BY MAGNETIC TELEGRAPH.

REPORTED & TELEGRAPHED For the Pittsburgh Daily Gazette.

St. Louis, May 29.

Senator Benton made a speech at Jefferson City a few days since. The first part only has yet been published. Several columns are devoted to an exposition of the collisions and inconsistencies on the subject of slavery.

He is very explicit on the subject. He says it is absurd to deny to Congress to legislate as it pleases upon the subject of slavery in the territories. It has ever used the power, and with the sanction of all authorities, State and Federal, from the foundation of the government to the present time.

Congress has power to prohibit or admit slavery, and the power is lodged no where else. It is not in the territories, for the Governments and Delegates are the creatures of Congress. No citizen of the State can carry any property derived from a law of that State, an inch beyond its boundary line. Slave property, for this reason, cannot be removed to California or New Mexico; nor can any legal establishment of slavery be looked for in either territory.

The only effect of carrying slaves there would be to set them free. The people of both territories are unanimous against it. The Missouri resolutions were copied from those of Calhoun, offered in the Senate in 1847, and to know their design we must know his. His was aimed at the dissolution of the Union, and the members from slave holding States, who would not follow his lead, Mr. Benton especially.

These are the views as far as published.

Three Hundred Thousand Dollars in Gold.

CITY OF MEXICO, April 15, 1849.

Here we are safe and sound, after a travel of fifteen days from Vera Cruz, the road being very bad and our wagons very heavy. After arriving here, finding that we could sell our wagons for a good price, and buy horses we have done so, and have shifted the most of our baggage to Acapulco, to go from thence up the coast to San Francisco. We expect now to along faster and more comfortably, and of course cheaper. We have had no trouble of any kind in coming, except that a party of robbers blocked up the road on the left side of Rio Frio mountain one day, and waited for us, but when they saw what a savage looking party we were they started off and we saw no more of them.

I have had a great deal of difficulty in passing sovereigns, as they will not take them at all here, and there are no brokers to exchange them; so I have had to borrow of some friends, and when we get to Mazatlan or San Francisco, they will go for five dollars each.

There are three men here on their way home from California with three hundred thousand dollars worth of gold with them, which they have made in one year, and which they showed us.—The news they bring is better than ever, and our spirits are first rate, and our courage equal to any thing may come. Two or three of our party have had the fever and ague, and I have been doctoring them with the Tonic mixture, which cures them right off. There is money enough to be made here if a man has sufficient capital. I shall write from Mazatlan, if possible, and the moment we reach San Francisco. Mr. Ketchum is well, &c.

Yours, F. C. WHITEHEAD.

FROM HAVANA.—The steamship Isthmus arrived at New Orleans on the 16th inst., from Havana. Her dates, however, are no later than those received by the Falcon, at New York.

The yellow fever had made its appearance at Havana in a bad form. A young lady from the United States, a governess in a family, had been severely attacked.

Madam Bishop and Bochica was giving concerts at Havana.

News from Lima to the 20th March had been receivdd at Havana.

From Bolivia we learn that preliminary steps to a new revolution in favor of ex-President Ballivian, now a refugee in Chili, had been taken, in consequence of the "pronunciamento" which raised Gen. Beizu to the provincial Presidentship of the Republic. Some troops had revolted with this object, in Orwin, whither Gen. Beizu had repaired from La Paez, to endeavor to re-establish order.

PITTSBURGH BOARD OF TRADE COMMITTEE FOR MAY.

T. S. CLARKE. R. E. SELLERS. J. DALZELL.

REVIEW OF THE

PITTSBURGH MARKET,

FOR THE WEEK ENDING MAY 29, 1849.

REMARKS.—In reviewing the week just closed, we can elle nothing new or interesting. On the whole, the general dullness has, if any thing, rather exceeded that of the preceding week, and sales have exhibited little if any important change in quotations.

The weather, for the most part, has been cold and disagreeable for the season, but for the past few days, we have had copious showers of rain, which will tell favorably to the growing crops of the farmer, and to the coming supplies of our vegetable markets.

The river has been nearly at a stand, with plenty of water for the middle and smaller class boats, but from the recent plenteous rains, we again have a slight swell in the waters, and should the rise be sufficient, in connection with the fact that there is less alarm in regard to sickness at the different points on the river below, it may tend very materially to enliven the river business and, as a natural consequence, lend a new impetus to trade in our market.

The receipts of the week, by river, have been rather slim, but making allowance for the many obstacles in the way of our trade with the West and South, the result is by no means discouraging.

The following table presents the larger portion of the imports by river, for the week ending yesterday

ASHES.—During the past week, the receipts of the various kinds of Ashes have been extremely light, and few if any operations to any considerable amount have transpired. With limited sales, we may continue quotations of last week as follows: Pearls $4@$4, Saleratus $4; Pots 4½@4¼; Scorchings 3½@3¼, and Soda Ash at 3½@3c ⅌ lb. Soda Ash has so far lessened the demand for Scorchings and Pots, that very little of those kinds is now brought to this market. A manufactory for the production of Soda Ash is now in progress of erection near this city, which may tend to lower the price of the foreign article.

ALE—We have no alltrations to make in former figures. There is a fair steady demand in the market for home brewed, at $6.50@$8.50—as in quality

ALUM—Sales are regularly effected at 3½@3c per pound.

APPLES—The receipts of the week, of Green Apples, have been less abundant, and supplies are just decreasing. Regular sales from store have been effected at prices ranging from 75c to $1,25, according to quality.

