AGRICULTURAL.

HOW TO RAISE GOOD APPLES.

No branch of rural industry is more neglected than the cultivation of good fruit, and none will pay the farmer a higher profit for the labor bestowed. We shall rejoice if the following remarks from Mr. R. L. Pell, of Ulster county, N. Y., who recently received a gold medal from the American Institute, for the best Fruit Farm, shall aid any of our country friends to improve their orchards:

To the Committee on Fruit Farms:

Gentlemen—Being desirous to compete for the premium to be awarded by the American Institute at its sixteenth Annual Fair, for the best Fruit Farm in the State, I now abide its rules, and offer, at the request of Mr. T. D. W., its worthy and very useful Secretary, my mode of managing.

For some years I have been experimenting upon the apple tree, having an orchard of 20,000 Newton pippin apple trees; I have found it very unprofitable to wait for what is called the bearing year, and consequently it has been my study to assist nature, so as to enable the trees to bear every year. I have noticed that it bears more profusely than any other tree, and consequently requires the intermediate year to recover itself, by extracting from the atmosphere and earth the requisites to enable it to produce. If unassisted by art, the intervening year must necessarily be lost. If, however, it is supplied with the proper sustenance, it will bear every year.

Three years ago, in April, I scraped all the rough bark off a few of the apple trees in my orchard, and washed the trunk and limbs with reach with soft soap, trimmed out all the branches that crossed each other early in June, painted the wounded part with white lead, to keep out the moisture, then split open the bark by running a sharp pointed knife from the ground to the first set of limbs, in the latter part of the same month, which prevents the tree from becoming bark bound, and gives the inner wood an opportunity of expanding. In July, I placed one peck of oyster shell lime around each tree, and left it piled about the trunk until November, when I dug the lime in thoroughly. The following year I collected from those trees 1,700 barrels of fruit, some of which was sold in New York for $4, and the balance in London, at $9 per barrel. Strange as it may appear, they are literally bending to the ground with the finest fruit I ever saw, a specimen of which is before you. The other trees in my orchard, not treated as above, are barren, next year being their bearing year.

ROBT. L. PELL.

FATTING ANIMALS.—As cold weather is rapidly coming on, now is the time for the farmer to push forward the fatting of his animals as rapidly as possible. His beef and mutton ought to be in the market by the end of the month; and the pork as soon as the weather is cold enough to cool the hogs off well, and the cutting and salting can be prosecuted without endangering the tainting of the meat. Our Farmers little know how much they lose by not fatting their animals early in the fall. First, they fat from twenty-five to fifty, and some assert even one hundred per cent. faster in mild weather than they do in severe cold, on the same amount of food. What a great saving this would be. Second by feeding out roots and grain as fast as they are ripe and gathered, it saves the trouble and risk of storing. Third, the animals are more comfortable, and it is less labor to prepare their food for them, during November and later. Lastly, the meat which first comes to market usually brings the highest price; and at any rate, if sold three months in advance of his neighbors, one at least saves that amount of interest on the money he gets for his produce, besides considerable risk in keeping the animals themselves.—*Am. Agriculturist.*

MENDING A TREE.—We saw at Isaac Frost's, Newton, a tolerably large apple tree that had the bark eaten all around by the mice, some years ago, of course would have died without some extra pains to save it. Mr. Frost set about a dozen scions in the tree, one end the green bark and wood below, and the other above the wound.—They all took at both ends and grew well, except one which took only at the bottom and is formingg a little tree by itself. The scions are now about two inches in diameter, and are touching each other. The tree is in a fine flourishing condition.—This method of mending a tree is attended with some trouble, but by this simple means, which can be done in a few hours, a valuable tree may be saved, as has occasionally been the case.—*Maine Farmer.*

☞ VENTILATION and cleanliness are very important helps to economy in the feeding of all animals. Shelter and warmth will do harm if free and pure air is not admitted to the fattening stock. The same is true of cleanliness, so favorable to the health of animals. The cleaner their houses and skins are kept, the more they thrive under any given form of treatment in other respects.

