It does well in back water. I have had from 5 to 6 feet head. I think we could do as much work with half the water as we used to do with the undershoot wheel, which has also been in operation in my mill.

LAWRENCE RILEY.

Lyons, Sept. 3, 1838.

This may certify, that we have used one of S. Howd's Patent water Wheels since December last, by the side of a re-action wheel, and we think that Howd's will do double the business with the same water that the re-action will do, or very near. We never have but three feet head, and can grind with that eight bushel one hour. We are subject to back-water. This wheel will do as good business under back-water as the re-action, and we recommend it to the attention and patronage of the public.

SIMON BURTT,
MILES S. LEACH.

WM. W. BERGSTRESSER, mill-wright, is agent for the above mentioned water wheel in the counties of Dauphin, Cumberland and York, and will at all times be ready to attend to their sale and erection, at the shortest notice, by addressing him at Shepherdstown, Cumberland county, Pa.

IVER COMPLAINT, ten years standing, cured by the use of Dr. Harlich's Compound Strengthening and German Aperient pills. Mrs. Sarah Boyer, wife of William Boyer, north 4th street above Callowhill, Philadelphia, entirely cured of the above distressing disease. Her symptoms were, habitual costiveness of the bowe's, total loss of appetite, excruciating pain in the side, stomach and back, depression of spirits, extreme debility, could not lie on her left side without an aggravation of pain, with other symptoms indicating great derangement in the functions of the liver. Mrs. Boyer was attended by several of the first physicians, but received but little relief from their medicine; at last, a friend of hers procured a package of Dr. Harlich's Strengthening and German Aperient Pills, which, by the use of one package, induced her to continue with the medicine, which resulted in effecting a permanent cure, beyond the expectation of her friends.

ACUTE BRONCHITIS, A FORERUNNER OF CONSUMPTION.—This disease is very much like a common catarrh, it generally commences like an ordinary cold, with Lassitude, Chilliness, slight Cough and oppression and tightness about the breast. In many instances the disease seems at first of no very serious character. As the disease continues the oppression in the breast increases, the countenance becomes expressive of anxiety, the respiration becomes more and more laborious, sometimes wheezing or rattling sound, as if the air was forced through a narrow aperture clogged with viscid fluid. To neglect this disease it may be of serious consequence; but by a timely application to *Dr. Swayne's Compound Syrup of Wild Cherry*, with a strict attention to the directions, all these unpleasant effects will be removed. Be careful, as it is sold at no place except at No. 19 NORTH EIGHTH Street, or at the respective agents.

Jayne's Hair Tonic,

For the growth, preservation and restoration of the hair. This is an excellent article, and has, in numerous instances, produced a fine growth of hair on the heads of persons who had been bald for years.

LADIES AND GENTLEMEN.—Do you wish elegant, luxuriant and beautiful hair? I know you will answer yes. Hear, for one moment, the cause of its loss, why it turns gray, rusty and coarse, harsh and unpleasant in its appearance, and finally falls off. Each hair has a root in the skin, and is itself a hollow tube, through which there is a constant circulation of fine blood.—By this circulation the hair is nourished and held fast, its glossy colour is given and preserved, and it is covered with the finest oil. Now any thing which injures the skin of the head, or diverts or takes away the blood from it, will prevent or impede the circulation through the tubes of the hair, stop its growth, and cause it to fall off or turn gray, or both. Hence it is that any cause that obstructs or weakens the circulation of blood through the skin, or that diverts the blood to other parts of the system, will take away the lively, fresh and youthful appearance of the hair, arrest its growth, turn it gray sooner, or later, and in thousands of instances cause premature baldness.