BACON—The demand in the market has increased, and our quotations to day, show a partial advance from those of our last weekly exhibit. The receipts, as shown in our table, have been to a fair extent, but as considerable quantities were designed for immediate shipment East, the supplies left in our market are barely sufficient to the demand, and prices are gradually improving. We note sales amounting to about 30,000 lbs city at Western cured at, for Sides 5½@5¾, Shoulders 4½@4¾, and Hams at 6½@6¾c, the latter figures being the present prevailing rates, with an improving tendency. Sales of Sugar cured canvassed Hams at 8½@9c, in small lots by the tierce. There is a good demand for country cured bulk, at, for Shoulders 4½ Sides 5, and Hams at 6½@6¾c ⅌ lb. with limited supplies.

BUTTER—The market maintains its usual dullness, with however, no material change in prices. We continue to quote sales of roll in bbls, at prices ranging from 9 to 11c, according to quality. Moderate sales of keg Butter at 8@9c.

BROOMS—The receipts have been limited, and supplies are barely sufficient to the demand. Ready sales are effected from store at prices ranging from $1,25 to $2,50 ⅌ doz, for common to best.

BEESWAX—We notice a moderate demand in the market, with small sales only at 19@19c ⅌ lb.

BLOOMS—Several considerable lots of Tennessee blooms have arrived, but so far as we could learn, no sales to any large amount have transpired. For common to best, $65 to $70 ⅌ ton are the fair quotations of the market.

BEANS—We quote regular limited sales from store of best White at 70c, of Common or mixed at 62½@65c ⅌ bu. The receipts of the week amount to 50 bbls

BRAN AND SHORTS—Receipts have been light, and supplies are not more than equal to the demand.—We note sales from store, of Bran at 92½c, of Shorts at 12½@c ⅌ bu—as in quality.

BUCKETS AND TUBS—We notice fair supplies in store, with regular sales to the trade, of Buckets at $2-25, and of Tubs at $2.50@$2 ⅌ doz, for large size

DRIED BEEF—The market is only moderately supplied, and sales limited at 8@9c, for city and Western cured.

FLOUR—The market has been unusually dull, and prices have partially declined. The receipts of the week have amounted to 3222 bbls, but as large quantities have been shipped East, the supplies here have not accumulated. No sales to any very large amount have been transacted during the week, and sales have been mostly confined, to limited lots at $3,55@3,60 from first hands, and $3,75@$3,80 from store. Some lots of extra family brands have been disposed of from first hands at $3,75 ⅌ bbl, but the same description yesterday, would have fallen short of that figure. The latest intelligence from the East informs us that the steamer's news has had a depressing effect upon the market, which may have the effect of checking the activity of the article with us.

FISH—Of almost every kind of Fish, we notice fair supplies in the market, and prices continue very firm In the way of general sales, we give the following list of prices: Salmon $18,50; Shad $8,50@$9; Mackerel, No 1 $12, No 2 $8,25, and No 3 at $6,00 ⅌ bbl. Sales of Herring at $4 ⅌ bbl.

LOCAL MATTERS.

REPORTED FOR THE PITTSBURGH DAILY GAZETTE.

A boy was found drowned at Sewickley, on Saturday evening. He was about fourteen years old, with sandy hair, and was dressed in a dark round-about, with blue pantaloons, a white shirt, with a linen bosom, and blue mixed cotton socks. A Coroner's inquest was held upon him, and a verdict in accordance with the facts rendered.

FIRE.—The country house of the late Richard Biddle, situated a short distance above Lawrenceville, was struck by lightning, yesterday and was totally consumed.

LIGHTNING.—We learn that a great deal of damage has been done in the country around Pittsburgh, by the lightning. Several houses have been struck.

UNFORTUNATE OCCURRENCE.—We understand that two brothers named Willard, pilots on the river, yesterday, made an attack on George Bell, also a pilot, and struck him over the head, inflicting a very serious and dangerous wound. Neither of them, we believe, has been yet arrested.

PARADE.—The Duquesne Greys, under the command of Captain Herron, paraded yesterday after noon, preceded by a very fine brass band. Their soldierlike bearing was the theme of universal praise

HYPERION COLOGNE—HYPERION FLUID—An article indispensable for the toilet. Its virtues are truly astonishing; it cools, refreshes, and invigorates the skin, expelling all those annoying and disfiguring marks of childhood. Their introduction is a phenomenon of great importance in this country, and after years of trial and experience in Europe, and having its success so universal, it has been induced at last to offer it to the public as a cheap but elegant and excellent medicine Call and purchase at the Drug store of J. KIDD & CO.

JOHN RYLE'S SPOOL SILK.

EXPRESSLY FOR SEWING—The attention of Shoe makers is invited to a new article of SEWING SILK put up on spools, manufactured by John Ryle, of Patterson, New Jersey, which from the many advantages it possesses over the ordinary skein, must before long entirely supersede the use of it.

This silk is neatly put in boxes of one dozen spools—fifty of which boxes, or 50 doz spools, are contained in one case, ready assorted for retailing. Among the many advantages which this new mode of putting up Thread presents, may be classed the following

1st. The consumer wastes no time in winding or reeling the silk, and suffers no loss in the tangling so common to this operation, while the vexatious trouble of disengaging the skein is entirely avoided.

2d. The country storekeeper will have at the end of the year his unsold stock in good condition, whereas in retailing by the skein, he finds at the end of the season, a large quantity so intermingled as to be utterly worthless.

3rd The Salesman instead of losing time, as is always the case, in selecting a certain color from a parcel of a hundred or more skeins, will require but a moment to find the spool of the shade or color he is in quest of.

The quality of this silk is equal to the best Italian in the market. The quantity on a spool is warranted 20 yards, which is the average length of the ordinary skein, that commands the same price, the colors are well assorted, and cannot fail to suit all purchasers, being of the greatest variety

For sale only by the case, of 50 doz spools, by

WM. H. HORSTMANN & SONS, Sole Agents. No. 51 North Third St. Phila.