☞ AGRICULTURE is the first of raising crops; HUSBANDRY, the art of preserving and expending them.

THE FARMER.—It does one's heart good to see a merry round faced farmer—so independent and yet so free from vanity and pride. So rich and yet so industrious—so patient and persevering in his calling, and yet so kind, so social and obliging. There are a thousand noble traits about his character. He is generally hospitable—eat and drink with him, and he won't set a mark on you and sweat it out of you with double compound interest, as some I know will—you are welcome. He will do you kindness without expecting a return by way of compensation—it is not so with every body. He is generally more honest and sincere—less disposed to deal in low and underhand cunning, than many we could name. He gives society its best support—he is the pillar that supports the edifice of Government—he is the lord of nature. Look at him in his homespun and stay bucks—gentlemen! laugh at him, if you will—but believe me, he can laugh back if he pleases!

The boiling or steaming of dry food, and even of potatoes and turnips, is recommended by many as an economical practice. Professor Johnston believes the general result of the numerous experiments which have been made upon this subject in various parts of England, is in favor of this opinion so far as regards fattening and growing stock. It seems a more doubtful practice in the case of horses which are intended for heavy and especially for fast work—though Stevens, in his *Book of the Farm*, says that even for these animals, the use of steamed food is coming into use with extensive coach contractors.

ROBERT B. WALKER.

No 25 North Second St, opposite Christ Church Philadelphia,

has just received and is now opening a very extensive and beautiful assortment of **CARPETINGS.** The goods are fresh and of new styles, and being purchased principally for CASH, they will be sold at the lowest prices they consist in part of,

PROTECTION AGAINST LOSS BY FIRE!

THE CUMBERLAND VALLEY MUTUAL PROTECTION COMPANY, being incorporated by an act of the Legislature of the present session, and fully organized and in operation under the direction of the following board of Managers, viz: Thomas C. Miller, John Moore, David W. McCullough, James Weakly, William Moore, Samuel Galbraith, Thomas Paxton, A. G. Miller, Philip Spangler, Samuel Woods, Abraham Kurtz, George Brindle, Scott Doyle, call the attention of the inhabitants of Cumberland Valley to the cheapness of their rates and the many advantages which this kind of insurance has over any other.

1st. Every person insured becomes a member of the company and takes part in the choice of officers and the direction of its concerns.

2d. For insurance no more is demanded than is necessary to meet the expenses of the Company and indemnity against losses which may happen.

3d. The inconvenience of frequent renewals is avoided by insuring for a term of five years. Policies can be taken for any period from one to five years.

4th. Any person applying for insurance must have his premium note for the cheapest class at the rate of five per centum, which will be $50 on $1000 for which he will have to pay $2,50 for five years and $1,50 for survey and policy, and no more shall be assessed upon him, unless sustained to a greater amount than the funds on hands will cover, and then no more will be required than is his pro rata share. These rates are much cheaper than those of other companies, except such as are incorporated on the same principles.

THOS. G. MILLER, Pres't.

A. G. MILLER, Sec'y.

Pulmonary Consumption!

Illicted do not Despair

THOMPSON'S Compound Syrup of Tar, the the most certain and powerful remedy known for the cure of Consumption in all its stages, Bronchitis Chronic Cough Spitting of Blood Palpitation of the Heart Liver Complaint and Chronic Affections of the Kidneys.

READ! READ!!

Still further proofs—its own Works Proclaim it

Read the following!!

Philadelphia, Jan 3, 1843

MR S P THOMPSON—Dear Sir From a sense of gratitude to you and a desire that the afflicted may have recourse to your truly invaluable medicine, I would state the benefit I have experienced from its use. For some time past I have been afflicted with a distressing cracking cough accompanied with great expectoration and difficulty of breathing with a sensation of tightness at the chest. Becoming greatly alarmed a friend who had been much benefitted by your medicine recommended my trying it. I done so and in a very short time every alarming symptom disappeared, my expectoration became free, all oppression left me my cough ceased and in a few days I was able to go out and attend to business as well as ever. Any further information will be cheerfully given the afflicted by calling at my residence No 4 South Front st.