Hair Tonic.—We call the attention of those afflicted with preimature baldness, to the excellent Hair Tonic prepared by Dr. Jayne of this city. Having used it ourselves, we can speak of its virtues by experience, and we unhesitatingly pronounce it an invaluable remedy to prevent the falling off of the hair, and to restore it from a dead, to a fine, healthy appearance. We can also speak from personal knowledge of the cases of two or three friends who were predisposed to baldness, who by the use of Jayne's Hair Tonic, have now luxuriant hair. We have no disposition to puff indiscriminately all kinds of remedies for all diseases which flesh is heir to, but when we have tested the virtue of an article, we are free to say it is good.—*Saturday Evening Post.*

Jayne's Hair Tonic.—We have, heretofore, numbered ourselves among those who believed that the Hair Tonic, prepared by Dr. Jayne, was one of the many quack nostrums whose virtues are never seen beyond the fulsome puffs of their authors. We are willing, at length, to make public acknowledgment of the error of our belief. An intimate friend, some two or three months since, all the top of whose cranium was as bald as a piece of polished marble, mangre all our jeeting and evidente of the idea of attempting to *cultivate so barren* a spot purchased a bottle or two of the Hair Tonic from Dr. Jayne, and according to his directions applied it. During the present week the same friend ushered himself into our presence, and uncovering his hitherto naked head, astonished us with a thick though luxuriant growth of hair, from one to two inches in length—upon the very premises we had believed as unyielding to cultivation as the trackless sand that skirts the Atlantic. This is no puff, but is religiously true, and to those who doubt, the gentleman can be pointed out. What is more in favor of this "Tonic," the case here cited was not one of temporary baldness—no sudden loss of the hair—but was one of years' standing, though the the gentleman is but forty-five years of age.—*Philadelphia Spirit of the Times.*

WAR! WAR! WAR!—The Wigmakers have declared hostilities against our neighbor Dr. Jayne, on account of his Hair Tonic, which is knocking all their business into a "cocked hat." Ladies and gentlemen—old and young are flocking to the Doctor's standard. Heads long dressed even the first rudiments of hair, after using his Hair tonic soon appear with new and flowing locks, which Absalom himself might have envied. Beardless boys are seen with large and bushy whiskers; and ladies smile again through their own raven ringlets more beautiful and bewitching than ever. Bald heads are doffing their wigs and throwing them to the moles and the bats; while the Wig makers stand aghast as they behold the demolition of their business.

What will be the consequence of this war we know not, as the wiggies are outrageous, and the Doctor remains firm, and declares that "some things can be done as well as others," and that bald heads may as well wear their own hair as that of others.—[Weekly Messenger.

Jayne's Hair Tonic.—We meet at almost every corner, when perambulating the streets, men wearing long and glossy hair, which they seem to be proud of, and others, who have raised in a few weeks, a crop of black moustaches, that would vie with the glossiest brush that ever walked the forest. It has puzzled us to know the secret of all those wondrous crops of hair; but Messrs. SANDS, 79 and 160 Fulton street, have got the remedy, where all who are curious in such matters may learn a valuable secret.—*New York Wigs.*

CLEANSE AND PURIFY YOUR BLOOD!—This can be effectually done by Dr. Leidy's SARSAPARILLA BLOOD PILLS. Now is the season, the Spring time of year, when the gross humors of the system ought to be removed from the body and the blood purified, thus preventing the singular and unpleasant feeling common to all, of a dizziness, drowsiness, peculiar heaviness of the head, and other feelings, giving rise to what is generally called the Spring Fever.

Upwards of 100 pots of Dr. Leidy's Blood pills have been sold during the past year, at retail alone. Orders have been received from the South and West, during the past month, for more than 100; rossa, thus showing the great demand for them, and proving that there must be some extraordinary cause to produce it. It is easily explained, they are the mildest and safest purgative, as well as the most effectual in cleansing and purifying the blood, and of removing the principal causes of disease ever discovered. They are safe, because they are warranted free from minerals, and may be taken without diet, restraint from occupation, or a fear of taking cold from their use. They do not debilitate the system as do other pills and purgatives; their operation is gentle, but always effectual. They have elicited numerous testimonials from physicians and others, which accompany the directions, and are confidently recommended in Rheumatic Affectio s, Scrofula, Erysipelas, Jaundice, Heartburn, Diseases of the liver, skin, bones and joints, pain of the sides, along the back and spine over the region of the heart and stomach, Inward fevers, bad taste in the mouth, foul breath, Flatulency, Indigestion, Want of Appetite, Sour Eructation and Acidities of the Stomach, Ulcerous sores of the nose, throat and body; Scaly Eruptions and blotches of the skin, Dry and watery pimples and pustules of the face and body, Tetter and Ringworm, Swelling and hardening of the glands of the neck, in the groins, breast, &c., Stomach Coughs, Liver Complaint, Waterbrash, &c. CONSUMPTION! CONSUMPTION! that fell destroyer, which destroys its *Thousands* and *Tens of Thousands* annually. How shall we avert its fatal progress before it seizes upon the vitals? I would answer at once: Take some suitable medicine to arrest the disease at the very commencement.—How very many do we see in the world whose delicate frames look scarcely able to support even a short reign of existence—but for the timely care and proper means they make use of, offtimes will fat outlive the most athletic and robust, who neglect such timely care and proper means that are placed within their reach, which would unquestionably avert it taken in proper time. At the head of all remedies, and the first in rank, stands Dr. Swayne's Compound Syrup of Wild Cherry, which, if administered in time, and taken agreeably to the prescribed rules which accompany the medicine, will nine fifths out of ten check its progress, and restore the patient to health.

