It is quite time the fraudulent practice of asking a high price, and abating to make the purchaser believe they are the "favoured few," was done away with; as, nine times out of ten, they are made to pay a higher price (however great the reduction,) than the like style and quality can be purchased at the "One Price Store."

A. B. M. is in regular receipt of the newest and cheapest seasonable goods, and when any article depreciates in value the price is at once marked down so low that it cannot be undersold. By this system the purchaser can at all times buy with confidence and satisfaction, and without waste of time in useless bargaining. He has at this time a complete assortment of