JOS. McMANAMY.

Price 50 cents per bottle.

For sale in Carlisle by

T. C. STEVENSON, Sole Agent.

FACTS WORTH KNOWING

Dr. Leidy's

Sarsaparilla Blood Pills,

Are the only Pills in existence containing Sarsaparilla.

Their composition is of a peculiar character, composed of Vegetable Extracts that are diuretic, sudorific, expectorant and cathartic, by which combination they are adapted to most forms of disease and may be taken at all times, by young and old, robust and feeble, with perfect safety, without interfering with habits, occupation, or regular course of living.

They will, at all times, be found serviceable as a Purgative; cleansing the stomach and Bowels, as well as a purifier of the blood and animal fluids, in addition to their other qualities; because, containing Sarsaparilla and other valuable medical extracts in their composition, and which makes them preferable to all other Pills.

More than 1,000 Certificates

have been published at various times of their efficacy in various diseases, and where all other medicines had failed; as the public must have read many of them, further publication of them is deemed unnecessary, on account of the great expense.

More than 100,000 Boxes

have been sold in Philadelphia alone, the past year; thus showing that in the place where they are manufactured, they have a reputation, greater than any other pills—which arises from the fact that Dr. Leidy is well known at home as a regular Physician, and his pills are consequently employed with greater confidence than any other; in addition to their known efficacy.

Let it be remembered

'tis not the quantity' of pills or other medicine you can get for the same money, is the best or cheapest—but the quality.' Of cheap medicines or pills, you, of course, get the most; and you are induced to take the more, under the impression if a little does good, more will do more good, and you make drug shops of your stomachs, causing oftentimes serious injury to yourselves for life.

Dr. Leidy's Blood Pills are composed of more expensive ingredients, and require more nicety and labor in their preparation than any other pills—the apparatus alone for preparing the extracts contained in his pills, costing over three thousand dollars.

Price 25 cents a box.

They are prepared only, and sold wholesale and Retail, at Dr. Leidy's Health Emporium, No 191 North Second street below Vine st. Also by

T. C. STEVENSON,

Sole Agent for Carlisle.

June 26, 1844. 1y.

To the Public.

THOMPSON'S COMPOUND SYRUP OF TAR AND WOOD NAPTHA.

For the Prevention and Cure of

Pulmonary Consumption.

OF all diseases incident to our climate there is none so universal and at the same time so insidious and fatal as Consumption. In this country especially Pulmonary Consumption is emphatically a scourge, and in its resistless career sweeps o'er the land as a destroying Angel, laying low with relentless hand the strongest and fairest of our race! Hitherto all efforts to arrest this dread disease have proved in vain and all that is sought within our power was at best the alleviation of suffering, rendering somewhat smoother the certain progress to the tomb!

The Compound Syrup of Tar is a combination heretofore unknown, exerting a power over the disease scarcely conceivable, having a specific action on the mucous tissue and at the same time bringing the whole system under its powerful influence it completely eradicates the cause of disease be it hereditary or otherwise; and thus by striking at the root of the complaint imparts tone to debilitated organs, affords renewed vigor to the general system and thus restores the patient to permanent health.

This invaluable medicine is put up in bottles, having the following words blown in the glass—"Thompson's Compound Syrup of Tar for Consumption" without which none is genuine.

Price 50 cents per bottle. Six bottles for $2,50.

For sale in Carlisle by

T. C. STEVENSON, Sole Agent.

May 29, 1844.

CARRETT'S COMPOUND DEPURATIVE SYRUP.

For the cure of Obstinate Eruptions of the Skin; Pimples or Pustules on the Face; Biles which arise from an impure habit of body; Scaly Eruptions; Pains in the Bones; Chronic Rheumatism; Tetter; Scrofula or King's Evil; White Swellings; Syphilitic Symptoms; and all disorders arising from an impure state of the blood, either by a long residence in a hot and unhealthy climate, the injudicious use of Mercury, &c.