COMMUNICATION TO MOTHERS

Having seen an advertisement in the Inquirer of this city, of Dr. Bechter's Pulmonary Preservative, for Coughs, Colds, Asthmas, &c., I was induced from reading it, to make a trial of it. Having a family of seven small children, there seldom passes a day without having to give some one of them something for the numerous affections common to children. Of all the different Patent Medicines, I never found one so general efficacious, I not only found it serviceable for Coughs, Colds, &c., but also very beneficial indeed for Cholic Pains, Diarrhœa and restlessness, so common to small children; on which account I shall never be without a bottle of it. It has relieved me of a troublesome cough, shortness of breathing, and pain in my side and breast, with which I have been troubled nearly twelve months. Two skilful physicians of this city attended me for it without effect. I accordingly discharged them, and having used four bottles of the above medicine, was entirely relieved in less than three weeks. Very respectfully,

Signed, E SULLIVAN.

Easton, November 16th, 1837.

Dr. N. B. LEIDY, Philadelphia.

Dear Sir,—I should consider it ungrateful, if I did not inform you (and with my consent allow you to publish this,) that after having tried by the recommendation of my friends, almost every kind of medicine for coughs, colds, &c., I never found relief until lately, having used Dr. Bechter's Pulmonary Preservative, recommended to me by your agent in this place, and which cured me of a violent cough, spitting of blood, pain of breast, and shortness of breath, without of which I have been afflicted for two years past. I am now, however, enjoying as good health as ever, and owe my recovery to the above valuable medicine.

Signed, N. ATWOOD.

Translation from a communication in German.

Pittsburg, June 26th 1839.

DR. LEIDY, at Philadelphia,

Respected Sir,—I was much pleased after my arrival in this country, to find that Dr. Bechter's valuable preparation, so long successfully used in many parts of Germany, is now prepared by you. I have seen many wonderful cures made by it in the old country. Many persons whose lungs were supposed to be almost entirely destroyed, and pronounced incurable, have been restored to good health by it. I know where one case was beyond the hopes of ever recovering, and was for years helpless, and confined to bed without being able to sit up, but was raised by the wonderful effects of Dr. Bechter's Pulmonary Preservative, and so far cured as to be able to ride and walk about. A great many instances have been cured in the various pulmonary affections, and I have myself received great benefit from it, both here and in my native country. I hope it may be successful in this country as it has been in Germany. When properly known no family will be without it.

P. S. I get it in this place of your agent.

Yours,
Signed, S. SCHARRF,

DR. N. B. LEIDY,

On your recommendation, I made use of Dr. Bechter's Pulmonary Preservative, and although I had tried all other remedies for my cough, I never found relief except on the above medicine. I have been much benefitted by it, and have recommended it to many others, who have suffered with pains in their breasts, coughing, spitting of blood, difficulty of breathing; colds, influenzas, &c. and all have been speedily cured thereby.

With respect, yours, &c.

Signed, I. HOPKINS.

Trenton, N. J. Oct. 12, 1839.

Friend Leidy—There will be much surprised at my communication, when I inform thee of my perfect recovery, after having used six bottles of thy medicine. Thee knows how miserable and distressed I was.—Pale and sickly, without appetite, full of pain, with much cough, and oppression in my chest, rattling in my throat, &c.—I am now enjoying good health, and though fifty years of age, feel young in spirits, and now attribute my good health to the good effects of thy Pulmonary Preservative. Thy friend and well wisher.

