STEAMBOAT ACCIDENTS

BURNING OF THE LAMARTINE.—Capt. Shannon, and the officers and crew of Chief Bullard steamer, Alphonse de Lamartine, reached this city yesterday morning, on the steamer Timoleon, from the Illinois river. We learn that on Friday afternoon, about three o'clock, while under way, on Grand Island chute, opposite the town of Bath, flames were discovered issuing from the ladies' bath house, on the starboard guard. So rapid was the spread of the fire, that notwithstanding the utmost exertions of those on board, the whole upper works of the boat were soon enveloped in flame.

The chances for saving the boat being very doubtful Capt Shannon, to insure the lives of his passengers, had the boat run out into the main channel of the river upon a high spot of ground, where a wharf was erected and the crew and passengers, after wading a short distance, reached dry land.

This island, for some in extreme miles around, was the only point that was not under water Soon after reaching this point the forward part of the boat burnt to the water's edge, her stern sinking down in deep water. Not more than twenty minutes elapsed from the time the fire was first discovered, until the whole upper works were entirely destroyed, one in the hurry to get ashore, the engines and doctor were left at work and continued until the under works were burnt away. The only passengers on board were two ladies, who with the officers and crew, were unable to save any of their effects.

The Lamartine was a new and finely built boat, and owned by her commander, Capt. Shannon. She was worth probably about $35,000, and insured for $20,000 There is no hope of saving any portion of the wreck. —(St. Louis Rep.

ACCIDENT TO THE STEAMER BUENA VISTA.—This boat which reached port this morning, came very near being destroyed by fire on her trip up from New Orleans. From her officers we learn that while passing Kaskaskia landing yesterday morning, she was discovered to be on fire. The boat was immediately run over to the Illinois shore, and every exertion made by those on board to extinguish the flames, which, after the lapse of an hour and a half, proved successful. The fire originated in the hold immediately under the boilers, but from what cause as not known. She had on board a heavy cargo of assorted merchandise for merchants in this city, a portion of which was in part or wholly destroyed, but the exact loss cannot be ascertained—The boat was but slightly damaged. A protest was entered before John L. Eckles, Esq., of Kaskaskia landing.—(St. Louis Rep.

SUNK.—The steamboat Fulton was sunk about two weeks ago in Red river. The greater portion of her cargo was saved, but the boat, it was thought, would be a total loss.—[Lou. Jour

Roofing.—Galvanized Tin Plates.

THE undersigned beg to call the attention of Builders, Architects and owners of Buildings, to the many advantages which they offer over all other roofing, viz: they are cheaper, more durable, easier for roofing, &c., as the plates are made the exact size of iron, without its liability to rust, having been tested in several years in Europe, and in this country and in Rhode Island, and have proved to be equal to expansion and contraction from cold and heat, and the changes of the atmosphere, than common tin; moreover, they are lighter, more durable, easier for roofing and consequently form a much better and tighter roof; they require but little or no repairs, whilst the roofs of tin require a tight more.

A full supply of all sizes, from 16 to 30 W. G. constantly on hand and for sale by

SELLERS' IMPERIAL COUGH SYRUP.

South Pittsburgh, Feb. 3, 1849

My wife has been troubled with a violent cough for six or seven years, so bad was her cough that physicians (in Ohio, where I formerly lived) told me she had the Consumption After we removed to this city I obtained for her, time and again, different medicines, but they were of no kind or benefit to her. Some two months since, I purchased a bottle of your Cough Syrup, the use of which has done her more good than any medicine she has ever taken. The one she used Sellers' Vermifuge in my family with fine success

BERNARD M'GRATTY

This popular cough remedy is prepared and sold by R E SELLERS, 57 Wood st, and may be had of Druggists generally, in the two cities and vicinity mh31

Extension of the Baltimore and Ohio Railroad.

TO CONTRACTORS FOR GRADUATION AND MASONRY

PROPOSALS are invited for the Graduation and Masonry of the following described sections of this road—the sections averaging a mile in length—commencing in the town of Cumberland: Sections 1, 2, 6, 7, 8 and 10, will be let, embracing considerable rock work along the Potomac river bluffs, and the masonry of several bridges on Section 1. Also, all the sections from 20 to 45, inclusive (excepting sections 43 and 44,) beginning 2½ miles from Cumberland, about a mile below the mouth of Savage river, and terminating at the summit of the mountain. The work upon these sections is heavy, containing much rock excavations and two tunnels, each about 600 feet in length, and a stone bridge of considerable size. The whole number of sections now to be let is 28. In the course of the spring and summer upwards of 30 more heavy sections will be put under contract between Cumberland and Three Forks creek. The remaining sections between those points, and other work beyond the last, will be let in the spring of 1850

SPECIFICATIONS of the work on the 20 sections to be let, will be ready by the 25th of March current. They will be distributed from the company's offices in Baltimore, Frederick, Harpers Ferry, Cumberland and Washington. The Proposals will be directed to the undersigned, at No. 22 HANOVER ST. Baltimore, and will be received until SATURDAY, the 28th of April, inclusive Before making bids, the line should be thoroughly examined, and the resident Engineers will be in attendance thereto, to give information. The most satisfactory testimonials will be demanded The payments will be made in cash, reserving the usual 20 per cent until the completion of the contract The most energetic prosecution of the work will be required.