This Medicine has frequently been found highly beneficial in Chronic Coughs, or Colds of long standing.

This Medicine has been extensively used in the United States with decided benefit in Scrofula, Mercurial diseases, and in all cases of an ulcerated character. As an alterative in the spring and fall seasons, it is unequalled. It possesses many advantages over the decoction, and is introduced as a preparation more portable, not liable to injury by long keeping, and better adapted to the use of persons travelling or residing abroad.

The proprietor begs leave to call attention to the following certificates, selected from a large number approving its efficacy:

READING, March 3, 1839.

This certifies that my wife Mrs. Deem, had for nearly eleven years suffered from a scrofulous eruption resembling tetter which ate deep holes in her face, neck and arms, the constant discharge of which destroyed her health, and frequently confined her for different periods to her bed; during which time her sufferings were very great. The best medical attendance was obtained, and all the known remedies were tried with but an alleviation of her complaint, which always returned with increased malignity.—Having lost all hopes of recovery, she had almost determined to give up the use of any other medicines she was however, by persuasion, induced to try *Oakeley's Depurative of Sarsaparilla*, the use of five bottles of which has removed the disease, and restored her to perfect health.

THOMAS DEEM,

opposite the depot, Reading, Pa.

This is to certify that my little son, about eight years old, has suffered for a long time from extensive sores on the right knee and leg, supposed to have been white swelling, which I found impossible to heal, even by the aid of the most respectable medical advice, until I was recommended to use Mr. Oakeley's Compound Syrup of Sarsaparilla, 8 bottles of which not only healed the sores, but perfectly restored the child's health, which had suffered much in consequence of this affection.

CATHARINE BINGEMAN,

7th above Penn street, Reading.

The above case was presented to me both before and after the use of Mr. Oakeley's Syrup of Sarsaparilla, and I have no hesitation in believing that it was the agent of his restoration.

JOHN P. HESTER, M. D.

DOUGLASSVILLE, April 19, 1843.

Mr. Oakeley:—My son Edmund Leaf, had the scrofula in the most painful and distressing manner for three years, during which time he was deprived of the use of his limbs, his head and neck were covered with ulcers. We tried all the different medicines, but to no effect until recommended by Dr. Johnson, of Norristown, and also Dr. Isaac Hester, of Reading, to use your Depurative Syrup of Sarsaparilla, of which I obtained several bottles, the use of which drove the ulcers out of his system, the sores healed up, and the child was restored to perfect health, which he has enjoyed unintermptedly ever since, to the astonishment of many persons who seen him during his affliction. I have thought it my duty, and send you this certificate, that others who have a like affection in the family may know where to obtain so valuable a medicine. Yours, truly, A. D. LEAF.

Sold by T. C. STEVENSON, Carlisle and the following Agents in Cumberland County

TO PHYSICIANS

THE subscriber having purchased the exclusive right to make, use and vend in Cumberland County, Dr. R. THOMPSON'S PATENT UTERINE TRUSS AND PELVIS CORSET for the cure of Prolapsus Uteri or falling of the womb and other diseases, now offers them to the public with the sweetest confidence and requests Physicians to call and examine them. These instruments are constructed on scientific principles, and to any one acquainted with the Anatomy of the Female System, and with the disease which it is designed to be cured, the utility of these instruments will be apparent. The Uterine Truss has the unqualified approbation of the Medical Faculty, in almost all parts of the country where it has been introduced. A number of certificates to this effect are in the hands of the subscriber, which will be exhibited. The *lowest cash price* at which these instruments are sold is $20, from which there will be no deviation.

STUMBAUGH & HOOVER.

Carlisle, Pa. Pittsburg and Philadelphia, for sale in Carlisle by S. ELLIOTT.

March 19, 1844.

VALUABLE IORN WORKS FOR SALE.

BY virtue of the powers and authority contained in the last will and testament of MICHAEL EGE, dec'd., I now offer for sale, the

Carlisle Iron Works,

Situated on the Yellow Breeches Creek, 4½ miles east of Carlisle Pa. The estate consists of a first rate

FORGE & FURNACE,

with Ten Thousand Acres of Land.