Signed, R. EMLEN.

Lancaster, January 4th, 1839.

Sir—I must inform you of the recovery of my wife, whose case I described to you in the city of Philadelphia. The hoarseness and soreness of her throat, with which she suffered many months, has entirely disappeared, her cough is not so violent, neither has she any more pain in her breast, but is entirely cured.—She used only Dr. Bechter's Pulmonary Preservative, which you so strongly recommended. I remain yours.

A CHALLENGE.

100 *Dollars will be Forfeited*

To any individual who will produce a preparation equal to Dr. LEIDY'S MEDICATED EXTRACT OF SARSAPARILLA. It is positively the strongest preparation in existence. One bottle of it is equal to six pints of the strongest syrup that can be made, and numerous individuals prepare from it a syrup which they put in bottles of different sizes and shapes selling it as their preparation, when in reality it is the preparation of Dr. Leidy; the syrup being made from his extract, a receipt for which accompanies each bottle of Dr. Leidy's preparation, whereby if a syrup is wanted it can be made at no expense of two dollars a gallon without paying for it at the rate of 50 to 75 cents a bottle or eight or ten dollars a gallon.

Dr. Leidy's Extract of Sarsaparilla is unusually pleasant to the taste, taken either by itself or in a glass of water. It is useless here to speak of its medical virtues, as every man, woman and child who can read knows of its efficacy, its qualities having been and is daily being published in all newspapers.

It is particularly adapted to the spring and summer seasons, being of a more purifying nature than any other medicine ever discovered. Its character, and efficacy is well known throughout the United States, it being in general use and preferred to all others throughout the South and West; upwards of 11,000 bottles having been sold during the past 12 months.

Numerous certificates from Physicians and others, as well as full directions accompanying each bottle.

Extract of a letter from Dr. J. B. Hauliff, Mobile:

"Your preparation of Sarsaparilla is the most efficacious of any I have ever employed. I have known more beneficial results from using 2 or 3 bottles of it than has been effected in similar cases by a dozen or more of other extracts and syrups of Sarsaparilla."

Extract of a letter from Mr. James C. Malsford a highly respectable Merchant in Baltimore.

"Having had frequent occasion to employ preparations of Sarsaparilla in my family during the past ten years, I last year tried yours, and found one bottle equal in efficacy to five of any other that I ever used."

Extract of a letter from Mr. Sulford of Northampton:

"Your Extract of Sarsaparilla has performed wonders with me, having restored me to perfect health, though for six years afflicted as I have described to you, and during that time having tried almost every thing as well as having received skilful medical attendance, during a great portion of the time."

Numerous recommendations and extracts from various communications could be added, but for the great expense attending newspaper advertising.

It is prepared and sold wholesale and retail at Dr. Leidy's Health Emporium, No. 191 North Second street, below Vine. Also for sale by

Fred'k Klett, Druggist, corner of Second and Callowhill streets, and J. Long & A. Fairer, Druggists, Lancaster; Peter, Pomp, Druggist, Easton; W. H. Pomp, Druggist, Milton.

JAYNE'S EXPECTORANT.—This medicine has already proved itself to be all that it has been recommended, by those who have given it a fair test in this country, and the demand for it increases daily. We have just heard of an important cure of Asthma, which has been effected by the use of it in a neighboring town—the case was that of a female who had for a long time been under the care of a physician, but had received no relief, and her case was beginning to be considered hopeless. As a last resort she purchased a bottle of Dr. Jayne's Expectorant, which caused her to expectorate freely, gradually eased her cough, and is rapidly restoring her to health. We have no hesitation in saying this preparation of Dr. Jayne, for the cure of coughs, colds, influenza, Asthma, Consumption, &c. is the most valuable medicine ever offered to the American public.—*There is no quackery about it*—Dr. Jayne is one of the most skillful practising physicians in Pennsylvania; and wherever his preparations have been thoroughly tested, he is looked upon as a great public benefactor.—[Somerset (Me.) The Indian Vegetable Pills.

Are a purgative medicine, so natural to the human constitution, and withal so mild, and pleasant in their operation, that not the slightest dread of pain or sickness, need be apprehended from their use, even by many others, who have suffered with pains in their breasts, coughing, spitting of blood, difficulty of breathing; colds, influenzas, &c. and all have been speedily cured thereby.

THE INDIAN VEGETABLE PILLS,

Being a cleanser of the stomach and bowels, and a direct purifier of the blood, are certain not only to remove pain or distress of every kind from the the body, but if used occasionally, so as to keep the body free from those humors which are the cause of every malady under heaven, they will most assuredly promote such a just and equal circulation of the blood, that those who lead a sedentary life, will be enabled to enjoy sound health, and disease of any kind will be absolutely impossible.

PETERS' VEGETABLE PILLS.

More than six millions of boxes of these celebrate Pills have been sold in the United States since January 1835.

Hundreds and thousands bless the day they became acquainted with Peters' Vegetable Pills, which, in consequence of their extraordinary goodness, have attained a popularity unprecedented in the history of medicine.

When taken according to the directions accompanying them, they are highly beneficial in the prevention and cure of Bilious Fever, Fever and Ague, Dyspepsia, Liver Complaints, Sick Head-ache, Jaundice, Asthma, Dropsy, Rheumatism, Enlargement of the Spleen, Piles, Colic, Female Obstructions, Heartburn, Furred Tongue, Nausea, Distension of the Stomach and Bowels, Incipient Diarrhœa, Flatulence, Habitual Costiveness, Loss of Appetite, Blotched or Sallow Complexion, and in all cases of Torpor of the Bowels, where a cathartic or an aperient is needed. They are exceedingly mild in their operation, producing neither nausea, griping, nor debility.

The efficacy of these pills is so well known, and their use so general, that further comment is considered unnecessary.

For further particulars, see Dr. Peters' pamphlet, which can be had, *gratis*, of any of the Agents.

The pills are neatly put up in tin boxes, containing 20 and 45 pills, price 25 and 50 cents per box.

New Orleans, April 24, 1837.

Dear Sir—As an old classmate of yours in Yale College, I take the liberty of opening a correspondence.

I learn that you are making a fortune by the sale of your pills, which I trust is the case, as I am fully aware that through them you are conferring a great blessing on the public.

I myself am among those who have been peculiarly benefited by their use. Since my arrival here, I find been subject to severe bilious attacks which had nearly brought me to the grave; but, (and I acknowledge it with gratitude,) a few boxes of your pills have completely restored me. I would add, that their effect upon Sick Head-ache and Sour Stomach is almost miraculous.

With sentiments of esteem,

H. M. SHEPPERD, M. D.

Extract of a letter from Dr. Francis Bogart, of Providence, R. I. Dec. 7, 1838.

Peters' Pills are an excellent aperient and cathartic medicine, (hose effects being produced by the difference of the quantity taken,) and are decidedly superior to Lee's, Brandreth's, or Morrison's Pills.

Extract of a letter from Dr. Haines of Philadelphia, February 2, 1838.

Your pills are the mildest in their operations, and yet most powerful in their effects, if any that I have ever met with in a practice of eight and twenty years. Their action on the chyle, and hence on the impurities of the blood, is evidently very surprising.

Extract of a letter from Dr. Scott, of Baltimore, December, 17, 1836.

I am in the daily habit of prescribing them (Peters' Pills,) and they in nearly all cases answered my purpose. I have discarded other medicines, some of them very good ones, in their favor.

Pasquotank co., N. C., Nov. 18, 1836.

Sir—Be not surprised at receiving this letter from an entire stranger. Your medicine is the cause and apology I offer for obtruding myself upon your notice. Having experienced a serious attack of Bilious Fever this fall, I was induced, in consequence of their popularity, to try your pills; and so beneficial has been the result, that I am desirous to procure a large quantity of them to use in my practice. Please write me word what is your lowest price to the facility for two hundred boxes. Your earliest attention to this will oblige,

Yours, &c.

LIVER COMPLAINT.

No. 25 Broome street, N. Y., May 27, 1838.

I hereby certify, that my liver was in a very diseased state, and had long baffled the skill of a highly popular physician; but that it has been rendered perfectly healthy by the use of Peters' Vegetable Pills. They were first recommended to me by Dr. Nelson.

THOMAS ANSON.

I have much pleasure in witnessing to the truth of the above, as I know from experience that Dr. Peters' Pills are an invaluable medicine.