A new MERCHANT MILL with four run of stone, fine ha laid are cleared and highly cultivated, having thereon erected

Three Large Bank Barns

and necessary **TENANT HOUSES.** The works are propelled by the Yellow Breeches Creek and the Boiling Spring, which neither freeze nor fail. There are upon the premises all the necessary workmens houses, coal houses, carpenter and smith shops, and stabling built of the most substantial materials. The ore of the best quality and inexhaustible, is within 2 miles of the Furnace. There is perhaps no Iron Works in Pennsylvania which possesses superior advantages and offers greater inducements to the investment of Capital. The water power is so great that it might be extended to any other manufacturing purpose. Persons disposed to purchase will of course examine the property. The terms of sale will be made known by

MARY EGE,

Executrix of Michael Ege, dec'd.

Carlisle, Oct. 19, 1843. tf-51

CHILDREN CRY FOR SHERMAN'S LOZENGES, and grown people say they are the pleasantest and most effective medicine in use. Enormous quantities are sold, and every body likes them. Freeman Hunt, Esq., editor of the Merchants Magazine, says they cured his cough in a few hours.—The Rev. Mr. Dunbar, of the McDougal street church, was cured of consumption by them.

SHERMAN'S WORM LOZENGES have saved the lives of thousands. Ask W. E. Evans, Esq., 6 Walker st., the Hon. Edward J. Porter, Hon. R. B. Beardsley, Dr. A. Hunter, and nearly all our physicians, what they think of Sherman's Lozenges, and they will tell you they are excellent—the only infallible medicine known.

SHERMAN'S CAMPHOR LOZENGES are real audidotes to headache, palpitation, sea sickness, lowness of spirits and despondency—or the effects of dissipation. Capt. Cladwick, of the Wellington, Mr. Ackerman, the great sign painter, Mayor Clark, and almost every body knows their value.

POOR MAN'S PLASTER—Sherman's we mean—costs 12½ cents, and is sure to cure rheumatism, lumbago, pain or weakness in the breast, side, or back; also piles—and they cure worms when applied to the part. Ask Joe Hoxie, or any one who has used it, and would give $5 for one sooner than five cents for all other plasters.

Sold in Carlisle at HUNTER & KNEEDLER'S Book Store, East High street, who are sole Agents for Carlisle.

And Angle & Greason, Shippensburg.

THE TRUE POMADE DIVINE.

THIS long established and invaluable Emollient, Cures and prevents all *Chapping or roughness of the hands and lips*, from the piercing effects of cold weather. It also cures Frosted Feet and Corns, Swellings; Bruises, Burns, Scalds; Stiff Neck and Swelling of the Glands. It will greatly relieve the pain of Rheumatism and Gout on a first application, and if perseverd in will perform a Cure. It also removes Pimples and other Eruptions, is exceedingly useful for Sore Breasts, and the Chafing of Infants &c. It is useful for Cancers before they are broken, and a remedy for the Piles. It will cure Sore Throats, and all inflammation or inconvenience to which the Skin is liable. So invaluable is this compound that those who have once proved its benefit, will never be without it in their families. It will retain its virtues many years, and in all climates and is therefore very useful to those who go to sea, and to all travellers.

Prepared and sold wholesale and retail by

R. FENNER,

No. 1, South Second street, only one door from Market street, Philadelphia.

☞ None genuine without his signature on the label.

Sold by Chemists, Druggists, Perfumers, &c.

March 27, 1844. 6m-32

N. B. A very liberal allowance to Dealers.

Worms! Worms!

IF parents knew the value and efficacy of Dr. Leidy's Patent Vegetable Worm Tea, they never would be without it in their families, as children are subject at all times to Worms.

Dr. Leidy's Worm Tea is composed of vegetables altogether, and may be given to children of all ages. Directions accompany each paper or package.

Children suffer much, of times, from so many things being given them for worms, without any effect. Much medicine, given to children, has a tendency to destroy their general health, and they are more or less delicate ever after.
